RENO FIRM LOW ON FOUR-MILE ROAD PROJECT

**Nevada Rock & Sand Co. Bids
Lyon Co. Job; Utah Low
On Lovelock Contract**

CARSON CITY, Nev., Dec. 29.—Nevada Rock & Sand Co., Inc., Reno, today submitted a low bid of \$59,967 to the Nevada State Highway Directors here for constructing about four and one-tenth miles of highway in Lyon county.

The project is located between Weeks and eight and one-half miles north of Wabuska, Route 2-B, Section B.

Second and third low bids, respectively, for the Lyon county project were submitted by Silver State Construction Co., Inc., Fallon, at \$65,015, and Dodge Const. Inc., Fallon, at \$67,422.

Pershing Project

For construction of about two miles of highway in Pershing county, Utah Construction Company of Ogden and San Francisco submitted the lowest proposal, with a figure of \$16,808.

Second and third low bidders on the Pershing county project were Silver State Construction Co., Inc., Fallon, at \$16,981; and Construction Finance Co., Reno, at \$18,323.

The work extends from the north city limits of Lovelock, Pershing county, to a point approximately two miles north.

Neither of the contracts for which bids were opened were awarded at today's meeting, State Highway Engineer Robt. A. Allen said. Announcement of the awards is expected to be made shortly.

STATE DRAFTSMAN EXAMINATION SET

An examination to supplement the existing eligible list for the position of Title Draftsman De-lin-eator has been scheduled by the State Personnel Board, it was announced this week by Executive Officer Louis J. Kroeger. Examinations will be held in San Francisco, San Diego, Sacramento and Los Angeles January 29. All applications must be filed by Jan. 22.

BIDS JAN. 12 ON FOUNDATIONS AT JUNIOR COLLEGE

"The San Francisco Department of Public Works will open bids January 12 for excavation and foundations for the Science Building of San Francisco Junior College, Ocean and Phelan avenues."

With this announcement, released yesterday by Works Director Wm. H. Worden, San Francisco's junior college construction program began to roll.

Excavation and foundations for the proposed science building will cost approximately \$30,000, according to City Architect Charles H. Sawyer. Actual work will start five days after the contract is awarded and continue for a maximum of 120 days.

Preparing Plans

Plans and specifications for the project are being prepared by the architectural firm of Miller and Pfueger and John Baur.

Plans for the superstructure will be completed about the first of March, Mr. Sawyer said. As soon as they are finished they will be forwarded to the State Division of Architecture for approval.

Reinforced Concrete

The Science Building, initial unit of the proposed school plant, will be a three-story reinforced concrete structure. The building will serve as temporary quarters for the entire school until further buildings are constructed.

The estimated cost of the Science Building is \$693,000. Temporary partitions will be erected so that the structure can serve as quarters for the whole school. The partitions will be removed when additional buildings are constructed.

No estimated cost of the complete junior college can be released, Mr. Sawyer said yesterday, until necessary buildings are decided upon.

The Science Building will contain 38 classrooms; 28 administrative offices; ten laboratories, and nearly a score of other rooms to be devoted to miscellaneous purposes. A cafeteria to accommodate 1500 persons will be housed in the basement.

FAIR OFFICE FINISH WORK OUT FOR BIDS

**City to Open Proposals Jan. 19
On Administration Bldg.
Interior Work**

The San Francisco Public Utilities Commission yesterday called for bids for finishing offices in the \$677,000 airport terminal building on Exposition Island.

Bids will be opened January 19. The contract is the last in the PWA-Exposition program and will be financed with funds saved from earlier projects.

Finishing the offices in the airport terminal building is estimated to cost about \$90,000, it was reported yesterday.

The work involves electrical work; plastering; glazing; plumbing; composition flooring; painting; heating and ventilating; finish hardware; tiling; masonry; and miscellaneous carpentry. No work will be done on the exterior of the building, it was said yesterday.

Airport Terminal

When the work is completed a portion of the administrative staff of the San Francisco Bay Exposition will take quarters in the building, which will serve as an administrative building for the balance of the fair. The structure is a permanent building and will be used as an airport terminal following the Exposition, according to present plans.

It is a three-story and basement structure of reinforced concrete construction with a control tower at the center. The terminal building rests on wood pile foundations and has reinforced concrete walls, floors and roof slabs. It was constructed by Clinton Construction Company at the contract price of \$677,000.

Lump sum bids will be taken on the current contract. Plans and specifications may be obtained from Room 605, 425 Mason street, on January 3. The deposit on plans is \$20.00.

Construction of Treasure Island, 400-acre site of the Golden Gate International Exposition, has changed the tides in San Francisco Bay.

Soule Steel Co.—\$223,892.30 deliv to job; disc ½ of 1% on basing point value of \$2.55 cwt; if shipped on govt bill of lading from Vernon (39 cars), Torrance (39 cars) and Emeryville (26 cars) will equalize.

Truscon Steel Co.—\$232,277.30 deliv to job; disc ½ of 1% on net amount after deducting as follows: Minerva St, \$.025; Compton, \$.03; West Glendale, \$.0375; North Hollywood, \$.10.

Blue Diamond Corp. — \$232,387.05; deliv to job; disc ½ of 1% 20 da.

Ceco Steel Prod.—\$240,179.50; f.o.b. plant; 53 cars at Huntington Park and 52 cars at Torrance; disc ½ of 1% 20 da.

BIDS OPENED

LOS ANGELES, Cal.—Listenwater & Gough, 827 E. 1st St., Los Angeles, at \$1,065 ft., total \$26,625 (bidding on cable manufactured by Triangle Conduit and Cable Co.), submitted low bid to Metropolitan Water District, Los Angeles, for 25,000 ft. 3-conductor 2/0 armored cable for 2300-volt service, Spec. 262. Other bids were: Associated Wholesale Elec. Co., Los Angeles—\$1,075 ft.; total \$26,875; disc. ½ of 1% (mfd by Crescent Ins. Wire & Cable Co.).

Circle Wire & Cable Corp., Brooklyn, N. Y.—\$1,095 ft.; total \$27,375; disc. ½ of 1%.

Eleven identical bids were submitted at \$1,276 ft.; total \$31,900; disc. ½ of 1%, by Anaconda Wire & Cable Co.; Cook-Nichols Co., Pasadena (mfd by Rockings); General Cable Corp., Los Angeles; Graham-Reynolds Elec. Co., Los Angeles, mfd by General Cable), L. A. Marsh, Long Beach (mfd by Hazard); Columbia Steel Co., Los Angeles (mfd by Am. Steel & Wire Co.); G. E. Supply Corp., Los Angeles; Electric Wholesale Mart, Los Angeles (mfd by Rockings); Habirshaw Cable & Wire Division of Phelps-Dodge Copper Prod., Los Angeles; John A. Rockings Sons of Calif., Los Angeles; General Elec. Co., Los Angeles; and Okonite Co., Hazard Insulated Wire Works Div., Passaic, N. J.

All bids \$80 for reels; weight 6.47 lbs. per ft., and 2.181 in O D except Circle Wire & Cable Corp.—weight 6.6 lbs. 20

BIDS OPENED

LOS ANGELES, Calif.—Following submitted bids to the Metropolitan Water District, under Spec. 260, for transporting cement required for use in construction of portions of San Jacinto Tunnel and appurtenant work for which concrete is supplied from the district's west portal batching plant.

Bids were taken as follows: Sched. No. 1: Transporting approx. 37,000 bbbs. from Colton and Crestmore to batching plant at West Portal up to June 30, 1938.

Sched. No. 2: Alternate to Sched. No. 1: Transporting approx. 55,000 bbbs. from San Jacinto station to the batching plant up to Dec. 31, 1938.

The bids were: White Transportation Co., 3430 E. Slauson Ave., Maywood: Sch. 1 (1) 22-5c (2) 22-5c; total \$8325. Truck and trailer. Net capacity of trucks, 15,040 lbs.; net capacity of trailers, 22,560 lbs. Sch. 2, no bid.

J. W. Johnson, 113 S Robertson Blvd., Los Angeles: Sch. 1 (1) 27¼c; (2) 27¼c; total, \$10,082.50. Transportation by rail and truck. Minimum carload, 100,000 lbs.; net capacity of trucks, 22,000 lbs.; net capacity of trailer, 40,000 lbs. Sch. 2 (3) 24.75c; total, \$8112.50; net capacity of trucks 22,000 lbs.

Triangle Rock & Gravel Co., San Bernardino: Sch. 1 (1) 27c (2) 28c; (1) \$10.175. Transportation by trucks. Minimum carload, 24,000 lbs.; net capacity of trucks, 10,000 to 24,000 lbs.; net capacity of trailer, 10,000 to 24,000 lbs. Sch. 2 (3) 16c; total, \$8,800. Net capacity trucks 10,000 to 24,000 lbs.; net capacity of trailers, 10,000 to 24,000 lbs.

Belyea Truck Co., Los Angeles: Sch. 1 (1) 33¼c; (2) 33¼c; total, \$12,395. By truck only. Net capacity of trucks, 80 bbbs; trailers, 80 bbbs. Sch. 2, no bid.

The bid of I. L. Russell was declared irregular and was not read.

BIDS WANTED

BOULDER CANYON PROJ.—Until January 3, 2 P. M., bids will be received by the Bureau of Reclamation

Denver, under Spec. No. 1006-D, for furnishing approximately 140,000 barrels of modified Portland cement in cloth sacks, 15,000 barrels modified Portland cement in bulk and 750 barrels of modified Portland cement in paper sacks for the All-American Canal, Boulder Canyon Proj., Arizona-California-Nevada; job shipping point.

Plans and specifications may be obtained from the above office.

BIDS WANTED

GILA PROJECT, Ariz.—Until Jan. 11, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 1007-D, for furnishing approximately 50,000 barrels of modified Portland cement in cloth sacks for the Gila Project, Arizona; job shipping point.

Plans and specifications may be obtained from the above office.

BIDS WANTED

KENDRICK PROJ., Wyo.—Until January 4, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 1008-D for furnishing approximately 210,000 barrels of modified Portland cement in bulk, for the Seminoe Dam, Kendrick Proj., Wyo.; job shipping point and/or Parco, Wyo.

Plans and specifications may be obtained from the above office.

BIDS WANTED

COLORADO RIVER PROJ., Tex.—Until January 10, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 1009-D for furnishing approximately 750,000 barrels of low-heat Portland cement in bulk for the Marshall Ford Dam, Colorado River Project, Texas; job shipping point and/or Rutledge, Texas.

Plans and specifications may be obtained from the above office.

BIDS OPENED

SEATTLE, King Co., Wash.—A. S. Schulman Electric Co., Chicago, at \$23,788, submitted low bid to the City of Seattle, for galvanized steel structure for South Receiving Station.

Complete bids follow:

A. S. Schulman Elec. Co., Chicago.....	\$23,788
Seattle Boiler Works.....	23,852
saacson Iron Works.....	24,513
Pacific Car & Foundry Co.....	25,363
Standard Steel Fabricating Co. & Boiler Works, Inc.....	26,995

BIDS WANTED

SAN FRANCISCO.—Until Jan. 3, 2 p.m., bids will be received by T. A. Brooks, Purchaser of Supplies, 270 City Hall, San Francisco, under Sale No. 167, for the sale of the following:

- (1) One Type JB-30, 34½ kv., 600 amp. T.P.S.T. automatic circuit breaker, with control, transformers, charging unit, etc., located at the factory of Pac. Elec. Mfg. Co., 5815 Third St., San Francisco.
- (2) Concrete buggies, platform scales, plumbing fixtures, and miscellaneous metal and fittings, located in Recreation Department Corporation Yard, 150 Hampshire St., near York St., San Francisco.

CONTRACT AWARDED

BREMERTON, Wash.—Mild and Structural Steel Co., Chicago, at \$3.60 cwt, fob Cicero; 5% 10 days, was awarded contract by the Supply Officer, Bremerton, for 580,000 pounds of fabricated structural steel consisting of column base plates, trusses, girders, purlins, struts, lintels, framing, bracing, rods and rivets, field rivets for the erection of 420,000 lbs. of fabricated structural steel framing for hangar and shop.

December 28, 1937

BIDS OPENED

GLENDALE, Los Angeles Co., Cal. Following submitted bids to the Glendale City Council for furnishing copper wire:

- The items are:
- (1) 25,000 pounds No. 6 AWG solid stranded;
 - (2) 20,000 lbs. No. 4 AWG do;
 - (3) 20,000 lbs. No. 2 AWG do;
 - (4) 50,000 lbs. No. 2 1/2 AWG 7-strand;
 - (5) 10,000 lbs. No. 4 1/2 AWG 7-strand;
 - (6) 1000 ft. No. 10 solid strand varnished cambric insulated with waterproof cotton braid;
 - (7) 2500 ft. single conductor lead covered cable No. 6 solid strand with varnished cambric insul.;
 - (8) 7500 ft. single conductor lead covered cable No. 4 AWG 7-strand copper with varn. cambric insul.
 - (9) 10,000 ft. 4-conductor No. 6 type "S" unarmored 7-strand, 10-conductor, insul. cable.

P. Diederick, plant superintendent. The bids were:

Maydwell & Hartzell: (1) \$1,172; (2) \$1,742; (3) \$1,720; (4) \$1,735; (5) \$1,735 (6) \$40.50 M ft.; (7) \$106; (8) \$122; (9) \$150; total, \$24,484.50, item 9; 2% 10 days.

Associated Wholesale Electric Co.: (6) \$40.50; (7) \$106; (8) \$122; (9) \$163; total \$2,890.50; 1/2 of 1% 10 days.

Okonite: (6) \$40.50; (7) \$106; (8) \$122; (9) \$167; total, \$2,890.50; 1/2 of 1%; 10 days; item (9) 2% 10 days.

CONTRACT AWARDED

SAN FRANCISCO.—Chas. L. Harney, 443 Call Bldg., San Francisco, at \$55,691.30, awarded contract by the Department of Public Works, Room 251, City Hall, under Spec. No. 1652 for the improvement of Laguna Honda Boulevard (7th Avenue), from Layton Street to Plaza. Estimated cost, \$64,000. * 29

BIDS WANTED

STATE OF OREGON.—Until Jan. 6, 9 A. M., bids will be received by the Oregon State Highway Commission, Auditorium, Public Service Building, Portland, for bridge and highway construction as follows:

BAKER COUNTY: Gibbs Ranch-Baker Section of Baker-Union Highway. State Project; 4.13 miles gravel surfacing. Requires approx. 8,400 c. y. pit-run gravel and 4,200 c. y. screened gravel. This project may be bid in combination with North Unit, Missouri Flat Project in Baker County.

BAKER COUNTY: North Unit, Missouri Flat Sec. of Medical Springs Secondary Highway. State project; 3.2 miles gravel surfacing. Requires approx. 9,000 c. y. pit-run gravel. This project may be bid in combination with Gibbs Ranch-Baker Project in Baker County.

CLACKAMAS, Hood River & Wasco Counties: Mt. Hood Rock Production Project on Mt. Hood and Wapinitia Highways. State project. Furnish 12,400 c. y. crushed rock in stock piles.

WILLIAM COUNTY: Shudler Flat-Condor Section of John Day Highway. State project. Furnish 6,000 c. y. crushed rock in stock piles.

LANE COUNTY: Ros Station-Arward Sec. of Pacific Highway. Federal Aid Project No. 262-A; 2.0 miles Portland cement concrete pavement. Requires approximately 1,650 cu. yds. pit-run gravel base; 3,400 cu. yds. crushed gravel, and 25,500 sq. yds. of Portland cement concrete pavement.

UNION COUNTY: Forest Boundary-Elgin Section of Weston-Elgin Secondary Highway. State Project; 3.22 miles grading, surfacing and oiling; also furnishing 1,500 c. y. crushed rock in stock piles. Requires approximately 49,000 c. y. excavation; 9,000 c. y. selected roadbed topping; 5,600 c. y. crushed rock, and 37,800 sq. yds. oil mat surface treatment.

WHEELER COUNTY: Butte Creek Section of John Day Highway. Federal Aid Project No. 4; 2.75 miles of grading, surfacing and oiling; also furnishing of 1,000 c. y. crushed rock in stock piles. Requires approx. 46,000 c. y. excavation; 12,000 c. y. selected roadbed topping; 2,000 c. y. salvaged surfacing materials; 3,000 c. y. crushed rock, and 32,300 sq. yds. oil mat surface treatment.

Plans and specifications may be obtained at the office of the State Highway Commission, Rm. 322, State Office Bldg., Salem, Oregon, upon deposit of \$5.00. * 29

December 27, 1937

BIDS WANTED

PHOENIX, Ariz.—Until Jan. 4, 10 A. M., bids will be received by the Phoenix City Commission for improvement of 3rd S. and Alvarado Road; Resolution of Intention No. 6534. The work involves:

- (1) 3,795 sq. yds. 3-in. plant mix oil process pave. (track area);

- (2) 3,795 sq. yds. agg. base course under oil process pave. track area);
- (3) 3,795 sq. yds. grading under oil process pave. (track area);
- (4) 7,050 sq. yds. 3-in. plant mix oil process pave;
- (5) 7,050 sq. yds. 6-in. agg. base course under oil process pave.;
- (6) 7,050 sq. yds. grading under oil process pave.;
- (7) 135 sq. yds. 7-in. cement conc. pavement;
- (8) 135 sq. yds. grading under 6-in. concrete pave.;
- (9) 3,500 sq. yds. parkway grading;
- (10) 3,920 lf. comb. curb and gutter;
- (11) 420 lf. single gutter;
- (12) 25 lf. single curb;
- (13) 40 lf. valley gutter;
- (14) 17 lf. 15-in. plain conc. pipe;
- (15) 31 lf. 15-in. concrete pipe;
- (16) 1 each monument cover;
- (17) 2 each headwalls;
- (18) 4 each adjusting covers;
- (19) 3 each adjusting water valve boxes. * 29

CONTRACT AWARDED

CLARK CO., Nev.—J. A. Casson, 319 Warren St., Hayward, Calif., at \$69,621.37, awarded contract by the Directors of the Dept. of Highways, Heroes Memorial Bldg., Carson City, Nevada, for the construction of a concrete and steel underpass and approaches on the State Highway 3 miles northeast of Jean, Rt. No. 6, Section B, Clark Co., Nev. * 29

LOW BIDDERS

LYON CO., Nev.—Nevada Rock & Sand Co., Inc., Reno, Nevada, at \$59,967.64, submitted low bid to the Directors of the Dept. of Highways, Heroes Memorial Bldg., Carson City, Nevada, for the construction of 4.10 mi. of highway from 8.5 mi. north of Wabuska to Weeks, Route 2B, Section B, Lyon Co., Nevada.

The low bids follow:
Nevada Rock & Sand Co., Inc., Reno \$59,967.64
Silver State Constr. Co., Inc., Fallon 65,015.80
Dodge Construction, Inc., Fallon 67,422.09 * 29

BIDS WANTED

STATE OF OREGON.—Until Jan. 7, 9 A. M., bids will be received by the Oregon State Highway Commission, Auditorium, Public Service Building, Portland, Ore., for bridge and highway construction, as follows:

Baker County: Baker-Durkee Section of Old Oregon Trail. State project. Furnish 5,000 cu. yds. crushed rock in stock piles.

Columbia County: Mile Bridge Section of Nehalem Secondary Highway. National Recovery Highway Project No. NRS 213-H (1935); 0.20 mi. grading, surfacing and oiling, and 210 ft. timber, steel and concrete bridge. Requires approximately 6,600 cu. yds. excavation; 2,400 cu. yds. surfacing materials; 3,900 sq. yds. oil mat surface treatment; 305 cu. yds. concrete; 42,000 lbs. metal reinforcement; 198,000 lbs. structural steel; 900 lin. ft. treated piling; 22 MFMB treated lumber, and 440 lin. ft. metal hand-rail.

Hood River and Wasco Counties: Hood River Rock Production Project on Columbia River and Mt. Hood Highways. State project. Furnish 8,300 cu. yds. crushed rock. This project may be bid in combination with Dillon-John Day River Project in Sherman and Wasco Counties.

Jackson County: Bear Canyon Section of Pacific Highway. Federal Aid Project No. 190-I; 0.73 mi. grading. Requires approximately 200,000 cu. yds. excavation; 270 cu. yds.

concrete; and 45,000 lbs. metal reinforcement.

Linn County: The construction of a steel truss span on concrete piers and a concrete slab span over the Calapooya River at Brownsville. Requires approximately 430 cubic yards excavation; 270 cubic yards concrete; 38,000 lbs. metal reinforcement; 210,000 lbs. structural steel; and 300 lin. feet concrete handrail. The bids for this project will be received for and in behalf of and will be considered by the County Court of Linn County, Oregon.

Sherman and Wasco Counties: Dillon-John Day River Section of Columbia River Highway. State project. Furnish 7,500 cu. yds. crushed rock in stock piles. This project may be bid in combination with Hood River Rock Production Project, Hood River and Wasco Counties.

Umatilla County: Hermiston-Columbia School Section of Hermiston Secondary Highway. Federal Aid Secondary Project No. FAS 4-A; 0.28 mile surfacing and 3.67 miles oiling; also furnishing of 1,200 cu. yds. of crushed rock in stock piles. Requires approximately 600 cu. yds. selected roadbed topping; 1,500 cu. yds. crushed rock; and 29,000 sq. yds. oil mat surface treatment.

Union County: Grande Ronde River-Noyes Ranch Section of Cove Secondary Highway. Federal Aid Secondary Project No. FAS 259-B; 2.66 mi. grading, surfacing and oiling. Requires approximately 12,400 cu. yds. excavation; 1,500 cu. yds. salvaged surfacing materials; 7,200 cu. yds. selected roadbed topping; and 28,500 sq. yds. oil mat surface treatment.

Washington County: West Fork Dairy Creek Section of Nehalem Secondary Highway. State project; 0.11 mile grading and surfacing, and 87 feet of composite pile trestle. Requires approximately 2,555 cu. yds. excavation; 700 cubic yards crushed gravel surfacing materials; driving 20 treated piling; 60 cu. yds. concrete; 12,000 lbs. metal reinforcement; 20 MFMB treated lumber and 190 lin. ft. handrail.

Plans and specifications may be obtained at the office of the State Highway Commission, Room 322, State Office Building, Salem, Oregon, upon deposit of \$5.00. * 29

BIDS WANTED

NAVAJO CO., Ariz.—Until Jan. 7, 10 a. m., bids will be received by the Arizona Highway Commission, Phoenix, for highway construction on the Showlow-Holbrook Highway (F. A. 131-1) (1938), A.F.E. 7702. The work, which is to extend from Holbrook south for a distance of about 11½ mi., consists of grading, draining, aggregate base course and asphalt surf. treatment, and is to be completed on or before Oct. 31, 1938.

The items are:

- (1) 51,100 c. y. roadway excav.;
- (2) 3,000 c. y. slides and overbreak-age;
- (3) 14,700 c. y. excav.;
- (4) 10,200 lf. grader ditches;
- (5) 2,300 c. y. struc. excav.;
- (6) 47,000 sta. yds. overhaul;
- (7) 3,100 c. y. mi. haul;
- (8) 92,400 cu. yd. imported borrow (CIP);
- (9) 59,500 c. y. select material (CIP);
- (10) 20,100 tons aggr. base course (CIP);
- (11) 7400 M. gals. sprinkling;
- (12) 1,800 hrs. rolling;
- (13) 1,268 c. y. class A concrete;
- (14) 136,600 lbs. reinf. steel;
- (15) 1,972 ft. C.M.P. (6 sizes);
- (16) 123,600 lf. line fence;
- (17) 560 lf. road guard;
- (18) 617 tons cutback asphalt (MC-2);
- (19) 730 c. y. blotter material.

Certified check, 5%. Howard S. Reed, State Highway Engineer. * 29

CONTRACT AWARDED

TUOLUMNE AND MARIPOSA COS., Calif.—Union Paving Co., 212 Babcock Bldg., San Francisco, at \$124,370.10, awarded contract by the U. S. Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, for 10,518 m. surfacing on Sections A2, A3 and A4 of Route 3, the Big Oak Flat Road, and a portion of Section A1 of Rt. 4, the Tioga Road, Yosemite National Park, Tuolumne and Mariposa Counties, Cal. * 29

COMPLETE BIDS

PHOENIX, Maricopa Co., Ariz.—Oswald Bros., 366 E. 58th St., Los Angeles, at \$53,905.50 (using Portland cement), and \$51,036.55 (using plant-mix), submitted low bid to the Phoenix City Commission, City Hall, Phoenix, for the improvement of certain portions of Tenth, Eleventh, Twelfth and Diamond Streets in Phoenix, Ariz.

ALTERNATE NO. 1

- (1) 2,245 c.y. oil process pavement 3-in. thick complete in place (track area);
- (2) 2,245 sq. yds. 2-in. aggregate base course under oil process pavement, complete in place (track area);
- (3) 2,245 sq. yds. grading under oil process pavement (track area);
- (4) 24,800 sq. yds. 4.7-in. Portland cement concrete pavement with integral curb & thickened edges, complete in place;
- (5) 24,800 sq. yds. grading under 4.7-in. Portland cement conc. pave.;
- (6) 2,100 sq. yds. Portland cement concrete pave. 6-in. thick, complete in place;
- (7) 2,100 sq. yds. grading under 6-inch concrete pavement;
- (8) 9,400 sq. yds. parkway grading;
- (9) 39,000 sq. ft. Portland cement concrete sidewalk 4-in. thick, complete in place;
- (10) 65 lf. combined curb and gutter Detail E-1 complete in place
- (11) 185 lf. 8-in. plain concrete pipe complete in place;
- (12) 43 lf. 8-in. concrete pipe Detail X complete in place;
- (13) 10 each adjusting valve boxes, complete in place;
- (14) 13 each adjusting manhole covers, complete in place;
- (15) 7 each resetting street signs, complete in place;
- (16) 7 monument covers Detail K, complete in place;
- (17) 7 each street signs, Detail P, complete in place;
- (18) 1 each manhole Detail No. 4, complete in place;
- (19) 4 each gutter inlets, Detail 6, complete in place;

ALTERNATE NO. 2

- (1) 2,245 sq. yds. oil processed pavement 3-in. thick, complete in place (track area);
- (2) 2,245 sq. yds. 2-in. agg. base course under oil process pavement, complete in place (track area);
- (3) 2,245 sq. yds. grading under oil process pavement (track area);
- (4) 21,355 sq. yds. oil processed pavement 3-in. thick, complete in place;
- (5) 21,355 sq. yds. 6-in. agg. base under oil process pavement, complete in place;
- (6) 21,355 sq. yds. grading under oil process pavement;
- (7) 2,000 sq. yds. 6-in. Portland cement concrete pavement, complete in place;
- (8) 2,000 sq. yds. grading under 6-inch Portland cement concrete pavement;
- (9) 9,400 sq. yds. parkway grading;

- (10) 39,000 sq. ft. Portland cement concrete sidewalk 4-inch thick, complete in place;
- (11) 13,060 lf. combined curb and gutter, Detail E-1, complete in place;
- (12) 620 lf. single curb, Detail F-1, complete in place;
- (13) 610 lf. Valley gutter, Detail Z, complete in place;
- (14) 105 lf. single gutter, Detail G, complete in place;
- (15) 185 lf. 8-in. plain conc. pipe, complete in place;
- (16) 43 lf. 8-in. conc. pipe, Detail X, complete in place;
- (17) 10 each adjusting valve boxes, complete in place;
- (18) 13 each adjusting manhole covers, complete in place;
- (19) 7 each resetting street signs, complete in place;
- (20) 7 each monument covers, Detail K, complete in place;
- (21) 7 each street signs, Detail P, complete in place;
- (22) 1 each manholes, Detail No. 4, complete in place;
- (23) 4 each gutter inlets, Detail 6, complete in place.

Total bids follow:

- (A) Oswald Bros., Alt. No. 1, \$53,905.50; Alt. No. 2, \$51,036.55.
- (B) Arizona Sand & Rock Co., Alt. No. 1, \$55,487.64; Alt. No. 2, \$51,998.44.
- (C) Phoenix-Tempe Stone Co., Alt. No. 1, \$61,685.05; Alt. No. 2, \$54,461.40.
- (D) Daley Corp., Alt. No. 1, \$62,518.15; Alt. No. 2, \$54,135.15.
- (E) W. E. Hall Co., Alt. No. 1, no bid; Alt. No. 2, \$54,946.80.

The unit bids were:

BLUE PRINTS AVAILABLE

SACRAMENTO, Cal.—State Highway Engineer, C. H. Purcell, announces the cost of blue prints now available for work for which bids will be opened as noted below:

*IV-Ala-Feeder—Betw. Mtn. House

and Contra Costa County Line: PLANS (No. of Sheets), 24; Cost, \$3.60; CROSS-SECTIONS (No. of Sheets), None; total \$3.60.

†VII-LA-60-A—Bridges across Corral Creek, Solstice Creek and Escondido Creek: PLANS (No. of Sheets), 17; cost, \$2.50; CROSS-SECTIONS, None; total, \$2.50.

†VII-LA-168-C—Undergrade crossing under the tracks of the S. P. R.R. near Rudell Station: PLANS (No. of Sheets), 26; Cost, \$3.90; CROSS-SECTIONS (No. of Sheets), 9; Cost, \$0.90; total, \$4.80.

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the order to this office.

Requests for the above plans, specifications and proposal form must be addressed to the office of the State Highway Engineer, P.O. Box 1499, Sacramento, Calif.

*To be opened in San Francisco January 14, 1938.

†To be opened in Los Angeles on January 13, 1938. * 29

LOW BIDDERS

COCONINO COUNTY, Ariz.—Jack Casson, 319 Warren St., Hayward, Calif., at \$62,570 submitted low bid to the U. S. Bureau of Public Roads, New Post Office Bldg., Phoenix, for placing bituminous treated crushed rock surfacing (Class F) on 14,605 miles of Section A1 and A2, Rt. 1, and Sections A1, A2 and B of Rt. 2, Grand Canyon National Park, Coconino County, Ariz.

Three low bids follow: Jack Casson, Hayward, Cal.....\$62,570 Southern Calif. Roads Co., Los Angeles..... 67,530

Olof Nelson, Logan, Utah..... 69,625 * 29

LOW BIDDER

COCONINO COUNTY, Ariz.—Skouens Bros., Albuquerque, N. M., at \$37,681 submitted low bid to the Arizona State Highway Commission, Phoenix, for placing select material, aggregate base course and asphaltic surface treatment at a point 25.7 miles north of Cameron and extending northerly approximately 14.2 miles, Flagstaff-Fredonia Highway F.L. 4-C, Schedule 2 (1938) Coconino Co., Ariz.

BIDS WANTED

PHOENIX, Maricopa Co., Arizona.—Until Jan. 4, 10:15 a.m., bids will be received by the Phoenix City Commission, for the improvements of certain portions of Twelfth and Thirteenth Aves., Eleventh Ave., Tenth Ave., McKinley St. and Pierce St., Phoenix, Arizona.

Work involves:

ALTERNATE 1

- (1) 15,200 sq. yds. 4.7-in. Portland cement concrete pavement with integral curbs and thickened edges;
- (2) 15,200 sq. yds. grading under 4.7-in. Portland cement concrete pavement;
- (3) 1,070 sq. yds. 6-in. Portland cement concrete pavement;
- (4) 1,070 sq. yds. grading under 6-in. Portland cement concrete pavement;
- (5) 5,800 sq. yds. parkway grading;
- (6) 24,000 sq. ft. one-course Portland cement concrete sidewalk;
- (7) 275 lin. ft. 8-in. plain concrete pipe;
- (8) 3 each, street signs (detail P);
- (9) 3 each, monument covers (detail K);
- (10) 3 each, manholes (detail No. 4);
- (11) 3 each, gutter inlets (detail No. 3);
- (12) 3 each, gutter inlets (detail No. 6);

- (13) 5 each, adjusting manhole covers;
 (14) 8 each, adjusting water valve boxes.

ALTERNATE 2

- (1) 13,010 sq. yds. 3-in. plant-mix oil process pavement;
 (2) 13,010 sq. yds. grading under oil process pavement;
 (3) 13,010 sq. yds. 6-in. aggregate base, under oil process pavement;
 (4) 1,020 sq. yds. 6-in. Portland cement concrete pavement;
 (5) 1,020 sq. yds. grading under 6-in. Portland cement concrete pavement;
 (6) 5,800 sq. yds. parkway grading;
 (7) 21,000 sq. ft. one-course Portland cement concrete sidewalk, 4 inches thick;
 (8) 8,050 lin. ft. combined curb and gutter (detail E-1);
 (9) 260 lf. single curb (detail F-1);
 (10) 270 lf. valley gutter (detail Z);
 (11) 275 lf. 8-in. plain concrete pipe;
 (12) 3 each, street signs (detail P);
 (13) 3 each, monument covers (detail K);
 (14) 3 each, manholes (detail No. 4);
 (15) 3 each, gutter inlets (detail No. 3);
 (16) 163 each, gutter inlets (detail No. 6);
 (17) 5 each, adjusting manhole covers;
 (18) 8 each, adjusting water valve boxes.

Plans and specifications may be obtained from the City Engineer, Phoenix, upon deposit of \$5.00. * 29

BIDS WANTED

DEL NORTE CO., Cal.—Until Jan. 19, 2 p.m., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for construction of a reinforced concrete slab bridge and grading, and applying seal coat to about 2 miles between Wilson Creek and Last Chance Side, Del Norte Co., Cal.

Work involves:

- (1) 20 acres clear and grub;
 (2) 1,400 M. gals. water;
 (3) 168,000 c.y. rdwy. excav. without class;
 (4) 220 c.y. ditch and channel excavation;
 (5) 1,695,000 sta. yds. overhaul;
 (6) 47,000 mile yds. haul;
 (7) 5,150 c.y. struc. excav.;
 (8) 8,000 c.y. coarse rock;
 (9) 8,100 c.y. import surf. matl.;
 (10) 107 sta. finishing roadway;
 (11) 72 tons liq. asph., SC-1A (prime coat);
 (12) 37 tons liq. asph., 90-95 (seal coat);
 (13) 315 c.y. screenings (seal coat);
 (14) 30,800 lbs. bar reinf. steel;
 (15) 243 c.y. class A portland cement conc. strucs.;

- (16) 55 MFMB redwood timber, select, all-heart, struc. grade;
 (17) 100 c.y. dry rubble;
 (18) 340 lf. 8-in. CMP;
 (19) 1,200 lf. 18-in. CMP;
 (20) 450 lf. 24-in. CMP;
 (21) 160 lf. 30-in. CMP;
 (22) 3,900 lf. 8-in. perf. metal pipe underdrains;
 (23) 670 lf. 18-in. perf. metal pipe underdrains;
 (24) 1,140 cu. yd. rock filling material;
 (25) 350 lf. pipe culverts, remove, clean and salvage;
 (26) 8,700 lbs. misc. steel;
 (27) 5 each, spillway assemblies;
 (28) 3 each, junction pipes;
 (29) 1 each, taper inlets and elbows;
 (30) 12 each, remove headwalls;
 (31) 1,700 lf. laminated guard railing;
 (32) 220 lf. solid timber railing;
 (33) 32 each, culvert markers;
 (34) 20 each, guide posts;
 (35) 0.90 mile new property fence;

- (36) 1 each, drive gate;
 (37) 0.65 mile fence moved and reset;
 (38) 1 lot remove exist. timber structures;
 (39) 20 lot, monuments;
 (40) 1 lot misc. bridge items.

Plans and specifications may be obtained from the above office. * 29

BIDS WANTED

SANTA CLARA CO., Cal.—Until Jan. 21, 2 p.m., bids will be received by the State Division of Highways, Jno. H. Skeggs, District Engineer, State Bldg., San Francisco, for grading, surfacing with gravel base, and applying armor coat to about 3.9 ml. between north line of Las Uvas Rancho and Croly Road, Santa Clara Co., Calif.

Work involves:

- (1) clearing and grubbing right of way;
 (2) 850 M. gals. water;
 (3) 134,557 c.y. roadway excav. without class;
 (4) 300,000 sta. yds. overhaul;
 (5) 1,500 c.y. struc. excav.;
 (6) 15 c.y. remove conc.;
 (7) 207 sta. finishing roadway;
 (8) 11,500 c.y. gravel base;
 (9) 60 tons liq. asph., SC-1A;
 (10) 125 tons liq. asph., 90-95;
 (11) 2,540 tons screenings;
 (12) 37,800 lbs. bar reinf. steel;
 (13) 300 c.y. class A portland cement concrete strucs.;
 (14) 220 lf. 8-in. CMP;
 (15) 950 lf. 12-in. CMP;
 (16) 540 lf. 15-in. CMP;
 (17) 250 lf. 18-in. CMP;
 (18) 28 lf. 24-in. CMP;
 (19) 162 lf. 24-in. CMP;
 (20) 42 lf. 36-in. CMP;
 (21) 185 lf. remove and relay exist. culvert pipe;
 (22) 13 each, spillway assemblies;
 (23) 7.3 mi. new property fence;
 (24) 12 each, fence gates.

Plans and specifications may be obtained from the above office. * 29

LOW BIDDER

GILA AND NAVAJO COS., Ariz.—Globe, Or. El Paso, Tex., at \$126,952 submitted low bid to the Arizona State Highway Commission, Phoenix for highway construction on the Globe-Showlow Highway (F. A. 99-H, 1st Reop.) (1938) A.F.E. 6072; F.A. 99-I (1938) A.F.E. 6073; F.A. 99-J, 1st Reop. (1938) A.F.E. 6074. The work, which begins about 50 miles northeast of Globe and extends north-easterly about 15 miles to the Gila-Navajo county line, consists of sub-grading roadway and refinishing the slopes, aggregate base course and asphalt surface treatment and is to be completed on or before Sept. 15, 1938.

BIDS WANTED

MARICOPA AND YAVAPAI COS., Ariz.—Until Jan. 7, 10:30 a.m., bids will be received by Arizona State Highway Engineer, Howard S. Reed, for construction of Agulia-Congress Junction Highway, FAS 1-A (1938), AFE 7103. The work, which begins at the Maricopa-Yavapai county line, approximately 6 mi. NE of Agulia, and extends NE for approximately 7½ ml., consists of grading and draining the roadway, and is to be completed on or before June 30, 1938.

The work involves:

- (1) 1,500 c.y. roadway excav.;
 (2) 6,800 c.y. drainage excav.;
 (3) 1,600 c.y. struc. excav.;
 (4) 49,800 c.y. imported borrow;
 (5) 29,200 c.y. select material;
 (6) 1,000 M. gals. sprinkling;
 (7) 650 hrs. rolling;
 (8) 931 c.y. class A concrete;
 (9) 97,700 lbs. reinf. steel;
 (10) 1,042 lf. CMP (4 sizes);
 (11) 300 c.y. plain riprap. * 29

30—RESERVOIRS & DAMS

BIDS WANTED

COWLITZ CO., Wash.—Until Jan. 11, 3 p.m., bids will be received by the U. S. Engineer Office, 306 Customhouse, Portland, Oregon, under Bid No. 498-38-270, for the construction of the Burris Creek diversion in Drainage Improvement District No. 5, consisting of excavating approximately 8700 feet of canal with adjoining levees and the construction of a 42-inch syphon, a 72-inch discharge line and excavation of lateral drainage ditches, Cowlitz Co., Wash.

Work involves:

- (1) 9.1 acres stripping;
 (2) 9,165 c.y. canal excav. placed in levee (drag line);
 (3) 12,552 c.y. canal excav. placed in levee (truck haul);
 (4) 24,772 c.y. levee embankment, truck haul (from borrow);
 (5) 8,713 c.y. mile truck overhaul;
 (6) 2,400 c.y. ditch excav. (drainage ditches);
 (7) 342 c.y. excav., structural;
 (8) 342 c.y. backfill;
 (9) 3.94 MFMB untreated lumber, in place;
 (10) 640 lf. untreated round piling, in place;
 (11) 150 lf. 72-in. corrug. iron pipe (incl. two 60-inch stand pipes) in place;
 (12) 116 lf. 42-in. corrug. iron pipe, in place;
 (13) 2 c.y. reinf. conc., in place;
 (14) 1914 lbs. structural steel, in place;
 (15) 450 c.y. rock riprap revetment, in place.
- Plans and specifications may be obtained from the above office upon deposit of \$5.00. * 30

BIDS WANTED

PROVO RIVER PROJECT, Utah.—Until Feb. 10, 10 a.m., bids will be received by the U. S. Bureau of Reclamation, 336 Federal Bldg., Salt Lake City, Utah, under Spec. No. 768, for the construction of the Deer Creek Dam and railroad and highway relocation, Provo River Project, Utah.

Work involves:

- (1) 280,000 c.y. of stripping;
 (2) 443,000 c.y. of all classes of excavation for dam;
 (3) 2,600,000 c.y. of common excav. in borrow pits for earth fill in dam;
 (4) 116,000 c.y. of rock excavation in borrow pits for dam;
 (5) 467,000 c.y. of all classes of excavation for railroad;
 (6) 167,000 c.y. of all classes of excavation for highway;
 (7) 21,450 sta. yds. of overhaul;
 (8) 23,500 c.y. of backfill;
 (9) 2,500,000 c.y. of earth fill in dam embankment;
 (10) 30,000 c.y. of sand, gravel, and cobble fill for dam;
 (11) 182,000 c.y. of rock fill on slopes of dam embankment;
 (12) 46,000 c.y. of riprap for dam;
 (13) 36,000 cu. ft. of pressure grouting for dam;
 (14) 17,250 c.y. of concrete for dam;
 (15) 1,800 c.y. of concrete for railroad;
 (16) 30 c.y. of concrete for highway;
 (17) Placing 1,932,000 lbs. of reinf. bars;
 (18) Constructing 6,000 lin. ft. of 4-in. to 12-in. sewer-pipe drains for dam;
 (19) Drilling 17,000 lin. ft. of grout, weep, and anchor-bar holes for dam;
 (20) Driving 120,000 lbs. of steel sheet piling;
 (21) Driving 2,100 lin. ft. of timber piling;

- (22) Installing 1,300 lin. ft. of metal sealing strips for dam;
 - (23) Furnishing and installing 60,000 lbs. of steel tunnel-liner plates for dam;
 - (24) Installing 289,000 lbs. of gates and trash-rack metalwork;
 - (25) Installing 540,000 lbs. of outlet pipes;
 - (26) Installing 100,000 lbs. of needle valves and control apparatus;
 - (27) Installing 43,000 lbs. of miscellaneous metalwork for dam;
 - (28) Installing 7,000 lin. ft. of electrical metal conduit for dam;
 - (29) Constructing 400 c.y. of rubble masonry walls for railroad;
 - (30) Laying 3,700 lin. ft. of 24-in. to 84-in. corrug. metal pipe for railroad;
 - (31) Laying 600 linear feet of 24-in. to 60-in. corr. metal pipe for highway;
 - (32) Constructing 400 linear feet of 90-inch multiplate culverts for highway;
 - (33) Erecting 190,000 lbs. of structural steel for railroad bridge;
 - (34) Laying and ballasting 12 miles of railroad track;
 - (35) Dismantling and salvaging eight miles of railroad track;
 - (36) Furnishing and placing 8,300 c.y. of highway surfacing material;
 - (37) Applying 15,000 gals. road oil
- Plans and specifications may be obtained from the above office. * 30

WORK TO START

BEND, Deschutes Co., Ore.—Engineering plans for the Wikipud Dam have been sufficiently advanced by the Bureau of Reclamation to enable work to start. Irrigation district must be organized to contract for repayment of project's cost, arrangements made for labor, agreement made with Inland Power & Light Company for use of water and a decision made to construct one or two reservoirs.

The dam will be located forty miles above Bend. It will be a principal part of the Deschutes Project to irrigate 50,000 acres in Central Oregon. Crane Prairie reservoir will either have to be rebuilt or Wikipud Dam enlarged. Alternate plans have been prepared. Estimated cost of Deschutes Project is \$8,000,000, but CCC will do work estimated to cost about \$2,000,000 in clearing site and laying canals; \$450,000 has been appropriated by Congress and \$500,000 allotted by PWA. * 30

31—PIPE LINES & WELLS

December 29, 1937.

BIDS WANTED

LA MESA, San Diego Co., Calif.—Until Jan. 18, 10 a. m., bids will be received by La Mesa, Lemon Grove and Spring Valley Irrigation District, La Mesa, for the construction of distribution pipe line replacements, Unit No. 2, PWA Docket 1489-2-DS, located within the boundaries of the said district. Plans and specifications may be obtained from the office of the district, 4769 Spring St., La Mesa, upon deposit of \$25 per set, returnable. Certified or cashier's check or bid bond for 10%. Ruth C. Drew, Secretary; C. Harritt, General Manager; Carl Hudson, Engineer.

The quantities are:

PROPOSAL "A"

Distribution pipeline replacement project, Unit No. 2, complete, including furnishing of material:

- (1) 16,398 c.y. unclass. excav. for installation of C I pipe and fittings;
- (2) 15,603 c.y. backfill for installation of C I pipe and fittings;
- (3) 3,962 sq. ft. oil road surf. to be

removed and replaced for installation of C I pipe and fittings;

- (4) 3,470 sq. ft. cem. or asph. conc. pave. to be removed and replaced for installation of C I pipe and fittings;
- (5) 2,155 l.f. 12-in. class 250, C I pipe, complete in place;
- (6) 50 l.f. 12-in. class 150, C I pipe, complete in place;
- (7) 4,496 l.f. 8-in. class 250, C I pipe, complete in place;
- (8) 3,963 l.f. 8-in. class 150, C I pipe, complete in place;
- (9) 22,114 l.f. 6-in. class 250, C I pipe, complete in place;
- (10) 31,310 l.f. 6-in. class 150, C I pipe, complete in place;
- (11) 4,472 l.f. 4-in. class 250, C I pipe, complete in place;
- (12) 6,509 l.f. 4-in. class 150, C I pipe, complete in place;
- (13) 82,325 lbs. C I tees, angles, hydrant spacers and ells, reducers and other fittings, complete in place;
- (14) 6 12-in. hub end gate valves, complete in place;
- (15) 13 8-in. hub end gate valves, complete in place;
- (16) 101 6-in. hub end gate valves, complete in place;
- (17) 148 4-in. hub end gate valves, complete in place;
- (18) 804 l.f. 6-in. class 150 C I pipe, complete in place in gate wells;
- (19) 78 4-in. two-way C I fire hydrants, complete in place;
- (20) 1,473 c.y. unclass. excav. for installation of service pipe and connections;
- (21) 1,473 c.y. backfill for installation of service pipe and connections;
- (22) 1,674 sq. ft. oil road surf. to be removed and replaced for installation of service pipe and connections;
- (23) 464 sq. ft. cem. or asph. conc. pave. to be removed and replaced for installation of service pipe and connections;
- (24) 19.5 c.y. cem. conc. complete in place;
- (25) 339 3/4-in. bronze service connection assemblies complete in place;
- (26) 7,976 l.f. 3/4-in. copper pipe in service connections complete in place;
- (27) 36 1-in. bronze service connection assemblies complete in place;
- (28) 815 l.f. 1-in. copper pipe in service connections complete in place;
- (29) 13 2-in. bronze service connection assemblies complete in place;
- (30) 267 l.f. 2-in. copper pipe in service connections complete in place.

ALTERNATE BID—PROPOSAL "B"
Distribution pipeline replacement project, Unit No. 2, complete, except service connections.

- (1) 16,398 c.y. unclass. excav. for install. of C I pipe and fittings;
- (2) 15,603 c.y. backfill for install. of C I iron pipe and fittings;
- (3) 3,962 sq. ft. oil road surfacing to be removed and replaced, for installation of C I pipe and fittings;
- (4) 3,470 sq. ft. cem. or asph. conc. pave. to be removed and replaced, for install. of C I pipe and fittings;
- (5) 2,155 l.f. 12-in. class 250 C I pipe, complete in place;
- (6) 50 l.f. 12-in. class 150 C I pipe, complete in place;
- (7) 4,496 l.f. 8-in. class 250 C I pipe, complete in place;
- (8) 3,963 l.f. 8-in. class 150 C I pipe, complete in place;
- (9) 22,114 l.f. 6-in. class 250 C I pipe, complete in place;
- (10) 31,310 l.f. 6-in. class 150 C I pipe, complete in place;

- (11) 4,472 l.f. 4-in. class 250 C I pipe, complete in place;
- (12) 6,509 l.f. 4-in. class 150 C I pipe, complete in place;
- (13) 82,325 lbs. C I tees, angles, hydrant spacers and ells, reducers and other fittings, complete in place;
- (14) 6 12-in. hub end gate valves, complete in place;
- (15) 13 8-in. hub end gate valves, complete in place;
- (16) 101 6-in. hub end gate valves, complete in place;
- (17) 148 4-in. hub end gate valves, complete in place;
- (18) 804 l.f. 6-in. class 150 C I pipe, complete in place in gate wells;
- (19) 78 4-in. two-way C I fire hydrant, complete in place;
- (20) 19.50 c.y. cement concrete, complete in place. * 31

BIDS WANTED

SAN DIEGO, Cal.—Until Jan. 3, 11:15 a.m., bids will be received by the San Diego County Supervisors, Miss C. Buckley, Clerk, for the construction, delivery and installation of a high pressure steam main from the boiler room of the San Diego County Hospital to the boiler room of the male help building, in accordance with specifications on file in the office of the board. Certified check or bid bond, 5%. * 31

32—SEWERS & SEWAGE DISPOSAL PLANTS

BIDS OPENED

SEATTLE, King Co., Wash.—Queen City Constr. Co., 603 18th Ave., at \$249,399, submitted low bid to the Board of Public Works, 511 County-City Bldg., Seattle, for the construction of Unit No. 9, Henderson Street Trunk Sewer.

Complete bids follow:

Queen City Constr. Co., 603 18th Ave.	\$249,399
Thos. Scalzo	255,586
Acme Constr. Co.	259,266
Macri Bros.	262,323
General Constr. Co.	279,033
Puget Sound Bridge & Dredging Co.	329,069
L. Romano Engineering Corp.	355,216

CONTRACT AWARDED

SEATTLE, King Co., Wash.—General Constr. Co., 3840 Iowa Avenue, at \$16,456, submitted low bid and was awarded contract by the Board of Public Works for preliminary work for Henderson Street sewer treatment plant, involving filling site, 12 acres clearing, 92,000 cu. yd. fill, 100 feet sewer pipe.

Other bidders were:

Puget Sound Bridge & Dredging Co.	\$18,000
Thos. Scalzo	43,350
Northwest Constr. Co.	44,270
Erickson Paving Co.	52,004
Acme Constr. Co.	66,250

BIDS WANTED

SANTA CLARA COUNTY, Calif.—Until January 3, 11 A. M., bids will be received by the Santa Clara County Board of Supervisors, Court House San Jose, for the construction of a storm sewer on Glen Una Drive at Gladding's Place, Supervisor District No. 5, Santa Clara County.

Work involves:

- (1) 183 Lf. 15-in. vitrified pipe;
- (2) 640 Lf. 12-in. vitrified pipe;
- (3) 50 Lf. 15-in. corrugated culvert;
- (4) 7 manholes.

Plans and specifications may be obtained from the above office upon deposit of \$1.00.

Contract previously awarded Mihovich & Zekich, Sunnyvale, at \$1-744.75 was rescinded. * 32

CONTRACT AWARDED

SAN MATEO, Cal.—M. J. McGuire and M. Hester, 1483 Hopkins St., Oakland, at \$1912.20, submitted low bid and was awarded contract by the San Mateo City Council, City Clerk, City Hall, for the construction of sewers on Bayshore Blvd., between Poplar Avenue and Mt. Diablo, San Mateo, Cal.

Work involves:

- (1) 1612 lin. ft. 6-in. vitrified clay sewer pipe;
- (2) 32 Y branches;
- (3) 6 manholes.

Total bids follow:

(A) M. J. McGuire & M. Hester, 1483 Hopkins St., Oakland—\$1912.20.			
(B) H. E. Conner, Redwood City—\$212.4.			
(C) O. G. Ritchie, San Jose—\$2151.60.			
Unit prices follow:

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

TREASURY DEPARTMENT

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Dept., J. W. Knox, Procurement Officer, Room 518, 49 Fourth St., San Francisco, for furnishing miscellaneous supplies and materials, as follows:

January 3, 10 A. M.
 BID NO. 4786—6 ballbearing jacks (bridge, foot lift type), 25-ton capacity; f.o.b. Havelock and Edna Sts., San Francisco, Cal.

BID NO. 4787—360 tons screening; f.o.b. Junipera Serra Blvd. Project, San Mateo County.

BID NO. 4788—12,000-gal. asphaltic emulsion; f.o.b. Junipera Serra Blvd. Project, San Mateo Co.

BID NO. 4791—Steel sheets, ridge roll and galv. nails; f.o.b. Yolo Co.

January 4, 10 A. M.
 BID NO. 4789—125 bbls. Portland cement; f.o.b. Sonora, Cal.

BID NO. 4790—2500 lin. ft. steel pipe; f.o.b. 1829 Cypress St., Oakland.

January 5, 10 A. M.
 BID NO. 4792—456 bbls. Portland cement; f.o.b. Merced Co.

BID NO. 4793—225 bbls. Portland cement; f.o.b. Calaveras Co.

BID NO. 4794—200 bbls. Portland cement; f.o.b. Merced Co.

BID NO. 4795—Red brick; f.o.b. San Jose, Cal.

BID NO. 4796—27.2 tons asphalt liq., SC Type 90-95; f.o.b. Salinas, Cal.

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 Fourth Street, San Francisco, for furnishing supplies and materials, as follows:

JANUARY 6, 10 A. M.:

BID NO. 4804: 1098 l.f. CI water pipe; fob San Luis Obispo;

BID NO. 4805: 600 barrels of Portland cement; fob Palo Alto.

JANUARY 7, 10 A. M.:

BID NO. 4806: 168 tons of liquid asphalt 95 plus type SC-1A; fob vendor's refinery and/or San Joaquin County.

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 Fourth St., San Francisco, for furnishing miscellaneous supplies and materials, as follows:

January 5, 10:00 A. M.

BID NO. 4797—1660 tons crusher run rock; f.o.b. Ninth Avenue Pier Area, Oakland.

BID NO. 4798—800 tons road gravel; f.o.b. Contra Costa Co., Cal.

January 6, 10:00 A. M.

BID NO. 4799—70 tons liquid asphalt, SC Type 90-95; f.o.b. Salinas, Cal.

BID NO. 4800—1000 sacks Portland cement; f.o.b. Eureka, Cal.

BID NO. 4805—40 tons asphaltic concrete; f.o.b. Santa Ynez Avenue, San Francisco.

January 7, 10:00 A. M.

BID NO. 4801—160 tons liquid asphalt (50-60), Type SC-1A; f.o.b. vendor's refinery and/or Placenda, Cal.

BID NO. 4802—200 tons liquid asphalt (50-60), Type SC-1A; f.o.b. vendor's refinery and/or Placenda, Cal.

U. S. FOREST SERVICE

GOVERNMENT ISLAND, Calif.—Bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for furnishing miscellaneous supplies and materials, as follows:

January 4, 2:00 P. M.
 BID NO. 5359—Purchase of new caterpillar (or equal) tractor replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment; f.o.b. Government Island.

January 6, 2:00 P. M.
 BID NO. 5379—200 box pocket compasses; f.o.b. Government Island.

BID NO. 5380—2400 yds. muslin; f.o.b. Government Island.

January 12, 2:00 P. M.
 BID NO. 5378—25 canteens; f.o.b. Government Island.

GOVERNMENT ISLAND, Calif.—Until January 7, 2 P. M., bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for the purchase of the following materials:

BID NO. 5366: Purchase of new Chevrolet (or equal) replacement parts, including lump sum trade-in allowance and/or cash offer on used and new tires and tubes; fob Government Island.

BID NO. 5367: Purchase of new Caterpillar (or equal) tractor replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment; fob Government Island.

BID NO. 5370: Purchase of new Caterpillar (or equal) tractor replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment; fob Redding.

CALIFORNIA STATE

REDDING, Cal.—Until Jan. 7, 10 a.m., bids will be received by the State Purchasing Agent, 319 State Capitol, Sacramento, under Qto. No. 33885, Req. No. 25963, for one 160-cu. ft. delivery portable air compressor, gasoline-engine driven. Alternate: 160-cu. ft. portable air compressor, but Diesel or Hesselman type engine driven; f.o.b. Redding, Cal.

WAR DEPARTMENT

FORT MASON, Cal.—Until Jan. 6, 10 A. M., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, San Francisco, under Bid-No. 922-38-182, for furnishing parts for Marmon Harrington Model, Hercules WXC engine; fob Motor Warehouse No. 6, Presidio of San Francisco. *

SACRAMENTO, Cal.—Until Jan. 4, 3 P. M., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, under Bid No. 1105-38-164, for furnishing cut washers, bushings, valves, pipe, iron, steel, screws and tubing; fob Rio Vista, Cal. *

FORT MASON, Cal.—Until Jan. 11, 10 a.m., bids will be received by the

Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, San Francisco, under Bid No. 928-38-186, for furnishing pipe, pipe fittings, valves, paint, varnish, grease and oil; f.o.b. Dock No. 1, Fort Mason, San Francisco, Cal. *

RECLAMATION BUREAU

DENVER, Colo.—Until Jan. 4, 2:00 p.m., bids will be received by the Bureau of Reclamation, A. McD. Brooks, Purchasing Agent, Custom House, Denver, Colorado, under Bid No. A-42,459-A, for furnishing 2,070,000 cwt. round deformed bars; f.o.b. Knob, Calif.

San Luis Obispo, Humboldt Bridges, Napa Grading L. A. Surfacing Bids Scheduled

SACRAMENTO, Jan. 4.—The State Highway Commission today authorized bid calls on four contracts involving construction of two bridges and grading and surfacing of two road units. Bids will be opened in Sacramento, January 26; Los Angeles, January 27, and San Francisco, January 28.

The contract for which bids will be opened in San Francisco by District Engineer Jno. H. Skeggs involves grading and surfacing with crusher run base and armor coat about 6.2 miles of highway between Oakville and Calistoga in Napa Co.

Principal items include: 65,000 cubic yards of unclassified roadway excavation; 1200 cubic yards of structural excavation; 4200 cubic yards of crusher run base; 230 tons of liquid asphalt of various types; 3000 tons of screenings; and 27,500 pounds of bar reinforcing steel.

Jordan Creek Bridge

The largest job for which bids will be opened in Sacramento, Jan. 26, involves construction of a reinforced concrete slab bridge across Jordan Creek, about six miles south of Scotia in Humboldt Co.

The bridge will consist of six 22-foot spans; one 24-foot span; and one 15-foot span on concrete piers with steel pile foundations. Approximately 0.19 mile of highway will be graded and surfaced with plant-mixed surfacing under terms of the contract.

The principal items include: 5,000 pounds of miscellaneous steel; 82,000 pounds of bar reinforcing steel; 1440 lineal feet of steel piles and 1100 cubic yards of unclassified excavation.

Timber Crossing

On the same day bids will be opened for construction of a timber bridge across San Juan Creek, about 88 miles east of Santa Margarita in San Luis Obispo county.

The bridge will consist of sixteen 19-foot spans on pile bents. About 0.3 mile of highway are to be graded and surfaced. Principal items include: 2700 cubic yards of unclassified excavation; 55 tons of liquid asphalt of various types; 30,000 pounds of bar reinforcing steel; 3770 lineal feet of treated Douglas fir piles; and 72,000,000 BFM of various lumber.

BIDS JAN. 26 ON CATENARY, FEEDER WORK

State Calls for New Bids on Bay Bridge Railway Wire Contract

Bids for construction of the catenary and feeders for the bridge railway facilities on the main bridge, San Francisco loop and East Bay Yard yesterday were called by the San Francisco-Oakland Bay Bridge Division of the State Department of Public Works.

Bids will be opened at 2:00 P. M. on January 26 in the Bridge Division offices, 500 Sansome street.

The low bid of \$484,507 on the original contract, submitted October 13 by Alta Electric and Mechanical Company, was rejected some time ago.

Several changes are involved in the new call for bids for construction of the catenary, popularly known as "trolley wires", and feeders for the San Francisco-Oakland Bay Bridge.

The original contract involved two proposals, one for the main bridge and San Francisco loop, and the other for the East Bay Yard, but it was specified that the entire job would be awarded as one contract, the division being made for purposes of record.

Three Proposals

The present contract involves three proposals, due to an addition of Proposal C involving construction of the complete job. The Bridge District yesterday announced that they reserve the right to award the contract on any combination of proposals which will result in the lowest sum for the entire project.

A new item under Proposal A, involving the main bridge and San Francisco loop, calls for a power line to the San Francisco terminal. Changes in Proposal B include the addition of an item calling for three disconnect switches, 1200 amperes, Type R; and a drop from eight to seven disconnect switches, 1200 amperes, Type H.

ADVERTISE 1st MAJOR WORK AT ALAMEDA BASE

The opening gun of the \$14,500,000 Naval Air Station construction program at Alameda was fired today as the Navy Department Bureau of Yards and Docks called for bids on a contract to cost approximately \$950,000.

Bids will be opened January 26.

The contract calls for dredging and filling; stone seawalls and jetties; and steel sheetpile bulkheads and pier at the Naval Air Station in Alameda.

The work involved involves construction of the principal waterfront improvements necessary to the air station, it is said.

Other Contracts

No announcement was made today as to when other contracts for work on the air station will be put on the market. Basic improvements on the harbor, incorporated in the current contract, must be underway before further construction can be started on the station which is slated to be one of the key factors in the Navy's aerial defense plan for the Pacific Coast.

The specification number is 8414. Plans and specifications may be obtained from the bureau office here, or from the office of the Commandant, Twelfth Naval District in the Federal Office Building, San Francisco. The deposit is \$10.00.

In addition, bids were called today for construction of a \$90,000 galley bakery and cold storage plant at San Diego. Bids will be opened January 11. On February 16, bids will be opened for construction of a drydock pumping plant at Mare Island.

American Road Builders Prepare for 1938 Convention in Cleveland January 17-21

Details of the program for the 1938 Convention of the American Road Builders' Association, to be held January 17 to 21 in Cleveland, were announced this week.

The convention will open Monday afternoon, January 17, with a general session. Speakers will be: President Willard T. Chevalier of the American Road Builders' Association; Governor Martin L. Davey of Ohio; Mayor Harold H. Burton of Cleveland; Chief Thos. H. MacDonald of the Bureau of Public Roads; and President C. H. Purcell of the American Association of State Highway Officials.

Soil Stabilization

Featured on Tuesday will be two soil stabilization sessions under the chairmanship of H. F. Clemmer, engineer of materials. Topics at the morning session will include: Stabilization with Asphalt; Stabilization with Calcium Chloride; Surface Consolidation and Dustless Maintenance of Gravel Roads; and Application of Stabilization Principles to Highway Fill Construction.

Stabilization with asphalt, Portland cement, tar and sodium chloride will be discussed at the afternoon session. Following this a joint committee of the A.R.B.A. will give its report on: "Development of Highway Construction Equipment."

Tuesday will be devoted to two safe highways sessions; the highway contractors' session; and the State highway officials' and highway contractors' session.

Safe Highways

The safe highways sessions will consist for the most part of committee reports on a variety of subjects. The highway contractors' session will be under the chairmanship of William P. McDonald. Addresses will include: Mountainous Highway Construction Problems, and Economic Limits to Day Labor Work.

Wednesday will open with a drainage session presided over by C. A. Hogentogler of the Bureau of Public Roads. Following this will be sessions of county highway officials, municipal officials, the National Highway Advisory Council, and the executives of affiliated associations.

Principal topics include: The Importance of Drainage in Low Cost Road Construction; Asphalt in Modern Street Construction; Bituminous Macadam; Modern Concrete Street Design and Construction; Modern Brick Pavements for Municipal Streets; Modern Street Lighting; and reports of various committees.

Planning Session

The following sessions are planned for Thursday: Diversion session; Educational session; Pan-American session; and the Planning session.

At the latter session County Planning Engineer Revo Conover of Monterey county will speak on "The Engineer's Place in County

HEPLE SUBMITS LOWEST BID ON SANGER BRIDGE

SACRAMENTO, Jan. 5. — Low bids aggregating approximately \$85,000 were submitted today to the State Division of Highways here for two Northern California projects.

Earle W. Heple, 494 Delmas Avenue, Lake, San Jose, was low bidder at \$57,845 for construction of a steel girder bridge and approaches about three miles south of Sanger in Fresno county.

Only two other proposals were submitted on this contract. They were from A. Soda & Son, Oakland at \$60,581; and Bodenhamer Const. Co. and W. K. Van Bokkelen Construction, Oakland, bidding jointly, at \$72,452.

Seven Spans

The bridge will consist of five 74-ft. spans and two 65-ft. spans. It will require, among other items, some 215,000 pounds of structural steel.

Fredericksen & Westbrook, Lower Lake, submitted a low bid of \$28,789 for grading and surfacing with crushed gravel or stone about five and one-half miles in San Joaquin county, between Bacon Island Ferry and Mandeville Island Ferry.

Second and third low bidders, respectively, were Claude C. Wood, Stockton, at \$29,880 and Louis Biasotti & Son, Stockton, at \$30,036.

EASTBAY WPA AREA OFFICE IS MOVED

The Area Office of the Works Progress Administration for Alameda and Contra Costa counties will be located on the second floor of the Old Hall of Records Building, Fifth and Broadway, Oakland, effective immediately, it was announced yesterday. The same telephone number, Hlgate 6833 is continued in use for all departments.

All mail should be addressed: Works Progress Administration, Walter P. Koetitz, Branch Manager, Area 8, 440 Broadway, Oakland, it is stated.

Regional Planning Boards.

Highways and Modern Traffic Needs; Flight Strips for the Safety of Aircraft and Motor Vehicles; and Some New Aspects of Highway Planning, are topics for other addresses.

CITY RECEIVES PROPOSALS FOR MINOR PROJECTS

Healy-Tibbitts Bids Islais Creek Bridge Fender Work

Bids on four jobs costing in excess of \$30,000 in the aggregate yesterday were opened by the San Francisco Department of Public Works and the Public Utilities Commission.

Healy-Tibbitts Const. Company, at \$26,465, submitted the low bid to Director William H. Worden of the Department of Public Works on the largest contract of the day which called for construction of fenders at the Islais Creek Bridge.

DeLuca and Son, Inc., at \$27,690, submitted the second lowest bid. Other bidders were: The Duncanson-Harrelson Co., \$28,853; M. B. McGowan, Inc., \$29,273; and A. W. Kitchen and Company, \$30,655.

Bids were taken on four items. They were: lump sum for removing fenders and dolphins; 15,000 lineal feet driving timber treated piles; 50 MFBM installing timber wales for fenders; and lump sum for the electrical work.

School Lunchroom

DeLuca and Son, at \$3333, submitted the low bid for construction of a lunchroom at the John Muir School. Other bidders included: Empire Construction Co., \$3387; Frank J. Reilly Co., \$3431; M. E. Vukicovich, \$3493; and Bureau of Public Buildings, \$3788.

Albert E. Mangs and Associates, at \$279, submitted the low bid to the Public Utilities Commission for removing a smoke stack at Belmont Pumping Station.

L. H. Nishjian was appointed engineer for construction of Franklin School addition, it was announced following the meeting. Plans and specifications for the \$42,000 addition have been prepared by City Architect Charles H. Sawyer. The four-room addition will be constructed of reinforced concrete to the floor line; the superstructure will be of frame construction to conform with the present building, according to Mr. Sawyer.

MARCH OF PROGRESS BROADCASTS RESUME

Returning to the air after two weeks holiday lay-off, the March of Progress of the California State Chamber of Commerce again presents its highlights in the development of California at 9:15 P. M. over the Blue Network of the National Broadcasting Company, released in San Francisco over Station KGO.

Stories of agricultural and industrial progress, of the border automobile checking stations, social security, what to do about seasonal labor and other topics will be on the March of Progress narrator's initial 1938 program.

PLANNING HOME DESIGN CONTEST FOR EXPOSITION

Fair Officials Report Material Groups to Sponsor International Competition

Executives of the 1939 Golden Gate International Exposition yesterday announced that plans are being considered for a \$250,000 international home design contest to be sponsored by groups of material manufacturers under the direction of the Exposition.

Both architectural plans and interior decoration design are included in the proposed quarter of a million dollar competition which is expected to attract leading architects, artists and decorators throughout the world. In order that the ideal home of the future may evolve out of the ideas submitted, few restrictions will be put upon the competitors except that the homes be practicable and livable. To encourage the development of all types of homes it is planned to hold separate competitions for various types and sizes of homes.

It is proposed that the home design competitions be divided into three main classifications: houses to cost not more than \$5,000; houses unlimited in cost; and prefabricated houses. Under present plans the prefabricated house contest will be held in sections including competitions for steel, pre-cast concrete, wood and other types of houses.

Group Sponsorship

According to present plans each of these house competitions will be sponsored by one or more groups of material manufacturers under the direction of the Exposition. Prize winning designs will become the property of the manufacturing groups sponsoring the competition.

It is felt that in the small homes competition will bring out many novel new styles which find ready acceptance with the public. With the prefabricated houses popularity, low cost and large scale production are all interdependent. In order that winning designs may receive the greatest possible publicity, it is expected that the majority of prize homes will be built on the Exposition grounds to be viewed by millions of visitors during the Exposition.

Among the various groups expected to participate in the home design competitions are the home builders and subdividers of the Bay region; various cement companies; lumber, pressed wood, flexwood and plywood firms; manufacturers of metal lath, tiles, terra cotta, composition flooring, brick stone, paint, wall paper, finish hardware; and many other concerns.

Interior Decoration

In the interior decoration competition famous artists of both Europe and America will be invited to participate, according to

ASK BIDS FOR STREET, SEWER WORK AT SHASTA

Camp Utilities Contract Advertised by Reclamation Bureau

SACRAMENTO, Jan. 3. — Bids for construction of streets and utilities at the Government Camp at Shasta Dam site were invited today by Construction Engineer W. R. Young of the U. S. Bureau of Reclamation.

Proposals for the contract, one of the final jobs at the Kennett Division camp, will be opened at the Bureau's office here February 1.

The street and utilities work will be similar to that performed at Friant camp.

The contract calls for construction of street, driveway and sidewalk grading and surfacing, and for installation of sewer and water systems for the camp, which is located about nine miles north of Redding. Plans are available from the Bureau office in Sacramento. No charge is made to prospective bidders for plans; the price to others is \$1.50, not returnable.

(List of estimated quantities appears today in Advance Report section.)

DENVER, Colo., Jan. 3. — Bids for furnishing a trickling filter for the sewage disposal system at the Government camp near Redding, Calif., will be opened by the U. S. Bureau of Reclamation office here January 19. Chief Engineer R. F. Walter announced today.

Edwyn A. Hunt, chairman of the Exposition's design contest committee.

One of the proposed competitions will be along the lines of strictly "Americana" lines. "There is no design in home furnishings today that can be called true and modern American," Hunt declared. "It is our hope through this contest to define as 'American' one of the major contemporary movements in the art of home furnishings."

The American design today is a hedge-nodge of what various prominent designers think the American theme ought to be, Hunt pointed out, and there is nothing to which an interior decorator can point to as truly American.

Charles Maury, architect, and other committee members including Ben Davis, of S. & G. Gump Co., Marta K. Seronen of the San Francisco Furniture Exchange, F. Eldon Baldauf, modern designer, and Al Lilly have outlined the technical specifications for the competitions which will be submitted to the leading manufacturers of home building materials and furnishings.

REA PROJECTS' POWER BROUGHT TO 50,000 HOMES

Work Now Underway Will Serve 175,000 Families, Administrator Reports

Approximately 175,000 farm families will receive electric service from \$60,000,000 worth of rural power lines which REA borrowers have under way or completed, Administrator John M. Carmody announced this week.

In a paper presented before the American Farm Economic Association at Atlantic City, Mr. Carmody pointed out that 50,000 farm families are already benefiting from electricity brought to them over rural lines built by REA borrowers. "REA is bending every effort to complete the additional construction," he said, adding:

"In the two and one-half years which have elapsed since the Rural Electrification Administration was created, a trained organization has been built up, its functions have been expanded to meet the needs of a developing program, and its policies have been shaped by the forces which the Administration has encountered."

Declaring that REA has also provided a powerful stimulus to farm electrification by the utilities, Mr. Carmody said:

Utilities' Projects

"In the two years 1933 and 1934 these utilities electrified a total of thirty-four thousand farms. In the first two and one-half years of the REA, they electrified over three hundred thousand farms and today one farm in every six in this country enjoys some of the benefits of electricity. These figures afford a measure of the progress of rural electrification in recent years."

Referring to the effect of the rural electrification program upon industry, Mr. Carmody said:

"The Federal Government continues to be faced with the problem of providing productive employment for this nation's labor reservoir. The current recession of activity in industry makes imperative new orders for materials and equipment to maintain employment and profits.

Net Cost Modest

"Self-liquidating loans for constructive rural electrification projects provide productive employment and help to stimulate industry at a very modest net cost to the Federal treasury. Furthermore, for every dollar for rural line construction the Federal Government lends, the farmer spends another dollar for wiring his farm and purchasing appliances."

Production of galvanized tanks for hot water heaters during the first ten months of 1936 amounted to 218,895 units, as compared to production of 131,501 units for the same period in 1936, the Bureau of Census announces.

1,337,000,000 Man-Hours of Industrial Employment Created During PWA's 4 Yrs.

More than one and a third billion man-hours of industrial employment were created in four years by the non-Federal PWA program, the Bureau of Labor Statistics of the Department of Labor yesterday reported to Public Works Administrator Harold L. Ickes.

Establishment of the one and a third billion hour figure solved one of the great unknowns of the PWA program, for the full regenerative extent of the "behind the lines" employment had not been measured heretofore. The figure represents the industrial employment from the non-Federal program only, and is in addition to the 1,423,183,000 man hours of direct construction site employment shown by PWA contractors time sheets. Both the indirect and construction site employment of the PWA Federal construction program for which approximately half of the PWA funds were expended were excluded from the one and a third billion figure.

Winding up a searching analysis of the effect of the PWA program on industry from July of 1933 to July of 1937, the Bureau found that PWA non-Federal projects originated material orders which created a vast pool of employment extending throughout American industry. It revealed a record of sharply rising employment at mills and factories supplying materials for the program, and extensive revival of heavy industry laid idle by the depression.

It disclosed release of millions of dollars in industrial pay rolls created on the site of projects, and painted a picture of far-reaching stimulus of business through a program of public works.

The study revealed for the first time, on the basis of careful and accurate figures, just how far back flow the economic stimuli from a program of public works. It showed how a courthouse project in New Mexico furnished employment for glass workers in New York, coal miners in West Virginia, steel workers in Ohio and railroad workers in States across which materials traveled to reach the site. Carrying the study into terms of stimulation for heavy industry, employment for workers behind the lines and circulation of money released in direct and indirect pay rolls, the Bureau found:

1. That at least 1,337,000,000 man hours of employment in industry during the four-year period of recovery from the depression was directly traceable to PWA non-Federal project material orders.

2. That employment in heavy industries supplying materials for PWA construction rose precipitously during the four-year period, in some cases as high as 354 per cent and 618 per cent.

3. Approximately 1,415,546,299 man-hours of direct site labor was created on all types of PWA projects, including both Federal and non-Federal.

4. Some \$931,241,678 in pay rolls was put into circulation at PWA project sites.

5. Material orders placed by the program with private industry exceeded \$1,708,686,000. Contracts were let with a total value of \$3,-674,244,000.

The Bureau's survey of direct and indirect labor provided by PWA projects was one of the most comprehensive employment investigations ever undertaken and marked the first time the precise factors of employment arising out of public works has been measured. The study was conducted under the direction of Mr. Herman Byer, Chief of the Bureau's Division of Construction and Public Employment. It was based on actual job records, on PWA projects, contracts, pay rolls, time sheets, specifications, material production and consumption records, rail movements and industrial ledgers.

One of the most spectacular findings of the Bureau was the percentage of increase in employment in those industries supplying materials for PWA projects during the four-year period. Statisticians of the Bureau measured the amount of employment in these industries in 1933 and compared it with the employment in the same industries in 1937—four years later. In blast furnace, steel and rolling mills, they found employment increased 56.4 per cent over the period. Hardware employment went up 52.5 per cent. Structural and ornamental metalwork employment jumped 101.6 per cent.

In the manufacture of cars for electric and steam railroads, stimulated by PWA equipment loans, employment went up 354.2 per cent. Locomotive building, stagnant at the beginning of the period, skyrocketed its employment figures 618.8 per cent.

While all of the increase in employment in these and other industries is not attributed solely to the result of PWA material orders, the Bureau held that much credit for the increase can be given public works projects. Sharpest increases in employment in heavy industry were found in those lines of business which participated most fully in PWA activities.

The \$1,708,686,000 of orders for materials was divided over many lines of business. Forest products to the value of \$100,703,994 were purchased. A total of \$484,895,506 worth of stone, clay and glass products went into PWA projects. Iron, and steel and their products, not including machinery, to the extent of \$456,763,035 were purchased. A total of \$288,188,122

BIDS SCHEDULED ON YERBA BUENA SEPARATION JOB

\$235,000 Available for Second Island Roadway Contract; To Open Bids Jan. 21

Bids for the second contract in the Yerba Buena Island roadway program were invited last week by the U. S. Engineer office in San Francisco, with proposals scheduled for opening January 21.

Approximately \$235,000 is available for the project, according to Lt.-Col. J. A. Dorst, District Engineer.

Work involves construction of a roadway, with the exception of sub-grade preparation and paving, in a five-part grade separation structure, for a length of about 993 feet from the southern end of the recently completed portion of the road to the San Francisco-Oakland Bay Bridge.

In addition to the grade separation roadway, work will include continuation of the embankment about 890 feet along the causeway between the Island and the shoals fill to the north; and painting the exterior face of the wall board sheathing on certain of the existing trestles.

Principal Items

Among major bidding items are 4.5 acres clearing and grubbing; 78,900 cubic yards of unclassified roadway excavation; 1,586,000 station yards overhaul; 500 cu. yds. rock fill; 1,750 cubic yards Class A concrete; 198,000 pounds reinforcing steel; 760,000 pounds structural steel; 1,154,000 ft. of timber structures; 35,000 square feet of wall-board sheathing; 29,000 ft. of timber cribs; painting work; furnishing and laying corrugated metal pipe, and relocation of an existing sewer line.

Should cost of the work exceed available funds, progressive obligations have been arranged for in the specifications.

Orders for oil storage tanks during October, 1937, amounted to 13,002 short tons, a substantial increase over orders for 6,632 short tons taken during October, 1936, according to the Bureau of Census.

Shipments of domestic water softening apparatus for the first ten months of 1937 amounted to 10,796 units, as compared to shipments of 9,384 units during the same period in 1936, the Bureau of Census announces.

worth of machinery was bought, while \$90,032,332 went into transportation equipment, including land, water and air. Miscellaneous items such as coal, electric wiring and fixtures, furniture, paving materials, plumbing supplies, roofing materials, and the like accounted for \$228,811,606.

DENVER, Colo.—Until Jan. 17, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, Colorado, under Spec. No. 1012-D, for furnishing and delivering two 12-ft. by 7-ft. top-seal radial gates for the Siphon Drop power plant, Yuma Project, Arizona-California; and two 10-ft. by 5-ft. top-seal radial gates for the Leasburg canal sluiceway, Rio Grande Project, New Mexico-Texas. Gates will be installed by the Government; f.o.b. shipping point and/or railroad destination.

Plans and specifications may be obtained from the above office. * 25

BIDS WANTED

GRAND COULEE DAM.—Until Jan. 14, 2 P. M. (date postponed from January 4) bids will be received by the Bureau of Reclamation, Denver, Colo., under Spec. No. 764, for furnishing (1) twenty bulkhead gate frames and track units for installation at the inlet ends of the Outlet conduits from elevation 975.0 to elevation 1206; (2) three bulkhead gate frame and track units for installation at the inlet ends of station-service penstocks; (3) eighteen complete gate frames for the penstock inlet gates at the inlet ends of the main power penstocks, Grand Coulee Dam, Columbia Basin Project, Wash. Materials will be installed by the Government; fob shipping point and/or Odair, Wash.

Plans and specifications may be obtained from the above office.

BIDS WANTED

CENTRAL VALLEY PROJECT, Cal.—Until Jan. 19, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, Colo., under Spec. No. 1013-D, for furnishing and delivering one trickling filter, consisting of a sewage distributor with dosing siphon and wood tank for installation in a sewage disposal plant

at the Government camp at the Shasta Dam, Central Valley Project, Cal. Apparatus will be installed by the Government; f.o.b. shipping point and/or Redding, Cal.

Plans and specifications may be obtained from the above office. * 25

BIDS WANTED

PETALUMA, Sonoma Co., Calif.—Until Jan. 13, 5 p.m. (opened at 7:30 p.m.), bids will be received by the Petaluma City High School District, Dr. Hall Weston, Clerk, McNear Bldg., 19 Main St., Petaluma, for the installation of a deep well injector type pump to be installed on the property of the Petaluma City High School District, Petaluma.

Plans and specifications may be obtained from the above office. * 25

CONTRACTS AWARDED

KENDRICK PROJECT, Wyoming.—Joshua Hendy Iron Works, 206 Sansome St., San Francisco, at (1) \$25,326, and (2) \$1,378, f.o.b. Sunnyvale, was awarded contract by the Bureau of Reclamation, Washington, D. C., under Spec. No. 761, for furnishing (1) two 72-in. ring-follower gates, and (2) two bell-mouth castings for installation in the outlet works at the Seminole Dam, Kendrick Project, Wyo. * 25

BIDS OPENED

LOS ANGELES, Calif.—Following submitted bids to the U. S. Engineer, Los Angeles, under Circ. Prop. 196 for rental of (1) one dragline for 1800 hours, and (2) two draglines for 3600 hours.

B. W. Kuhn, disc 1% 20 da, (2) \$6.32 hr, \$22,652, all or none basis, No. 80 Northwest; deduct \$1 hr if vendor's operators are employed by government.

United Concrete Pipe Corp., (1) \$7.25 hr, \$13,050; Lima 1001; alt Lima 701, 2-yd, \$7.75 hr.

V. R. Dennis Constr. Co., disc 2% 30 da, (1) \$5.00 hr, \$9000; No. 87 Thew Loraine.

Pacific Crane & Rigging Co., (1) \$6.50 hr, \$11,700; Link-Belt K-55. Kuhn Bros., disc 1% 20 da, (1) \$6.75 hr, \$12,150; NW No. 80. If vendor's operators are employed by government, deduct \$1.00 hr.

Ray Sweitzer, disc $\frac{1}{2}$ of 1% 10 da, (1) \$7.50 hr; deduct \$1.10 hr if vendor's operators are used by government; Loraine No. 87. * 25

CONTRACT AWARDED

ALL-AMERICAN CANAL.—Valley Iron Works, Yakima, Wash., at (1) \$15,515 and (2) \$4548, awarded contract by the Bureau of Reclamation, Washington, D. C., under Spec. No. 997-D, for furnishing (1) eleven 16,000-lb. capacity and two 3500-lb. capacity radial gate hoists for the Pilot Knob check and wasteway; and (2) two 12,000-lb. capacity and four 3500-lb. capacity radial gate hoists for the new River crossing, All-American Canal. * 25

COMPLETE BIDS

LOS ANGELES, Cal.—The following bids were submitted to Metropolitan Water District, Los Angeles, under Spec. 256, for furnishing operation valves for Palos Verdes Feeder of the Colorado River Aqueduct. The bids were taken on schedules and items as follows:

SCHEDULE 1

Furnishing manually-operated conical plug type shutoff valves.

- (1) one 42-in. manually-operated rotating conical plug type valve, complete with 6-in. by-pass and operating mechan. for Oak Hill Shutoff;
- (2) two 30-in. manually-operated rotating conical plug type valves,

complete with 6-in. by-pass and operating mechanism for Brooklyn Ave. and Slauson Ave. shut-offs.

SCHEDULE 2C

Furnishing automatic pressure regulating assemblies with conical plug type valves for structures at Los Angeles River.

- (3) three automatic pressure regulating valve assemblies. Each assembly to consist of one 20-in. manually - operated gate valve with 2-in. by-pass, one 14-inch conical plug type valve for automatic regulation and shutoff with 2-in. by-pass, one 14-inch manually - operated conical plug type or follower ring gate valve with 2-in. by-pass, one erection coupling, steel plate reducers, pilot valves and other equipment necessary for the complete assembly and operation of valves;
- (4) if ordered within 30 days after date of contract, will furnish two additional automatic pressure regulating assemblies, complete, as described under item 3.

SCHEDULE 2G

Furnishing automatic pressure regulating assemblies with globe type valves for structure at Los Angeles River.

- (5) three automatic pressure regulating valve assemblies. Each assembly to consist of one manually - operated 24-inch gate valve with 2-in. by-pass, one 24-inch globe type valve for automatic regulation and shut-off with 2-in. by-pass, one 24-in. manually-operated conical plug type or follower ring gate valve with 2-in. by-pass, one erection coupling, steel plate nipples, pilot valves, and other equip. necessary for the complete assembly and operation of the valves;
- (6) if ordered within 30 days after date of contract, will furnish two additional automatic pressure regulating assemblies, complete, as described under item 5 of this schedule;

SCHEDULE 2P

Automatic pressure regulating assemblies with balanced plunger valves for structure at Los Angeles River.

- (7) three pressure regulating valve assemblies. Each assembly to consist of one 20-in. manually-operated gate valve with 2-in. by-pass, one 20-in. by 16-in. by 20-in. balanced plunger type valve for automatic regulation & shut-off with 2-in. by-pass, one 20-in. manually - operated conical plug type or follower ring gate valve with 2-in. by-pass, one erection coupling, steel plate nipples, pilot valves, and other equip. necessary for the complete assembly and operation of the valves;
- (8) if ordered within 30 days after date of contract, will furnish two additional automatic pressure regulating assemblies, complete, as described under item 7 of this schedule;

SCHEDULE 3P

Furnishing automatic pressure relief assemblies with balanced plunger type valves for structure at Los Angeles River.

- (9) two pressure relief assemblies. Each assembly to consist of one 16-in. manually - operated gate valve with 2-in. by-pass, one 16-in. by 12-in. by 16-in. automatically-operated balanced plunger type pressure relief valve, one erection coupling, steel plate nipples, pilot valves, and other equip. necessary for the complete assembly and operation of valves;

SCHEDULE 3A

Furnishing automatic pressure relief assemblies with angle type valves

for structure at Los Angeles River. Schedules 3P, 3A, and 3G are alternative.

- (10) two pressure relief assemblies. Each assembly to consist of one 16-in. manually - operated gate valve with 2-in. by-pass, one 16-in. automatically - operated angle type pressure relief valve, one erection coupling, steel plate nipples, steel elbows, pilot valves & other equip. necessary for complete assembly and operation of the valves;

SCHEDULE 3G

Furnishing automatic pressure relief assemblies with globe type valves for structure at Los Angeles River. Schedules 3P, 3A, and 3G are alternative.

- (11) two pressure relief assemblies. Each assembly to consist of one 18-in. manually - operated gate valve with 2-in. by-pass, one 15-in. automatically - operated globe type pressure relief valve, one erection coupling, steel plate nipples, pilot valves, and other equip. necessary for the complete assembly and operation of valves;

SCHEDULE 4

Furnishing slide gate assemblies for Ascot structures.

- (12) two 54-in. dia. slide gate assemblies. Each assembly to consist of gate leaf, frame guides, stem, floor stand and other equip. necessary for the complete assembly and operation of the slide gates for Ascot wasteway and Ascot diversion box struc.;

SCHEDULE 5

Furnishing gate valve assembly for Ascot outlet.

- (13) one flanged 30-in. manually-operated gate valve assembly complete with operating mechanism.

SCHEDULE 6

Furnishing the services of erecting engineers.

- (14) services of one or more erecting engineers.

The bids were:

Commercial Iron Works, Portland, Ore.—Sch. 1 item (12) \$1490; use or sales tax to be added. Gross ship wt 4200 lbs; dunnage, etc, 300 lbs; net wt for erection 3900 lbs. Disc 1/2 of 1%. Feb Portland. No bids other schedules.

CONTRACT AWARDED

ORANGE CO., Cal.—Foster Sand & Gravel Co., Fullerton, submitted only bid and was awarded contract by State Highway Department, 808 State Bldg., Los Angeles, Dec. 30, for the rental of truck and trailer equipment for transporting heavy equipment in Orange County.

Bids taken as follows:

- (a) Hauling with standard truck and

- for trailer 10 tons maximum net load;
- (b) same, over 10 tons to and incl. 14 tons net load;
- (c) same, over 14 tons to and incl. 24 tons net load;
- (d) Hauling where low bed trailer required, 14 tons max. net load;
- (e) same, over 14 tons to and incl. 24 tons net load;
- (f) same, 24 tons to and incl. 35 tons net load.

The bid was: (a) \$3; (b) \$3.75; (c) \$4.50; (d) \$5.50; (e) \$6; (f) \$7. * 25

BIDS OPENED

OAKLAND, Cal.—Sam Bates Company, 1925 Dennison St., Oakland, at \$976.00 submitted only bid to Oakland City Council, W. W. Chappell, City Clerk, City Hall, for furnishing one used drum hoist. * 25

26—RAILROADS

January 5, 1938.

BIDS WANTED

SAN FRANCISCO AND ALAMEDA COS., Calif.—Until Jan. 26, 2 p.m., bids will be received by the State Department of Public Works, San Francisco-Oakland Bay Bridge Division, Room 811, 500 Sansome St., San Francisco, for the construction of the catenary and feeders of the railway facilities of the San Francisco-Oakland Bay Bridge.

Work involves:

PROPOSAL A

CONTRACT R-10—Main Bridge and San Francisco Loop

- (1) Feeder cables at San Francisco substation;
- (2) Feeder cables at Island substation and tie station;
- (3) W-4 tie station;
- (4) Island tie station building and equipment;
- (5) E-7 tie station;
- (6) 12 disconnect switches, 1200 amperes, Type K;
- (7) 12 disconnect switches, Type R, at San Francisco terminal and anchorage;
- (8) 5,000 lb. inf. feeder cable;
- (9) Jumper cables at bridge expansion joints;
- (10) 15,000 lbs. misc. iron;
- (11) Overhead construction;
- (12) Power line to San Francisco terminal.

PROPOSAL B

CONTRACT R-21C—East Bay Yard

- (13) Feeder cables at Mole substation;
- (14) Yard tie station;
- (15) East End tie station;
- (16) 7 disconnect switches, 1200 amperes, Type H;
- (17) 6 disconnect switches, 1200 amperes, Type B-SPDTC;
- (18) 3 disconnect switches, 1200 amperes, Type R;
- (19) Connections, 600-volt overhead, to contact rail;
- (20) 35,000 lbs. misc. iron;
- (21) Overhead construction;
- (22) Power line to inspection buildings.

Bids will be received from contractors properly prequalified therefor on any or all of the following proposals:

Proposal A: Covers Contract R-10 catenary and feeders, main bridge and S. F. loop, bidding items 1 to 12.

Proposal B: Covers Contract R-21C catenary and feeders, East Bay yard, bidding items 13 to 22.

Proposal C: Covers Contract R-10 catenary and feeders, main bridge and S. F. loop and East Bay Yard, bidding items 1 to 22.

The Engineer reserves the right to award the contract on any combination of the above proposals A to C that will result in the lowest sum for the entire work.

Plans and specifications may be obtained from the above office. * 26

29— STREETS AND HIGHWAYS

BIDS WANTED

SAN FRANCISCO.—Until January 21, 3 P. M., bids will be received by the U. S. Engineer Office, 401 Custom House, San Francisco, under Bid No. ER-868-38-81, for the construction of a roadway, less paving and preparation of subgrade, on the west side of Yerba Buena Island, for a length of approximately 933 ft. from the southern end of the recently completed portion of the roadway to the San Francisco-Oakland Bay Bridge. Roadway varies in width from 64 ft. to 130 ft. in a five part grade separation structure. The construction of the roadway includes disposal of roadway excavation so as to continue the construction of the causeway fill from Yerba Buena Island to the fill to the north.

Work involves:

- (1) 4.5 acres clear and grub;
- (2a) 78,900 c.y. rdwy. excav., unclass.
- (2b) 1,586,000 cu. yds. overhaul;
- (2c) 500 c.y. rock fill;
- (3) 2,000 M. gals. water for embankments;
- (4a) 4,130 c.y. struc. excav., unclass.;
- (4b) 3,650 c.y. struc. backfill;
- (5) 1,750 c.y. Class A concrete;
- (6) 198,000 lbs. reinforcing steel;
- (7) 700,000 lbs. structural steel;
- (8) 1,154 MBM timber structures;
- (9) 35,000 sq. ft. wallboard sheathing;
- (10) 29 MBM timber cribs;
- (11) 58,300 sq. ft. painting woodwork
- (12a) 35,000 sq. ft. painting sheathing three coats;
- (12b) 25,000 sq. ft. painting sheathing, finish coat on prior work;
- (13a) 700 l.f. 8-inch corr. pipe;
- (13b) 310 l.f. 12-inch corr. pipe;
- (13c) 500 l.f. 18-inch corr. pipe;
- (13d) 100 l.f. 4-inch drain tile;
- (14) 1 complete relocate sewer line item.

Plans and specifications may be obtained from the above office upon deposit of \$10.00. * 29

COMPLETE BIDS

COCONINO CO., Ariz.—J. A. Casson, Phoenix, and 319 Warren Street, Hayward, Cal., at \$62,570, submitted low bid to the U. S. Bureau of Public Roads, New Post Office Building, Phoenix, for placing bituminous treated crushed rock surfacing (Class F) on 14,605 ml. of Section A1 and A2, Rt. 1, and Sections A1, A2 and B of Rt. 2, Grand Canyon National Park, Coconino Co., Ariz.

Work involves:

- (1) 500 tons crushed rock shoulders;
- (2) 85 tons applying Government-furnished emulsified asphalt for tack coat;
- (3) 4000 tons Class F, dense plant mixture for wearing course;
- (4) 850 tons Class F, dense plant mixture for wearing course.

Total bids follow:

(A) J. A. Casson, Phoenix.....	\$62,570.00
(B) Sou. Calif. Roads Co., Los Angeles	67,530.00
(C) Olof Nelson, Logan, Utah	69,635.00
(D) Pearson & Dickerson, Prescott	76,698.75
(E) Lee Moor Contract Co., El Paso	79,850.00

Unit prices follow:

Requests for the above plans, specifications and proposal form must be addressed to the office of the State Highway Engineer, P.O. Box 1499, Sacramento, Calif.

† To be opened in San Francisco January 21, 1938.

§ To be opened in Los Angeles on January 20, 1938.

* To be opened in Sacramento on January 19, 1938. * 29

CONTRACT AWARDED

CLARK CO, Nevada.—Silver State Construction Co., Inc., Fallon, Nev., at \$25,049.84, submitted low bid and was awarded contract by the Nevada State Department of Highways, Heroes Memorial Bldg., Carson City, Nev., for 7.34 ml. of highway construction from Jean to Goodsprings, Rt. 53, Sec. A, Clark Co., Nev.

Three low bids follow:
Silver State Construction Co., Inc., Fallon, Nevada—\$25,049.84.

Young & Son Co., Ltd., Berkeley—\$25,062.52.

Nevada Rock & Sand Co., Inc., Reno—\$25,971.01.

Complete bids will be published shortly. * 29

BIDS OPENED

HICKAM FIELD, T. H.—Hawallan Contracting Co., Honolulu, at \$412,706, submitted low bid to the Purchasing and Contracting Officer, Hickam Field, for the construction of the landing mat at Hickam Field, T. H.

Moses Akiona, Honolulu, at \$425,000, submitted second low bid. * 29

COMPLETE BIDS

LYON CO., Nev.—Nevada Rock & Sand Co., Inc., Reno, at \$59,967.64, submitted low bid to the Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, for the construction of 4.10 miles of highway from 8.5 miles north of Wabuska to Weeks, Route 2E, Section B, Lyon County, Nevada.

Work involves:

- (1) 76 each remove trees;
- (2) 15 each remove stumps;
- (3) 7,347 l.f. remove fence;
- (4) 178 l.f. remove culvert pipe;
- (5) 1 each remove check gate;
- (6) lump sum remove bridge;
- (7) 54,801 c.y. rdwy. excav.;
- (8) 2,540 cu. y. drainage excav.;
- (9) 54 sta. V type ditches;
- (10) 57 sta. slope rounding;
- (11) 143,749 yd. sta. overhaul, yd. sta.
- (12) 17,823 yd. m. overhaul, yd. ml.;
- (13) 750 c.y. struc. excav.;
- (14) 825 c.y. backfill;
- (15) 4.07 miles subgrade, type C;
- (16) 8 M. gals. water;
- (17) 8,775 tons Type 1 gravel base;
- (18) 17,608 tons gravel surface;
- (19) 191 c.y. Class A concrete;
- (20) 35 c.y. Class B concrete;
- (21) 276 c.y. Class D concrete;
- (22) 52 c.y. Class D concrete, for seal
- (23) 318 l.f. concrete rail;
- (24) 79,020 lbs. reinf. steel;
- (25) 4,330 lbs. struc. steel;
- (26) 0.25 MFPM Redwood;
- (27) 1,440 l.f. untreated timber piles;
- (28) 480 l.f. treated timber piles;
- (29) 64 each drive timber piles;
- (30) 820 l.f. 18-in. corr. metal pipe;
- (31) 314 l.f. 24-in. do;
- (32) 210 l.f. 36-in. do;
- (33) 68 l.f. relay culvert pipe;
- (34) 7,203 l.f. reconstruct fence;
- (35) 45 each monuments;
- (36) 45 l.f. timber curb;
- (37) lump sum reconstruct railroad crossing.

Complete bids follow:

- (A) Nevada Rock & Sand Co., Inc., Reno, \$59,967.64.
- (B) Silver State Const. Co., Inc., Fallon, Nev., \$65,015.80.
- (C) Dodge Const., Inc., Fallon, Nev., \$67,422.09.

BIDS WANTED

HOOD RIVER, Ore.—Until Jan. 12, 3 P. M. (date postponed from Jan. 6) bids will be received by the U. S. Engineer Office, Bonneville, Oregon, under Bid No. 694-33-197, for the construction of an overhead railroad crossing and approach roads, road surfacing, a system of drainage, a pump-house, and miscellaneous concrete work at Hood River, Oregon.

Work involves:

- (1) 2110 c.y. unclass. excav.;
- (2) 1000 c.y. unclass. borrow;
- (3) 30 hours furnishing and operating 10-ton roller;
- (4) 550 c.y. excav., drainage system;
- (5) 10 l.f. 12-inch vit. clay or conc. sewer pipe, in place;
- (6) 170 l.f. 10-inch do;
- (7) 150 l.f. 8-inch do;
- (8) 900 l.f. 6-inch clay drain tile, in place;
- (9) 300 c.y. rock surfacing, 4-inch to 0-inch;
- (10) 180 c.y. rock surfacing, 1½ in. to 0-inch;
- (11) 50 c.y. filler;
- (12) 95 c.y. Class A conc., in place;
- (13) 245 c.y. Class B conc., in place;
- (14) 23,800 lbs. reinf. steel, in place;
- (15) 1526 lbs. electrically welded fabric, in place;
- (16) 4/10-mil. preparation of base;
- (17) 360 c.y. mineral agg., in place;
- (18) 26 tons 95/ road oil, in place;
- (19) 17 tons cutback asphalt, in place;
- (20) 1235 cu. yds. oil mat surface treatment, on trestle;
- (21) 462 l.f. wooden asphalt superstructure;
- (22) 100 MFEM wooden trestle substructure;
- (23) 52,000 lbs. struc. steel, in place;
- (24) one job misc. ferrous metal, in place;
- (25) one job painting;
- (26) one job sluice gate, in place;
- (27) one job transfer of posts.

Plans and specifications may be obtained at the above office. 29

CONTRACT AWARDED

WASHOE CO., Nev.—Isbell Constr. Co., Reno, Nevada, at \$21,828.09, submitted low bid and was awarded contract by the Nevada State Dept. of Highways, Heroes Memorial Bldg., Carson City, Nev., for 1.70 mi. highway construction from Junction with State Route 3 to a point approximately two miles west, Rt. 27, Sec. B, Washoe Co., Nev.

Three low bids follow:

Isbell Constr. Co., Reno, Nevada—\$21,828.09.

Dodge Construction Co., Inc., Falcon—\$22,677.04.

Nevada Rock & Sand Co., Inc., Reno—\$26,961.74.

Complete bids will be published shortly. 29

BIDS WANTED

SOUTH GATE, Los Angeles Co., Cal.—Until Jan. 24, 7:30 P. M., bids will be received by South Gate city council for improvement of California Ave. between Southern Ave. and Tweedy Blvd., about .42 mi. in length. Work involves:

- (1) 4945 sq. yds. excav. and preparation of subgrade;
- (2) 1300 tons furnishing, spreading and rolling decomposed granite;
- (3) 8 sewer manholes raised and set to grade;
- (4) 112 tons coarse agg. asphalt base furnished, spread and rolled;
- (5) 1497 tons surface finish asphalt concrete, furnished, spread and rolled.

Cash, certified or cashier's check for 10% must accompany bid. Specifications available from City Engineer, City Hall, South Gate.

AIR CORPS BARRACKS, HICKAM FIELD, T. H.

AIR CORPS BARRACKS, ETC.
HICKAM FIELD, T. H.

Construct and complete four 132-man Air Corps Barracks, one 200-man Air Corps Barracks (Est. cost, \$660,000), and one Quartermaster Warehouse (Est. cost, \$110,000), together with all utilities thereto.

Owner—U. S. Government (Capt. H. B. Nurse, Constructing Quartermaster).

Plans prepared by the Office of the Quartermaster General, Constructing Division, Washington, D. C. Bids were received as follows: (1)

As previously reported, three low bids received at Hickam Field follow: Tucker McClure, Canal Zone, \$811,600; Pioneer Constr. Co., Seattle, Wash., \$823,000; MacDonald Constr. Co., St. Louis, Mo., \$835,533. (5666) 1st report Nov. 8; 5th, Jan. 4, 1937.

BIDS WANTED

STATE OF WASHINGTON.—Until Jan. 18, 10 a.m., bids will be received by the Director of Highways, L. V. Murrow, Olympia, Wash., for highway and bridge construction, as follows:

Jefferson County: Clearing, grading, draining and surfacing of about 3.2 miles of Primary State Highway No. 9, Brinnon to Quilcene (Walker Mountain Section), Federal Aid Project No. 136-I, in Jefferson Co., Washington, involving about 30 acres of clearing, 231,490 c.y. of excav., 2,310 c.y. of shoulder material, 7,930 c.y. of crushed stone surfacing, 77 c.y. of concrete, 14,220 lbs. of steel reinforcing bars, 8,920 l.f. of cable guard rail design No. 6, 5,200 l.f. of half-round corrugated metal gutter, 1,675 l.f. of pipe culverts and other items.

Grays Harbor County: Clearing, grading, draining and surfacing of about 5.1 miles of Primary State Highway No. 9, Cook Creek Hill to Quinalt, Federal Aid Project No. 43-B, in Grays Harbor County, Wash., involving about 28 acres of clearing, 49,280 c.y. of excav., 36,710 c.y. of selected roadway borrow, 2,980 c.y. of shoulder material, 15,690 c.y. of crushed stone surfacing, 95 c.y. of concrete, 13,300 l.f. of steel reinforcing bars, 1,927 l.f. of pipe culverts, and other items.

Pacific County: Paving with Portland cement concrete and widening four concrete bridges of about 0.2 mile of Primary State Highway No. 12, Globe to Cramers Crossing, Bridge Widening, Federal Aid Project No. 131-F, in Pacific County, Wash., involving about 1,625 c.y. of excav., 2,096 sq. yds. of cement concrete pavement, 794 c.y. of concrete, 155,290 lbs. of steel reinf. bars, 1,400 lin. ft. of precast concrete piling, 68 lin. ft. of pipe culverts, and other items.

Adams County: Clearing, grading, draining, surfacing and stockpiling crushed stone on about 15.5 mi. of Primary State Highway No. 18, Sec. 1, Neppel to Adams County Line, and Section 2, Burke to Neppel, State Project, in Grant County, Washington, involving about 347,710 c.y. of excav., 103,610 c.y. of ballast, 47,770 c.y. of crushed stone surfacing, 24 c.y. of concrete, 23 MFEM of treated and 1 MFEM of untreated timber and lumber, 1,968 lin. ft. of pipe culverts and other items.

Lincoln County: Manufacturing and stockpiling crushed stone surfacing and mineral aggregates (oil rock) on Primary State Highway No. 22, Dav-

enport to Detillion Bridge, State Project, in Lincoln County, Wash., involving about 6,000 c.y. of crushed stone surfacing and 2,500 c.y. of mineral aggregates (oil rock).

Cowlitz County: Surfacing with crushed stone, manufacturing and stockpiling mineral aggregates (oil rock) and constructing a light bituminous surface treatment on about 15.0 miles of Secondary State Highway No. 1-R Junction Primary State Highway No. 1—Easterly, State Project, in Cowlitz County, Wash., involving about 24,190 cubic yards of crushed stone surfacing, 3,115 cubic yards of mineral aggregates (oil rock), 370 tons of bituminous cement, and other items.

Whitman and Spokane Counties: Surfacing with crushed stone and constructing a light bituminous surface treatment on about 15.9 miles of Secondary State Highway No. 3-H, Tekoa to Fairfield, State Project, in Whitman and Spokane Counties, Washington, involving about 25,915 cu. yds. of crushed stone surfacing, 390 tons of bituminous cement, and other items.

Thurston County: Manufacturing and stockpiling crushed stone surfacing and mineral aggregate (oil rock) on Secondary State Highway No. 5-I, Yelm-West, State Project, in Thurston County, Washington, involving about 5,440 cu. yds. of crushed stone surfacing and 1,220 cu. yds. of mineral aggregates (oil rock).

Okanogan County: Surfacing with crushed stone, manufacturing and stockpiling mineral aggregates (oil rock) and constructing bituminous retreat surface and bituminous surface treatment road-mix type, class "B," on about 15.1 miles of Secondary State Highway No. 10-A, Mason City to Nespelem, State Project, in Okanogan County, Wash., involving about 13,670 cubic yards of crushed stone surfacing, 13,980 cubic yards of mineral aggregates (oil rock), 912 tons of bituminous cement, and other items.

Plans and specifications may be obtained from the above office upon deposit of \$2.00. * 29

BIDS OPENED

SAN JOAQUIN CO., Cal.—Fredericksen & Westbrook, P. O. Box 132, Lower Lake, at \$28,789.50 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for grading and surfacing with untreated crushed gravel or

stone, 5.5 miles between Bacon Island Ferry and Mandeville Island Ferry, San Joaquin County.

Work involves:
 (1) 500 M. gals. water;
 (2) 10,000 s.y. rdwy. excav., unclass.;
 (3) 65,000 sta. yds. overhaul;
 (4) 14,850 tons of untreated crushed gravel or stone surf.

- Total bids follow:
 (A) Fredericksen & Westbrook, P. O. Box 132, Lower Lake, \$28,789.50.
 (B) Claude C. Wood, Stockton, \$29,880.00.
 (C) Louis Biasotti & Son, Stockton, \$30,036.00.
 (D) E. A. Forde, San Anselmo, \$31,391.50.

BIDS WANTED

MARICOPA and Yuma Cos. Ariz.—Until Jan. 18, 10 A. M., bids will be received by Howard S. Reed, Arizona State Highway Engineer, Phoenix, for improvement of Phoenix-Yuma Highway (Smurr Bridge) FA 56, 3rd reop. (1935) AFE 8083. The work, which is located about 5 miles west of Gila Bend, consists of grading and draining 1/2 mile of roadway, and placing agg. base course and oil mix using SC-3 road oil, and is to be completed on or before April 30.

- The work involves:
 (1) 1700 c.y. rdwy. excav.;
 (2) 2500 c.y. drainage excav.;
 (3) 300 c.y. struc. excav.;
 (4) 2400 c.y. imported borrow;
 (5) 1700 c.y. select material;
 (6) 1200 tons agg. base course;
 (7) 235 M. gals. sprinkling;
 (8) 70 hours rolling;
 (9) 14 c.y. Class A concrete;
 (9) 11,200 lbs. reinf. steel;
 (10) 118 l.f. CMP (2 sizes);
 (11) 860 tons oil mix;
 (12) 13,500 gals. road oil (SC-3);
 (13) 100 tons screenings;
 (14) 560 tons salvage and relay oil oil mix;
 (16) 375 tons salvage and stockpile oil oil mix. * 29

CONTRACT AWARDED

YAKIMA COUNTY, Wash.—Lucich Co., 3001 21st St., Seattle, at \$45,911.25 was awarded contract by the U. S. Bureau of Public Roads, 36 New Post Office Bldg., Portland, for constructing or improving 1.395 miles of highway on Randle-Yakima (East Side) Highway Grading Proj. 13-W, Washington National Forest Road Project, located within the Snoqualmie National Forest, Yakima Co., Wash. * 29

BIDS WANTED

SAN DIEGO CO., Cal.—Until Jan. 27, 2 p.m., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Room 808, State Building, Los Angeles, for grading and surfacing with plant-mix surfacing about 0.2 ml. on Douglas Street between Eagle Street and University Avenue, in the City of San Diego, San Diego County, Cal.

Work involves:

- (1) 1 only, removing palm tree;
(2) Clear and grub right of way;
(3) 680 M. gals. water;
(4) 470 c.y. roadway excav., without class;
(5) 325 c.y. struc. excav.;
(6) 30,700 c.y. import borrow;
(7) 21 c.y. remove concrete;
(8) 700 tons crusher run base;
(9) 520 tons mineral aggregate plant mix surf.;
(10) 25 tons liq. asph. MC-5 or MC-extra heavy plant-mix surf.;
(11) 2 tons liq. asph., SC-2 (prime coat);
(12) 770 sq. yds. asph. paint binder;
(13) 1,700 lbs. bar reinf. steel;
(14) 20 c.y. class A portland cement concrete strucs.;
(15) 55 c.y. class A portland cement concrete curbs and sidewalks;
(16) 323 lf. 24-in. stand. reinf. conc. pipe;
(17) 220 lf. 18-in. CMP;
(18) 103 lf. remove, clean and salvage exist. pipe culverts;
(19) 4 each frames and gratings for catch basins;
(20) 100 lf. remove and dispose of guard rail;
(21) 1,000 lf. laminated guard railing;
(22) 24 lf. pipe handrail.
Plans and specifications may be obtained from the above office. * 29

BIDS OPENED

SAN FRANCISCO.—Chas. L. Harney, 443 Call Bldg., San Francisco, at \$713, submitted low bid to the U. S. Engineer Office, Lt.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-38-79, for roadway repairs on Yerba Buena Island, San Francisco Bay.

Bids were taken as follows:

- (1) 250 gals. prime coat, liq. asph., Type MC-2;
(2) 100 tons plant-mix cutback asphalt;
(3) 1200 gals. penetration oil treatment (ROMC-3).

Total bids were as follows:

- (A) Chas. L. Harney, \$713 (disc. 2% 30 days).
(B) Ransome Co., Emeryville, \$860 (net).
(C) Hayward Building Materials Co., Hayward, \$945 (disc. 1% 10 da.).
Unit bids were as follows:

Table with 3 columns: Bid Item, (A), (B), (C). Rows include items 1, 2, and 3 with corresponding bid amounts.

Award of contract probably will be made Monday. * 29

BIDS WANTED

OAKLAND, Calif.—Until Jan. 17, 4:30 p.m. (date postponed from Jan. 10), bids will be received by the City of Oakland Port Commission, for furnishing labor and material and placing crusher run rock on 19th Ave., Oakland.

Plans and specifications may be obtained from the above office. * 29

CONTRACT AWARDED

LYON CO., Nev.—Nevada Rock & Sand Co., Inc., Reno, at \$59,967.64, was awarded contract by the Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, for the construction of 4.10 mi. of highway from 8.5 mi. north of Wabuska to Weeks, Route 2E, Section B, Lyon Co., Nevada. * 29

PERSHING CO., Nev.—Highway Construction—(State)

PERSHING CO., Nev.—Utah Construction Co., Ogden, Utah, at \$16,808.37, was awarded contract by the Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, Nevada, for the construction of 2.04 miles of highway from the north city limits of Lovelock to a point approximately two miles north, Pershing Co., Nevada.

Work involves:

- (1) 2 each remove culverts (timber)
(2) 1,453 c.y. rdwy. excav.;
(3) 50 c.y. drainage excav.;
(4) 15,206 c.y. imported borrow;
(5) 105 c.y. struc. excav.;
(6) 100 c.y. backfill;
(7) 2.04 miles subgrade, Type C;
(8) 10 M. gals. water;
(9) 12 tons liquid asphalt, Type SC2 (seal coat);
(10) 161 tons do (road-mix);
(11) 2.04 miles road-mix;
(12) 16 each road-mix intersections;

- (13) 48 c.y. Class A concrete;
(14) 4 c.y. Class B concrete;
(15) 5,100 lbs. reinf. steel;
(16) 82 lf. 12-in. corr. metal pipe;
(17) 104 lf. 18-in. do;
(18) 14 sq. yds. grouted rubber gutter
(19) 13 each culvert markers;
(20) 10 each guide posts;
(21) 6 each monuments.

Complete bids follow:

- (A) Utah Constr. Co., Ogden, Utah—\$16,808.37.
(B) Silver Star Construction Co., Inc., Fallon, Nevada—\$16,981.35.
(C) Construction Finance Company, Reno—\$18,323.58.
(D) Dodge Constr. Inc., Fallon—\$19,100.60.
(E) Nevada Rock & Sand Co., Inc., Reno—\$19,629.90.
(F) Isbell Constr. Co., Reno—\$19,700.08.

Unit prices follow:

Table with 7 columns: Bid Item, (A), (B), (C), (D), (E), (F). Rows include items 1 through 21 with corresponding unit prices.

LOS ANGELES—STREET IMPROVEMENT—(City)

LOS ANGELES, Cal.—Tomei Const. Co., 4737 Orion Ave., Van Nuys, at \$24,761.50 submitted low bid to the Los Angeles Board of Public Works for grading, paving and otherwise improving streets in Bauchet Street and Avila Street Improvement District, Union Passenger Terminal Station, PWA Project #361, Unit J-4.

The work involves:

- (1) lump sum, grading (3531 c.y. of excav. and 246 c.y. fill, incl. removal of exist. improvements)
(2) 48,224 sq. ft. conc. pave., 8-inches thick;
(3) 230 sq. ft. concrete pave., 6-in. thick;
(4) 11,756 sq. ft. rock and oil roadway, 4-in. thick, inc. resurf.;
(5) 488 lf. unplas. light class. curb;
(6) 2336 sq. ft. 1-course walk, 3-in. thick;
(7) 1322 sq. ft. conc. gutter, 6-in. thick;

- (8) lump sum, storm drain;
(9) sanitary sewers;
(10) 539 lf. 6-in. house connection sewer.

Total bids follow:

- (A) Tomei Const. Co., \$24,761.50.
(B) L. A. Paving Co., \$24,955.01.
(C) Heuser & Garnett, \$25,518.88.
(D) V C K Const. Co., \$25,632.12.
(E) Bebek & Brkich, \$25,743.98.
(F) Artukovich Bros., \$25,985.72.
(G) Gogo & Rados, \$26,117.24.
(H) Contracting Engrs. Co., \$26,967.24.
(I) G. O. Gartz, \$27,758.80.
(J) Griffith Co., \$28,352.48.
(K) Edward Green, \$28,413.37.
(L) Southern Calif. Roads Co., \$28,999.10.
(M) Geo. R. Curtis Paving Co., \$29,190.13.
(N) Radich & Brown, \$29,506.82.
(O) Engine's estimate, \$30,562.32.

Unit prices follow:

Table with 11 columns: Bid Item, (1), (2), (3), (4), (5), (6), (7), (8), (9), (10). Rows include items A through O with corresponding unit prices.

BIDS WANTED

NAPA COUNTY, Calif.—Until Jan. 28, 2 P. M., bids will be received by the State Division of Highways, Jno. H. Skeggs, District Engineer, State Bldg., San Francisco, for grading and surfacing with crusher run base and armor coat about 6.2 miles between Oakville and Callistoga, Napa Co.

- Work involves:
- (1) Clear and grub right of way;
 - (2) 600 M. gallons of water;
 - (3) 65,000 c.y. rdwy. excav., unclass.
 - (4) 100,000 sta. yds. overhaul;
 - (5) 1,200 c.y. struc. excav.;
 - (6) 305 c.y. ditch excav.;
 - (7) 327 sta. finish rdwy.;
 - (8) 4,200 c.y. crusher run base;
 - (9) 75 tons liquid asph. SC-1A, prime coat;
 - (10) 155 tons liquid asph. 90-95 armor coat;
 - (11) 3,000 tons of screenings, armor coat;
 - (12) 27,500 lbs. bar reinf. steel;
 - (13) 305 c.y. Class A portland cement concrete struc.;
 - (14) 1,000 l.f. 12-in. CMP;
 - (15) 144 l.f. 15-in. CMP;
 - (16) 92 l.f. 18-in. CMP;
 - (17) 300 l.f. 24-in. CMP;
 - (18) 130 l.f. 30-in. CMP;
 - (19) 200 l.f. laminated guard railing.
- Plans and specifications may be obtained from the above office.

29

RIVERTON PROJECT, Wyo.—Constr. Earthwork and Structures—(Govt.)

RIVERTON PROJ., Wyo.—Woodward Const. Co., Rock Springs, Wyo., at \$69,897.00 submitted low bid to Bureau of Reclamation, Riverton, Wyo., under Spec. No. 762, for the construction of earthwork and structures. Pilot canal laterals 26 to 28, Sand Gulch lateral 3-A and sublaterals. Pilot division, Riverton Project, Wyo.

- Work involves:
- (1) 140,000 c.y. excav., common, for laterals;
 - (2) 1500 c.y. excav., rock, for laterals;
 - (3) 1000 sta. c.y. overhaul;
 - (4) 5400 c.y. excav., common, for structures;
 - (5) 100 c.y. excav., rock, for struc.;
 - (6) 6500 c.y. backfill about struc.;
 - (7) 2500 c.y. puddling or tamping backfill about struc.;
 - (8) 2630 c.y. conc. in struc.;
 - (9) 172,000 lbs. plating reinf. bars;
 - (10) 100 sq. yds. graded paving;
 - (11) 100 c.y. cobble riprap;
 - (12) 60 MFBM erecting timber in struc.;
 - (13) 1400 l.f. lay 18-in. lock joint concrete pipe;
 - (14) 200 l.f. lay 21-in. lock joint concrete pipe;
 - (15) 600 l.f. lay 24-in. lock joint concrete pipe;

- (16) 30 l.f. lay 27-in. lock joint concrete pipe;
- (17) 300 l.f. lay 30-in. lock joint concrete pipe;
- (18) 220 l.f. lay 36-in. lock joint concrete pipe;
- (19) 12,000 lbs. install gates;
- (20) 2200 lbs. install misc. metalwork.

- Total bids follow:
- (A) Woodward Construction Co., Rock Springs, Wyo., \$69,879.00.
 - (B) J. A. Terteling & Sons, Boise, Idaho, \$71,999.00.
 - (C) M. S. Ross, Riverton, \$77,819.50.
 - (D) Edward Selander, Greeley, Colo., \$75,080.00.
 - (E) Northwestern Engr. Co., Rapid City, S. D., \$81,621.50.
 - (F) Dan Teters & Co., Inc., Riverside, Calif., \$82,330.00.

BIDS WANTED

OAKLAND, Cal.—Until Jan. 18, 2 P. M., bids will be received by the Oakland City Council, W. W. Chappell, City Clerk, City Hall, for improvements to the Skyline Blvd. east of Redwood Road from Station 105 plus 43 to Station 193 plus 42, Oakland.

- Work involves:
- (1) 94,000 c.y. excavation;
 - (2) 64,000 sta. yd. overhaul;
 - (3) 95,324 sq. ft. penetration macadam surfacing;
 - (4) 5,296 sq. yds. shoulder oil;
 - (5) 1,260 l.f. 12-inch plain concrete or vitrified plain pipe conduit;
 - (6) 176 l.f. 12-in. standard strength reinforcing pipe conduit;
 - (7) 256 l.f. 12-in. extra strength do;
 - (8) 178 l.f. 6-in. tile drain;
 - (9) 23 storm water inlets, 34-in. opening;
 - (10) 6 manholes with inlet top, 34-in. opening;
 - (11) 1 manhole, standard top.

Plans and specifications may be obtained from the above office. 29

30—RESERVOIRS & DAMS

BIDS WANTED

SALEM, Oregon.—Until January 11, 2:00 P. M., bids will be received by the Oregon State Board of Control, Salem, for the construction of a piling and rock fill across Sandy River about 1½ miles below highway bridge near Troutdale, Ore. Est. cost \$150,000.

- Work involves:
- (1) 6,000 feet round fir piling;
 - (2) 120,000 FBM fir sheet piling;
 - (3) 10,000 FBM miscellaneous lumber
 - (4) 2,500 c.y. heavy rock fill;
 - (5) 2,500 lbs. bolts and misc. metal.

Plans and specifications may be obtained from the Consulting Engineers, Stevens and Koon, 1202 Spalding Bldg., Portland, upon deposit of \$500. 30

BIDS WANTED

CENTRAL VALLEY PROJECT.—Until Feb. 1, 10 a.m., bids will be received by the U. S. Bureau of Reclamation, Old Post Office Bldg., Sacramento, under Spec. No. 767, for the construction of street, driveway and sidewalk grading and surfacing and sewer and water systems for the Government camp at the Shasta Dam, Central Valley Project, California.

- Work involves:
- (1) 9,500 c.y. excav. for streets, driveways and sidewalks;
 - (2) 3,700 cu. y. of compacted fills;
 - (3) 16,200 l.f. excav. and backfill of sewer-pipe trenches;
 - (4) 16,480 l.f. excav. and backfill of water-pipe trenches;
 - (5) Laying 17,550 l.f. of 4-in. to 12-in. diam. sewer pipe;
 - (6) Laying 140 l.f. of 30-in. diam. CMP;
 - (7) Constructing 27 grease traps;
 - (8) Constructing 32 sewer manholes;
 - (9) Laying 17,490 l.f. of ¾-in. to 6-in. diam. water pipe;
 - (10) Installing 23 6-in. and 4-in. gate valves;
 - (11) Installing 132 ¾-in. to 2-in. dia. curb stops and service boxes;
 - (12) Installing 17 fire hydrants;
 - (13) Placing 18,500 l.f. of timber curb boards;
 - (14) Furnishing and placing 9,940 c.y. of surfacing materials; and
 - (15) Applying 36,100 gals. of liquid asphaltic road material.

Plans and specifications may be obtained from the above office. * 30

CONTRACT AWARDED

COLORADO RIVER PROJECT, Texas.—C. J. Rainear & Co., Philadelphia, Pa., at \$38,943, awarded contract by the Bureau of Reclamation, Washington, D. C., under Spec. No. 987-D, for furnishing pipe, fittings, valves and appurtenances for the bypass, drain and air-inlet piping for the paradox gates at the Marshall Ford Dam, Colorado River Project, Texas. 30

31—PIPE LINES & WELLS

CONTRACT AWARDED

H.—Until Jan. 13, bids will be received by the Purchasing and Contracting Officer, Hickam Field, for the construction of a water line, curbs and rough grading on streets at Hickam Field, T. H. Plans and specifications may be obtained from the above office upon the deposit of \$5. 31

(Continued on Next Page)

LOS ANGELES CO. Undergrade Crossing, Grading & Paving

LOS ANGELES CO., Calif.—C. O. Sparks & Mundo Engineering Co., 1601 S. Soto St., Los Angeles, at \$122,632.20, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, for the construction of an undergrade crossing under the tracks of the Union Pacific Railroad Company near Pico, consisting of a steel girder track span on concrete abutments and approximately forty-nine hundredths (49) mi. of roadway grading and paving with Portland cement concrete and surfacing with plant-mixed surfacing the shoulders and service road, Los Angeles County.

- Work involves:
- (1) 850 c.y. existing concrete to be removed and disposed of;
 - (2) 27 sta. clear and grub;
 - (3) 450 M. gals. water;
 - (4) 30,000 c.y. rdwy. excav., unclass.
 - (5) 2,100 c.y. struc. excav.;
 - (6) 100 c.y. ditch and channel excavation;
 - (7) 15,000 sq. yds. subgrade for pave.

- (8) 27 sta. finishing rdwy.;
- (9) 1,550 tons mineral agg. (plant-mix surf.);
- (10) 85 tons liquid asphalt ROMC-4 or ROMC-5 (plant-mix surf.);
- (11) 10 tons liquid asph. SC-2 (prime coat);
- (12) 2,940 c.y. Class A Portland cement concrete pave;
- (13) 16 sections pavement crossing devices, Type C;
- (14) 5,800 each pavement dowels;
- (15) 125,000 lbs. bar reinf. steel;
- (16) 800 c.y. Class A Portland cement concrete struc.;
- (17) 380,000 lbs. fabricated structural steel;
- (18) 11,940 lbs. fabricated cast steel expansion and fixed bearings;
- (19) 56,000 lbs. fabricated wrought iron plate;
- (20) 11,500 lbs. steel rail assemblies;
- (21) 11,210 lbs. misc. iron and steel;
- (22) 150 l.f. curb armor;
- (23) 510 c.y. Class A Portland cement concrete slope pavement;
- (24) 90 l.f. 14-in. standard reinforced

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

LOS ANGELES CITY

LOS ANGELES, Cal.—Until Jan. 25, 2 P. M., bids will be received by Los Angeles Water & Power Purchasing Agent for 48 volt primary, 6.6 amp. secondary, 60 cycle subway type constant current regulating transformers, furnished without oil. Bids will be taken on the following:
 (1) 15 only 15-kw. transformers;
 (2) 5 only 20-kw. transformers;
 (3) 5 only 25-kw. transformers.
 Spec. No. 2499.

TREASURY DEPARTMENT

SAN FRANCISCO, Cal.—Until Jan. 12, 10 a. m., bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 Fourth St., San Francisco, under Bid No. 4841, for the rental of one ½-ton flat bed truck with enclosed cab and removable side racks, not less than 10 feet long and not less than 6 feet wide; f.o.b. 1155 Page St., San Francisco, Cal.

SAN FRANCISCO.—Until Jan. 13, 10 a. m., bids will be received by the U. S. Treasury Dept., J. W. Knox, Procurement Officer, Room 518, 49 Fourth St., San Francisco, under Bid No. 4842, for the rental of one crawler type tractor, not less than 48 hp., equipped with angle dozer; f.o.b. Bureka, Cal.

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Dept., J. W. Knox, Procurement Officer, Room 518, 49 Fourth St., San Francisco, for furnishing supplies and materials, as follows:

- January 11, 10:00 A. M.
- BID NO. 4852—400 sacks Portland cement; f.o.b. County Corp. Yard, Willits, Cal.
- BID NO. 4853—1500 sacks Portland cement; f.o.b. Eureka, Cal.
- BID NO. 4854—2000 sacks Portland cement; f.o.b. City Warehouse, Santa Rosa, Cal.
- BID NO. 4855—1600 sacks Portland cement; f.o.b. County Corp. Yard, Santa Rosa.
- BID NO. 4857—320 tons aggregate; f.o.b. San Mateo County.
- BID NO. 4858—12,907 ft. b.m. No. 1 heart common Redwood; f.o.b. San Mateo Co., Cal.
- BID NO. 4859—Carbon bisulphide and jute waste balls; f.o.b. Fresno, Cal.
- BID NO. 4860—Common wire nails; f.o.b. Havelock and Edna Streets, San Francisco.
- BID NO. 4861—Butts, locksets, locks, bolts, knobs and plates; f.o.b. Sunset and Skyline Blvds., San Francisco.
- January 13, 10:00 A. M.
- BID NO. 4869—Furnishing and delivering 4800 gallons Diesel Fuel Oil; f.o.b. Migratory Labor Camp, Kern Co., Cal.

MET. WATER DISTRICT

LOS ANGELES, Cal.—Until Jan. 17, 2 p. m., bids will be received by the Metropolitan Water District Purchasing Agent, Los Angeles, for sale of miscellaneous construction equipment and supplies consisting of spuds, hose stems, spray tanks, steel hopper, vises, electric drill, jack, screw plates, cutting dies and col-

lets, asphalt tampers, frogs, switch points, small tools, air drill, grinder, jack sets, hand and grocery trucks, oxygen regulators, switches, fans, water meters and chain hoists; Bid SM 442.

LOS ANGELES CITY

LOS ANGELES, Cal.—Until Jan. 12, 2 p. m., bids will be received by Los Angeles Water & Power Purchasing Agent for positive displacement type water meters, Spec. 2507. Bids will be taken as follows:
 (a) 1200 ¾x¼-in., without connections;
 (b) 400 1-lb., without connections.

LOS ANGELES, Calif.—Until Jan. 11, 10 a. m., bids will be received by Los Angeles Water & Power Purchasing Agent for: 1600 ft. No. 4/0 19-strand, single conductor, performance 35% grade rubber insulated, lead sheathed cable, on reels of 800 feet each; No. 7060.

LOS ANGELES, Calif.—Until Jan. 14, 10 A. M., bids will be received by Los Angeles Water and Power Purchasing Agent for two only 23,000-volt, 600-amp 2-pole vertically mounted, outdoor type disconnect switches, and 2 horizontally mounted same, Bid No. 7163. This bid supersedes Bid No. 6926.

LOS ANGELES, Calif.—Until Jan. 12, 2 P. M., bids will be received by Los Angeles Water and Power Purchasing Agent for copper wire connectors. Spec. 2504. The items are:
 (1) 6000 ft. No. 6 AWG solid wire;
 (2) 15,000 for No. 4 AWG solid wire;
 (3) 7500 for No. 2 AWG solid wire;
 (4) 7000 for No. 1/0 AWG stranded wire;
 (5) 1500 for No. 2/o do;
 (6) 750 for No. 4/o do.

LOS ANGELES, Calif.—Until Jan. 27, 2 P. M., bids will be received by Los Angeles Water and Power Purchasing Agent for two 25-kv. oil circuit breakers, 23,000-volt, 600-amp. 60-cycle, single pole, electrically-operated, outdoor type, frame-mounted including all necessary oil. Spec. No. 2500.

U. S. FOREST SERVICE

GOVERNMENT ISLAND, Calif.—Bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for furnishing supplies and materials, as follows:

- January 12, 2:00 P. M.
- BID NO. 5397—50 dozen one-gallon canteens; f.o.b. Albuquerque, N.M.
- BID NO. 5395—2000 lbs. wiping cloths, f.o.b. Government Island.
- January 17, 2:00 P. M.
- BID NO. 5391—Purchase of new Chevrolet (or equal) replacement parts, including hump sum trade-in allowance and/or cash offer on used tires and batteries; f.o.b. Government Island.
- BID NO. 5396—880 pounds marking twine; f.o.b. Placerville, Cal.

CALIFORNIA STATE

SACRAMENTO, Calif.—Until Jan. 10, 10 a. m., bids will be received by the State Purchasing Agent, 319 State Capitol, Sacramento, under

Quo. No. 35057, Reg. No. 16601, for one hydraulically operated, heavy duty angle dozer with blade, complete with pump hose and all necessary fittings to connect it to Model TA-40 McCormick - Deering Tractor, f.o.b. Willits, Calif.

WAR DEPARTMENT

SAN FRANCISCO.—Until Jan. 13, 3 p. m., bids will be received by the U. S. Engineer Office, Lt.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-38-82, for furnishing 3000 MF BM Douglas Fir lumber, No. 1 common, f.o.b. Fort Funston, San Francisco, Calif.

SAN FRANCISCO.—Until Jan. 24, 3 p. m., bids will be received by the U. S. Engineer Office, 401 Custom House, San Francisco, under Bid No. 868-38-80, for furnishing and delivering (1) one gasoline engine driven reciprocating pump, f.o.b. Tennessee Point, Marin County; and (2) one gasoline engine driven centrifugal pumping unit, f.o.b. Fort Funston, San Francisco, Cal.

NAVY DEPARTMENT

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., for furnishing miscellaneous supplies and materials, as follows:

- SCH. 2456—Electric scaling hammers, electric grinders, electric bench grinders, electric drills, electric drill press, electric belt sander, for eastern and western yards, Jan. 11.
- SCH. 2455—Chain hoists for eastern yards and Puget Sound, Jan. 11.
- SCH. 2458—Sheet steel for eastern and western yards, Jan. 11.
- SCH. 2449—Storage batteries for eastern yards and San Diego, Jan. 11.
- SCH. 2454—Copper and steel tubing, lead lined, for Brooklyn and Norfolk, Mare Island and Puget Sound, Jan. 11.
- SCH. 2470—45 tons foundry pig iron for Washington; 224 tons do. for Norfolk; 25 tons do. for Philadelphia; 9 tons do. for Norfolk; 14 tons do. for Puget Sound; 77 tons do. for Brooklyn and Philadelphia; 69 tons do. for Mare Island and Puget Sound, Jan. 14.
- SCH. 2435—Brass, bronze and copper for eastern and western yards, Jan. 11.
- SCH. 2471—One sound level meter and one sound frequency analyzer for Mare Island, Jan. 14.
- SCH. 2466—Motor-driven pipe threading machine for San Diego, January 11.
- SCH. 2485—20,000 lbs. precipitated manganese resinates for Mare Island, Jan. 18.

MET. WATER DISTRICT

LOS ANGELES, Cal.—Until Jan. 19, 10 a. m., bids will be received by Metropolitan Water District, Los Angeles, for five 60-cell, 127-volt, station type electric storage batteries for use at Colorado River Aqueduct pumping plants, Spec. 266. Certified or cashier's check, 10%, must accompany bid.

FEW FAILURES IN INDUSTRY DURING 1937

Dun-Bradstreet Survey Shows Building Industry Insol- vencies Scarce

Failures in the building industry continued at a low level last year, according to the annual survey released last week by Dun & Bradstreet, Inc.

Text of the report follows:

Up to December 9 only one application had been filed during 1937 by the building trade for 77-B relief. This was the lowest for any year since this method of corporate reorganization became available. The previous low was three in 1934, from which the number of cases increased to five in 1935, with an equal number in 1936, bringing the total up to 14.

Number of failures, on the other hand, increased. The total of 236 for the eleven months of 1937 was larger than the 232 for the full twelve months of 1936. The latter represented a new low, following a four-year recession from 765 in 1932. The all-time high for the building industry was in 1928 when the number reached 1,075. For liabilities, the peak was at \$54,958,430 in 1932.

Complete insolvency record of the building industry from 1927 to November, 1937, as compiled by Dun & Bradstreet, Inc., shows:

General Contractors		
Year	Number	Liabilities
1927.....	937	\$39,536,404
1928.....	1,075	40,989,042
1929.....	595	28,551,450
1930.....	617	24,375,000
1931.....	601	26,072,000
1932.....	765	54,958,430
1933.....	477	26,159,075
1934.....	378	16,512,000
1935.....	306	14,720,000
1936.....	232	18,713,000
1937*.....	236	5,897,000

(* January to November, inclusive.

These statistics of failures in the building industry are exclusive of applications under Section 77-B. From June 7, 1934, when Section 77-B of the New Bankruptcy Act became effective, to December 9, 1937, applications were filed by 14 concerns in this industry.

Marin Surfacing, Two Southern California Contracts Advertised; Bids February 3-4

SACRAMENTO, Jan. 11.—Three bid-calls for grading and paving contracts in Marin, Ventura and Orange counties today were authorized by the State Highway Commission. Bids will be opened in Los Angeles, February 3; and in San Francisco, February 4.

District Engineer Jno. H. Skeggs will open bids February 4, in San

ASK BIDS FOR BAKERY ADD'N AT STOCKTON

Additional Work at State Hos- pital Advertised; Proposals Open February 1

SACRAMENTO, Jan. 11.—Bids for construction of a bakery addition at the Stockton State Hospital were invited today by State Architect George B. McDougall.

Proposals on the contract, latest in the current state institutional building program to go on the market, will be opened in Sacramento February 1, Mr. McDougall announced.

The building will be a two-story reinforced concrete addition to the existing bakery building at the institution.

Work Complete

The contract is for the work complete, with all mechanical and electrical work, including steel windows, steel truss roof framing and wood roof sheathing.

Plans for the project, as for other work in the institutional building program, were prepared under the direction of State Architect McDougall.

Contractors desiring to figure the work may obtain plans and specifications from Mr. McDougall's office in the Public Works building, Sacramento, upon deposit of \$25, retainable.

Bids must be accompanied by cash, certified check or cashier's check payable to the Director of Public Works in the amount of ten per cent of the bid

Francisco, for grading and surfacing with armor coat about 1.5 miles of highway between San Geronimo and one mile north of Fairfax in Marin county.

Principal Items

Principal items include: 210,800 cubic yards of unclassified roadway excavation; 2,300,000 sta. yds. overhaul; 3000 pounds of reinforcing steel; and two million FBM redwood timber.

Largest contract for which bids will be opened in Los Angeles Feb. 3 involves grading and paving of about 1.7 miles of highway between LaCross and Oakview in Ventura County. Portland cement concrete will be used in paving.

Principal items include: 93 stations of clearing and grubbing; 140,500 cubic yards of unclassified roadway excavation; 1100 cu. yds. of structural excavation; 22,600 sq. yds. of preparing subgrade; 4250 cubic yards of Class B Portland cement concrete; 26,000 pounds of reinforcing steel; and 970 linear feet of CMP of various sizes.

Paving in Orange

On the same day bids will be opened in Los Angeles for grading and paving with Portland cement concrete about one mile of highway between Orange and Olive in Orange county.

Involved in the work are the following principal items: 10,100 cubic yards of unclassified roadway excavation; 50,000 station yards overhaul; 1100 cubic yards imported borrow; 12,300 square yards of preparing subgrade; 8200 square yards of preparing, mixing, and shaping shoulders; 2305 cu. yds. of Class A Portland cement concrete pavement.

Modernization is brightening many San Francisco buildings for the influx of visitors to the 1939 Golden Gate International Exposition.

19—MISC. CONSTRUCTION

BIDS WANTED

EL CENTRO, Imperial Co., Cal.—Until Feb. 3, 10 a. m., bids will be received by the Board of Directors

of Imperial Irrigation District, El Centro, for construction of 33,000-volt transmission lines in Imperial Valley; Spec. No. 4.

The work involves:

- (1) 81 mi. No. 2/0 copper or equivalent ACSR conductor transmission lines;
 - (2) 31 mi. No. 2 copper or equivalent CSCR conductor transmission lines.
- Spec. No. 4 available from above upon deposit of \$10. This is PWA Project 1088-P D. The work will connect the hydro-electric plant at Drop No. 4 on the canal with the Diesel standby plant at Brawley, with loop lines by way of Holtville and the other by way of Calexico and El Centro. Branches to Westmoreland and Calipatria will be constructed. The detailed quantities are:

SCHEDULE 1

Construction of 33,000-volt Transmission Line with Copper Conductors.

Erecting in place, under Items 1 to 13, incl., the following classification of poles:

- (1) 3 poles, 25 ft 6 in top;
- (2) 37 poles, 30 ft 6 in top;
- (3) 16 poles, 35 ft 6 in top;
- (4) 3 poles, 40 ft 7 in top;
- (5) 1283 poles, 45 ft 8 in top;
- (6) 25 poles, 45 ft 9 in top;
- (7) 260 poles, 50 ft 8 in top;
- (8) 158 poles, 55 ft 8 in top;
- (9) 78 poles, 60 ft 8 in top;
- (10) 32 poles, 65 ft 8 in top;
- (11) 24 poles, 70 ft 8 in top;
- (12) 1 pole, 75 ft 8 in top;
- (13) 2 poles, 80 ft 8 in top;

Erecting in place, on poles covered by preceding Items 1 to 13, incl., under Items 14 to 27, incl., the following classification of pole heads:

- (14) 1592 heads (single arm);
- (15) 45 heads (double arm);
- (16) 22 heads (single arm);
- (17) 68 heads (double arm);
- (18) 36 heads;
- (19) 7 heads;
- (20) 15 heads;
- (21) 5 heads (single line arm);
- (22) 7 heads;
- (23) 27 heads (single arm);
- (24) 4 heads (double arm);
- (25) 1 head (single arm, single circuit);
- (26) 18 heads;
- (27) 1 head;

Erecting in place, under Items 28 to 34, incl., the following classification of struts:

- (28) (single arm), 4 strut with two 60-ft poles;
- (29) (single arm), one strut with two 65-ft poles;
- (30) 1 strut with two 60-ft poles;
- (31) (special), 1 strut with two 60-ft poles;
- (32) 2 strut with three 70-ft poles;
- (33) 2 strut with three 70-ft poles;
- (34) 1 strut with two 55-ft poles;

Erecting in place, on existing district poles carrying 4-kv Primary Lines, under Items 35 to 37, incl., the following classification of pole heads:

- (35) 33 heads;
 - (36) 2 heads;
 - (37) 4 heads;
- Erecting in place, under Items 38 to 47, incl., the following classification of guying details:
- (38) 38 down guys, 5/16-in H S guy strand;
 - (39) 268 down guys, 3/8-in H S guy strand;
 - (40) 45 down guys, 7/16-in H S guy strand;
 - (41) 74 head guys, 5/16-in H S guy strand;
 - (42) 8 head guys, 3/8-in H S guy strand;
 - (43) 2 head guys, 7/16-in H S guy strand;
 - (44) 3 arm guys, 5/16-in H S guy strand;
 - (45) 282 15-in coner anchor per drawing EA-0027 complete with 3/8-x8-ft rod;

- (46) 69 20-in coner anchor per drawing EA-0026, complete with 3/8-x9-ft rod;
 - (47) 147 guy guard as per Item 32 of the material list EA-0005;
- Stringing in place on poles and struts covered by preceding Items 1 to 34, incl., under Items 48 and 49, copper conductors as follows:
- (48) 81 ml of 3-wire circuit No 2/0 copper conductors;
 - (49) 30 ml of 3-wire circuit No 2 copper conductors;
- Stringing in place, on pole heads covered by preceding Items 35 to 37, incl., under Item 50, copper conductors as follows:
- (50) 1.1 ml of 3-wire circuit No 2 copper conductor;

SCHEDULE 2

Construction of 33,000-volt Transmission Line with ACSR Conductors.

Erecting in place, under Items 1 to 13, incl., the following classification of poles:

- (1) 3 poles, 25 ft 6 in top;
- (2) 37 poles, 30 ft 6 in top;
- (3) 16 poles, 35 ft 6 in top;
- (4) 3 poles, 40 ft 7 in top;
- (5) 918 poles, 45 ft 8 in top;
- (6) 29 poles, 45 ft 9 in top;
- (7) 242 poles, 50 ft 8 in top;
- (8) 152 poles, 55 ft 8 in top;
- (9) 75 poles, 60 ft 8 in top;
- (10) 32 poles, 65 ft 8 in top;
- (11) 24 poles, 70 ft 8 in top;
- (12) 1 pole, 75 ft 8 in top;
- (13) 2 poles, 80 ft 8 in top;

Erecting in place, on poles covered by preceding Items 1 to 13, incl., under Items 14 to 27, incl., the following classification of pole heads:

- (14) 1195 heads (single arm);
- (15) 45 heads (double arm);
- (16) 23 heads (single arm);
- (17) 61 heads (double arm);
- (18) 7 heads;
- (19) 15 heads;
- (20) 5 heads (single line arm);
- (21) 11 heads;
- (22) 27 heads (single arm);
- (23) 4 heads (double arm);
- (24) 1 head (single arm, single circuit);
- (25) 18 heads;
- (26) 18 heads;
- (27) 1 head;

Erecting in place, under Items 28 to 34, incl., the following classification of struts:

- (28) 4 strut with two 60-ft poles (single arm);
- (29) 1 strut (single arm), with two 65-ft poles;
- (30) 1 strut (double arm), with two 60-ft poles;
- (31) 1 strut (special), with two 60-ft poles;
- (32) 1 strut with three 70-ft poles;
- (33) 2 strut with three 70-ft poles;
- (34) 1 strut with two 55-ft poles;

Erecting in place, on existing district poles carrying 4-kv primary lines, under Items 35 to 37, incl., the following classification of pole heads:

OAKLAND, Calif.—As previously reported, until Jan. 19, 5:30 p.m., bids will be received by the East Bay Municipal Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Pro. 969, for (1) 384 2 1/2-in. outside diam. No. 15 stub gauge red brass seamless tube, and (2) 400 2 1/2-in. outside diam. by 2 1/2-in. inside diam. stub gauge red brass seamless tube.

Plans and specifications may be obtained from the above office. * 20

BIDS OPENED

LOS ANGELES, Cal.—The following bids were submitted to the Metropolitan Water District, Los Angeles, under Spec. No. 264, for C.I. pipe and fittings, valves and miscellaneous metal work for Gene Wash and Copper Basin Dams:

SCHED. 1—Misc. Metal Work

- (1) 2 only, 10-ft x 10-ft steel double door and frame complete with appurtenances;
- (2) 2 only, 3-ft 8-in x 6-ft 6-in do.;
- (2) 2 only, 2-ft t4 1/2-in x 15-ft 6-in open steel flooring sections and frames complete with appurtenances;
- (4) 2 only, gate hangers, complete;
- (5) 3 only, 1-ft x 8-ft steel frame and cover;
- (6) 3 only, 1-ft x 8-ft 8-in same;
- (7) 3 only, 1-ft 10-in x 2-ft 6-in hatchway steel frame and cover;
- (8) 176 only, type A, 3/4"x23-in anchor bolts with 2 hex nuts;
- (9) 56 only, 3/4"x27-in. same;
- (10) 60 only, 3/4-in. ladder rungs;
- (11) 390 only, 4x 1/2-in. by 10-ft. 4-in. trash bars;
- (12) 4 only, 3x 1/2-in by 9-ft 8 1/2-in steel plate;
- (13) 2 only, 2-ft 1 1/2-in by 4-ft 8-in standard steel windows, complete;
- (14) 2 only 2-in. std. eye bolts;
- (15) 2 only, 1 1/4-in. std. eye bolts;

SCHED. 2—Ladderways

- (16) ladderway for Gene Wash Dam, downstream face, complete;
- (17) ladderway for Copper Basin Dam, upstream and downstream faces, complete;

SCHED. 3—Cast-Iron Bar Retainers

- (18) 15 only, upper vertical CI bar retainers, 5 ft long;
- (19) 13 only, lower vertical CI bar retainers, 5 ft long;
- (20) 8 only, upper horizontal CI bar retainers, 5 ft long;
- (21) 8 only, lower horizontal CI bar retainers, 5 ft long;

SCHED. 4—Pipe, Fittings & Valves

- (22a) lump sum, 4-in. CI pipe, 4.5-in O D by 0.380-in. wall thickness, screwed flanges, for Gene Wash;
- 1 pc 4 ft 3 1/2 in. long;
- 1 pc 3 ft 10 1/2 in. long;
- 1 pc 3 ft. 9 in. long;
- 1 pc 2 ft. 5 in. long;

- 1 pc 1 ft. 8 1/4 in. long;
- 1 pc 9 1/2 in. long;
- 120 5/8-in. bolts and nuts;
- 8 gaskets;
- (22b) lump sum, 4-in. CI pipe, 4.5-in. O D by 0.380-in. wall thickness, screwed flanges, for Copper Basin;
- 1 pc 4 ft. 10 1/2 in. long;
- 1 pc 4 ft. 8 1/2 in. long;
- 1 pc 4 ft. 2 1/2 in. long;
- 1 pc 3 ft. long;
- 1 pc 2 ft. 3 1/4 in. long;
- 1 pc 10 1/2 in. long;
- 120 5/8-in. bolts and nuts;
- 8 gaskets;
- (23) lump sum, 6-in. CI pipe, 6.625-in. O D by 0.43-in. wall thickness, screwed flanges;
- 1 pc 5 ft. long (Gene Wash);
- 1 pc 6 ft. long (Copper Basin);
- 64 5/8-in. bolts and nuts;
- 4 gaskets;

- (24) 10 only, 4-in., 90-deg., C I flanged elbows, 125-lb. working pressure;
- (25) 2 only, 6-in. same;
- (26) 2 only, 6x4x4-in. C I flanged tees, 125-lb. working pressure;
- (27) 2 only, 4-in. std C I. flanged, double disc gate valves, non-rising stem, 125-lb. working pressure;
- (28) 2 only, 6-in. same;

SCHED. 5—6-in. Vacuum Relief Valves and Misc. Parts

- (29) two 6-in. vacuum relief valves and appurtenances, std. flange connection, for 125-lb. working pressure.
- Total bids follow:

- (A) Commercial Iron Works, Portland, Ore.—Sched 3, \$591.50; use tax to be added; f.o.b. Portland; disc 1/2 of 1% 10 da.

- (B)—(29) \$120.00.
- (C)—(29) \$170.50.
- (D)—(29) \$129.00. * 20

BIDS WANTED

LOS ANGELES, Cal.—Until Jan. 17, 3 p.m., bids will be received by U. S. Engineer, Los Angeles, for furnishing and delivering 39,000 tons of coarse aggregate and 18,225 tons sand into government batch trucks at contractor's batch plant; alternate bids will be received for 30,000 cu. yds. coarse aggregate and 13,500 cu. yds. sand delivered into govt. batching plant or stock piles located within radius of 1 mile of intersection of Olive Street and Compton Creek, Compton; Circ. Prop. 206.

The items are:

- (1) 57,225 tons coarse aggregate and sand batched for 1/2 or 1 cu. yd. mixer.

ALTERNATE 2

- (1) 18,000 cu. yds. coarse aggregate, 1 1/2-in. to 3/4-in. size;
- (2) 12,000 cu. yds. coarse aggregate 1 in. to No. 4 mesh size;
- (3) 13,500 cu. yds. sand.

Bid bond 10% must accompany bid. * 20

BIDS WANTED

LOS ANGELES, Cal.—Until Jan. 19, 3 p.m., bids will be received by the U. S. Engineer, Los Angeles, for furnishing and delivering 60,000 bbls. portland cement in paper bags to Los Angeles County drainage area. Bid bond, 10%, must accompany bid. Circ. Prop. 207. * 20

January 11, 1938

BIDS WANTED

KENDRICK PROJ., Wyo.—Until January 28, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 1017-D, for furnishing and delivering electrical conductor and accessories for transmission lines for the Kendrick Project, Wyo. Materials will be installed by the Government; fob the shipping point and/or Cheyenne, Wyo.

Plans and specifications may be obtained from the above office.

BIDS WANTED

PALO ALTO, Santa Clara Co., Cal.—As previously reported, until Jan. 20, 10 A. M., bids will be received by the Supervising Superintendent of Construction, Veterans Administration Facility, Willow and Bay Roads, Palo Alto, under Bid No. 54-38-1A, for furnishing pipe, fittings, soil, cast iron; fob Veterans Administration Facility, Reno, Nevada.

Plans and specifications may be obtained from the above office and from the Veterans Administration, Arlington Bldg., Washington, D. C.

CONTRACT AWARDED

LOS ANGELES, Calif.—Columbia Steel Company was awarded contract by U. S. Engineer, Los Angeles, Jan. 6, for steel bearing piles and plates; Circ. Prop. 182.

BIDS OPENED

LOS ANGELES, Cal.—Bids for 22,500 sq. ft. expansion joint material, Circ. Prop. 195, opened by U. S. Engineer, Los Angeles, were:

Warren & Bailey, \$776.25 fob Lockland, Ohio; 2% 30 days.

W. J. Burke & Co., \$1980, fob plant (no point specified); 2% 10th prox.

Servicized Products Corp., \$888.75 fob Elgin, Ill.; 2% 20 days.

Johns-Manville Sales Co., \$1167.75 delivered to job site; 2% 10th prox.; 30 days delivery.

Western Asbestos Co., \$859.50 fob Manville, N. J.; 2% 30 days.

BIDS OPENED

LOS ANGELES, Calif.—Zinsmeyer Co. at \$2208 submitted low bid to the Los Angeles Water & Power Purchasing Agent for one 8-panel main switchboard; Spec. No. 2496. Other bids were: Four identical bids at \$2,350, by Graham Reynolds Elec. Co., Litenwalter & Gough, Inc., California Whise Elec. Co. and W. A. Benjamin Co. Seven identical bids at \$2382.70, by Incandescent Supply Co., Westinghouse Electric Supply Co., Trubell Elec. Mfg. Co., General Elec. Supply Corp., Graybar Elec. Co., Inc., Myers Electric Supply Co., Inc., Associated Wholesale Elec. Co., Ladco Whse. Elec. Co., \$2446.52; two identical bids at \$2480 by Great West Electric Co. and Elec. Whise Mart. All terms 2%. * 20

BIDS WANTED

OAKLAND, Calif.—Until Jan. 19, 5:30 p.m., bids will be received by the East Bay Municipal Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Pro. 965, for (1) 384 2½-in. outside diam. No. 15 stub gauge red brass seamless tube, and (2) 400 2½-in. outside diam. and 21/7-in. inside diam. stub gauge red brass seamless tube.

Plans and specifications may be obtained from the above office. * 20

CONTRACTS AWARDED

OAKLAND, Cal.—The East Bay Municipal Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Pro. LS 208, awarded the

following contracts for furnishing 402½ cast-iron bell and spigot pipe fittings ranging in diameter from 4 to 12 inches.

Grinnell Company of the Pacific, Items 1 and 2 at \$6580.

Phoenix Iron Works, Item 3 at \$2,761.20.

Santa Fe Foundry, Item 4 at \$4,075.50. * 20

BIDS WANTED

SEATTLE, King Co., Wash.—Until February 7, 3 P. M., bids will be received by the U. S. District Engineer, Lt.-Col. H. J. Wilde, 754 Central Bldg., Seattle, for shore revetment work at Fort Warden.

Work involves:

- (1) 1300 tons quarry rock in place;
- (2) 900 c.y. earth-gravel embankment

Plans and specifications may be obtained from the above office. * 20

BIDS OPENED

SACRAMENTO, Calif.—Following submitted bids to the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Pro. 1105-38-174, for furnishing and delivering miscellaneous castings.

- The contract involves:
- (1) 2 booster pump casings;
 - (2) 3 booster pump impellers;
 - (3) 4 winding engine rod brasses;
 - (4) 4 ice cans.

Moore Dry Dock Co., Oakland—(1) \$1227.50 each; (2) \$749.33 each; (3) \$650 each; (4) \$37.25 each.

General Engineering & Dry Dock Co., San Francisco—(2) \$1,799.

E. C. Madigan or Apex Bond Foundry—(3) \$2.40 each.

M. Greenberg's Sons Brass Foundry & Machine Works, San Francisco—(3) \$11 each.

DeLano Bros., San Francisco—(4) \$908.00 each.

Bethlehem Shipbuilding Corp., San Francisco—(1) \$1280 each; (2) \$640 each.

Golden State Miners Iron Works, San Francisco—(1) \$1046.50 each; (2) \$584 each.

Stockton Iron Works—(1) \$952.50 each; (2) \$527.30 each. * 20

LOW BIDDER

GRAND COULEE DAM, Wash.—Western Pipe and Steel Co., 444 Market St., San Francisco, at \$1,456,624 submitted low bid to the Bureau of Reclamation, Denver, Colo., under Spec. No. 760, for furnishing and erecting steel penstocks and pump inlet pipes for the Grand Coulee Dam, Columbia Basin Project, Wash.

Complete bids will be published shortly.

BIDS OPENED

KENDRICK PROJ., Wyo.—Following bids were received by the Bureau of Reclamation, Denver, under Spec. No. 1008-D, for furnishing approximately 210,000 bbls. of modified Portland cement in bulk, for the Seminoe Dam, Kendrick Proj., Wyo.; f.o.b. shipping point and/or Parco, Wyo.

United States Portland Cement Co., Denver, Colo.—\$1.85 per bbl., f.o.b. Boettcher, Colo., disc. 10c 15 days.

Colorado Portland Cement Co., Denver, Colo.—\$1.85 per bbl., f.o.b. Boettcher, Colo., 10c 15 days.

Monolith Portland Midwest Co., Denver, Colo.—\$1.94 per bbl., f.o.b. Laramie, Wyo., 10c 15 days. * 20

BIDS OPENED

BOULDER CANYON PROJECT.—Following bids were received by the Bureau of Reclamation, Denver, under Spec. No. 1006-D, for furnishing

approximately (1) 140,000 bbls. of modified Portland cement in cloth sacks, (2) 15,000 bbls. modified Portland cement in bulk, and (3) 750 bbls. of modified Portland cement in paper sacks for the All-American Canal, Boulder Canyon Project, Arizona-California-Nevada; f.o.b. shipping point.

California Portland Cement Co., Los Angeles—(1) \$1.78 per bbl.; (2) \$1.30; (3) \$1.58; f.o.b. Colton, Cal.

Riverside Cement Co., Los Angeles—(1) \$1.97; (2) \$1.49; (3) \$1.77; f.o.b. Crestmore, Cal.

Monolith Portland Cement Co., Los Angeles—(1) \$2.17; (2) \$1.69; (3) \$1.97; f.o.b. Monolith, Cal.

Southwestern Portland Cement Co., Los Angeles—(1) \$1.94866; (2) \$1.46866; (3) \$1.74866; f.o.b. Victorville, Cal. * 20

BIDS OPENED

LOS ANGELES, Cal.—Following submitted bids to the U. S. Indian Irrigation Service, Los Angeles, under Invit. No. 0456, for 26,600 bd. ft. Redwood lumber for Parker, Ariz.

W. E. Cooper Lbr. Co., \$1296.80; f.o.b. Eureka; 2% 30 da.

Dolbeer & Carson Lbr. Co., \$1250; f.o.b. Eureka; 2% 10 da.

Hammond Redwood Co., \$1248.40; f.o.b. Samoa; 2% 10 da.

Holmes Eureka Lbr. Co., \$1250; f.o.b. Eureka; \$1675.10, f.o.b. Parker, Ariz.; 2% 10 da.

Pacific Lumber Co., \$1250; f.o.b. Scotia; 2% 10 da. * 20

BIDS OPENED

LOS ANGELES, Calif.—American Automatic Electric Sales Co., Chicago, Ill., at \$19,692.57, submitted low bid to the Metropolitan Water District, Los Angeles, under Spec. 265, for telephone exchange equipment for use at the Colorado River Aqueduct pumping plants.

Bids were:

American Automatic Elec. Sales Co., Chicago—(1) \$3010, (2) \$6830, (3) \$3094, (4) \$3093, (5) \$3093; use tax \$573.57; total \$19,692.57.

Kellogg Switchboard & Supply Co., Chicago—(1) intake \$334.56, (2) Gene (\$7698.16), (3) Iron Mtn. \$4159.16, (4) Eagle Mtn. \$4036.24, (5) \$4036.24; use tax \$698.11; total \$23,968.43. * 20

BIDS WANTED

LOS ANGELES, Cal.—Until Jan. 18 2 P. M., bids will be received by Los Angeles Water & Power Purchasing Agent for fencing materials; Spec. No. 2510. Bids will be taken for the following:

- (1) Materials for fencing Victorville Switching Station: (a) 150 ft. fencing fabric, 5-ft. wide, 2-in. sq. mesh, No. 9 g. wire, chain link; (b) 135 only posts, intermediate, 2½-in. O D at 3.65 b. x 8 ft.; (c) 10 only posts, gate and corner, 3-in. O D at 5.79 lb. x 8 ft.; (d) 1500 ft. rail, top and terminal brace, 1½-in. O D at 2.27 lb.; (e) 1500 ft. wire, No. 6 or No. 7 W & M g., coil spring steel; (f) 2 only gates, double leaf swing, 5 ft. high for 16 ft. clear opening; (g) 1 only gate, single leaf swing, 5 ft. high for 3 ft. 6-in. clear opening bet. gates, (h) 1 only gate, double leaf, sliding, 5 ft. high for 5 ft. clear opening bet. gate posts, complete with all necessary gate posts, rail and fittings. Top of slide rail to be 7 ft. above ground; (i) 4 sets fittings, complete for ½-in. O D end posts; (2) Material for fencing Silver Lake Switching Station (items same as under (1) a) 1-400 ft. fence fabric; (b) 140 only posts; (c) 10 only posts; (d) 1550 ft. rail; (e) 1500 ft. wire; (f) 3 only gates. * 20

21— BRIDGES

CONTRACT AWARDED

EUREKA CO., Nev.—Silver State Construction Co., Inc., Fallon, Nev., at \$91,459.94 (Alternate B) submitted low bid and was awarded contract by the Nevada State Department of Highways, Heroes Memorial Bldg., Carson City, for the construction of a concrete and steel overpass and approximately 0.79 mile of approach on the State Highway near Shoshone, Route 1, Sec. A-1 and A-2, Eureka County, Nevada.

- Work involves:
- (1) 100 hrs. motor grader;
 - (2) 50 hrs. 1.5-ton truck;
 - (3) Force account, special detours;
 - (4) 1,840 l.f. remove fence;
 - (5) Lump sum, remove overpass;
 - (6) 10,205 sq. yds. remove and stock pile roadmix surf.;
 - (7) 27,674 cu. roadway excav. A;
 - (8) 46,443 cu. roadway excav. B;
 - (9) 15 c.y. drainage excav.;
 - (10) 11 sta. V type ditches;
 - (11) 45,217 c.y. borrow;
 - (12) 33 sta. slope rounding;
 - (13) 352,194 yd. sta. overhaul (yard station);
 - (14) 18,464 yd. mi. overhaul (yd. mi.);
 - (15) 360 cu. y. struc. excav.;
 - (16) 1,220 cu. y. backfill;
 - (17) 0.751 mile subgrade, type B;
 - (18) 1,050 cu. y. salvaged aggregate;
 - (19) 806 M. gals. water;
 - (20) 3,934 tons type 1, gravel base;
 - (21) 1,956 tons gravel surface;
 - (22) 7 tons liquid asph., type SC-2 (prime coat);
 - (23) 9 tons do (seal);
 - (24) 90 tons do (roadmix);
 - (25) 0.751 mile road-mix;
 - (26) 300 cu. y. Class A concrete;
 - (27) 368 cu. y. Class D concrete;
 - (28) 455 l.f. concrete rail;
 - (29) 102,000 lbs. reinf. steel;
 - (30) 122,000 lbs. struc. steel;
 - (31) 4 each. load tests;
 - (32) 2,418 l.f. steel bearing piles;
 - (33) 85 each. drive steel piles;
 - (34) 100 l.f. 8-in. CMP (dipped);
 - (35) 10 l.f. 24-in. CMP (dipped).
 - (36) 1 each. move pipe culvert head-walls;

- (2) 5200 c.y. of backfill about structures;
- (3) 1275 c.y. of concrete in structures;
- (4) 2200 sq. yds. of dry-rock paving;
- (5) Placing 87,000 lbs. of reinforcement bars;
- (6) Erecting 3MFMB of timber in structures;
- (7) Laying 1788 lf. 15-in. to 30-in. diameter precast concrete pipe;
- (8) Installing 7500 lbs. of gates and miscellaneous work.

Plans and specifications may be obtained from the above office. * 23

25—MACHINERY AND EQUIPMENT

CONTRACT AWARDED

BERKELEY, Alameda Co., Calif.—Edward F. Bacon Co., 17th and Folsom Sts., San Francisco, at \$4543.33 was awarded contract by the Berkeley City Council, Florence Turner, City Clerk, City Hall, Berkeley, for furnishing on tractor and bulldozer.

25

BIDS WANTED

EL CENTRO, Imperial Co., Cal.—Until Feb. 8, 10 A. M., bids will be received by Board of Directors of Imperial Irrigation District, El Centro, for furnishing conductors, poles, insulators and air-break switches for 33,000-volt transmission lines in Imperial Valley, Spec. No. 3, which are available from above upon deposit of \$10. The work involves:

- (1) No. 2/0 copper or equivalent A C S R conductors, poles and insulators for 81 miles of transmission lines;
- (2) No. 2 copper or equivalent A C S R conductors, poles and insulators for 31 miles of transmission lines;
- (3) 18 air-break switches.

PWA Project 1088-PD.

Detailed quantities are:

SCHEDULE NO. 1

- Copper Conductors—Alt. to Sched. 2
- (1) 549,000 lbs. No. 2/0 copper conductor bob Imperial;
 - (2) 106,000 lbs. No. 6 copper conductor; bob Imperial;

SCHEDULE NO. 2

- ACSR Conductors and Armor Rods
- Alternate to Sched. No. 1
- (a) Alt. to Item 1, Sched. 1:
 - (1) 390,000 lbs. No. 4/0 ACSR conductor, bob Imperial;
 - (b) 3000 cets No. 1249 tapered armor rods complete with two No. 1106 clips per set;
 - (c) 300 sets No. 1299 tapered armor rods complete with two No. 1106 clips per set;

(2) Alternate to Item 2, Sched. 1:

- (a) 75,000 lbs. No. 1/0 ACSR conductor;
- (b) 1250 sets No. 1128.1 straight armor rods with two No. 1105 clips per set;
- (c) 100 sets of No. 1158.1 straight armor rods with two No. 1105

clips per set;

SCHEDULE NO. 3

Butt-treated Western Red Cedar Poles for use with Copper Conductors

Alternate to Schedule No. 4

- (3) 5 25-ft. poles with 6-in. top;
- (4) 40 30-ft. poles with 6-in. top;
- (5) 20 35-ft. poles with 6-in. top;
- (6) 5 40-ft. poles with 7-in. top;
- (7) 1325 45-ft. poles with 8-in. top;
- (8) 25 45-ft. poles with 9-in. top;
- (9) 285 50-ft. poles with 8-in. top;
- (10) 170 55-ft. poles with 8-in. top;
- (11) 80 60-ft. poles with 8-in. top;
- (12) 35 65-ft. poles with 8-in. top;
- (13) 24 70-ft. poles with 8-in. top;
- (14) 1 75-ft. pole with 8-in. top;
- (15) 2 80-ft. poles with 8-in. top;

SCHEDULE NO. 4

Butt-treated Western Red Cedar Poles for use with ACSR Conductors

Alt. to Sched. No. 3

- (3) 5 25-ft. poles with 6-in. top;
- (4) 40 30-ft. poles with 6-in. top;
- (5) 20 35-ft. poles with 6-in. top;
- (6) 5 40-ft. poles with 7-in. top;
- (7) 1325 45-ft. poles with 8-in. top;
- (8) 25 45-ft. poles with 9-in. top;
- (9) 285 50-ft. poles with 8-in. top;
- (10) 160 55-ft. poles with 8-in. top;
- (11) 75 60-ft. poles with 8-in. top;
- (12) 35 65-ft. poles with 8-in. top;
- (13) 24 70-ft. poles with 8-in. top;
- (14) 1 75-ft. pole with 8-in. top;
- (15) 2 80-ft. poles with 8-in. top.

SCHEDULE NO. 5

Cemented Suspension Insulators

- (16) 1850 suspension insulator units; bob Imperial;

SCHEDULE NO. 6

Pin-type Insulators and Pines for use with Copper Conductors

Items 17 and 18 are alternative items and award of contract will not be made for both items.

Alternate to Sched. No. 7

- (17) 6300 one-piece, pin type insulators complete with pins as per Drawings EA-0023, Details A and B;

- (18) (Alt. to Item 17) 6300 post type insulators as per Drawing EA-0023, Detail C;

SCHEDULE NO. 7

Pin-type Insulators and Pines for use with ACSR Conductors

Items 17 and 18 are alternative items and award of contract will not be made for both items.

- (17) 5000 one-piece, tin type insulators with pin as per Drawing EA-10023, Details A and B;

- (18) (Alt. to Item 17) 5000 post type insulators as per Drawing EA-0023, Detail C;

SCHEDULE NO. 8

- (19) 18 400-A, 34.5-kv., 3-pole air-break switches for pole top mounting complete. * 25

BIDS OPENED

SACRAMENTO, Calif.—Following submitted bids to the State Purchasing Agent, 318 State Capitol, Sacramento, under Quo. No. 3597, Reg. No. 16601, for one hydraulically operated heavy duty angle dozer with blade, complete with pump hose and necessary fittings; f.o.b. Willits, Cal. Gar - Wood Industries, Inc., San Francisco—\$1155 (incl. sales tax).

American Tractor Equipment Corp., Oakland—\$1332, 5% 30 days.

Edward R. Bacon Co., San Francisco—\$1332, 5% 20 days.

J. D. Adams Co., San Francisco—\$1580, 2% 30 days. * 25

BIDS WANTED

SAN BERNARDINO CO., Calif.—Until Jan. 17, 2 p.m., bids will be received by the State Highway Department, San Bernardino, for the rental of one 1½-c.y. minimum capacity pneumatic tired dump truck without driver, for use in hauling materials and supplies on a road-

side landscaping and erosion control project on the Waterman Canyon and Crest Drive highways in San Bernardino County. Estimate \$1000.

Bids will be received on:

- (1) Transportation to and from San Bernardino (flat price, round trip);
- (2) Rate per hour for dump truck without driver, hand loading;
- (3) Stand-by rate per hour for dump truck without driver. * 25

CONTRACT AWARDED

LOS ANGELES, Cal.—B. W. Kuhn at \$22,652 (deduct \$1.00 hour for use of vendor's operators on Govt. payroll) was awarded contract by U. S. Engineer, Los Angeles, for rental of two draglines for 3600 hours. Circ. Prop. 196. * 25

BIDS WANTED

BUFFALO RAPIDS PROJ., Mont.—Until February 4, P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 1-018-D, for furnishing and delivering two vertical, motor-driven pumping units having a capacity of 110 second-feet each when operating under a head of 103 feet for installation in the Glendive pumping plant, Glendive division, Buffalo Rapids Proj., Mont. Apparatus will be installed by the Government; job shipping point and/or Fallon, Montana.

Plans and specifications may be obtained from the above office. * 25

BIDS OPENED

OAKLAND, Cal.—The following bids were submitted to the East Bay Municipal Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Proj. No. 459, for the rental of (1) 1½-ton flat bed truck for 2000 truck hours; (2) 2 cu. yd. dump trucks for 2500 truck hours, hand loading; (3) 3 cu. yd. dump trucks for 2500 hours, power loading.

Complete bids follow:

A. J. McCosker, Oakland—(1) \$1,600, (2) \$2000, (3) \$2500.

Samuel E. Bonsangue, Los Angeles—(1) \$3000, (2) \$600, (3) \$5875.

J. Buonocorsi, Oakland—(1) \$2600, (2) \$3225, (3) \$3375.

Bruno Skibo, Oakland—(1) \$1.00 per hour; (2) \$0.80; (3) \$1.00. Lerer Bros., San Francisco—(1) \$1390.

Victor Ratti, Oakland—(2) \$0.78 per hour; (3) \$1.00.

Conrad Gross—(1) \$0.70 per hour; (2) \$0.75; (3) \$0.83.

Porter Truck Service, San Francisco—(1) \$2000, (2) \$2000, (3) \$2500.

R. F. Crawford—(2) \$0.80; (3) \$1.00. W. A. Croll, Oakland—(2) \$2000, (3) \$2500.

Joe Cunha—(2) \$2000, (3) \$2500. Mendocino Contracting Co.—(1) \$0.70; (2) \$0.75; (3) \$0.75.

Virgil A. McCall—(2) \$2000; (3) \$2000.

Perry Brown, Oakland—(2) \$0.80.

Western Truck Company submitted a bid for five 2-c.y. dump trucks at \$1.75 per hour, power loading; \$1.55 hand loading, and \$1.75 per hour for 1½-ton flat bed truck. * 25

BIDS WANTED

STOCKTON, San Joaquin Co., Cal.—Until January 19, 3 P. M., bids will be received by the State Division of Highways, R. E. Pierce, District Engineer, 1200 North Center St., Stockton, for the rental of (1) one or more 2½ to ¾ cu. yd. full swing truck shovel; (2) Rental of two or more 2- and/or 4-c.y. water level dump trucks, for use in District X.

Plans and specifications may be obtained from the above office. * 25

BIDS OPENED

SACRAMENTO, Cal.—G. E. Murray and M. J. Ruddy, Modesto, at \$1,800.00, submitted low bid to the U. S. Engineer Office, 208 Post Office Bldg., Sacramento, under Circ. Prop. 1105-38-177, for the hire and operation for 300 hours of a caterpillar tractor and scraper for work along the Yuba River near Marysville. Complete bids follow:
 G. E. Murray and M. J. Ruddy, Modesto, (per hour) \$6.00; (total) \$1800.00.
 Claude C. Wood, Stockton: \$610; \$1-830.00.
 J. R. Reeves, Sacramento: \$6.75; \$2-025.00.
 C. A. Baker, Sacramento: \$7.45; \$2-235.00.
 Poulos & McEwen, Smith River: \$7.50 \$2250.00.
 Hemstreet & Bell, Marysville: \$10.00; \$4800.00. * 25

BIDS OPENED

SAN BERNARDINO CO., Calif.—Following bids were submitted to the State Highway Dept., San Bernardino, for the rental of from two to four pneumatic-tired dump trucks of not less than 3-c.y. capacity, and one power shovel of not less than 1/2-c.y. capacity for use on San Bernardino mountain roads. Work will consist of excavating and hauling earth and rock material in major slide removal or other maintenance type of work. The items bid on are:
 (1) transportation to and from San Bernardino for each truck (flat price, round trip);
 (2) operating rate per hour per truck, power loading;
 (3) operating rate per hour per truck, hand loading;
 (4) stand-by rate per hour per truck;
 (5) transportation to and from San Bernardino for power shovel (flat price, round trip);
 (6) operating rate per hour for power shovel;
 (7) stand-by rental rate per hour per power shovel.

The bids were:
 K. O. Holte: (2) \$2.18; (3) \$1.78; (4) (6) \$3.50.
 Jesse Hubbs: (1) \$1; (2) \$2.18; (3) \$1.78; (4) \$4.5; (5) \$10; (6) \$2.18; (7) \$1.00.

Fourth St. Rock Crusher: (2) \$2.18 (3) \$1.78; (6) \$3.90; (7) \$9.0.
 Jesse Askey: (2) \$2.18; (3) \$1.78; (6) \$2.25; (7) \$1.90.
 Mill Brothers: (2) \$2.18; (3) \$1.78 (6) \$1.93.

Chas. Holmes: (1) \$1; (2) \$2.18; (3) \$1.78; (4) \$.25; (5) \$1; (6) \$3.15; (7) \$.50.

J. W. Bertram: (1) \$20; (2) \$2.60; (3) \$2.35; (4) \$.50; (5) \$.50; (6) \$.5; (7) \$1.00.

Geo. Butler: (2) \$2.18; (3) \$1.78; (6) \$1.90; (7) \$1.00.

A. E. Bussey: (1) \$.3; (2) \$2.18; (3) \$1.78; (5) \$.25; (6) \$.25; (7) \$.95.

Rock & Gravel Trucking Co.: (2) \$2.18; (3) \$1.98; (6) \$5.00.

C. E. Huls: (1) \$15; (2) \$2.18; (3) \$1.98; (5) \$1; (6) \$4.50; (7) \$1.00.

Price Co.: (1) \$4; (2) \$2.43; (3) \$2.23 (4) \$.80; (5) \$.50; (6) \$.480; (7) \$1.50.

Nailor & Morgan: Irregular.

BIDS OPENED

LOS ANGELES, Cal.—The following bids were received by the Metropolitan Water District, Los Angeles, under Spec. 263, for capacitors, lighting arresters, potential transformers and current transformers for use at the Colorado River Aqueduct pumping plant.

The items bid upon are:

SCHEDULE NO. 1

- (1) 15 only 6900 volt single-pole capacitors.

SCHEDULE NO. 2

- (2) 6 only 69 kv single-pole, station-type lightning arresters;
- (3) 15 only 6900 volt, single-type do.

SCHEDULE NO. 3

- (4) 15 only 6900/115 volt, 200 volt amp. oil-filled potential transformers.

- (5) 25 only 6900/115 volt. 200-v. do;
- (6) 30 only 6900/115-volt do.

SCH. No. 4—For Intake Pump Plant

- (7) 9 only 15 kv 800 amp. 600 to 1 ratio and 160 to 1 ratio, double-secondary, indoor type current transformers;

- (8) 3 only 15 kv 100 amp. do;
- (9) 9 only 7.5 kv 400 amp. 80 to 1 ratio indoor type current transformers;

- (10) 2 only 15 kv 3000 amp. 800 to 1 do
- (11) 6 only 15 kv 800 amp 200 to 1 do

SCHED. No. 5—for Gene Pump Plant

- (12) 9 only 15 kv 800 amp to 1 ratio and 160 to 1 ratio double-secondary indoor type current transformers;

- (13) 3 only 15 kv 100 amp. do;
- (14) 9 only 7.5 kv 400 amp 80 to 1 ratio indoor type current transformers;

- (15) 2 only 15 kv 3000 amp 800 to 1 do
- (16) 4 only 15 kv 200 amp 40 to 1 ratio outdoor type current transformers;

- (17) 4 only 15 kv 800 amp 160 to 1 do;
- (18) 6 only 15 kv 800 amp. 200 to 1 ratio indoor type current transformers.

SCHED. No. 6—for Iron Mt. Pumping Plant

- (19) 9 only 15 kv 400 amp 400 to 1 ratio and 80 to 1 ratio double secondary indoor type current transformers;

- (20) 3 only 15 kv 100 amp. 400 to 1 ratio and 160 to 1 do;

- (21) 9 only 7.5 kv 200 amp. 40 to 1 ratio indoor type current transformers.

- (22) 2 only 15 kv 1500 amp 400 to 1 do
- (23) 3 only 15 kv amp 300 to 1 do;
- (24) 4 only 15 kv 40 amp 8 to 1 ratio outdoor type current transformers;

- (25) 6 only 15 kv 400 amp 100 to 1 ratio indoor type current transformers.

SCHED. No. 7—for Eagle Mt. Pumping Plant

- (26) 9 only 15 kv 1000 amp 800 to 1 ratio and 200 to 1 ratio double-secondary indoor type current transformers;

- (27) 3 only 15 kv 100 amp 800 to 1 ratio and 160 to 1 ratio double-

secondary indoor type current transformers;

- (28) 9 only 7.5 kv 500 amp 100 to 1 ratio indoor type current transformers;

- (29) 2 only 15 kv 4000 amp 1000 to 1 do;

- (30) 3 only 15 kv 4000 amp 800 to 1 do;

- (31) 4 only 15 kv 100 amp 20 to 1 ratio outdoor type current transformers;

- (32) 6 only 15 kv 1000 amp 300 to 1 ratio indoor type current transformers;

SCH. No. 8—Hayfield Pumping Plant

- (33) 9 only 15 kv 1000 amp 800 to 1 ratio and 200 to 1 ratio double-secondary indoor type current transformers;

- (34) 3 only 15 kv 100 amp 800 to 1 ratio and 160 to 1 ratio do;

- (35) 9 only 7.5 kv 500 amp 100 to 1 ratio indoor type current transformers;

- (36) 2 only 15 kv 4000 amp 1000 to 1 do;

- (37) 3 only 15 kv 4000 amp 800 to 1 ratio indoor type current transformers;

- (38) 3 only 15 kv 100 amp 20 to 1 ratio outdoor type current transformers;

- (39) 6 only 15 kv 1000 amp 300 to 1 ratio indoor type current transformers.

The bids were:

Westinghouse Electric & Mfg. Co.:

29— STREETS AND HIGHWAYS

LOW BIDDERS

ORANGE CO., Cal.—C. O. Sparks & Mundo Engineering Co., 2309 East Olympic Blvd., Los Angeles, at \$2,581.50, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading and surfacing with plant-mixed surfacing 0.9 mile and constructing a reinforced concrete bridge at Oso Creek, Orange Co., Cal.

Mojave Corporation, Box 174, Los Nietos, Calif., at \$42,807.90, submitted second low bid.

CONTRACT AWARDED

PHOENIX, Ariz.—Oswald Bros., 366 E. 58th St., Los Angeles, at \$51,935.55, awarded contract by Phoenix city commission for improvement of portions of Tenth, Eleventh, Twelfth and Diamond Streets, involving plant mix pavement.

LOW BIDDER

MARICOPA and Yavapai Counties, Ariz.—Pearson and Dickerson Contractors, Inc., Tilton Blig., Prescott, Ariz., at \$55,951.00 submitted low bid to the Arizona State Highway Commission, Phoenix, for construction of Aguilá-Clanburg Junction Highway, FAS-1-A (1935) AFE 7103. The work, which begins at the Maricopa-Yavapai county line, approximately six miles NE of Aguilá, and extends NE for approximately 7½ miles, consists of grading and draining the roadway, and is to be completed on or before June 30, 1938.

COMPLETE BIDS

PHOENIX, Maricopa Co., Arizona.—Daley Corp., 4430 Boundary Street, San Diego, at \$31,368.50 (Alternate 1) and Oswald Bros., 366 E 58th Street, Los Angeles, at \$28,200.60 (Alternate 2) submitted low bids to the Phoenix City Commission, for improvements to certain portions of 12th, 13th, 11th and 10th Avenues, and McKinley and Pierce Streets, Phoenix.

Work involves:

- ALTERNATE 1
(1) 15,200 sq. yds. 4.7-in. Portland cement concrete pavement with integral curbs and thickened edges;
(2) 15,200 sq. yds. grading under 4.7-in. Portland cement concrete pavement;
(3) 1,070 sq. yds. 6-in. Portland cement concrete pavement;
(4) 1,070 sq. yds. grading under 6-in. Portland cement concrete pavement;
(5) 5,800 sq. yds. parkway grading;
(6) 24,000 sq. ft. one-course Portland cement concrete sidewalk;
(7) 275 lin. ft. 8-in. plain concrete pipe;
(8) 3 each, street signs (detail P);
(9) 3 each, monument covers (detail K);
(10) 3 each, manholes (detail No 4);
(11) 3 each, gutter inlets (detail No. 3);
(12) 3 each, gutter inlets (detail No. 6);
(13) 5 each, adjusting manhole covers;
(14) 8 each, adjusting water valve boxes.

- ALTERNATE 2
(1) 13,010 sq. yds. 3-in. plant-mix oil process pavement;
(2) 13,010 sq. yds. grading under oil process pavement;
(3) 13,010 sq. yds. 6-in. aggregate base, under oil process pavement;
(4) 1,020 sq. yds. 6-in. Portland cement concrete pavement;
(5) 1,020 sq. yds. grading under 6-in. Portland cement concrete pavement;
(6) 5,800 sq. yds. parkway grading;
(7) 24,000 sq. ft. one-course Portland cement concrete sidewalk, 4 inches thick;
(8) 808 lin. ft. combined curb and gutter (detail E-1);
(9) 260 lf. single curb (detail F-1);
(10) 270 lf. 8-in. gutter (detail Z);
(11) 275 lf. 8-in. plain concrete pipe;
(12) 3 each, street signs (detail P);
(13) 3 each, monument covers (detail K);
(14) 3 each, manholes (detail No. 4);
(15) 3 each, gutter inlets (detail No. 3);
(16) 3 each, gutter inlets (detail No. 6);
(17) 5 each, adjusting manhole covers;

(18) 8 each, adjusting water valve boxes.

- Total bids follow:
(A) Daley Corp., 4430 Boundary St., San Diego, (Alt. 1) \$31,368.50; (Alt. 2) \$29,152.85.

BIDS WANTED

PHOENIX, Maricopa Co., Arizona. —Until January 18, 10 A. M., bids will be received by the Phoenix city commission for improvement of 5th Avenue; Resolution of Intention No. 6541. The work involves:

- (1) 264 sq. yds. 3-in. plant mix oil process pave. track area; (2) 264 sq. yds. 2-in. agg. base course pave. (track area); (3) 264 sq. yds. grading under oil process pave. (track area); (4) 945 sq. yds. 3-in. plant mix oil process pave.; (5) 945 sq. yds. grading 6-in. agg. base course under oil process pave.; (6) 945 sq. yds. grading under oil process pave.; (7) 58 sq. yds. 6-in. cement concrete pave.; (8) 58 sq. yds. grading under 6-in. cement conc. pave.; (9) 600 sq. yds. parkway grading; (10) 1840 sq. ft. 1-course cem. conc. walk, 4-in. thick; (11) 492 lf. comb. curb and gutter, detail E-1;

- (12) 36 lf. valley gutter, detail Z; (13) 62 lf. single curb, detail F-1; (14) 4 each adjusting valve boxes.

Plans and specifications may be obtained from the City Engineer, Jas. Girard, Phoenix, upon deposit of \$5.

BIDS WANTED

PHOENIX, Maricopa Co., Arizona. —Until January 18, 10 A. M., bids will be received by the Phoenix city commission for improvement of Ashland Ave.; Resolution of Intention 6538. The work involves:

- (1) 1810 sq. yds. 3-in. plant mix oil process pave.; (2) 1810 sq. yds. 6-in. agg. base course under 3-in. oil process pave.; (3) 1810 sq. yds. grade under oil process pave.; (4) 310 sq. yds. 6-in. cement conc. pavement; (5) 310 sq. yds. grade under 6-inch cement concrete pave.; (6) 750 sq. yds. parkway grading; (7) 2900 sq. ft. 1-course cement concrete walk, 4-in. thick; (8) 1228 lf. comb. curb and gutter, detail E-1; (9) 32 lf. 8-in. plain concrete pipe; (10) 1 each monument cover, detail E; (11) 2 each gutter inlets, detail 6-A; (12) 2 each adjusting manhole covers.

Plans and specifications may be obtained from the City Engineer, Jas. Girard, Phoenix, upon deposit of \$5.

BIDS WANTED

SACRAMENTO, Cal.—Until Jan. 21, 5 p.m. (opened at 8:15 p.m.) bids will be received by the Sacramento City Council, H. G. Denton, City Clk., City Hall, for the improvement of 42nd Street from the southerly line of T Street to the northerly line of V Street, Sacramento, Calif.

- Work involves: (1) 28 lf. No. 5 curb and gutter constructed; (2) 715 lf. No. 6 curb and gutter constructed; (3) 62 lf. curb alone constructed; (4) 1925 3/4-in. sidewalk; (5) 2 cast-iron drains No. 11 installed; (6) Two concrete manholes reconstructed; (7) 505 c.y. excav. grading; (8) 23 c.y. fill grading; (9) 48 lf. 6-in. vit. iron sewer pipe; (10) 112 c.y. crushed run gravel for subbase; (11) 165 tons asphaltic concrete top pavement, 3 inches thick; (12) 28 lf. old concrete curb and gutter No. 5 removed; (13) 87 lf. hedge removed.

Plans and specifications may be obtained from the above office. * 29

CONTRACT AWARDED

GILA AND NAVAJO COS., Arizona. Gen. W. Orr, El Paso, Tex., at \$126,052.14 was awarded contract by the State Highway Commission, Phoenix, for highway construction on Globe-Showlow Highway (F. A. 99-H, 1st Reop.) (1938) AFE 6072; FA 99-1 (1938) AFE 6073; FA 99-J, 1st Reop. (1938) AFE 6074. The work, which begins about fifty miles northeast of Globe and extends northeasterly about 15 miles to the Gila-Navajo county line, consists of sub- grading roadway and refinishing slopes, aggregate base course and asphalt surface treatment and is to be completed on or before Sept. 15, 1938.

LOW BIDDER

NAVAJO COUNTY, Ariz.—Heuser and Garnett, 816 Allen Ave., Glendale, Calif., at \$249,603.00 submitted

low bid to Arizona Highway Commission, Phoenix, for highway construction of the Showlow-Holbrook Highway (FA 13-A) (1938) AFE 7702. The work, which is to extend from Holbrook south for a distance of about 11 1/2 miles, consists of grading, draining, aggregate base course and asphaltic surface treatment, and is to be completed on or before Oct. 13, 1938.

CONTRACT AWARDED

WASHOE CO., Nev.—Isbell Constr. Co., Reno, Nevada, at \$21,828.09, submitted low bid and was awarded contract by the Nevada State Dept. of Highways, Heroes Memorial Bldg., Carson City, Nev., for 1.70 ml. highway construction from Junction with State Route 3 to a point approximately two miles west, Rt. 27, Sec. B, Washoe Co., Nev.

- Work involves: (1) 3,470 lf. fence; (2) 13,798 c.y. roadway excav.; (3) 12 c.y. drainage excav.; (4) 6 sta. V type ditches; (5) 8,293 c.y. borrow; (6) 8,212 yd. sta. overhaul (yd. sta.);

- (7) 4,769 yd. ml. overhaul (yd. ml.); (8) 70 c.y. str. excav.; (9) 100 yd. backfill; (10) 1.70 ml. subgrade, type C; (11) 838 c.y. rock cleanup; (12) Force account, roadside cleanup; (13) 10 M. gals. water; (14) 7,575 tons gravel surface; (15) 18 tons liq. asph., type SC-2 (seal);

- (16) 141 tons liq. asph., type SC-2 (road-mix); (17) 1.70 ml. road-mix; (18) 8 c.y. class A concrete; (19) 3 c.y. class B concrete; (20) 68 lbs. reinf. steel; (21) 6,727 lbs. str. steel; (22) 0.20 MFBM untreated Doug. fir; (23) 28 lf. 12-in. CMP; (24) 54 lf. 18-in. CMP; (25) 104 lf. 24-in. CMP; (26) 6 each culvert markers; (27) 12 each guide posts; (28) 3,470 lf. reconstruct fence; (29) 1 each, 16-ft. steel gate; (30) 16 each, monuments.

- Total bids follow: (A) Isbell Constr. Co., Reno, Nevada —\$21,828.09. (B) Dodge Construction Co., Inc., Fallon—\$22,677.04. (C) Nevada Rock & Sand Co., Inc., Reno—\$26,961.74.

BIDS WANTED

VENTURA CO., Calif.—Until Feb. 3, 2 p.m., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading and paving with Portland cement concrete about 1.7 miles between La Cross and Oakview, Ventura Co., Calif.

Work involves:

- (1) 93 sta. clear and grub; and
- (2) 2,500 M. gals. water;
- (3) 810 c.y. remove exist. conc.;
- (4) 140,500 c.y. roadway excavation, without classification;
- (5) 1,100 c.y. struc. excav.;
- (6) 500 c.y. ditch and channel excavation;
- (7) 550,000 sta. yds. overhaul;
- (8) 22,600 sq. yds. preparing subgrade;
- (9) 93 sta. finishing roadway;
- (10) 24 tons liq. asph., SC-2 (prime coat);
- (11) 360 tons liq. asph., SC-2 (road-mix surf. treat.);
- (12) 29,000 sq. yds. preparing, mixing and shaping shoulders;
- (13) 4,250 c.y. class B portland cement concrete pavement;
- (14) 26,000 lbs. bar reinf. steel pave. and strucs.;
- (15) 8,400 each, pave. dowels;
- (16) 82 c.y. Class A portland cement concrete strucs.;
- (17) 230 lf. 8-in. CMP;
- (18) 560 lf. 24-in. CMP;
- (19) 180 lf. 36-in. CMP;
- (20) 320 lf. 6-in. steel pipe;
- (21) 230 lf. remove, clean and relay pipe culverts;
- (22) 795 lf. bank protection fence;
- (23) 16 each, spillway assemblers;
- (24) 22 each, culvert markers;
- (25) 40 each, guide posts;
- (26) 0.5 mile new property fence;
- (27) 6 each, drive gates.

The State will furnish CMP and abows and spillway assemblies, etc. Plans and specifications may be obtained from the above office. * 29

BIDS WANTED

ORANGE CO., Calif.—Until Feb. 3, 2 p.m., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading and paving with Portland cement concrete about one mile between Orange and Olive, Orange Co., Calif.

Work involves:

- (1) 50 sta. clear and grub;
- (2) 700 M. gals. water;
- (3) 390 c.y. remove concrete;
- (4) 10,100 c.y. roadway excav., without classification;
- (5) 720 c.y. struc. excav.;
- (6) 240 c.y. ditch and channel excavation;
- (7) 50,000 sta. yds. overhaul;
- (8) 1,100 c.y. imported borrow;
- (9) 9,000 tons import subgrade material;
- (10) 12,300 sq. yds. preparing subgrade;
- (11) 50 sta. finishing roadway;
- (12) 10 tons liq. asph., SC-2 (prime coat);
- (13) 230 tons min. aggregate (plant-mix surf.);
- (14) 12 tons liq. asph., ROMC-4 or 5 (plant-mix surf.);
- (15) 100 tons liq. asph., SC-2 (shoulders);
- (16) 8,200 sq. yds. preparing, mixing and shaping shoulders;
- (17) 2,305 c.y. class A portland cement concrete pavement;
- (18) 4,650 each, pave. dowels;
- (19) 45,000 lbs. bar reinf. steel pave. and strucs.;
- (20) 4,000 lbs. misc. iron and steel;
- (21) 225 c.y. class A portland cement concrete strucs.;
- (22) 40 lf. remove, clean and relay pipe culverts;
- (23) 80 lf. remove, clean and salvage

- pipe culverts;
- (24) 40 lf. laminated guard railing;
- (25) 20 each, culvert markers;
- (26) 60 sq. yds. asph. paint binder.

Plans and specifications may be obtained from the above office. * 29

BIDS REJECTED

STATE OF OREGON.—The Oregon State Highway Commission, Public Service Bldg., Portland, rejected all bids for furnishing 5000 c.y. crushed rock in stockpiles, Durkee Section of the Old Oregon Trail, Baker County, State Project.

Homer G. Johnson, Portland, at \$15,250, submitted low bid. * 29

COMPLETE BIDS

STATE OF OREGON.—Following submitted bids to the Oregon State Highway Commission, Auditorium, Public Service Bldg., Oregon, for bridge and highway construction, as follows:

Clackamas, Hood River and Wasco Counties: Mt. Hood Rock Production Project on Mt. Hood and Wapinitia Highways. State project. Furnish 12,400 c.y. crushed rock in stock piles.

Low Bidder: Saxton, Looney & Risley, Henry Bldg., Portland, \$21,060. Referred to engineer.

Other Bidders: A. S. Wallace, Roseburg, Ore., \$21,620; R. O. Dall and Warren Bros., Inc., 7923 NE Halsey, Portland, \$22,240; Joplin & Eldon, 3101 N. Columbia Blvd., Portland, \$23,317; S. S. Montague, 115 SW 4th, Portland, \$23,910; E. H. Tschner, Molalla, Ore., \$25,935; C. C. Greenwood Co., Inc., 3201 NW Front, Portland, \$25,740; Fisher Bros., Oregon City, Ore., \$26,580; Dolan Construction Co., Tillamook, Ore., \$27,680; Homer G. Johnson, Imperial Hotel, Portland, \$27,740; H. L. Rice, 2905 SE Pine, Portland, \$29,378; E. C. Hall Co., 775 W. 11th, Eugene, Ore., \$29,950.

Sherman and Wasco Counties: Dillon-John Day River Section of Columbia River Highway. State project. Furnish 7500 c.y. crushed rock in stock piles. This project may be bid in combination with Hood River Rock Production Project, Hood River and Wasco Counties.

Low Bidder: H. L. Rice, 2905 SE Pine, Portland, \$10,200. Referred to engineer, with power to award.

Other Bidders: Fisher Bros., Oregon City, Ore., \$11,250; Rogers Construction Co., Dayton, Wash., \$11,550; A. S. Wallace, Roseburg, Oregon, \$12,225; Saxton, Looney & Risley, 324 Henry Bldg., Portland, \$12,671; Schmeer, Williams & Gentemann, Wilcox Bldg., Portland, \$13,637; Warren-Northwest Inc., Box 5072, Portland, \$13,725; Clifford A. Dunn, Klamath Falls, \$13,772; Edwin C. Gerber, Oregon City, Ore., \$14,250; R. O. Dall and Warren Bros., Inc., Portland and Aberdeen, Wash., \$14,550; Homer G. Johnson, Imperial Hotel, Portland, \$18,180.

Linn County: The construction of a steel truss span on concrete piers and a concrete slab span over the Calapooya River at Brownsville. Requires approximately 430 cubic yards excavation; 270 cubic yards concrete; 68,000 lbs. metal reinforcement; 210,000 lbs. structural steel, and 300 lf. concrete handrail. The bids for this project will be received for and in behalf of and will be considered by the County Court of Linn County, Oregon.

Low Bidder: Tom Lillebo, Reedsport, \$25,045. County will award.

Other Bidders: Leonard & Slate, Multnomah, Ore., \$25,730; Mountain States Construction Co., 12th and Grant, Eugene, \$26,355; F. C. Himber Co., Eugene, \$27,008; Barham Bros., 865 N. Winter, Salem, \$28,080; J. F. Johnson, Newberg, Ore., \$28,350; Jop-

lin and Eldon, 3101 N. Columbia Blvd., Portland, \$29,088; Warren-Northwest, Inc., Box 5072, Portland, \$30,430; Portland Bridge Co., 1017 Yeon Bldg., Portland, \$32,120; Frank Watt Construction Co., 2020 NE 55th, Portland, \$32,864. * 29

BID OPENING POSTPONED

STATE OF OREGON.—The Oregon State Highway Commission, Public Service Bldg., Portland, postponed the call for bids for the Hood River Rock Production Project on Columbia River and Mt. Hood Highways. State Project. Hood River and Wasco Counties. Bids were called for January 7th. * 29

TO BE READVERTISED

STATE OF OREGON.—The Oregon State Highway Commission, Public Service Bldg., Portland, postponed the call for bids for the Hermiston-Columbia School Section of Hermiston Secondary Highway, FAS-4-A, Umatilla Co., involving 28 mile of surfacing and 3.67 miles oiling and furnishing 1200 c.y. crushed rock in stockpiles. Bids were called for Jan. 7th. Plans are being revised and will be readvertised shortly. * 29

CONTRACT AWARDED

MARICOPA and Yavapai Cos., Arizona.—Pearson & Dickerson Contractors, Inc., Tilton Bldg., Prescott, Arizona, at \$55,951.25, awarded contract by Arizona State Highway Commission, Phoenix, for construction of Agula-Congress Junction Highway, FAS-1-A (1938) AFE 7103. The work, which begins at the Maricopa-Yavapai Co. line, approximately six mi. NE of Agula, and extends NE for approximately 7½ miles, consists of grading and draining the roadway, and is to be completed on or before June 30, 1938. * 29

BIDS WANTED

MARIN CO., Calif.—Until Feb. 4, 2 p.m., bids will be received by the State Division of Highways, Jno. H. Skeggs, District Engineer, State Bldg., San Francisco, for grading and surfacing with armor coat 1.5 mi. between San Geronimo and one mile north of Fairfax, Marin Co., Calif.

Work involves:

- (1) 10 acres clear and grub right of way;
- (2) 810 M. gals. water;
- (3) 210,800 c.y. roadway excavation, without classification;
- (4) 2,300,000 sta. yds. overhaul;
- (5) 1,100 c.y. struc. excav.;
- (6) 82 sta. finishing roadway;
- (7) 20 tons liq. asph., SC-1A (prime coat);
- (8) 50 tons liq. asph., 90-95 (armor coat);
- (9) 900 tons screenings (armor coat);
- (10) 3,000 lbs. bar reinf. steel;
- (11) 40 c.y. class A portland cement concrete strucs.;
- (12) 2 MFBM Redwood timber, select, all-heart struc. grade;
- (13) 1,324 lf. 18-in. CMP, 16-ga.;
- (14) 240 lf. 18-in. CMP, 14-ga.;
- (15) 292 lf. 24-in. CMP, 14-ga.;
- (16) 1,500 lf. 6-in. stand. drain tile;
- (17) 170 lf. 90-in. multiplate CMP;
- (18) 200 c.y. rock filling material;
- (19) 7 each, cast steel frames and covers for drop inlets.

Plans and specifications may be obtained from the above office. * 29

CONTRACT AWARDED

NAVAJO CO., Ariz.—Heuser and Garnett, 816 Allen Ave., Glendale, Calif., at \$249,603.17, awarded contract by the Arizona Highway Commission, Phoenix, for highway construction of the Showlow-Holbrook Highway (FA 13-A) (1938) AFB 7702. The work, which is to extend from

Holbrook south for a distance of about 1 1/2 miles, consists of grading, draining, aggregate base course and asphaltic surface treatment, and is to be completed on or before October 13, 1938. * 29

CONTRACT AWARDED

COCONINO COUNTY, Ariz.—Skoussen Bros., Albuquerque, N. M., at \$37,681.10 was awarded contract by the Arizona State Highway Commission, Phoenix, for placing select material, aggregate base course and asphaltic surface treatment at a point 25.7 mi. north of Cameron and extending northerly approx. 14.2 miles, Flagstaff Fredonia Highway FL 4-C, Schedule 2 (1938) Coconino County, Arizona. * 29

COMPLETE BIDS

NAVAJO COUNTY, Ariz.—Heuser and Garnett, 816 Allen Ave., Glendale, Calif., at \$249,603.17 submitted low bid to Arizona Highway Commission, Phoenix, for highway construction of the Showlow-Holbrook Highway (FA 13-A) (1938) AFE 7702. The work, which is to extend from Holbrook south for a distance of about 1 1/2 miles, consists of grading, draining, aggregate base course and asphaltic surface treatment, and is to be completed on or before October 13, 1938.

Work Involves:

- (1) 51,124 cu. yd. excav., unclass.
- (2) 3,000 c.y. slides and overbreakage;
- (3) 14,652 cu. yd. drainage excav., unclassification;
- (4) 10,150 lf. grader ditches;
- (5) 2,319 cu. yd. struc. excav., unclass.;
- (6) 47,013 sta. yd. station mile overhaul;
- (7) 3,085 cu. yd. cubic yard m. haul
- (8) \$2,369 cu. yd. imported borrow, CIP;
- (9) 59,539 cu. yd. select material, CIP;
- (10) 20,089 tons agg. base course, CIP
- (11) 7,430 M. gals. sprinkling (CIP)
- (12) 1,815 hours rolling;
- (13) 1,268 cu. yd. Class A conc. (inc. cement);
- (14) 136,597 lbs. reinf. steel (bars) CIP;
- (15) 2 each corr. metal catch basin. (CIP)
- (16) 78 lf. 8-inch bit. coated CMP (CIP inc. excav.);
- (17) 470 lf. 18-in. bit. coated CMP (CIP exc. excavation);
- (18) 304 lf. 24-in. do;
- (19) 542 lf. 30-in. do;
- (20) 300 lf. 36-in. do;
- (21) 278 lf. 42-in. do;
- (22) 174 cu. yd. plain riprap (CIP);
- (23) 2 sq. yd. grouted riprap (CIP);
- (24) 640 sq. yd. rock blanket protection (CIP);
- (25) 1 each cattle guard (28-in. rdwy) (C-6) (CIP except excavation and concrete);
- (26) 1 each cattle guard (24-in. rdwy) (C-6) (CIP except excavation and concrete);
- (27) 123,598 lf. standard line fence (CIP);
- (28) 4 each standard steel gates (type 1) (CIP);
- (29) 560 lf. road guard (CIP);
- (30) 186 each guide posts (CIP);
- (31) 94 each r/w markers (type A) (CIP);
- (32) 617 tons cutback asphalt (MC-2) (CIP on road);
- (33) 734 cu. yd. biotter material (CIP on road);
- (34) 1 lump sum resetting cast iron pipe (left sta. 1412 plus 60).
- (35) 470 tons stockpiling agg. base course (CIP).

Total bids follow:

- (A) Heuser & Garnett, 816 Allen Ave., Glendale, Calif., \$249,603.17.
- (B) Southern Calif. Roads Co., Los Angeles, \$251,297.28.
- (C) Ken Hodgman, Contr., Phoenix, \$252,806.58.

(D) Tanner Const. Co., Phoenix, \$268,258.09.

CONTRACTS AWARDED

STATE OF OREGON.—The Oregon State Highway Commission, Auditorium, Public Service Bldg., Portland, Oregon, awarded the following contracts for bridge and highway construction:

BAKER COUNTY: Gibbs Ranch-Baker Section of Baker Unit Highway, State Project 4.37 miles gravel surfacing. Requires approx. 8,400 cu. yd. pit-run gravel and 4,200 cu. yd. screened gravel. This project may be bid in combination with North Unit, Missouri Flat Project in Baker County.

Awarded: O. C. Yocum, 2407 NW 28th, Portland, \$6330.

Other Bidders: Leonard & Slate, Multnomah, Ore., \$7810; Van Cleve & Van Cleve, The Dalles, Ore., \$7838; Roy L. Houck, Salem, \$8530; E. H.

Itschner, Molalla, Ore., \$9350; Hart Construction Co., LaGrande, Ore., 9,482; Gwinn-Robins Co., Inc., Boise, Id., \$10,942; Saxton, Looney & Risley, 324 Henry Bldg., Portland, \$10,611; Harold Blake, 400 N Thompson, Portland, \$10,675; Homer G. Johnson, Imperial Hotel, Portland, \$10,980; Warren Northwest Inc., Box 5072, Portland, \$11,425; Coos Bay Dredging Co., Marshfield, Ore., \$11,908; Newport Construction Co., 7031 NE Halsey, Portland, \$12,915.

BAKER COUNTY: North Unit Missouri Flat Sec. of Medical Springs Secondary Highway, State Project, 3.02 miles gravel surfacing. Requires approx. 9,000 cu. yd. pit-run gravel. This project may be bid in combination with Gibbs Ranch-Baker Project in Baker County.

Awarded: O. C. Yocum, \$3750.

Other Bidders: Van Cleve and Van Cleve, The Dalles, Ore., \$4450; Roy L. Houck, Salem, \$4550; Leonard & Slate, Multnomah, Ore., \$5250; Gwinn-Robins Inc., Boise, Idaho, \$5740; Saxton, Looney & Risley, 324 Henry Bldg., Portland, \$5935; Hart Construction Co., La Grande, Ore., \$5965; E. H. Itschner, Molalla, Ore., \$6780; Coos Bay Dredging Co., Marshfield, Ore., \$7215; Harold Blake, 400 North Thompson, Portland, \$7,625; Homer G. Johnson, Imperial Hotel, Portland, \$7750; Newport Construction Co., 7031 NE Halsey, Portland, \$8700.

GILLIAM COUNTY: Shutter Flat-Condor Section of John Day Highway, State project. Furnish 6,000 cu. yd. crushed rock in stock piles. Gentemann, Portland, \$8710.

Other Bidders: Jones-Scott Co., Walla Walla, Wash., \$9650; Warren Northwest Inc., Box 333, Portland, \$9760; Fisher Bros., Oregon City, Ore., \$9850; Saxton, Looney & Risley, 324 Henry Bldg., Portland, \$9960; Rogers Construction Co., Dayton, Wash., \$10,420; A. S. Wallace, Roseburg, Ore., \$10,430; H. L. Rice, 2905 SE Pine, Portland, \$10,665; Joplin & Eldon, 3101 N Columbia Blvd., Portland, \$14,050.

LANE COUNTY: Ros Station-Arverd Sec. of Pacific Highway, Federal Aid Project No. 262-A; 2.0 miles Portland cement concrete pavement.

(Continued on Next Page)

COCONINO CO., ARIZ.—HIGHWAY CONSTR.—(State)

COCONINO CO., Arizona.—Oswald Bros., 366 E. 58th St., Los Angeles, at \$207,533.87, submitted low bid to the Arizona State Highway Commission, Phoenix, for highway construction on the Flagstaff-Fredonia Highway, F.A. 95-B, 1st Reop. (1938), A.F.E. 8972, FL 4-C, Sch. 1 (1938), A.F.E. 8973. The work, which is to begin at Cameron and is to extend northerly about 25.6 miles, consists of subgrading roadway and refinishing slopes, aggregate base course, 90-95 road oil plant mix and one-half mile of asphaltic surface treatment, and is to be completed on or before Oct. 31, 1938.

The work involves:

- (1) 24,610 mi. subgrading roadway and refinishing slopes;
- (2) 124,684 cu. yd. select material;
- (3) 7,900 cu. yd. stripping pits;
- (4) 5,385 M. gals. sprinkling;
- (5) 1,236 hrs. rolling;
- (6) 40,120 tons agg. base course;
- (7) 29 each, corr. metal catch basins;
- (8) 124 ft. 8-in. C.M. pipe;
- (9) 40,350 tons plant-mix (including haul);
- (10) 2,319 tons road oil (90-95) (for plant mix and seal coat);
- (11) 199,286 gal. road oil, SC-2, for prime coat and A S T;

- (12) 24,938 ml. placing plant mix;
- (13) 4,881 tons screenings;
- (14) 29 cu. yd. biotter material (for A S T);
- (15) 320 sq. yds. placing intersections;
- (16) 500 tons stockpiling aggregate base course;
- (17) 650 tons stockpiling plant mix;
- (18) 26 tons cutback asph. (MC-2) (for stockpiled plant mix);
- (19) 100 tons stockpiling screenings.

The total bids were:

- (A) Oswald Bros., Los Angeles—\$207,533.87.
- (B) Tanner Const. Co., El Paso—\$212,409.20.
- (C) Southern Calif. Roads Co., Los Angeles—\$218,204.33.
- (D) Pearson & Dickerson, Prescott—\$228,662.15.
- (E) Heuser & Garnett, Glendale—\$229,832.71.
- (F) Tanner Const. Co., Phoenix—\$236,368.05.
- (G) Olof Nelson, Logan, Utah—\$241,680.22.
- (H) W. E. Hall, Phoenix—\$244,688.58.
- (I) E. L. Yeager and Reliance Truck Co., Phoenix—\$293,160.34.
- (J) Geo. Pollock Co., Sacramento—\$296,992.70.

The unit bids were:

Requires approximately 1,650 cu. yds. pit-run gravel base; 3,400 cu. yds. crushed gravel, and 25,650 sq. yds. of Portland cement concrete pavement.

Awarded: Harold Blake, 400 North Thompson; Portland, \$49,087.

Other Bidders: Jacobson - Jensen Co., 517 NE Stanton, Portland, \$50,379; Edlefson-Weyandt Co., N. Fenimore and Columbia Blvd., Portland, \$51,418; Mountain States Construction Co., 12th and Grant, Eugene, Ore., \$51,757; Warren-Northwest Inc., Box 5072, Portland, \$53,115.

UNION COUNTY: Forest Boundary-Elgin Section of Weston-Elgin Secondary Highway. State Project; 3,22 miles grading, surfacing and oiling; also furnishing 1,500 cu. y. crushed rock in stock piles. Requires approximately 49,500 cu. y. excavation; 9,000 cu. y. selected roadbed topping; 5,600 cu. y. crushed rock, and 37,800 sq. yds. oil mat surface treatment.

Awarded: E. H. Itchner, Mollala, Ore., \$43,408.

Other Bidders: Leonard & Slate, Multnomah, Ore., \$55,909; Newport Construction Co., 7031 NE Halsey, Portland, \$57,000; Homer G. Johnson, Imperial Hotel, Portland, \$61,472; George F. Price, Dayton, Wash., \$70,496.

WHEELER COUNTY: Butte Creek Section of John Day Highway. Federal Aid Project No. 4; 2.75 miles of grading, surfacing and oiling; also furnishing of 1,000 cu. y. crushed-rock in stock piles. Requires approx. 46,000 cu. y. excavation; 12,000 cu. y. selected roadbed topping; 2,000 cu. y. salvaged surfacing materials; 3,000 cu. y. crushed rock, and 32,300 sq. yds. oil mat surface treatment.

Awarded: Leonard & Slate, Multnomah, Ore., \$39,094.

Other Bidders: Fisher Bros., Oregon City, Ore., \$40,264; E. H. Itchner, Mollala, Ore., \$41,057; Warren-Northwest Inc., Box 5072, Portland, \$45,716; Harold Blake, 400 N. Thompson, Portland, \$46,896; McNutt Bros., 351 1/2 E. Broadway, Eugene, \$48,297; F. C. Dillard, Medford, Ore., \$52,343.

January 13, 1938

CONTRACTS AWARDED

STATE OF OREGON—The Oregon State Highway Commission, Auditorium, Public Service Bldg., Portland, Ore., awarded the following contracts for bridge and highway construction:

Columbia County: Mile Bridge Section of Nehalem Secondary Highway, National Recovery Highway Project No. NRS 213-H (1935); 0.20 mi. grading, surfacing and oiling, and 210 ft. timber, steel and concrete bridge. Requires approximately 6600 cu. yds. excavation; 2400 cu. yds. surfacing materials; 3900 sq. yds. oil mat surface treatment; 305 cu. yds. concrete; 42,000 lbs. metal reinforcement; 193,000 lbs. structural steel; 900 lin. ft. treated piling; 22 MFMB treated lumber, and 440 L.F. metal handrail.

Awarded: Warren Northwest, Inc., Portland, \$39,791.

Other Bidders: Mountain States Construction Co., Eugene, \$40,019; Leonard & Slate, Multnomah, Ore., \$42,468; F. C. Himber Co., Eugene, \$45,051; Joplin & Eldon, 3101 N. Columbia Blvd., Portland, \$46,696; Dolan Construction Co., Tillamook, Ore., \$46,362.

Jackson County: Bear Canyon Section of Pacific Highway. Federal Aid Project No. 190-1; 0.73 mi. grading. Requires approximately 200,000 cu. yds. excavation; 270 cubic yards concrete, and 45,000 lbs. metal reinforcement.

Awarded: Harold Blake, 400 North Thompson, Portland, \$92,614.

Other Bidders: Berke Bros., Inc., Portland, \$94,641; M. L. O'Neill and (Continued on Next Page)

ORANGE COUNTY—GRADING & SURFACING—(State)

ORANGE CO., Cal.—C. O. Sparks & Mundo Engineering Co., 2309 East Olympic Blvd., Los Angeles, at \$42,581.50, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading and surfacing with plant-mixed surfacing 0.9 mile and constructing a reinforced concrete bridge at Oso Creek, Orange Co., Cal.

Work involves:

- (1) 46 sta. clear and grub right of way;
- (2) 500 M. gals. water;
- (3) 710 cu. y. remove existing conc.;
- (4) 1 only remove exist. bridge;
- (5) 17,500 cu. y. rdwy. excav., unclass.
- (6) 21,000 sta. yds. overhaul;
- (7) 160 cu. y. struc. excav.;
- (8) 160 cu. y. ditch and channel excavation;
- (9) 6,500 tons imported subgrade material;
- (10) 46 sta. finishing rdwy.;
- (11) 20 tons liquid asph. SC-2 prime coat,
- (12) 2,550 tons mineral agg. plant-mix surf. (medium curing type);
- (13) 135 tons liquid asphalt ROMC-4 or ROMC-5 plant mix surf. (medium curing type);
- (14) 2,100 sq. yds. asph. paint binder;
- (15) 2,300 tons min. agg. plant mix surf. (slow curing type);
- (16) 120 tons liquid asph. SC-4 plant mix surf. (slow curing type);
- (17) 58,100 lbs. bar reinf. steel;

- (18) 218 cu. y. Class A Portland cement conc. struc.;
- (19) 10 cu. y. do. for railing;
- (20) 60 cu. y. do. for slope paving;
- (21) 50 l.f. 8-in. CMP;
- (22) 60 l.f. 24-in. CMP;
- (23) 60 l.f. 30-in. CMP;
- (24) 5 each spillway assemblies;
- (25) 1 only automatic drainage gate;
- (26) 70 l.f. laminated guard railing;
- (27) 9 each culvert markers;
- (28) 0.2 mile move and reset exist. property fence;
- (29) 1,000 l.f. furnish cast in place piles;
- (30) 25 each driving shells piles;
- (31) 2 each clearance markers.

Total bids follow:

- (A) C. O. Sparks & Mundo Engineering Co., 2309 E. Olympic Blvd., Los Angeles—\$42,581.50.
- (B) Mojave Corp., Los Nietos—\$42,807.90.
- (C) V. R. Dennis Constr. Co., San Diego—\$43,651.50.
- (D) Sully-Miller Constr. Co., Long Beach—\$44,077.80.
- (E) J. E. Haddock Co., Ltd., Pasadena—\$46,141.00.
- (F) Griffith Co., Los Angeles—\$47,659.50.
- (G) C. R. Butterfield-Kennedy Co., San Pedro—\$53,483.50.
- (H) Claude Fisher Co., Ltd., Los Angeles—\$53,578.00.
- (I) N. Perscalleo, Los Angeles—\$63,096.14.

Sons, Eugene, \$101,553; Colonial Construction Co., W. 326 1st, Spokane, Wash., \$106,802; Leonard & Slate, Multnomah, Ore., \$107,980; E. C. Hall Co., Eugene, \$113,958; E. L. Gates, P. O. Box 5072, Portland, \$114,111; Jacobsen-Jensen Co., 517 Ne Stanton, Portland, \$115,285; McNutt Bros., Eugene, \$115,647; Clifford Dunn, Klamath Falls, Ore., \$117,693; K. L. Goulter, 2201 E. Newton, Seattle, \$126,915; Kern & Kibbe, 42 SE Salmon, Portland, \$132,625; A. C. Greenwood, 3201 NW Front, Portland, \$142,665; Diesel Oil Sales Co., 2155 Northlake, Seattle, \$143,620; Williams & Douglas, Kallispig, Mont., \$145,695.

Union County: Grand Ronde River-Noyes Ranch Section of Cove Secondary Highway, Federal Aid Secondary Project No. PAS 259-B; 2.66 mi. grading, surfacing and oiling. Requires approximately 12,400 c.y. excavation; 1500 c.y. salvaged surfacing materials; 7200 c.y. selected roadbed topping; and 25,500 sq. yds. oil mat surface treatment.

Awarded: Warren Northwest Inc., Box 5072, Portland, \$13,251.

Other Bidders: Babler Bros., 2407 NW 28th, Portland, \$20,517; Van Cleve & Van Cleve, The Dalles, Ore., \$20,871; Edwin C. Gerber, Oregon City, Ore., \$22,983; Harold Blake, 400 N. Thompson, Portland, \$24,730; Homer G. Johnson, Imperial Hotel, Portland, \$26,988.

Washington County: West Fork Dairy Creek Section of Nehalem Secondary Highway. State project; 0.11 mile grading and surfacing, and 87 feet of composite pile trestle. Requires approximately 2,556 cubic yds. excavation; 700 cubic yards crushed gravel surfacing materials; driving 20 treated piling; 60 cubic yards concrete; 12,000 lbs. metal reinforcement; 20 MFEM treated lumber, and 190 lf. handrail.

Awarded: J. F. Johnston, Newberg, Ore., \$8,330.

Other Bidders: Leonard & Slate, Multnomah, Ore., \$8622; Mountain States Construction Co., 12th and Grant, Eugene, \$8715; Warren-Northwest, Inc., Box 5072, Portland, \$8790; E. F. & W. B. Philpott, McMinnville, Ore., \$8790; F. C. Himber Co., Eugene, \$10,290; Shattuck & Neland, 30 Meikle Place, Portland, \$10,910. * 29

CONTRACT AWARDED

COCONINO CO., Arizona.—Oswald Bros., 366 E. 58th St., Los Angeles, at \$207,533.87, awarded contract by the Arizona State Highway Commission, Phoenix, for highway construction on the Flagstaff-Predonia Highway, F.A. 95-B, 1st Reop. (1933), A.F.E. 8972, F.L. 4-C, Sch. 1 (1933), A.F.E. 8973. The work, which is to begin at Cameron and is to extend northerly about 25.6 miles, consists of subgrading roadway and refinishing slopes, aggregate base course, 90-95 road oil plant mix and one-half mile of asphaltic surface treatment, and is to be completed on or before October 31, 1938. * 29

CONTRACT AWARDED

LOS ANGELES CO., Calif.—C. O. Sparks & Mundo Engineering Co., 1601 S. Soto St., Los Angeles, at \$122,652.20, awarded contract by State Division of Highways, C. H. Purcell, State Highway Engineer, for the construction of an undergrade crossing under the tracks of the Union Pacific Railroad Company near Pico, consisting of a steel girder track span on concrete abutments and approximately forty-nine hundredths (49) mile of roadway grading and paving with Portland cement concrete and surfacing with plant-mixed surfacing the shoulders and service road, Los Angeles County. * 29

COLUMBIA Co., Ore.—Levee & Retevment Constr.—(Govt.)

COLUMBIA COUNTY, Ore.—J. A. Terteing & Sons, Boise, Idaho, at \$111,142.24 (Sec. A); Harold Blake, Portland, \$183,820.78 (Sec. B), and S. S. Montague, Portland, at \$62,846.33 (Sec. C) and \$117,519.02 (Sec. D) submitted low bids to the U. S. Engineer Office, Portland, under Bid 698-38-235, for constructing and reconstructing levees, constructing tide boxes, pipe lines, rubble masonry catch basins, drainage ditches, and bank protection revetment in the Clatskanie area, consisting of a portion of Beaver Drainage Dist., Magruder Drainage Dist., Midland Drainage District, Marshland Drainage District, Webb District Improvement Co., Woodson Drainage District, and Westland District Improvement Co., Columbia Co. Work involves:

- SECTION A**
- (1) 184 acres clearing and grubbing;
 - (2) 198 acres stripping;
 - (3) 26,500 c.y. excavation, inspection ditches for hydraulic suction dredge levees;
 - (4) 37,900 c.y. excav., drainage ditch and canal;
 - (5) 7,500 lf. cleaning out Larson Slough (Beaver Dist.);
 - (6) 780 c.y. excav. for tide boxes;
 - (7) 3,820 c.y. struc. excav. for tide boxes;
 - (8) 4,683 c.y. backfill for tide boxes;
 - (9) 1 MFEM creosoted lumber, in place;
 - (10) 0.17 MFEM untreated lumber, in place;
 - (11) 1.82 MFEM untreated tongue & groove sheet piling, in place;
 - (12) 210 lf. creosoted round piling, in place;
 - (13) 1224 lf. untreated round piling, in place;
 - (14) 4100 lf. 18-inch creosoted wood stave pipe, in place;

 D. Coluccio, Seattle 55,686
 R. Mastro, Seattle 56,626
 Davis & White, Marysville 56,969
 Northwest Const. Co., N.W. Seattle 58,900

BIDS WANTED

CENTRAL VALLEY PROJECT.—As previously reported, until Feb. 1, 10 A. M., bids will be received by the U. S. Bureau of Reclamation, Old Post Office Bldg., Sacramento, under Spec. No. 767, for the construction of street, driveway and sidewalk grading and surfacing and sewer and water systems for the Government camp at Shasta Dam, Central Valley Project, Calif.

- Work involves:
- (1) 8,000 c.y. excav., common, for streets, drive, and walks;
 - (2) 1,500 c.y. excav., rock, for do;
 - (3) 500 sta. c.y. overhaul;
 - (4) 3,700 c.y. compacting fills;
 - (5) 2,400 c.y. excav., rock, in trenches;
 - (6) 14,670 lf. excav. and backfill in trenches not more than 5 ft. deep for sewer and drainage pipe;
 - (7) 1,530 lf. same more than 5 ft. and not more than 8 ft. deep for sewer and drainage pipe;
 - (8) 10 c.y. excav. common, and backfill of trenches for sewer and drainage pipe, quantities below 8-ft. depth only;
 - (9) 5,800 lf. lay 4-in. sewer pipe, fittings and specials;
 - (10) 7,450 lf. laying 6-in. do;
 - (11) 1,900 lf. laying 8-in. do;
 - (12) 630 lf. laying 10-in. do;
 - (13) 1,770 lf. laying 12-in. do;
 - (14) 140 lf. laying 30-in. dia. corr. metal pipe;
 - (15) 27 grease traps;
 - (16) 32 sewer manholes not more than 5 ft. deep;
 - (17) 19 additional feet constructing sewer manholes, each additional foot over 5 ft. deep;
 - (18) 5,850 lf. excav. and backfill of trenches not more than 2 feet deep for water pipe;
 - (19) 10,630 lf. same, more than two feet deep and not more than 3 ft. deep for water pipe;
 - (20) 5 c.y. excav., common, and backfill of trenches for water pipe, quantities below 3 ft. depth only;
 - (21) 2,820 lf. laying 6-in. dia. water pipe and fittings;
 - (22) 6,900 lf. laying 4-in. do;
 - (23) 500 lf. laying 2-in. do;
 - (24) 1,550 lf. laying 1½-in. do;
 - (25) 1,000 lf. laying 1¼-in. do;
 - (26) 720 lf. laying 1-in. do;
 - (27) 4,000 lf. laying ¾-in. do;
 - (28) installing 7 6-in. gate valves;
 - (29) installing 16 4-in. gate valves;
 - (30) installing 9 2-in. dia. curb stops and service boxes;
 - (31) installing one 1½-in. do;
 - (32) installing 34 1¼-in. do;
 - (33) installing 4 1-in. do;
 - (34) installing 84 ¾-in. do;
 - (35) installing 17 fire hydrants;
 - (36) 1,500 lf. dismantling existing water line;
 - (37) 18,500 lf. placing timber curb boards;
 - (38) 5,000 c.y. furnishing materials and constructing bottom layer of base course of crusher-rock or crushed-gravel surfacing;
 - (39) 3,500 c.y. furnishing materials and constructing top layer of do;
 - (40) 14,500 gals. applying liq. asphalt material, type SC-1A;
 - (41) 21,600 gals. applying do, type 90-95;
 - (42) 1,040 c.y. furnishing, spreading and compacting coarse screenings for armor coat;
 - (43) 400 c.y. furnishing, spreading & compacting fine screenings for armor coat.

Plans and specifications may be obtained from the above office.

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

TREASURY DEPARTMENT

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 4th St., San Francisco, for furnishing supplies and materials, as follows:

JANUARY 18, 10 A. M.:

BID NO. 4881: Furnishing and delivering 3000 gals. fuel oil; fob 1155 Page St., San Francisco;

BI DNO. 4882: 10,000 tons crushed rock, 10,000 tons gravel and 5,000 tons sand; fob WPA projects jobsites within city limits of San Francisco;

BID NO. 4883: 37,000 sacks of Portland cement; fob cars at mill and/or Oakland, Alameda, San Leandro, Piedmont, Emeryville, Berkeley, Albany and/or El Cerrito;

BID NO. 4884: 18,000 tons of crushed rock or gravel, 550 tons sand and 4,496 tons concrete mix; fob WPA jobsites within limits of Oakland, Alameda, San Leandro, Piedmont, Emeryville, Berkeley, Albany and/or El Cerrito.

NAVY DEPARTMENT

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies and Accounts, Navy Dept., Washington, D. C., for furnishing miscellaneous supplies and materials, as follows:

SCH. 2484: 60,000 lbs. pulverized silica for Norfolk; 30,000 lbs. do, Mare Island; Jan. 18.

SCH. 2486: 23 packs gold leaf for Seawall's Point; 10 packs do, for Mare Island; Jan. 18.

SCH. 2489: 2000 lbs. aluminum stearate for Norfolk; 6400 lbs. do for Mare Island; Jan. 18.

SCH. 2494: 1,000,000 lbs. dry zinc oxide for Norfolk; 70,000 lbs. do, Mare Island; Jan. 18.

SCH. 2505: 16 ventilating fans and 16 sets spares for Mare Island; January 21.

SCH. 2492: 9100 lbs. yellow beeswax for eastern yards; 1500 lbs. do for western yards; Jan. 18.

SCH. 2496: 5000 gals. pine oil for Norfolk; 30,000 lbs. lump rosin for eastern yards; 11,000 lbs. do for Mare Island; 150,000 lbs. do for Norfolk; 90,000 lbs. do for Mare Island; 160 gals. pine tar for Portsmouth and Sewalls Pt.; 300 gals. do for Mare Island and San Diego; 9260 gals. turpentine for eastern yards; 8750 gals. do for western yards; January 18.

SCH. 2498: 20,000 lbs. carnauba wax for Norfolk; 20,000 lbs. do for Mare Island; 10,000 lbs. yellow ceresin wax for Norfolk; 20,000 lbs. do for Mare Island; Jan. 18.

SCH. 2482: 8 glass dome doors for Mare Island; January 14.

SCH. 2543: 12 fire extinguishing systems, carbon dioxide and spares for eastern yards and Puget Sound; January 25.

SCH. 2504: Motor - driven milling machine and equipment for San Diego; January 18.

SCH. 2469: Universal testing machine for Puget Sound; January 14.

SCH. 2525: Motor - driven milling machine for San Pedro; Jan. 21.

SCH. 2533: 5250 gals. technical benzol for eastern yards; 2700 gals.

do for Mare Island; January 25.
SCH. 2511: 123,800 lbs. boiler compound for eastern and western yards; Jan. 25.

SCH. 2514: 10,180 galv. iron buckets for eastern yards; 9032 do for western yards; January 25.

SCH. 2490: 2060 qts. nitro - cellulose lacquer and 6500 qts. thinner for eastern and western yards; Jan. 18.

SCH. 2567: Amosite-asbestos insulating felt for eastern yards and Puget Sound; January 25.

SCH. 2516: Cement, rubber and cement compound for eastern and western yards; January 25.

SCH. 2531: Denatured and ethyl alcohol for eastern and western yards January 25.

SCH. 2523: Cresol solution for eastern and western yards; Jan. 25.

SCH. 2521: 100,000 lbs. sweeping compound for eastern and western yards; Jan. 25.

SCH. 2526: One portable wood shaper for San Diego; Jan. 21.

SCH. 2508: Admiralty metal condenser tubes for Norfolk, Mare Island and eastern and western yards; January 18.

SCH. 2512: 154,000 lbs. calcium-chloride for eastern and western yds.; January 25.

SCH. 2527: Motor - driven band saw for San Diego; January 21.

SCH. 2522: Motor - driven wood turning lathe for San Diego; Jan. 21.

U. S. FOREST SERVICE

GOVERNMENT ISLAND, Calif.—Bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for furnishing supplies and materials, as follows:

January 18, 2:00 P. M.

BID NO. 5414—Paper fastening machines; f.o.b. Government Island.

BID NO. 5415—Alarm clocks; f.o.b. Government Island.

January 19, 2:00 P. M.

BID NO. 5387—Purchase of new Velvetch (or equal) bi-metallic clutch facings, including lump sum trade-in allowance and/or cash offer on used equipment; f.o.b. Redding, Cal.

January 26, 2:00 P. M.

BID NO. 5416—Aluminum holders or binders; f.o.b. Government Island.

BID NO. 5417—Loose leaf photo albums; f.o.b. Government Island.

BID NO. 5418—White index cards; f.o.b. Government Island.

BID NO. 5419—Lead pencils; f.o.b. Government Island.

GOVERNMENT ISLAND, Calif.—Bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for furnishing supplies and materials as follows:

JANUARY 20, 2 P. M.:

BID NO. 5412: 50 gallons fire extinguisher fluid; fob Government Island;

BID NO. 5413: 500 clearance lamps; fob Government Island.

JANUARY 21, 2 P. M.:

BID NO. 5386: Purchase of new Chevrolet (or equal) replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment; fob Glendale. *

GOVERNMENT ISLAND, Calif.—Until Jan. 19, 2 p.m., bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, under Bid No. 5389, for the purchase of new Schramm (or equal) compressor replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment; f.o.b. Redding, Calif.

AZVEDO LOW ON ADDITIONS AT STATE FAIR

Sacramento Firm Submits \$197,300 Low General Bid On Combined Schedule

SACRAMENTO, Jan. 18.—Azvedo Construction Co., 920 O street, Sacramento, today submitted a low general bid of \$197,300 to State for construction of additions to the grandstand and administration building at Agricultural Park, the State fair grounds here.

Second and third low general bidders, respectively, were Campbell Construction Co., Sacramento, at \$197,472; and Carl N. Swenson Co., San Jose, at \$198,000.

For electric work, Commercial Electric Co., 616 West Ninth street, Los Angeles, submitted a low proposal of \$13,498. Rex Moore, Sacramento, at \$14,775, and Reliable Elevator Works at \$15,210 were second and third low bidders on this portion of the work.

Mechanical work

Hateley & Hateley, 1714 Tenth street, Sacramento, submitted a low bid of \$11,366 for plumbing and mechanical work. Second and third low bidders on this contract were J. J. McDermott, Sacramento, at \$11,400; and M. R. Carpenter, Sacramento, at \$12,055.

Hateley & Hateley likewise were low bidders for heating and air conditioning. The firm's low proposal on the contract amounted to \$13,121.

Second and third low bidders for heating and air conditioning were M. R. Carpenter at \$13,139, and J. J. McDermott at \$13,345.

Shipments of domestic pumps and cylinders during the first 11 months of 1937 amounted to \$2,755,635, a slight increase over the shipments amounting to 2,461,749 for the same period in 1936, the Bureau of Census reports.

Orders for oil storage tanks during the first ten months of 1937 amounted to 114,984 short tons, as compared to orders totaling 84,414 short tons for the same period in 1936, according to the Bureau of Census.

LICENSE BOARD MEETING CALLED

SACRAMENTO, Jan. 19.—California's State Contractors' License Board will meet in Bakersfield on January 28 and 29, according to Registrar Earl S. Anderson, who stated that the meeting has been called by Chairman Roy M. Butcher, electrical contractor of San Jose.

According to the Registrar, executive officer of the Board, the meeting is the regular quarterly session of the Board and business will be routine in nature.

SPEED LAYING OF TIES FOR BRIDGE RAILS

Ties for the final eastbound main tracks in the East Bay Yard for the San Francisco-Oakland Bay Bridge railway facilities have been placed, it was announced by Chief Engineer C. H. Purcell in a progress report filed yesterday with Earl Lee Kelly, State Director of Public Works. Ties for the westbound main tracks in the yard have been laid as far west as the Toll Plaza by Bates & Rogers Construction Corp., contractors.

Meanwhile, on the bridge proper all ties have been placed in Spans E-3 to E-8 and E-11 to E-21 inclusive, for which the Pacific Bridge Company is the contractor.

All pile driving for the Terminal has been completed and the concrete basement slab has been finished for the center and west units and is 50 per cent completed in the east unit by the contractors, MacDonald & Kahn, Inc, Mr. Purcell said. The first floor concrete slab is also finished in the center unit with the mezzanine floor slab at this point approximately 75 per cent completed. First floor concrete slab for the west unit is half finished.

STATE RECEIVES BIDS FOR THREE SPAN CONTRACTS

Hemstreet & Bell, E. G. Perham, Earle W. Heple Bid Bridges

SACRAMENTO, Jan. 19.—Low bids aggregating \$182,233.90 today were received by the State Division of Highways on three bridge construction projects in Merced, Santa Cruz and Del Norte counties.

Hemstreet and Bell, Marysville, at \$132,154, submitted the low bid on the largest contract. The work involves construction of a reinforced concrete slab bridge and grading and applying seal coat to about two miles of highway between Wilson Creek and Last Chance Slide in Del Norte county.

The second lowest bidder was Poulos and McEwen, Sacramento, at \$142,297. Other bidders included: Williams and Douglas, \$146,912.50; Mercer-Fraser Co., \$160,653.50; United Concrete Pipe Corp. \$163,772; Fredericksen and Westbrook, \$164,335; McNutt Brothers, \$167,721.50, and N. M. Ball Sons, \$167,772.50.

Timber Bridges

Low bidder on the second largest job for which bids were opened today was E. G. Perham, Los Angeles. He bid \$25,628.20 on a contract for construction of 7 timber bridges on timber pile bents and a corrugated metal pipe culvert at points about ten to sixteen miles southeast of Merced in Merced Co.

M. A. Jenkins, Sacramento, at \$27,836.80 submitted the second lowest bid. Other bidders included: Earle W. Heple, \$28,346.50; Rexroth & Rexroth, \$28,346.50; Palo Alto Road Materials Co., \$28,708; C. B. Cameron and Son, \$28,848.36; F. Kaus, \$29,504.90; J. S. Metzger and Son, \$29,941.20; Frank Legg, \$32,270.25; A. Soda and Son, \$32,270.25; N. M. Ball Sons, \$33,215.65; B. A. Howkins Co., \$33,565; John Rocca, \$35,174.80, and Bundesen & Lauritzen and Delta Dredging Co., \$35,946.50.

Low bidder on the job was Earle W. Heple, at \$24,851.90. Granite Construction Co., at \$25,749.50 submitted the second lowest bid.

A.G.C. URGES IMMEDIATE ACTION TO AVERT CUT IN HIGHWAY FUNDS

Every effort to avert the proposed reduction or elimination of federal assistance for highway projects must be made immediately. The present and future fate of highway construction hangs in the balance.

With this message, Secretary-Manager Floyd O. Booe of the Northern California Chapter, A.G.C., yesterday urged everyone interested in any way in highway work—contractors, material dealers and manufacturers, equipment firms, engineers, highway users—to throw their full strength behind the drive to block the proposed reduction.

A virtual "stop-order" in the form of a request from Secretary of Agriculture Henry A. Wallace that no action be taken toward construction of projects planned under the 1939 Federal aid and grade crossing apportionment has made the situation acute.

California Projects

In California alone, projects to cost an estimated \$13,618,000 are being delayed as a result of this communication, sent by Secretary Wallace to governors of the various states.

"Every interested organization—union labor, civic bodies, trade associations—should send communications immediately to their Senators and Representatives voicing their opposition to this proposed reduction," Mr. Booe declared.

"Should the reduction go thru," he said, "it will mean the California highway program will be reduced by one-third for the balance of the current biennium."

Hearings on the administration proposal are scheduled to start before a House committee January 25.

Work by Districts

The Northern and Southern California A.G.C. chapters are filing with each Congressman complete data on the projects in his congressional district which at present are tied-up or delayed by Secretary Wallace's request. Estimated cost of work programmed in California congressional districts (to be financed by state and federal-aid funds) is as follows:

Northern California—District I, \$1,175,000; District II, \$882,998; District III, \$140,000; Districts VI and VII, \$1,153,200; District VIII, \$2,049,300; District IX, \$1,984,000; District X, \$1,698,000.

Southern California — Districts XI to XVIII inclusive, in Los Angeles county, \$3,254,600; District XIX, \$1,118,290; District XX, \$303,300.

Note From Wallace

The communication from Secretary Wallace read as follows:

"In accordance with the provisions of the Federal Highway Act, I have apportioned among the several States the amounts authorized to be apportioned for Federal Aid highways and grade crossings for the fiscal year 1939, and there is

OAKLAND NAVAL SUPPLY DEPOT SITE APPROVED

The Senate Naval Affairs Committee yesterday approved the middle harbor of Oakland as the site of a proposed \$15,000,000 naval supply depot, according to advices from Washington.

Following approval of the project, Chairman David I. Walsh of the Committee asked the House Naval Affairs Committee that the authorization for the depot be placed in the proposed omnibus public works bill for the new Navy building program.

Early hearings on the omnibus bill are anticipated in the House, it was announced, with inclusion of the Oakland project expected.

Action towards establishment of a naval supply depot on San Francisco Bay has long been in progress.

Several sites have been offered. In 1936, Oakland citizens voted to deed the middle harbor site to the Navy for the purpose of constructing a naval supply depot. Senate approval of the site was withheld last year pending a visit to the site by Chairman Walsh.

enclosed a copy of such apportionment.

"I am directed by the President, however, to invite your attention to the recommendation regarding highway authorizations which he made in a special message to the Congress under date of November 27, 1937, in which message he recommended the cancellation of the 1939 authorizations.

"While no action was taken on this recommendation during the Special Session of Congress, the President desires that Congress be afforded, prior to the approval of any projects under the 1939 apportionment, a further opportunity to give consideration to his recommendation for the cancellation of the 1939 authorizations. He will appreciate, therefore, your cooperation and that of your State Highway Department in deferring the submission of projects under the 1939 apportionment until this matter has received the further consideration of Congress.

"Sincerely yours,

"H. A. WALLACE,
Secretary."

A.G.C. TO HOLD MEET FEB. 7 IN WASHINGTON, D.C.

Factors Retarding Construction Industry To Be Discussed By Association

Recovery from the recession in industrial and business prosperity will not come until the construction industry has resumed its advance toward a normal market. E. J. Harding, managing director of the Associated General Contractors of America, said last week in announcing the 19th annual convention of the association, which will be held in Washington the week of February 7.

"The association will hold its convention in Washington to discuss the many factors which are retarding construction prosperity at the present time," Mr. Harding said, "and will make recommendations and draw up a plan of campaign for accomplishing them."

Chief among the factors which are delaying the resumption of construction activity, the association states, is the undistributed profits tax provision of the Revenue Act of 1936. The Associated General Contractors of America expressed its belief that this measure would handicap private construction when the measure was first enacted, and sponsored a bill in Congress to relieve industries from the burden of the tax as it affects their expenditures for new construction.

"We know that industrial concerns need to expand and modernize their plants," Harding said, "and they cannot carry out programs which would mean many hundreds of millions of dollars invested in construction, because the undistributed profits tax places such a high penalty on such expenditures. The tax runs as high as twenty-seven per cent, and in the case of the smaller industrial concerns, such a tax is prohibitive."

"When the Administration's plans for a restoration of prosperity through private activity, which would stimulate the heavy goods industries, were announced last fall, the association immediately pointed to this chief stumbling-block in the way of such activity, and urged that prompt action by the special session of Congress be taken on the amendment of the undistributed profits tax," Harding continued.

"While no action was taken by the special session, indications were that the measure would be one of the first to be brought before the regular session. However, reports now indicate that the revision may not be considered for many months, and in the meantime the construction industry remains in the doldrums, and all other industries with it.

More than 1400 workmen are now building the 1939 Golden Gate International Exposition.

Unseasonal New York Permit Gain Lifts December U. S. Total 70% Above November

A sharp rise in the New York building permit total for December, occasioned by the rush to file permits before the new city building code went into effect, raised the December building permit total for the country well above the November figure, according to the monthly survey issued by Dun and Bradstreet, Inc.

Permit values for 215 cities of the United States for December amounted to \$118,763,851, as compared to \$69,567,549 in November, and \$83,557,063 for December, 1936. This represented respective increases of 70.7 and 42.1 per cent.

The New York City total rose from \$19,388,948 in November to \$74,818,104 in December, which contrasted with only \$16,363,201 in December last year. The 214 cities outside of New York accounted for only \$43,945,747 last month, a drop of 12.4 per cent from the November figure of \$50,178,601, and a decline of 34.6 per cent from the \$67,193,862 recorded in the like month a year ago.

Group total of building permit values for 215 cities for December this year and last, are shown in the following table:

Groups	Dec., 1937	Dec., 1936
New Eng.	\$ 5,969,960	\$ 7,253,198
Mid. Atlantic...	80,726,490	22,399,712
So. Atlantic...	5,082,384	7,727,746
East Central...	7,657,851	17,016,511
South Central...	6,579,685	10,299,696
West Central...	2,905,569	3,216,717
Mountain	1,244,781	1,243,705
Pacific	8,597,131	13,859,778
Total U. S.	\$118,763,851	\$83,557,063
N. Y. City	\$ 74,818,104	\$16,363,201
Outside N.Y.C. ..	\$ 43,945,747	\$67,193,862

The building permit totals for the 215 cities for December and the twelve months of the past 11 years follow:

	December	12 Months
1937.....	\$118,763,851	\$1,130,624,471
1936.....	83,557,063	980,496,615
1935.....	62,992,039	596,686,708
1934.....	21,125,723	348,390,747
1933.....	24,915,270	313,676,276
1932.....	23,279,690	399,288,930
1931.....	47,582,216	1,158,963,273
1930.....	109,105,240	1,671,403,078
1929.....	123,498,929	2,913,131,600
1928.....	217,436,810	3,304,507,091
1927.....	253,607,296	3,419,479,046

Leading Cities

The following table compares the permit value totals at twenty leading cities for the calendar years 1937 and 1936:

	—Twelve Months—	
	1937	1936
New York City	\$305,857,854	\$211,880,768
Los Angeles.....	63,170,944	62,653,541
Detroit	52,909,940	43,169,099
Washington...	31,168,515	31,553,390
Philadelphia ..	30,881,720	20,907,010
Chicago	28,806,443	19,027,532
Boston	21,434,997	11,809,103
San Francisco..	20,245,440	19,927,148
Houston	18,684,535	18,507,705
Cincinnati ..	18,203,110	19,921,120
Baltimore	16,752,190	16,871,744
Miami, Fla.	14,003,604	12,614,824
Milwaukee	12,093,861	12,343,724
Cleveland	11,125,000	14,994,700
Miami Beach ..	10,809,508	12,526,107
Denver	8,887,392	8,337,479
Portland	8,671,285	6,775,650
St. Louis	8,650,358	8,018,230
Pittsburgh	8,591,379	7,483,695
Oakland	8,396,093	8,688,815

CLIFFORD WILL HEAD NORTHERN A.G.C. CHAPTER

**Board Elects S. F. Contractor
President; Ben. C. Gerwick
Is Named Vice-Pres.**

R. F. Clifford, San Francisco general contractor, was elected president of the Northern California Chapter, Associated General Contractors of America at the initial board meeting of the year, Secretary-Manager Floyd O. Booe announced yesterday.

The new Board of Directors held its first meeting last Friday.

Elected to the post of vice-president was Ben C. Gerwick.

R. G. Clifford succeeds E. F. Modglin as president of the Northern California Chapter, Associated General Contractors of America. Mr. Modglin retains his position on the Board of Directors.

Board Members

Other members of the Board who will serve their second terms in 1938 are Ben C. Gerwick and A. V. Ordway.

Three new directors will serve on the board during the coming year.

New board members are: Stanley Ball; C. V. Isbell of Reno; and Guy F. Atkinson, widely known San Francisco contractor, who two months ago was elected to a vice-presidential post by the Associated General Contractors of America thus insuring his becoming president in 1939.

AIRPORT WORK OUT FOR BIDS

The San Francisco Public Utilities Commission yesterday issued two calls for bids, both to be opened January 23, for finishing rooms in the first story of the Administration Building at San Francisco Airport, and for exploration and dredging at San Francisco Airport.

The latter project is the first in the \$2,850,000 airport improvement program to be financed by the airport bond issue approved by the voters November 2. The work involves making tests preparatory to starting land and seaplane port improvements at the air field.

Booe Will Attend Northwest National A.G.C. Conventions

Two Associated General Contractors of America conventions will be attended within the next three weeks by Secretary-Manager Floyd O. Booe of the Northern California Chapter, A.G.C.

Mr. Booe plans to attend the Pacific Northwest A.G.C. convention in Seattle January 28 and 29.

Returning to San Francisco, he will leave again within three or four days for Washington, D. C. where the national convention will be held February 7 to 10.

Guy F. Atkinson, national vice-

S. F. Convention

president, will attend the Washington convention. Mr. Booe said, and it is possible that other members of the Northern California chapter board also will attend.

Among important topics slated for discussion at the national convention are the administration proposal to reduce or eliminate federal aid for highway construction, confirmation of the board's selection of San Francisco as the 1939 convention city, and others.

While in Washington Mr. Booe plans to appear before the appropriations committee on behalf of the Central Valley Project, for which hearings have been tentatively set for the first week in February.

STATE EXCHANGE TO MEET JAN. 29 IN BAKERSFIELD

The semi-annual meeting of the California State Builders Exchange will be held in Bakersfield, January 29, Secretary Harry Cayford announces.

The business session, lasting all day, will be conducted at the Hotel El Tejon. The meeting will be called to order at 9:00 A. M.

The Contractors' State License Board will be in session also on the same day at the Hotel El Tejon in Bakersfield, according to Mr. Cayford.

On Friday evening, January 28, the annual banquet of the Bakersfield Builders' Exchange will be held. The Bakersfield Builders' Exchange has invited all members of the State Exchange to attend, it is announced.

Every one of the member Exchanges should arrange to have one or more delegates at the semi-annual meeting, President H. L. Sweeney of the State Exchange announces.

The fact that the Contractors' State License Board will be in session at the same time and place makes the current semi-annual meeting of unusual importance, he says.

5067, App. 8737 (Sierra Co.) issued to Sission Gold Mining Co., Oakland, Dec. 13, for 3 cu. ft. per second total, from Pekoe Creek, for mining and domestic purposes. Est. cost, \$6000.

5068, App. 8738 (Sierra Co.) issued to Sission Gold Mining Co., Oakland, Dec. 13, for 15 cu. ft. per second from Middle Fork North Fork of North Fork Yuba River, for power and domestic purposes. Est. cost, \$10,000.

5069, App. 8870 (Sierra Co.) issued to Sission Gold Mining Co., Oakland, Dec. 13, for 5 cu. ft. per second total from Pekoe Creek for power and domestic purposes.

5070, App. 8716 (Amador Co.) issued to Stockton Camp Fire Girls, Stockton, Dec. 14, for 5200 gals. per day from an unnamed stream for domestic and recreational purposes. Est. cost, \$300.

5071, App. 9159 (Mariposa Co.) issued to E. K. Brown, Bug Meadows, Dec. 14, for 16,000 gals. per day from an unnamed creek for domestic purposes. Est. cost, \$225.

5072, App. 8827 (Sierra Co.) issued to Fred Siml, Downville, Dec. 14, for 3 cu. ft. per second from North Fork South Fork North Fork Yuba River, for power purposes. Est. cost, \$700.

5073, App. 9016 (Sierra Co.) issued to Fred Siml, Downville, Dec. 14, for 3 cu. ft. per second from North Fork South Fork North Fork Yuba River, for power purposes. Est. cost, \$700.

5074, App. 9138 (San Diego Co.) issued to Marie Hendley, Los Angeles, Dec. 14, for 0.22 cu. ft. per sec. from Charlot creek, for mining purposes. Est. cost, \$400.

5075, App. 9149 (El Dorado Co.) issued to G. E. Tuman, Placerville, Dec. 14, for 0.5 cu. ft. per second from Baltic Creek, for industrial purposes. Est. cost, \$100.

5076, App. 9025 (Mono Co.) issued to M. Zuckerman, Inc., Stockton, Dec. 14, for 1500 gals. per day from Rock Creek, for domestic purposes.

5077, App. 8994 (Tulare Co.) issued to M. Whitney Lumber Co., California Hot Springs, Dec. 13, for 0.1 cu. ft. per second from Parker Creek for industrial, domestic and fire protection purposes. Est. cost, \$300.

DEL NORTE CO.—Bridge Construction and Grading—(State)

DEL NORTE COUNTY, Cal.—Hemstreet and Bell, 501 11th St., Marysville, at \$132,154 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for construction of a reinforced concrete slab bridge and grading and applying seal coat to about 2 miles between Wilson Creek and Last Chance Slide, Del Norte Co., Cal.

Work Involves:

- (1) 20 acres clear and grub;
(2) 1,400 M. gals. water;
(3) 168,000 c.y. rdwy. excav. without class;
(4) 220 c.y. ditch and channel excavation;
(5) 1,695,000 sta. yds. overhaul;
(6) 47,000 mile yds. haul;
(7) 5,150 c.y. struc. excav.;
(8) 8,000 c.y. coarse rock;
(9) 8,100 c.y. import surf. mat.;
(10) 107 sta. finishing roadway;
(11) 72 tons liq. asph., SC-1A (prime coat);
(12) 37 tons liq. asph., 90-95 (seal coat);
(13) 315 c.y. screenings (seal coat);
(14) 30,800 lbs. bar reinf. steel;
(15) 243 c.y. class A portland cement conc. strucs.;
(16) 55 MPBM redwood timber, e.e.t., all-heart struc. grade;
(17) 100 c.y. dry rubble;
(18) 340 lf. 8-in. CMP;
(19) 1,200 lf. 18-in. CMP;
(20) 450 lf. 24-in. CMP;
(21) 160 lf. 30-in. CMP;
(22) 3,900 lf. 8-in. perf. metal pipe underdrains;

- (23) 670 lf. 18-in. perf. metal pipe underdrains;
(24) 1,140 c.y. rock filling material;
(25) 350 lf. pipe culverts, remove, clean and salvage;
(26) 8,700 lbs. misc. steel;
(27) 5 each, spillway assemblies;
(28) 3 each, junction pipes;
(29) 1 each, taper inlets and elbows;
(30) 12 each, remove headwails;
(31) 1,700 lf. laminated guard railing;
(32) 220 lf. solid timber railing;
(33) 32 each, culvert markers;
(34) 20 each, guide posts;
(35) 0.90 mile new property fence;
(36) 1 each, drive gate;
(37) 0.65 mile fence moved and re-set;
(38) 1 lot remove exist. timber structures;
(39) 20 each, monuments;
(40) 1 lot misc. bridge items.

Total bids follow:

- (A) Hemstreet & Bell, 501 11th St., Marysville, \$132,154.00.
(B) Poulos & McEwen, Sacramento, \$142,297.00.
(C) Williams and Douglas, Kallispell, Montana, \$148,912.50.
(D) Mercer-Fraser Co., Eureka, \$160,653.50.
(E) United Concrete Pipe Corp., Los Angeles, \$163,772.00.
(F) Fredericks & Westbrook, Lower Lake, \$164,335.00.
(G) McNutt Bros., Eugene, Oregon, \$167,721.50.
(H) N. M. Ball Sons, Berkeley, \$167,772.50.

Unit prices follow:

Table with 11 columns (A-I) and 40 rows of unit prices for various construction materials and services.

5075, App. 8995 (Tulare Co.) issued to Mt. Whitney Lumber Co., California Hot Springs, Dec. 18, for 0.5 cu. ft. per second and 40 ac. ft. per annum by storage from South Creek, for industrial and fire protection purposes. Est. cost, \$2500.

5079, App. 8097 (Orange Co.) issued to L. F. Moulton & Co., El Toro, Dec. 18, for 2500 ac. ft. per annum by storage from Aliso Creek for domestic purposes and irrigation of 2965 acres. Est. cost, \$100,000.

5080, App. 8890 (Plumas Co.) issued to Fred L. Gardella, Richmond, Dec. 20, for (1) 2.95 and (2) 0.05, total 3 cu. ft. per second from (1) Cow Creek, and (2) unnamed spring, for mining and domestic purposes. Est. cost, \$500.

5081, App. 8937 (Siskiyou Co.) issued to A. I. Eagle, Clear Creek, Dec. 27, for 3 cu. ft. per second from Jeremiah Lane Creek, for mining and domestic purposes.

5082, App. 9170 (San Joaquin Co.) issued to California Lands, Inc., Stockton, Dec. 27, for 1.97 cu. ft. per second from Burns Cutoff, for irrigation of -58 acres. Est. cost, \$7,000. 21

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

WAR DEPARTMENT

SACRAMENTO, Calif.—Until Jan. 25, 3 p.m., bids will be received by the U. S. Engineer Office, Col. L. E. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Bid No. 1105-38-179, for furnishing 5-drawer unit map case together with top and base; f.o.b. Rio Vista, Cal.

FORT MASON, Calif.—Until Jan. 31, 10 a.m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, San Francisco, under Bid No. 923-38-200, for furnishing parts for White Indiana truck; Waukesha engine, Ross Steering gear and Chevrolet truck.

SACRAMENTO, Calif.—Until Jan. 25, 3 P. M., bids will be received by the U. S. Engineer Office, Col. L. E. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Bid No. 1105-38-180, for furnishing equipment for (1) Gray Sea Scout Motor and (2) parts for American Bosch Magneto; fob Rio Vista.

FORT MASON, Cal.—Until Feb. 1, 10 a.m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 923-38-204, for furnishing (1) 3 five-gal. piston type hand-operated gasoline pumps, and (2) 3 gasoline tanks, 1000 U. S. gal. capacity; f.o.b. Presidio of San Francisco, Cal.

SACRAMENTO, Calif.—Until Feb. 1, 3:00 p.m., bids will be received by the U. S. Engineer Office, Col. L. E. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Bid No. 1105-38-185, for furnishing bell reducers, nipples, bushings, steel, pipe and rods; f.o.b. Rio Vista, Calif.

LOS ANGELES CITY

LOS ANGELES, Cal.—Until Jan. 25, 2 p.m., bids will be received by the Los Angeles Water & Power Purchasing Agent for furnishing paper insulated lead covered cable, single conductor, 600-volt, Spec. 2520, as follows:

- (1) 1000 ft, 1500 MCM cable;
 - (2) 5000 ft, 1000 MCM cable;
 - (3) 20,000 ft 500 MCM cable;
 - (4) 51,000 ft No 4/0 AWG cable;
 - (5) 50,000 ft No 1/0 AWG cable;
 - (6) 50,000 ft No 4 AWG cable;
 - (7) 52,000 ft No 6 AWG cable;
- Single conductor, 5000-volt cable.
- (8) 2500 ft No 2 AWG cable;
 - (9) 2500 ft No 6 AWG cable;
- Three conductor, 5000-volt cable.
- (10) 12,000 ft 500 MCM cable;
 - (11) 12,000 ft 500 MCM cable;
 - (12) 11,640 ft 500 MCM cable;
 - (13) 10,000 ft No 20 AWG cable;
 - (14) 10,500 ft No 6 AWG cable;
 - (15) 1000 ft No 6 AWG (4-conductor).

U. S. FOREST SERVICE

GOVERNMENT ISLAND, Calif.—Bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for the purchase of equipment, as follows:

JANUARY 24, 2 P. M.:

BID NO. 5384: Purchase of new Caterpillar (or equal) tractor replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment, fob Government Island.

JANUARY 26, 2 P. M.:

BID NO. 5403: Purchase of new Buda (or equal) motor replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment; fob Redding.

GOVERNMENT ISLAND, Calif.—Until Jan. 27, 2 p.m., bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, under Bid No. 5410, for the purchase of new Caterpillar (or equal) tractor replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment; f.o.b. Glendale, Calif.

GOVERNMENT ISLAND, Calif.—Until January 28, 2 P. M., bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, under Bid No. 5402, for the purchase of new Gardner-Denver (or equal) compressor replacement parts, including lump sum trade-in allowance and/or cash offer on used equipment, fob Glendale.

CANAL ZONE

PANAMA CANAL.—Until Feb. 2, 10:30 a.m., bids will be received by the General Purchasing Officer, H. A. A. Smith, Washington, D. C., under Schedule No. 3325, for furnishing supplies and materials, including:

Spiral riveted pipe, boiler feed pumps, electric grinding machine, valves, welding rods, platform scales, anchors, metal-cutting band saws, pressure gauges, gas regulator, pulleys, steel bolts, wire cloth, running lights, electrode holders, searchlights, electric lighting fixtures, aluminum-ware, water pitchers, leather belting, corrugated metal roofing, concrete reinforcement bars, cast-iron water pipe and fittings, creosoted Southern Yellow Pine or Douglas Fir timbers and burial caskets; f.o.b. Balboa and/or Cristobal.

Plans and specifications may be obtained from the above office and from the Assistant Purchasing Agt., The Panama Canal, San Francisco, Cal.

PANAMA CANAL.—Until Jan. 26, 10:30 a.m., bids will be received by the General Purchasing Officer, H. A. A. Smith, Washington, D. C., under Schedule No. 3324, for furnishing supplies and materials, including:

Tool grinders, sledge hammers, pressure gage, head-set receivers, test clips, hand taps, range poles, post-hole digging spoons, lanterns, gloves, pots, brass nuts, copper-wire cloth, door locks, hinges, metallic and steel tapes, oilboard, paper, sewer-pipe bends and Y-branches, stepladders, iron or steel cement compound, quicklime, molding sand, and structural steel I-beams; f.o.b. Cristobal and/or Balboa.

Plans and specifications may be obtained from the above office and from the Assistant Purchasing Agt., The Panama Canal, Fort Mason, San Francisco, Cal.

PANAMA CANAL.—Until Jan. 28, 10:00 a.m., bids will be received by the General Purchasing Officer, H. A. A. Smith, Washington, D. C., under Schedule 326, for furnishing supplies and materials, including:

Clocks, gongs, boat compasses, thermometers, circular wood saws, steel-wire brushes, steel rivets, steel washers, frying pans, tumblers, spoons, steel wool, towels, paper, Southern Yellow Pine piling (creosoted), and flanged cast-iron pipe fittings; f.o.b. Cristobal and/or Balboa.

Plans and specifications may be obtained from the above office and from the Assistant Purchasing Agt., The Panama Canal, Fort Mason, San Francisco, Cal.

TREASURY DEPARTMENT

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 4th Street, San Francisco, for furnishing supplies and materials, as follows:

JANUARY 24, 10 A. M.:

BID NO. 4952: Douglas fir and redwood of various sizes; fob Redding, Shasta County;

BID NO. 4954: 882 gals. asphalt; fob Warring and Parker Sts., Berkeley;

BID NO. 4955: 150 gals. asphalt; fob Warring and Parker Sts., Berkeley;

JANUARY 25, 10 A. M.:

BID NO. 4959: Steel pipe, ellis, tees, reducers, valves, unions, traps and Y branches; fob Sacramento and Gough Sts., San Francisco;

BID NO. 4960: 100 cu. yds. rock aggregates; fob Elk Grove, Sacramento County;

JANUARY 26, 10 A. M.:

BID NO. 4953: 25,000 FBM Douglas fir; fob Larkin and Beach Sts., San Francisco;

JANUARY 28, 10 A. M.:

BID NO. 4961: Furnishing glass; fob 34th Ave. and Clement St., San Francisco;

BID NO. 4962: Furnishing all interior millwork, trim and cabinet work; fob 34th Ave. and Clement St., San Francisco.

Barrett & Hilp Low, at \$370,283, on Bridge Catenary and Feeder Contract

Barrett and Hilp, San Francisco, at \$370,283, yesterday submitted the low bid for construction of catenary and feeders for the bridge railway facilities on the main bridge, San Francisco loop and East Bay Yard, last major contract in the San Francisco-Oakland Bay Bridge program.

Bids were opened yesterday by the San Francisco - Oakland Bay Bridge Division of the State Department of Public Works at the bridge division offices, 500 Sansome street.

Four Bids

Four firms submitted bids on the contract. They are:

Barrett & Hilp.....	\$370,283
Alta Electric & Mech. Co.....	384,410
Kenney Electric Co.....	394,920
Radefinger Brothers.....	403,845

Bids could be submitted on three proposals. The proposals were: Proposal A, catenary and feeders for main bridge and San Francisco loop; Proposal B, catenary and feeders for East Bay Yard; and Proposal C, combination of Proposals A and B.

Three Proposals

Only Barrett and Hilp submitted bids on Proposals A and B. The three other bidders submitted bids on Proposal C, only.

The bid of Barrett and Hilp on Proposal A was \$205,918, and on Proposal B, \$196,575.

Bids were first opened on the contract on October 13. The bidders were: Alta Electrical & Mechanical Co. \$484,507; Kenney Electrical Company, \$490,457; and Radefinger Brothers, \$519,650. Barrett and Hilp did not submit a bid on the original contract. All bids were rejected by the San Francisco-Oakland Bay Bridge Division of the State Department of Public Works.

Several changes were involved in the new call for bids for construction of the catenary, popularly known as "trolley wires", and feeders for the bridge.

The original contract involved two proposals, but it was specified that the entire job would be awarded as one contract, the division being made for purposes of record.

The present job involved three

K. E. PARKER BIDS POST OFFICE JOB

WASHINGTON, D. C., Jan. 25.—K. E. Parker, 135 South Park, San Francisco, at \$54,974, today submitted the low bid to the U. S. Treasury Department, Procurement Division, for construction of a post office building at Pacific Grove.

L. F. Dow, at \$56,000, submitted the second lowest bid on the job. The third lowest bidder was Robert McCarthy, at \$56,528. As is the case in all federal post office projects, plans and specifications for the building were prepared under the direction of the Supervising Architect of the Treasury Department.

proposals, due to an addition of Proposal C involving construction of the complete job. The bridge Division announced at the time bids were called that the right was reserved to award the contract on any combination of proposals which would result in the lowest sum for the entire project.

Proposal C Low

Since the combination of the only bids on Proposals A and B, submitted yesterday by Barrett and Hilp, totals \$402,493, the contract will probably be awarded on Proposal C, the lowest sum for the complete job.

There were few changes in the specifications on the second call for bids. A new item under Proposal A called for a power line to the San Francisco terminal. Changes in Proposal B included the addition of an item calling for three disconnect switches, 1200 amperes, Type R; and a drop from eight to seven disconnect switches, 1200 amperes, Type H.

STATE RECEIVES SEVENTEEN BIDS ON BRIDGE JOBS

E. E. Smith, S. A. Cummings
Low on San Luis Obispo
Humboldt Spans

SACRAMENTO, January 26.—Seventeen bids today were opened by the State Division of Highways on two contracts calling for construction of bridges in San Luis Obispo and Humboldt counties.

E. E. Smith, Eureka, at \$36,917, submitted the low bid on the largest job. The contract calls for construction of a reinforced concrete slab bridge across Jordan Creek six miles south of Scotia in Humboldt county.

Bridge and Approach

The bridge will consist of six 22-foot spans, one 24-foot span, and one 15-foot span on concrete piers with steel pile foundations. Also included in the contract are grading and surfacing with plant-mixed surfacing of about 0.19 mile of approach roadway.

Other bidders were: Earle W. Heple, \$38,403.75; Poulos and McEwen and M. A. Jenkins, \$38,756.25; Mercer-Fraser Co., \$41,758.50; A. Soda and Son, \$41,794; John Burman and Son's, \$44,970; and F. J. Maurer and Son, Inc., \$45,319.25.

S. A. Cummings, San Diego, at \$23,898, submitted the low bid for construction of a timber bridge across San Juan Creek about thirty-eight miles east of Santa Margarita in San Luis Obispo county.

Other bidders included: Valley Construction Co., \$24,916; Wm. T. Loesch and E. G. Perham, \$25,129; Earle W. Heple, \$25,616; Edward Green, \$26,800; V. R. Dennis Const. Co., \$27,497.50; A. Soda and Son, \$28,626.50; Rexroth & Rexroth, \$28,684.50; R. R. Bishop, \$33,963.30; and J. E. Burrell & Son, \$35,068.22.

Export shipments of windmills for the first eleven months of 1937 amounted to 15,737 units, a decided increase over the total of 13,122 units shipped during the same period in 1936, according to the Bureau of Census.

COULEE PASSES BOULDER MARK IN CONCRETING

**4,520,000 Yards Poured; Dam
Now Largest Existing Ma-
sonry Structure**

All records for concreting were broken during the construction of the base of Grand Coulee Dam, now virtually complete, John C. Page, Commissioner of Reclamation, reported this week to Secretary of the Interior Harold L. Ickes.

A total of 4,520,000 cubic yards of concrete have been placed in the structure, built in the Columbia River at the head of the Grand Coulee, 92 miles west of Spokane, Wash. This compares with a total of 4,498,314 cubic yards of concrete placed in Boulder Dam, the Boulder Power House and all other appurtenant structures of the great Boulder Canyon Project on the Colorado River. The base of Grand Coulee Dam, since it exceeds Boulder Dam, thus has already become the largest masonry structure built by man.

During 1937, a total of 2,620,756 cubic yards were placed in Grand Coulee Dam, breaking the record of 2,563,784 made in 1934 at Boulder Dam, also built by the Bureau of Reclamation. The maximum monthly pour of concrete at Grand Coulee Dam was 377,135 cubic yards, compared with the maximum monthly pour of 261,847 at Boulder Dam. In the construction of Grand Coulee Dam a new daily record was established at an even 15,000 cubic yards, by far exceeding the previous record, also established at Boulder Dam, of 10,417.

Ahead of Schedule

The contract for construction of the base of Grand Coulee Dam was awarded to the M.W.A.K. Company (Mason - Walsh - Atkinson - Kier Company), on July 13, 1934, and work was commenced Sept. 28, 1934. The final pour of concrete was made at 7:50 P. M., January 10, 1938, more than 15 months ahead of the schedule set in the specifications.

On December 10, 1937, the Bureau of Reclamation received bids for the completion of the dam. The contract has not yet been awarded, but final action on the tenders are expected within a short time. Under the specifications upon which the bids were called, an additional 5,250,000 cubic yards of concrete are to be placed in the dam.

The base of Grand Coulee Dam rises on the average 177 feet above the bedrock. When the second stage of the work is completed, that now is about to begin, the dam will rise 550 feet high.

Domestic water softener shipments during the first 11 months last year totaled 11,961 as compared with 10,374 during the corresponding 1936 period, the census bureau reports.

L. A. FIRM AWARDED \$109,853 CONTRACT

SACRAMENTO, Jan. 26.—Earl Lee Kelly, State Director of Public Works, today awarded the contract for construction of an undergrade crossing in Los Angeles county to United Concrete Pipe Corp., Los Angeles, at \$109,853.50.

Twelve firms submitted bids on the contract which calls for construction of an undergrade crossing under the tracks of the Southern Pacific Railroad near Rudell Station. Construction of approaches is included in the contract. Vido Kovacevich, at \$110,922, was the second lowest bidder, followed by Oscar Oberg, at \$111,540.

STATE INVITES BIDS FOR TWO HIGHWAY JOBS

SACRAMENTO, Jan. 25.—The State Highway Commission today authorized bid calls on contracts for construction of an overhead structure in Santa Clara county, and for grading and surfacing 4.7 miles of highway in San Benito county.

Bids on both contracts will be opened in Sacramento, February 16, at 2:00 P. M.

The project in Santa Clara county involves construction of a reinforced concrete overhead structure over Madrone Drive about five miles south of Los Gatos.

The overhead structure will consist of one 43-foot 1-inch span; one 50-foot span; and one 41-foot 1-inch span. The spans will be constructed on concrete bents and abutments.

About 155,000 pounds of bar reinforcing steel will be used on the job. Other principal items include: 600 cubic yards of structural excavation; 800 cubic yards of Class A Portland cement concrete structures; 700 pounds of cast steel rockers; 8800 pounds of miscellaneous steel; 2160 lin. ft. of treated Douglas fir piles; driving 72 treated Douglas fir piles; and 800 sq. yds. of gunite.

On the same day bids will be opened here for grading, road mix surface treatment and applying Class B seal coat to 4.7 miles of highway between Paicines and Tree Pinos in San Benito county.

Principal items include: 126,000 cubic yards of unclassified excavation; 860 tons of liquid asphalt of various types; 84,400 square yards preparing, mixing and shaping of roadbed; 15,000 pounds bar reinforcing steel; and 2580 lineal feet of CMP of various sizes.

PASS 10th MILE IN SAN JACINTO TUNNEL BORING

**Three Mi. of Excavation Left;
Lining Completed in
5.5 Miles**

Hard-rock miners, working a half mile beneath the surface of the earth, have blasted out a block of granite which completed the excavation of the tenth mile of the 13-mile San Jacinto tunnel, according to a report received in the Los Angeles office of F. E. Weymouth, General Manager of the Metropolitan Water District.

With exactly three miles of rock remaining to be excavated in the tunnel, work is now being pushed ahead at four working faces in the tunnel. Water District engineers stated yesterday that excavation progress in the tunnel has been materially increased during the last few days because of the two additional headings that have been put into operation at the foot of the Lawrence adit.

Located near the center of the 13-mile tunnel, this mile-long adit, giving access to the main tunnel, has just recently been completed. Tunnel crews are now working east and west from the bottom of this adit as well as from the Cabazon and Potrero shafts. The tunnel is being excavated to a diameter of 18 feet, large enough to accommodate a full size locomotive.

Tunnel Lining

In addition to the ten miles of the tunnel that have been excavated, yesterday's construction report stated that more than five and a half miles of the tunnel have been lined with concrete and completed. Placed with machines which pump the concrete into special steel forms the smooth concrete lining is 18 inches thick.

The San Jacinto tunnel is the second longest of the 38 tunnels on the 392-mile Metropolitan Aqueduct system, and will be the last of the tunnels to be completed. With a total length of 108 miles, 105 miles of which already have been excavated, this is one of the largest hard-rock tunnel jobs in construction history.

Being constructed to carry a billion gallons of water a day across the state of California from the Colorado River to the thirteen Southern California cities that comprise the Metropolitan Water District, the Metropolitan Aqueduct is now in its sixth year of construction, and is scheduled to be completed in 1939.

Architectural features, costing \$1,000,000, including main gates 120 feet high, South and East towers, pylons, arcades, arches and a 400-foot central steel tower, are now under construction for the 1939 Golden Gate International Exposition.

Schedule Bids on Shasta Bypass Tunnel, First Major Kennett Division Contract

The first heavy construction contract on the Kennett Division of the Central Valley Project went out for bids this week as the U. S. Bureau of Reclamation announced that proposals will be opened Feb. 21 for construction of the Shasta by-pass tunnel.

Bids will be opened at 10 A. M. in the Old Post Office Building in Sacramento.

The bid call for construction of the diversion tunnel was the first action to follow an agreement between the Southern Pacific Railroad and the U. S. Bureau of Reclamation reached last month providing the relocation of the Southern Pacific tracks around the site of the proposed Shasta Dam.

Under Dam Site

At the present time the tracks skirt the river at a point near the center of the proposed dam. The current contract will provide for construction of a by-pass tunnel under the dam site though which tracks will run until such time as the permanent relocated tracks are laid.

The contract involves 46,750 cubic yards of excavation for the tunnel as well as 35,800 cubic yards of unclassified excavation. About 70,000 pounds of permanent steel tunnel supports will be installed, and 13,125 cubic yards of concrete poured in the tunnel.

Other items include: 525 cubic yards of concrete in structures; 10,000 pounds of reinforcement bars; 12,000 pounds of grout and drain pipes; 50,000 pounds of steel cover section; and 50,000 station cubic yards of overhaul.

Near Redding

The work is located about fourteen miles north of Redding.

Meanwhile Department of Labor officials are considering minimum wage scales for Shasta Dam and the by-pass tunnel following hearings held in Redding Friday. The hearings to determine minimum wage scales on the projects were conducted by Bertram R. Coen, special referee from the Department of Labor. An announcement is expected shortly on the 200 separate labor classifications submitted by the Reclamation Bureau.

With the contract for construction of the by-pass tunnel out for bids the way is cleared for advertisement of bids on Shasta Dam in March as announced by Reclamation Commissioner John C. Page last month.

The tunnel contract calls for completion of the work within 150 calendar days of the start of construction.

Shipments of fire extinguishing motor apparatus for the first 11 months of 1937 amounted to 785 units, as compared to shipments of 608 units for the same period in 1936, the Bureau of Census announces.

4 ROAD, BRIDGE CONTRACTS LET

SACRAMENTO, Jan. 24.—Four Northern California road and bridge contracts were awarded here today by State Director of Public Works Earl Lee Kelly. Contracts were let to: Hemstreet & Bell, Marysville, \$132,154, reinforced concrete slab bridge in Del Norte county; E. G. Perham, Los Angeles, \$25,628, construction of seven timber bridges in Merced county; Earl W. Heple, San Jose, \$24,851, reinforced concrete girder bridge in Santa Cruz county; and Geo. French, Jr., Stockton, \$53,245, grading and surfacing four and one-tenth miles in Alameda county.

Whitton to Address Engineers' Meeting

The next regular monthly meeting of the Structural Engineers Association of Northern California will be held at the Engineers' Club (206 Sansome street) San Francisco, on Tuesday, February 1, beginning with assembly at 5:30 P. M., dinner at 6:00, and meeting at 7:15 P. M.

The principal speaker will be Mr. C. A. Whitton, structural engineer, and engineer for the Oakland Board of Education. His subject, now under development by the Oakland and Berkeley Boards of Education, will be "Remarks on the Investigation and Tests for Grouted Anchor Bolts."

There will also be a sound picture entitled "Making of Structural Steel Shapes," prepared by the Bethlehem Steel Co. and showing the latest technique used by large rolling mills.

Production of malleable iron castings for the first eleven months of 1937 amounted to 574,494 short tons, as compared to production of 510,022 short tons during the same period in 1936, the Bureau of Census announces.

Shipments of distillate oil burners for the first eleven months of 1938 amounted to 452,633, as compared with shipments of 385,285 burners for the same period in 1936 according to the Bureau of Census.

CONCRETE GROUPS SET FOR SECOND JOINT CONCLAVE

Plans Completed for Confer- ences Next Month in Chicago

Enthusiasm being shown by concrete contractors and products manufacturers in the second annual joint conference to be held at Hotel Sherman in Chicago on February 8, 9, 10 and 11 indicates another very successful meeting, according to officials of the Portland Cement Association.

The rapidly increasing building market has brought out and proven many new methods. Concrete contractors and products manufacturers, keeping in step with these developments, have arranged a program at which leading contractors and engineers will give the details of these methods.

Highlights of the programs will consist of many actual demonstrations—various methods of applying colored finishes to walls and floors—illustrated talks on vibration—new forming methods for building reinforced concrete walls and the use of ready-mixed concrete.

Building Contractors

While planned for the concrete contractors, the program should also be of interest to building contractors not specializing in concrete construction but who want to get up-to-date on the developments in the industry, it is reported.

Other groups of concrete makers will be holding conferences at the same time. Among these are the National Cinder Concrete Products Association and The Cast Stone Institute. In general the convention programs have been arranged so that subjects of interest on any program can be attended by all groups.

An exhibit of concrete machinery, accessories and materials have been assembled for the exclusive inspection of the concrete makers. This exhibit is being sponsored by the Concrete Industries Exposition. Advance reservations for space indicates a larger and more complete exhibit than at any previous expositions.

M. H. RHODES OFFICE MOVED FROM NEW YORK

The Executive and General Sales offices of M. H. Rhodes, Inc., were moved from Rockefeller Center, New York, to their factory at 30 Bartholomew Ave., Hartford, Connecticut, January 1, it is announced.

Now the mass production of range, washer and appliance timers, wall switches, coin meters, and parking meters has required internal reconstruction of the factory and the addition of much new machinery, the company announces.

A.G.C. SCORES PUMP - PRIMING WPA SPENDING

To Discuss Problem at Nat'l
Convention in Washington
February 7-11

WASHINGTON, D. C., Jan. 24.—The pump priming expenditures of the federal government which are being urged by leading business and industrial advisors of the Administration will not accomplish a great deal toward restoring industrial recovery, if these expenditures are made through the work relief operations of the Works Progress Administration, E. J. Harding, managing director of the Associated General Contractors of America, declared today.

"Construction activity is of general benefit to all industries because it means the purchase of large quantities of the products of the heavy goods industries," Harding pointed out, "but WPA work-relief utilizes little in the way of equipment and materials, and consequently affords no stimulus to the activity of these industries."

The completion of the federal government's vast work-relief organization with the construction industry will form one of the leading matters of discussion at the annual convention of the Associated General Contractors of America, to be held in Washington, Feb. 7 to 11, Harding announced, and it is expected that a plan of activity through the utilization of private construction enterprise will be drawn up by the convention for submission to the Administration so that the recovery of the construction industry may be assured.

Contractors Suffer

"General contractors have had a heavy burden to bear in their efforts toward recovering their pre-depression markets because of the competition of the WPA," Harding said. "WPA's own figures show that three-fourths of its expenditures have been made in the construction field. Not only have private contractors suffered through this policy, but all the component elements of the construction industry. It is well known that the WPA policy is to employ large numbers of men on the site of the work, keeping them busy with picks and shovels, rather than to employ modern machinery which will do the work twice as efficiently and at considerable saving in cost."

"The argument that the object of the work-relief program is to provide a great many jobs is advanced as the excuse for this system of performing the work" Harding said. "However, it is our belief, supported by studies of leading economists, that just as much employment is furnished by the use of modern, efficient machines, since employment in factories and mines

A. Walter Kildale Killed in Eureka

A. Walter Kildale, former city clerk of Eureka, noted educator, and widely known to members of the construction industry, died last week after he apparently walked against the side of a moving street car in Eureka and was struck to the pavement.

The accident occurred during a heavy rain. Mr. Kildale died Wednesday in St. Joseph Hospital shortly after the accident.

Members of the construction industry who had dealt with Mr. Kildale in his official capacity had occasion to recall his never-failing courtesy and kindness.

For sixteen years, from 1921 until 1937, Mr. Kildale served as city clerk of Eureka, retiring from active business affairs last fall. He was 72 at the time of his death.

Prior to his seven terms as city clerk, Mr. Kildale had operated a private school in Eureka for a quarter of a century. A native of England, he was a graduate of Oxford University. He came to Eureka in 1890, and had been a resident of the city continuously since that time.

is furnished in the production of these machines.

"The greatest unemployment is in the industrial centers, while the construction projects are mostly located in rural sections where there is little need for employment. It seems obvious that the work-relief program should be directed toward relieving the industrial unemployment by the use of up-to-date methods and equipment which will employ relatively few men on the job as compared with the indirect labor which the job stimulates in the factories."

Use Regular Agencies

The construction programs of the regular federal agencies, such as the Bureau of Public Roads, the Bureau of Reclamation, the Corps of Engineers and the Procurement Division of the Treasury Department, can be utilized to bring about the resumption of large industrial production, Harding stated. "These federal bureaus, through long years of supervision of construction operations, have evolved efficient methods of carrying on their operations. All of them have large programs of construction already mapped out—construction which is necessary and which will provide the stimulus to the heavy goods industries which is being sought."

Continuation of the construction programs of these agencies will be urged by the contractors' convention. "When all that is needed to get these programs under way is for Congress to make the necessary appropriations, it seems ridiculous to disregard them and start up a wasteful, unplanned program of 'semi-construction' which will be of no lasting benefit to the country, Harding stated.

MILLS REPORT SLIGHT GAINS IN PRODUCTION

Level of Orders, Shipments
Remains Steady During
Second Jan. Week

A total of 140 down and operating mills in Washington and Oregon which reported to the West Coast Lumbermen's Association for the week ending January 15, produced 63,609,209 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 40.4 per cent of its average weekly cut during 1926-29.

The new business reported taken last week by the 149 mills was 62,227,855 board feet. Shipments were 69,037,885 feet.

Details of orders and shipments as reported by the 149 mills are:

	Orders	Shipments
Dail	31,103,789	30,238,470
Domestic		
Cargo	22,622,952	26,813,758
Export	2,449,753	5,394,296
Local	6,051,361	6,051,361
	62,227,855	69,037,885

The unfilled order file at these mills stood at 274,520,909.

Productions, orders and shipments shown in this report continue, as during the past several weeks, to be low, even for the beginning of the year, according to the association.

The market outlook continues to be quiet.

Standard for Roofing Terme Is Available

The Division of Simplified Practice of the National Bureau of Standards has announced that printed copies of Simplified Practice Recommendation R30-37, Roofing Terme, are now available. Copies may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., for five cents each.

The original recommendation, which was approved at a general conference of producers, distributors and users, and made effective January 1, 1925, established seven weights of coating for roofing terme, ranging from 8 to 40 lbs. The recommendation also provided that no roofing terme be manufactured lighter than the IC gage. The original recommendation was revised in 1927 and re-affirmed without change several times since then.

The original weights of coating and minimum gage are retained in the revision and a packaging schedule for roofing terme in boxes and of marking roofing in rolls.

CONTRACTS AWARDED

STATE OF WASHINGTON.—L. V. Murrow, Director of Highways, Olympia, Wash., awarded the following contracts for bridge and highway construction:

Jefferson County: Clearing, grading, draining and surfacing of about 1.2 miles of Primary State Highway No. 8, Brinnon to Quilcene (Walker Mountain Section), Federal Aid Project No. 136-I, in Jefferson Co., Washington, involving about 30 acres of clearing, 231,490 c.y. of excav., 2,310 c.y. of shoulder material, 7,930 c.y. of crushed stone surfacing, 77 c.y. of concrete, 14,220 lbs. of steel reinforcing bars, 8,920 lf. of cable guard rail design No. 6, 5,200 lf. of half-round corrugated metal gutter, 1,675 lf. of pipe culverts and other items.

Awarded: Allen & Govan, Inc., Olympia—\$96,936.

Second and third low bidders: N. Fiorito, Seattle, \$99,426; Elliott & Co., Seattle, \$102,164.

Pacific County: Paving with Portland cement concrete and widening four concrete bridges of about 0.2 mile of Primary State Highway No. 12, Globe to Cramers Crossing, Bridge Widening, Federal Aid Project No. 131-F, in Pacific County, Wash., involving about 1,625 c.y. of excav., 1,096 sq. yds. of cement concrete pave-

ment, 794 c.y. of concrete, 155,230 lbs. of steel reinf. bars, 1,400 lin. ft. of precast concrete piling, 68 lin. ft. of pipe culverts, and other items.

Awarded: Warren Northwest, Inc., P.O. Box 5072, Portland, \$58,147.

Second and third low bidders: David Nygren, Seattle, \$61,550; M. P. Munter, \$64,479.

Adams County: Clearing, grading, draining, surfacing and stockpiling crushed stone on about 15.5 mi. of Primary State Highway No. 18, Sec. 1, Neppel to Adams County Line and Section 2, Burke to Neppel, State Project, in Grant County, Washington, involving about 347,710 c.y. of excav., 103,610 c.y. of ballast, 47,770 c.y. of crushed stone surfacing, 24 c.y. of concrete, 23 MPFBM of treated and 1 MPFBM of untreated timber and lumber, 1,968 lin. ft. of pipe culverts and other items.

Awarded: Warren Northwest, Inc., P.O. Box 5072, Portland, \$227,102.

Second and third low bidders: Roy L. Bair, Spokane, \$227,185; N. Fiorito, \$240,000.

Lincoln County: Manufacturing and stockpiling crushed stone surfacing and mineral aggregates (oil rock) on Primary State Highway No. 22, Davenport to Detillion Bridge, State Project, in Lincoln County, Wash., involving about 6,000 c.y. of crushed

stone surfacing and 2,500 c.y. of mineral aggregates (oil rock).

Awarded: F. R. Hewett, Spokane, \$8,925.

Second and third low bidders: Martene Bros., Spokane, \$9,775; Joslin & McAllister, Spokane, \$10,200.

Cowlitz County: Surfacing with crushed stone, manufacturing and stockpiling mineral aggregates (oil rock) and constructing a light bituminous surface treatment on about 15.0 miles of Secondary State Highway No. 1-R, Junction Primary State Highway No. 1—Easterly, State Project, in Cowlitz County, Wash., involving about 24,190 cubic yards of crushed stone surfacing, 3,115 cubic yards of mineral aggregates (oil rock), 370 tons of bituminous cement, and other items.

Awarded: E. C. Hall, Eugene, Ore., \$55,379.

Second and third low bidders: R. O. Dail and Warren, Aberdeen, \$56,210; Warren Northwest, Inc., \$58,379.

Whitman and Spokane Counties: Surfacing with crushed stone and constructing a light bituminous surface treatment on about 15.9 miles of Secondary State Highway No. 3-H, Tekoa to Fairfield, State Project, in Whitman and Spokane Counties, Washington, involving about 25,915 cu. yds. of crushed stone surfacing, 390 tons of bituminous cement, and other items.

Awarded: Carbon Bros., 1004 W. 23, Spokane, \$40,186.

Second and third low bidders: Standard Asphalt & Paving Co. and Ray L. Bair, Spokane, \$40,416; F. R. Hewett, \$45,913.

Thurston County: Manufacturing and stockpiling crushed stone surfacing and mineral aggregate (oil rock) on Secondary State Highway No. 5-1, Yelm-West, State Project, in Thurston County, Washington, involving about 5,440 cu. yds. of crushed stone surfacing and 1,220 cu. yds. of mineral aggregates (oil rock).

Awarded: Joslin & McAllister, E. 303 Trent, Spokane, \$9,063.

Second and third low bidders: R. O. Dail & Warren Bros., Inc., \$9,586; J. D. Shetwell, Tacoma, \$10,690.

Okanogan County: Surfacing with crushed stone, manufacturing and stockpiling mineral aggregates (oil rock) and constructing bituminous retreat surface and bituminous surface treatment road-mix type, class "B," on about 15.1 miles of Secondary State Highway No. 10-A, Mason City to Nespelem, State Project, in Okanogan County, Wash., involving about 13,670 cubic yards of crushed stone surfacing, 13,060 cubic yards of mineral aggregates (oil rock), 912 tons of bituminous cement, and other items.

Awarded: F. R. Hewett, W. 420 2nd, Spokane, at \$61,473.

Second and third low bidders: Standard Asphalt & Paving Co., Spokane, \$62,680; M. E. Nelson, Tonasket, \$65,936.

CONTRACT AWARDED

OAKLAND, Cal.—Heafey-Moore Co. 344 High St., Oakland, at \$33,975.58 was awarded contract by the Oakland City Council, W. W. Chappell, City Clerk, City Hall, for improvements to the Skyline Blvd., east of Redwood Road from Station 105 plus 43 to Station 193 plus 42, Oakland.

CONTRACT AWARDED

PHOENIX, Maricopa Co., Arizona.—Daley Corp., 4430 Boundary Street, San Diego, at \$31,369.50 (Alternate 1) was awarded contract by the Phoenix City Commission, for improvements to certain portions of 12th, 13th, 11th and 10th Avenues, and McKinley and Pierce Sts., Phoenix.

STATE OF WASHINGTON.—L. V. Furrow, Director of Highways, Olympia, Wash., rejected all bids for clearing, grading, draining and surfacing of about 5.1 mi. of Primary State Highway No. 9, Cook Creek Hill to Quinalt, Federal Aid Project No. 43-B, in Grays Harbor County, Wash. Homer Johnson, Imperial Hotel, Portland, at \$104,496, submitted low bid. * 29

BIDS OPENED

SACRAMENTO, Calif.—Following submitted bids to the Sacramento City Council, H. G. Denton, City Clk., City Hall, for the improvement of 42nd Street from the southerly line of T Street to the northerly line of V Street, Sacramento, Calif.

Work involves:

- (1) 28 l.f. No. 5 curb and gutter constructed;
- (2) 715 l.f. No. 6 curb and gutter constructed;
- (3) 52 l.f. curb alone constructed;
- (4) 1925 3/4-in. sidewalk;
- (5) 2 cast-iron drains No. 11 installed;
- (6) Two concrete manholes reconstructed;
- (7) 505 c.y. excav. grading;
- (8) 23 c.y. fill grading;
- (9) 48 l.f. 6-in. vit. iron sewer pipe;
- (10) 112 c.y. crushed run gravel for subbase;
- (11) 165 tons asphaltic concrete top pavement, 3 inches thick;
- (12) 28 l.f. old concrete curb and gutter No. 5 removed;
- (13) 87 l.f. hedge removed.

Bidders were:

- (A) J. R. Reeves, P.O. Box 1072, Sacramento.
 (B) A. Teichert & Son, Inc., P.O. Box 1113.
 (C) McGillivray Constr. Co., P. O. Box 873.
 (D) L. G. Lentz, 2548 41st St.

30—RESERVOIRS & DAMS**TO START SOON**

PORTLAND, Ore.—Diking Sauvies Island at a cost to exceed \$1,000,000, will be started soon, according to Major S. L. Damon, District Engineer, Pittock Block, Portland, Oregon. About two-thirds of Sauvies Island will be included in district which will reclaim more than 14,000 acres. Dike 3 feet above crest of 1876 flood will be construction with 18-inch width at top. Dike will be so built that it will be possible to farm up to the top. River side will be riprapped wherever there is danger of washout. About \$500,000 will be available July 1st for construction work, balance to be provided later. 30

31—PIPE LINES & WELLS**CONTRACT AWARDED**

LA MESA, San Diego Co., Calif.—Shofner & Gordon, 3869 Medford St., Los Angeles, at \$109,702.21, awarded contract by the La Mesa, Lemon Grove and Spring Valley Irrigation District, La Mesa, for the construc-

SAN FRANCISCO-OAKLAND BAY BRIDGE—CATENARY AND FEEDERS—(State)

SAN FRANCISCO and ALAMEDA COS., Calif.—Barrett & Hilt, 918 Harrison St., San Francisco, at \$370,283 (Proposal C), submitted low bid to State Dept. of Public Works, San Francisco-Oakland Bay Bridge Division, Room 811, 900 Sansome St., San Francisco, for the construction of the catenary and feeders of the railway facilities of the San Francisco-Oakland Bay Bridge.

Work involves:

PROPOSAL A
CONTRACT R-10—Main Bridge and San Francisco Loop

- (1) Feeder cables at San Francisco substation;
- (2) Feeder cables at Island substation and the station;
- (3) W-4 tie station;
- (4) Island tie station building and equipment;
- (5) E-7 tie station;
- (6) 12 disconnect switches, 1200 amperes, Type K;
- (7) 18 disconnect switches, Type R, at San Francisco terminal and anchorage;
- (8) 5000 l.f. reinf. feeder cable;
- (9) Jumper cables at bridge expansion joints;
- (10) 15,000 lbs. misc. iron;
- (11) Overhead construction;
- (12) Power line to San Francisco terminal.

PROPOSAL B

CONTRACT R-21C—East Bay Yard
 (1) Feeder cables at Mole substation;

- (4) Yard tie station;

- (15) East End tie station;
- (16) 7 disconnect switches, 1200 amperes, Type H;
- (17) 6 disconnect switches, 1200 amperes, Type B-SPDT;
- (18) 3 disconnect switches, 1200 amperes, Type R;
- (19) Connections, 600-volt overhead, to contact rail;
- (20) 35,000 lbs. misc. iron;
- (21) Overhead construction;
- (22) Power line to inspection buildings.

Bids will be received from contractors properly prequalified therefor on any or all of the following proposals:

Proposal A: Covers Contract R-10 catenary and feeders, main bridge and S. F. loop, bidding items 1 to 12.
Proposal B: Covers Contract R-21C catenary and feeders, East Bay yard, bidding items 13 to 22.

Proposal C: Covers Contract R-10 and R-21C, catenary and feeders, main bridge and S. F. loop and East Bay Yard, bidding items 1 to 22.

Total bids follow:

- (A) Barrett & Hilt, 918 Harrison St., San Francisco — \$205,918 (Proposal A); \$196,575 (Proposal B), and \$370,283 (Proposal C).
 (B) Alta Electric & Mechanical Co., Inc., San Francisco—\$384,410 (Proposal C only).
 (C) Kenney Electric Co., San Francisco—\$394,920 (Proposal C only).
 (D) Radefinger Bros., San Francisco \$403,845 (Proposal C only).

BIDS WANTED

SAN FRANCISCO.—Until Feb. 9, 3 p.m., bids will be received by the Public Utilities Commission, Room 287, City Hall, under Spec. No. W.D. 168, for the laying of 6 and 8-in. cast iron mains in 29th Avenue, Quintara Street to Pacheco Street, San Francisco.

Work involves:

- (1) 900 l.f. excav. and backfill for 8-in. and 6-in. pipe, trench 17 inches wide by 36 inches deep;
- (2) 15 c.y. additional excavation and backfill;
- (3) No item 3;
- (4) Installing pipe:
 - (a) 140 l.f. 8-in. bell and spigot cast iron pipe;
 - (b) 760 l.f. 6-in. bell and spigot cast iron pipe;
- (5) 1500 lbs. installing fittings, gate

valves, etc.;

- (6) 124 l.f. bell and spigot joints for pipe and fittings;

No item 7;

- (8) 48 3/4-in. screw taps installed;
- (9) 1000 l.f. 3/4-in. galv. iron service pipe installed.

Plans and specifications may be obtained at the cashier's office, 6th floor, San Francisco Water Department Bldg., 425 Mason St., San Francisco, upon deposit of \$5.00. * 31

32—SEWERS & SEWAGE DISPOSAL PLANTS**BIDS WANTED**

SAN FRANCISCO, Cal.—Until Feb. 9, 2:30 p.m., bids will be received by the Department of Public Works, Room 251, City Hall, under Spec. No. 19,065, for the construction of Section of Alameda sewer extension from Evans Avenue to Napoleon St., San Francisco. Estimated cost, \$50,000.

Work involves:

PROPOSITION "A"

- (1) 200 l.f. 3-compartment 7-ft. 6-in. by 10-ft. 0-in. reinf. concrete sewer, exclusive of piles;
- (2) 3 each, manholes on 3-compartment sewer;
- (3) 675 l.f. 12-in. VCP underdrain, covered with concrete or broken rock as directed;
- (4) 19 MFMB lumber in place for connection from reinf. concrete sewer to existing wood box sewer exclusive of piles;
- (5) 38,700 l.f. piles, below cut-off;
- (6) 240 l.f. standard guard rail (heavy type);

PROPOSITION "B"

- (1) 180 l.f. 3-compartment 7-ft. 6-in. by 10-ft. 0-in. reinf. concrete sewer, exclusive of piles;
- (2) 3 each, manholes on 3-compartment sewer;
- (3) 610 l.f. 12-in. VCP underdrain, covered with concrete or broken rock as directed;
- (4) 19 MFMB lumber in place for connection from reinf. concrete sewer to existing wood box sewer exclusive of piles;
- (5) 34,000 l.f. piles, below cut-off;
- (6) 240 l.f. standard guard rail (heavy type).

Plans and specifications may be obtained from John J. Casey, City Engineer, Room 353, City Hall, upon deposit of \$10. * 32

BIDS WANTED

SANTA ANA, Orange Co., Calif.—Until Feb. 1, 10 a.m., bids will be received by the Orange County Supervisors, Santa Ana, for constructing disposal sumps in West St. conservation basin, near West St. and Chapman Ave., Orange County. Specifications and plans may be obtained at the office of the engineer upon deposit of \$5. Certified check or bond, 5%. B. J. Smith, county clerk. The items are:

- (1) lump sum, furnishing one starter for 20-in. gravel sump, complete in place;
- (2) first 150 ft. of one 20-in. gravel packed sump between Elev. 96.00 and Elev. —54.00, complete in place;
- (3) additional 100 feet of one gravel packed sump betw. Elev. —54.00 and Elev. —154.00, complete in place;
- (4) furnishing two starters for 20-in. standard sump, complete in place;
- (5) first 150 ft. each of two 20-inch standard sumps between Elev. 96.00 and Elev. —54.00;
- (6) additional 100 ft. each of two 20-inch standard sumps between Elevation —54.00 and Elev. —154.00. Casing to be furnished by county. * 32

BIDS WANTED

HICKAM FIELD, T. H.—Until Feb. 17, 11 a.m., bids will be received by the Purchasing and Contracting Officer, Capt. H. B. Nurse, Constructing Quartermaster, Hickam Field, for the construction and completion of an outfall sewer line at Hickam Field, T. H.

34— PARKS AND PLAY-GROUNDS

Contract Awarded

SANTA MARIA, Santa Barbara Co., Cal.—Brisco Nursery, 1422 Monterey St., San Luis Obispo, at \$1,075, awarded contract by the Procurement Division, Public Buildings Branch, Washington, D. C., for seeding and

HUMBOLDT COUNTY—BRIDGE CONSTR.—(State)

HUMBOLDT COUNTL, Cal.—E. E. Smith, 1636 "B" Street, Eureka, at \$36,917.00 submitted the low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for the construction of a reinforced concrete slab bridge across Jordan Creek six miles south of Scotia, consisting of six 22-foot spans, one 24-foot span and one 15-foot span on concrete piers with steel pile foundations and grading and surfacing with plant-mixed surfacing approximately nineteen hundredths mile, Humboldt Co., Calif.

- Work involves:
- (1) only existing bridge to be removed and disposed of;
 - (2) 2.0 acres clear and grub;
 - (3) 2 each, remove and grub Redwood trees, Size 1;
 - (4) 3 each, remove and grub Redwood trees, Size 2;
 - (5) 3 each, remove and grub Redwood trees, Size 3;
 - (6) 2 each, remove and grub Redwood trees, Size 4;
 - (7) 2 each, remove Redwood trees, Size 1;
 - (8) 1 each, remove Redwood trees, Size 2;
 - (9) 1 each, remove Redwood trees, Size 3;
 - (10) 2 each, remove Redwood trees, Size 4;
 - (11) 1,100 c.y. roadway excav., without class;
 - (12) 100 c.y. channel excav.;

- (13) 7,500 c.y. import borrow;
 - (14) 300 c.y. struc. excav.;
 - (15) 11 sta. finishing roadway;
 - (16) 3.5 tons liq. asph., SC-1A (prime coat);
 - (17) 575 tons min. aggregate (plant-mix surf.);
 - (18) 25 tons liq. asph., SC-4 (plant-mix surf.);
 - (19) 82,000 lbs. bar reinf. steel;
 - (20) 28 c.y. Class A portland cement conc. footing blocks;
 - (21) 400 c.y. Class A portland cement conc. structures;
 - (22) 20 c.y. Class A portland cement conc. railing;
 - (23) 5,000 lbs. misc. steel;
 - (24) 1,440 l.f. furnish steel piles;
 - (25) 36 each, driving steel piles;
 - (26) 225 c.y. light riprap;
 - (27) 60 l.f. rock-filled timber crib;
 - (28) 3 each, monuments;
 - (29) 1 lot misc. items of work.
- Total bids follow:
- (A) E. E. Smith, 1636 B St., Eureka, \$36,917.00.

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 4th Street, San Francisco, for furnishing supplies and materials, as follows:

FEBRUARY 1, 10 A. M.:

BID NO. 4987: Furnishing all reinforcing steel for reinforced concrete piles; fob Larkin and Beach Sts., San Francisco;

BID NO. 4990: Nails, bolts, steel, screws, hooks and asbestos fob 215 12th St., Sacramento.

FEBRUARY 3, 10 A. M.:

BID NO. 4992: Wall tie; fob 34th Ave. and Clement St., S. F.;

BID NO. 4993: 200 barrels of Portland cement; fob Oakland, Stanislaus County;

BID NO. 4994: 5400 gals. asph. emulsion; fob Oakland;

BID NO. 4995: Corrugated metal culvert pipe, couplers and bands; fob 215 12th St., Sacramento;

BID NO. 4999: 2750 l.f. C I water pipe; fob Sacramento;

BID NO. 5000: 6000 l.f. steel pipe; fob Sacramento.

FEBRUARY 4, 10 A. M.:

BID NO. 4996: Coil can, trough, safety switches, wire, outlets and panel board; fob 34th Ave. and Clement St., San Francisco.

WAR DEPARTMENT

SACRAMENTO, Cal.—Until Feb. 8, 3 p.m., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Circ. Prop. 1105-38-191, for furnishing and delivering Douglas fir lumber of various sizes; f.o.b. Rio Vista, Calif., and/or shipping point.

WAR DEPARTMENT

FORT LEWIS, Wash.—Until Feb. 3, 10 A. M., bids will be received by Major O. W. Humphries, Quartermaster, Fort Lewis, under Bid No. 488-38-30, for furnishing Clear Fir, Common Fir, Plywood, Red Oak flooring, nails, lathes, blades, cement, sheet iron, stove pipe, wire, etc.; fob Fort Lewis, Wash.

FORT MASON, Cal.—Until Feb. 7, 10 a.m., bids will be received by the Purchasing and Contracting Office, Fort Mason, San Francisco, under Bid No. 928-38-210, for repairing, placing in serviceable condition and furnishing all necessary parts for 76 typewriters and 4 adding machines. Machines are located at Warehouse D, Fort Mason, San Francisco, California, and may be seen between the hours of 8:00 a.m. and 4:00 p.m.

FORT MASON, Cal.—Until Feb. 3, 10 A. M., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, San Francisco, under Bid No. 928-38-208, for furnishing Douglas fir, Sugar pine, Ponderosa pine or White fir; fob Dock No. 1, Fort Mason, San Francisco.

U. S. FOREST SERVICE

SACRAMENTO, Cal.—Until Feb. 2, 3 P. M., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Bid No. 1105-38-190, for furnishing 1000 feet of 3/4-in. hoisting rope; fob Rio Vista, Calif.

SACRAMENTO, Cal.—Until Feb. 1, 3 P. M., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Bid No. 1105-38-188, for furnishing eight current meters; fob Sacramento.

GOVERNMENT ISLAND, Calif.—Until February 2, 2 P. M., bids will be received by the Forest Service Supply Depot, H. R. Marsh, Acting Supply Officer, Government Island, Oakland, under Bid No. 5429, for furnishing 48 Chevrolet governors; fob Government Island.

GOVERNMENT ISLAND, Calif.—Bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for furnishing supplies and materials, as follows:

February 1, 2:00 P. M.

BID NO. 5424—Purchase of new Le Tourneau (or equal) trailblower replacement parts, including lump sum trade-in allowance and/or cash off of use equipment; f.o.b. Glendale, Cal.

NAVY DEPARTMENT

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies & Accounts, Navy Dept., Washington, D. C., for furnishing miscellaneous supplies and materials, as follows:

SCH. 2616—2 motor-driven hack saws for San Pedro; Feb. 4.

SCH. 2618—Motor-driven tool and cutter grinder for San Pedro, Feb. 4.

SCH. 2613—1 motor-driven armature banding machine for San Pedro, Feb. 4.

SCH. 2612—Motor-driven hollow chisel mortiser for San Pedro, February 4.

SCH. 2633—Machine type squaring shears for sheet metal with 24-in. gap power driven by electric motor for Mare Island, Feb. 4.

SCH. 2615—Motor-driven wood shaper for San Pedro, Feb. 4.

SCH. 2634—2 steering systems complete with all electrical and mechanical equipment for Mare Island, Feb. 3.

SCH. 2643—147,300 lbs. cast steel chain for east and west yards, Feb. 3.

SCH. 2644—121 carbon dioxide fire extinguishers for east and west yards, Feb. 4.

SCH. 2617—Motor-driven universal and tool grinder for San Pedro, Feb. 4.

JANUARY S. F. BUILDING BEST SINCE AUGUST

Permits Total \$1,576,000; Frame Construction Shows Marked Gain

San Francisco contractors opened 938 by taking out 535 building permits for construction estimated to cost \$1,576,251, the largest building permit total since August, 1937 according to Chief Clerk S. J. Rosenblum of the Central Permit Bureau.

Builders derived encouragement from the fact that 124 permits were taken out for frame construction costing \$815,540, the largest frame building total in recent months.

The building permit total for January, 1938, was larger than the totals for six months of 1937, and exceeded the January, 1937 total by more than \$300,000. This month's total was higher than totals registered in January, February, September, October, November and December of 1937.

Home Building Gains

"The fact that the bulk of the January total was made up of frame construction indicated a substantial increase in home building," according to Mr. Rosenblum. "Gains were registered in the Class C construction, frame building, alteration and Exposition classification as against January, 1937. The only drops were shown in the Class B and public building totals."

This month's total was the largest January total since 1933. It exceeded the January totals for 1932 and 1930, also, so that this month's total was the third largest January figure in the past 9 years.

It was exceeded by six months in 1937: five months in 1936; one month in 1935; one month in 1934; two months in 1933, and by no month in 1932.

Best Since May

The frame construction total was the highest in seven months. The last month to exceed the January, 1938 total was May, 1937. In that month permits were issued for frame construction estimated to cost \$1,010,076.

Frame construction totals for the

BARRETT & HILP AWARDED BRIDGE CATENARY WORK

SACRAMENTO, Feb. 2.—With the San Francisco terminal rising rapidly and the first spike ceremonially driven this week, the interurban railway system to cross the San Francisco - Oakland Bay Bridge moved another step toward completion today with award of the contract for catenary and feeders.

This portion of the work was let to Barrett & Hilp, 918 Harrison street, San Francisco, Director of Public Works Earl Lee Kelly announced.

The contract was awarded on Proposal C, for which Barrett and Hilp last week submitted a low bid of \$370,283. This schedule combines Proposal A, for catenary and feeders for the main bridge and San Francisco loop, and Proposal B, catenary and feeders for the East Bay yard.

Bids on the catenary and feeders originally were opened last October, were rejected and the contract re-advertised.

The catenary, or trolley wires, will supply motive power for the Southern Pacific and Key System trains operating across the bridge from San Francisco to Eastbay points.

intervening months follow: June, \$745,970; July, \$495,545; August, \$451,683; September, \$423,470; October, \$577,300; November, \$483,423; and December, \$452,725.

Following is the classified building permit total for January, 1938 and January, 1937, as compiled by Chief Clerk S. J. Rosenblum of the San Francisco Central Permit Bureau:

Class.	Jan., 1938		Jan., 1937

LOWRIE PAVING LOW BIDDER ON CAMP CONTRACT

S. F. Firm Bids \$45,491 for Shasta Camp Facilities, Street Construction

The Lowrie Paving Company, San Francisco, at \$45,941.10, yesterday submitted the low bid to the U. S. Bureau of Reclamation for construction of street, driveway and sidewalk grading and surfacing and sewer and water systems for the Government camp at Shasta Dam.

The award of the contract will be another step toward construction of the Shasta Dam portion of the Central Valley Project. Bids for construction of a by-pass tunnel have been called for February 21, and bids for construction of the dam are expected to be asked in March.

Pacific States Const. Co., at \$57,756.10, submitted the second lowest bid on the project, followed by A. Soda and Son, at \$58,865.

Other bidders were: W. J. Tobin, \$61,856.60; G. J. Stebbin Const. Co., \$63,303.27; Earle W. Heple, \$64,533.75; R. P. Easley, \$64,977; N. M. Ball Sons, \$64,982.20; Lee J. Immell, \$66,501.40; Johnson, Inc., \$77,467.75 and Bebek and Brkich, \$84,989.40.

G. J. Stebbin Construction Co. of Klamath Falls, Oregon, was the only out-of-state bidder.

Unit prices on the contract for construction of street, driveway and sidewalk grading and surfacing, and sewer and water systems for the Government camp at Shasta Dam were submitted on 43 items.

Principal items included: 8,000 cubic yards of common excavation; 14,670 cubic yards of excavation and backfill; 17,550 lineal feet of sewer pipe of various sizes; 16,485 cubic yards of excavation ad backfill for trenches of various sizes; 18,500 lineal feet of timber curb boards; 36,100 gallons of liquid asphalt; and 1,440 cubic yards of screenings of various grades. red lead were 812 tons.

\$760,000 Additional City Work Ready For Proposals During Next Three Months

Bids on four projects estimated to cost approximately \$760,000 will be called shortly, San Francisco Department of Public Works officials said yesterday following the announcement that plans were completed for two jobs, and were being prepared on the balance.

The four projects are additions to the list of jobs estimated to cost about \$1,000,000 which last week were reported in Daily Pacific Builder.

Bids on all jobs but one should be called within the next three months, according to officials. This means that about \$1,700,000 worth of work will be put out for bids by the end of April unless unforeseen difficulties arise.

Hassler Health Home
The largest job involves construction at Hassler Health Home. Plans are in the course of preparation, according to City Architect Charles H. Sawyer.

The project, which is the first large job in the hospital improvement program financed by the bond issue approved November 2, involves construction of the following: a ward building; a doctors' dwelling; nurses' residence; children's unit; dining room; five cottages for patients; and a service building.

The work is estimated to cost approximately \$313,000.

Plans and specifications for construction of a boys' and girls' gymnasium and athletic field at George Washington High School have been completed and forwarded to the State Architect for approval, Mr. Sawyer said yesterday. Bids will be called as soon as the State Architect's approval is obtained.

The job is estimated to cost about \$300,000.

PWA Application

The George Washington High School project is one of several included in an application for a PWA grant about a year and one-half ago. The application was unsuccessful. The Lowell High School boys' gymnasium and the initial units of San Francisco Junior College were also included in the application.

Construction of the athletic field will include considerable grading, and the construction of bleachers, Mr. Sawyer said. The gymnasium will be a standard two-story building.

Plans for construction of a primary digester and miscellaneous equipment for the Richmond-Sunset Sewage Treatment Plant in Golden Gate Park have been completed and sent to the local PWA regional office for approval, according to Bureau of Engineering officials.

Sewer Bond Funds

The work is estimated to cost about \$80,000. It will be financed with funds from the sewer bond issue of 1933 and a PWA grant.

SALES OF LEAD, ZINC PIGMENTS DECLINE IN '37

1936 Was Best Year Since
1929, Bureau of Mines
Advance Figures Show

Sales of lead and zinc pigments in 1937, with one or two exceptions, showed consistent recession from the record for 1936, which was the best year these pigments had enjoyed since 1929, according to preliminary figures of the Bureau of Mines. Zinc pigments made a somewhat better showing than lead pigments, in contrast to the several immediately preceding years when lead pigments fared better than zinc.

Litharge sales almost equalled those of 1936, which, in turn, were only slightly lower than the high record of sales made in 1929. Sales of white lead, however, fell 14 per cent; those of dry white lead dropping 5 per cent and those of white lead in oil 17 per cent. Red lead sales were 11 per cent lower than in 1936. The production of basic lead sulphate has increased considerably in the past several years but much of the increased tonnage has been for the manufacture of leaded zinc oxide and the amount so used has been eliminated in order to avoid duplication of metal content in reporting statistics for leaded zinc oxide. Approximately 2,400 tons of basic lead sulphate were used to increase the lead content of leaded zinc oxide in 1936 and a considerably higher tonnage was used for that purpose in 1937.

Of the zinc pigments leaded zinc oxide substantially maintained the high record of sales established in 1936, while sales of zinc oxide fell 10 per cent. The decrease in zinc oxide sales is accounted for by a sharp drop in sales of French process oxide, for sales of American process oxide registered a small increase. The manufacture of zinc oxide from scrap materials declined in 1937. Lithopone sales in 1937 were two per cent lower than in 1936.

Sales of zinc sulphate increased in 1937, and the indications are that sales of zinc chloride also were higher. Satisfactory totals for zinc chloride, however, are not available.

As sales declined sharply in the last two months of the year it is probable that production and shipments for the year exceeded the quantities reported herein.

The most important items in foreign trade in lead and zinc pigments for the first 11 months of 1937 were as follows: Exports of white lead (dry and in oil) amounted to 1,165 short tons in the first 11 months of 1937, exports of litharge were 1,329 short tons and of

The huge exhibit buildings of the 1939 Golden Gate International Exposition were pre-fabricated on the ground and erected in sections.

NEVADA ROCK, SAND CO. BIDS NYE CONTRACT

Reno Firm Low at \$41,872
For 8.8-Mile Highway
Project

CARSON CITY, Nev., Feb. 2.—Nevada Rock & Sand Co. Inc., Reno today submitted low bid to the Nevada State Highway Directors for construction of about eight and eight-tenths miles of highway in Nye county.

Amount of the low proposal was \$41,872.

Isbell Construction Co. of Reno was second low bidder with a proposal of \$44,345. Crow Brothers Construction Co. of Los Angeles, submitted the third low at \$47,177.

Major Bidding Items

The contract involves, among others, major items of 48 acres clearing; 66,730 cubic yards roadway excavation; 12,517 cubic yards imported borrow; 117,354 station yards overhaul; 6069 yard miles overhaul; 1180 cubic yards backfill; 4720 pounds reinforcing steel; 110 cubic yards concrete, Classes A and B; 2494 linear feet of corrugated metal pipe in sizes varying from 18- to 36-inch; and 8.34 miles finishing roadway.

The project is 8.83 miles in length and is located between Beatty and the east boundary of Death Valley National Monument, Route 58, Section A, in Nye county.

No award of contract was made at today's meeting, according to State Highway Engineer Robt. A. Allen. Bids were taken under advisement.

Plans were prepared under the direction of City Engineer John J. Casey.

Bids will be taken under two propositions. Proposition B omits heating plant equipment and piping. Available funds will determine the proposition under which the contract will be awarded, according to specifications.

Preparation of plans for the widening and reconstruction of Third street between Channel and Howard streets has just begun, it was announced. The job is estimated to cost about \$67,000. The work involves reducing sidewalks from fourteen to ten feet with the construction of a seven-foot concrete parking strip adjacent to the curb. Bids will probably not be called for about three months.

BUREAU TRACES PWA PURCHASES OF IRON, STEEL

**\$465,000,000 Spent to Supply
PWA Projects in Four-
Year Period**

Iron and steel products to the extent of \$465,552,370 worth were purchased from industrial concerns to supply PWA projects during the four years between June, 1933, and June, 1937, a report from the Bureau of Labor Statistics of the Department of Labor disclosed this week. (The figure does not include purchase of machinery.)

A breakdown of material orders originating with PWA projects showed the \$465,552,370 figure going for the various types of iron and steel products. This amount is part of the \$1,708,685,535 which the Bureau found was pumped into industrial orders by PWA during the four years surveyed.

Placing of these material orders had a strong reviving effect upon industry, the Bureau found. Much employment was created in industrial plants supplying materials for PWA construction. Analyzing the results of PWA orders upon industrial employment, the Bureau reported that for every man-hour of employment on the site of a PWA non-Federal project, two-and-a-half times as much work was created "behind the lines" in industry.

Structural Steel

By far the largest item of iron and steel purchased for PWA projects was structural and reinforcing steel. A total of \$172,096,054 was spent for this commodity. For general steel works and rolling mill products not otherwise classified, a total of \$92,254,582 was spent. Third largest purchase was cast-iron pipe and fittings, which were ordered in the amount of \$50,659,530. A table showing the breakdown of iron and steel products (exclusive of machinery) follows:

Iron and steel and their products, not including machinery	\$465,552,370
Bolts, nuts, washers, etc.....	5,256,431
Cast-iron pipe and fittings	50,659,530
Doors, shutters, window sash and frames, molding and trim (metal).....	18,569,855
Firearms	813,468
Forgings, iron and steel	7,447,642
Hardware, Miscellaneous	15,217,683
Heating and ventilating equipment	43,293,846
Nails and spikes.....	2,280,486
Rail fastenings, excluding spikes	6,747,133
Rails, steel	22,864,574
Springs, steel	629,141
Steel-works and rolling-mill products, not elsewhere classified	92,254,582
Stoves and ranges, other than electric	794,326
Structural and reinforcing steel	172,096,054
Switches, railway	1,000,818
Tools, other than machine tools	6,072,593
Wire products, not elsewhere classified	9,273,027

COAST LUMBER OUTPUT SHOWS SLIGHT GAINS

A total of 149 down and operating mills in Washington and Oregon which reported to the West Coast Lumbermen's Association for the week ending January 22, produced 71,400,325 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 45.3 per cent of its average weekly cut during 1926-29.

The new business reported taken last week by the 149 mills was 74,797,489 board feet. Shipments were 66,823,958 feet.

Details of orders and shipments as reported by the 149 mills are:

	Orders	Shipments
Rail	37,013,445	31,591,658
Domestic		
Cargo	26,562,394	23,224,017
Export	6,017,903	6,804,536
Local	5,203,747	5,203,747

74,797,489 66,823,958
Production, orders and shipments shown in the report are all somewhat larger than the totals reported by these mills for the previous week. At this time last year, with most of the tidewater mills not operating because of the marine closure, production and shipments reported about the same as in the current week. Orders, however, were considerably higher in volume at this time last year, according to the association.

Wrought pipe	10,261,176
--------------------	------------

In a four-year analysis of the impact of the PWA program on industry, the Bureau of Labor Statistics found that tremendous employment, heretofore "invisible", had been created in industry because of PWA material orders. Because of industrial activity in supplying materials for non-Federal PWA projects, the Bureau found that more than one and a third billion man-hours of private employment had been created in industrial plants, in addition to the site employment.

Direct Employment

The one and a third billion man-hour figure represents only the heretofore "invisible" employment benefit and is in addition to the 1,423,183,000 man-hours of direct construction site employment created by PWA non-Federal projects. It is exclusive of both the indirect and construction site employment of the PWA Federal construction program for which approximately half of the PWA funds were expended.

The "invisible" employment benefits of PWA were created in the production of raw materials for PWA construction; in the transportation of these raw materials from forest and mine to factories and mills and the transportation of the finished products to the construction site and the fabrication, and distribution handling of the finished products.

MARKET STREET WIDENING JOB OUT FOR BIDS

**Proposals Open Feb. 16; Minor
Floor Contracts Are
Advised**

Director William H. Worden of the San Francisco Department of Public Works yesterday called for bids for widening and reconstructing Market street between 11th and Gough streets.

Bids will be opened February 16. The work consists of reducing sidewalk widths on both sides of Market street from twenty-two to twelve feet. Twelve-foot concrete parking strips will be constructed adjacent to the curbs.

To Cost \$22,000

The job is estimated to cost approximately \$22,907, according to City Engineer John J. Casey under whose supervision plans and specifications were prepared.

The widening will extend from Eleventh to Brady street on the south side of Market street, and from Van Ness to Haight street on the north side.

Unit prices will be submitted on twenty-four items. Principal items include: 1450 lineal feet of stone curb reset; 6300 pounds of new cast iron pipe and specials; 800 cu. yds. of asphaltic concrete wearing surface removed; 12,500 sq. ft. of 8-inch Class "E" concrete pavement; 7500 square feet of 6-inch Class "E" concrete base; 920 tons of asphaltic concrete base course; 760 tons of asphaltic concrete wearing surface; and 5500 square feet of two-course concrete sidewalk.

Director Worden also issued two calls for informal bids, both to be opened February 9. The jobs are: laying Mastipave in kitchen at Sunnyside School; and sanding the floor in Room 1 in the Veterans' building.

Structural Steel Bookings Increase

New business booked by the structural steel industry during 1937 totaled 1,628,641 tons, an increase of slightly more than one per cent over the previous year, according to final reports received by the American Institute of Steel Construction.

Shipments in 1937 were larger, amounting to 1,660,570, which was 59.2 per cent of normal (normal being the yearly average for the period 1928-31 inclusive).

Shipments in December were 46.3 per cent of normal as contrasted to an average 59.2 per cent for the whole year. New business booked in December was in an amount nearly equal to what the industry booked in February, 1937, but over ten per cent below the yearly average.

Branches to Westmoreland and Calipatria will be constructed.
The detailed quantities are:

SCHEDULE 1

Construction of 33,000-volt Transmission Line with Copper Conductors:

Erecting in place, under Items 1 to 13, incl., the following classification of poles:

- (1) 3 poles, 25 ft 6 in top;
- (2) 37 poles, 30 ft 6 in top;
- (3) 16 poles, 35 ft 6 in top;
- (4) 3 poles, 40 ft 7 in top;
- (5) 1283 poles, 45 ft 8 in top;
- (6) 25 poles, 45 ft 9 in top;
- (7) 260 poles, 50 ft 8 in top;
- (8) 158 poles, 55 ft 8 in top;
- (9) 78 poles, 60 ft 8 in top;
- (10) 32 poles, 65 ft 8 in top;
- (11) 24 poles, 70 ft 8 in top;
- (12) 1 pole, 75 ft 8 in top;
- (13) 2 poles, 80 ft 8 in top;

Erecting in place, on poles covered by preceding Items 1 to 13, incl., under Items 14 to 27, incl., the following classification of pole heads:

- (14) 1592 heads (single arm);
- (15) 45 heads (double arm);
- (16) 22 heads (single arm);
- (17) 68 heads (double arm);
- (18) 36 heads;
- (19) 7 heads;
- (20) 15 heads;
- (21) 5 heads (single line arm);
- (22) 7 heads;
- (23) 27 heads (single arm);
- (24) 4 heads (double arm);
- (25) 1 head (single arm, single circuit);
- (26) 18 heads;
- (27) 1 head;

Erecting in place, under Items 28 to 34, incl., the following classification of struc:

- (28) (single arm), 4 struc with two 60-ft poles;
- (29) (single arm), one struc with two 65-ft poles;
- (30) 1 struc with two 60-ft poles;
- (31) (special), 1 struc with two 60-ft poles;
- (32) 2 struc with three 70-ft poles;
- (33) 2 struc with three 70-ft poles;
- (34) 1 struc with two 65-ft poles;

Erecting in place, on existing district poles carrying 4-kv Primary Lines, under Items 35 to 37, incl., the following classification of pole heads:

- (35) 33 heads;
- (36) 2 heads;
- (37) 4 heads;

Erecting in place, under Items 38 to 47, incl., the following classification of guying details;

- (38) 38 down guys, 5/16-in H S guy strand;
- (39) 268 down guys, 3/8-in H S guy strand;

- (40) 45 down guys, 7/16-in H S guy strand;
- (41) 74 head guys, 5/16-in H S guy strand;
- (42) 3 head guys, 3/8-in H S guy strand;
- (43) 2 head guys, 7/16-in H S guy strand;
- (44) 3 arm guys, 5/16-in H S guy strand;
- (45) 282 15-in concr anchor per drawing EA-0027 complete with 3/8"x8-ft rod;
- (46) 69 20-in concr anchor per drawing EA-0026, complete with 3/8"x8-ft rod;
- (47) 147 guy guard as per Item 32 of the material list EA-0005;
- Stringing in place on poles and struc covered by preceding Items 1 to 34, incl. under Items 48 and 49, copper conductors as follows:
- (48) 81 ml of 3-wire circuit No 2/0 copper conductors;
- (49) 30 ml of 3-wire circuit No 2 copper conductors;
- Stringing in place, on pole heads covered by preceding Items 35 to 37, incl. under Item 50, copper conductors as follows:
- (50) 1.1 ml of 3-wire circuit No 2 copper conductor;

SCHEDULE 2

Construction of 33,000-volt Transmission Line with ACSR Conductors.

Erecting in place, under Items 1 to 13, incl., the following classification of poles:

- (1) 3 poles, 25 ft 6 in top;
- (2) 37 poles, 30 ft 6 in top;
- (3) 16 poles, 35 ft 6 in top;
- (4) 3 poles, 40 ft 7 in top;
- (5) 918 poles, 45 ft 8 in top;
- (6) 20 poles, 45 ft 9 in top;
- (7) 242 poles, 50 ft 8 in top;
- (8) 152 poles, 55 ft 8 in top;
- (9) 75 poles, 60 ft 8 in top;
- (10) 32 poles, 65 ft 8 in top;
- (11) 24 poles, 70 ft 8 in top;
- (12) 1 pole, 75 ft 8 in top;
- (13) 2 poles, 80 ft 8 in top;

Erecting in place, on poles covered by preceding Items 1 to 13, incl. under Items 14 to 27, incl., the following classification of pole heads:

- (14) 1195 heads (single arm);
- (15) 45 heads (double arm);
- (16) 23 heads (single arm);
- (17) 61 heads (double arm);
- (18) 7 heads;
- (20) 15 heads;
- (21) 5 heads (single line arm);
- (22) 11 heads;
- (23) 27 heads (single arm);
- (24) 4 heads (double arm);
- (25) 1 head (single arm, single circuit);
- (28) 18 heads;
- (27) 1 head;

Erecting in place, under Items 28 to 34, incl., the following classification of struc:

- (28) 4 struc with two 60-ft poles (single arm);
- (29) 1 struc (single arm), with two 65-ft poles;
- (30) 1 struc (double arm), with two 60-ft poles;
- (31) 1 struc (special), with two 60-ft poles;
- (32) 1 struc with three 70-ft poles;
- (33) 2 struc with three 70-ft poles;
- (34) 1 struc with two 65-ft poles;

Erecting in place, on existing district poles carrying 4-kv primary lines, under Items 35 to 37, incl., the following classification of pole heads:

- (35) 35 heads;
- (36) 2 heads;

No. 1006-D, for furnishing 155,000 barrels of modified Portland cement for the All-American Canal, Boulder Canyon Project, Ariz.-Calif.-Nev. * 20

BIDS WANTED

COLORADO RIVER PROJECT. Texas.—Until Feb. 9, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, Colo., under Spec. No. 1032-D, for furnishing and delivering approximately 750,000 bbls. of low-heat Portland cement in bulk for the Marshall Ford Dam, Colorado River Project, Texas; f.o.b. shipping point and/or Rutledge, Texas.

Plans and specifications may be obtained from the above office.

Bids opened Jan. 10, under Spec. No. 1009-D, were rejected. * 20

CONTRACT AWARDED

KENDRICK PROJ., Wyo.—Monolith Portland Midwest Co., Denver, at \$524,580 was awarded contract by the Bureau of Reclamation, Washington, D. C., under Spec. No. 1008-D, for furnishing approximately 210,000 barrels of modified Portland cement in bulk for Seminole Dam, Kendrick Project, Wyo. * 20

CONTRACT AWARDED

LOS ANGELES, Calif.—Riverside Cement Co., 621 S. Hope St., at \$188,800, awarded contract by U. S. Engineer, Los Angeles, for 60,000 bbls. portland cement in paper bags delivered to Los Angeles county drainage area; Circ. Prop. 207. * 20

BIDS WANTED

BERKELEY, Cal.—Until Feb. 8, 10 a.m., bids will be received by the Berkeley City Council, Florence Turner, City Clerk, City Hall, for furnishing welded steel pipe as follows: (1) 2000 lf. 8-in.; (2) 2000 lf. 10-in.; (3) 1000 lf. 12-in. and (4) 1000 lf. 16-in.

Plans and specifications may be obtained from the above office. * 20

BIDS OPENED

OAKLAND, Cal.—Johns-Manville Sales Corp., 1605 Jefferson St., Oakland, at \$291.55, submitted only bid to the East Bay Municipal Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Prop. No. 973, for furnishing 775 pieces of 2½-inch inside diameter asbestos cement water pipe. * 20

CONTRACT AWARDED

OAKLAND, Calif.—American Brass & Copper Co., 383 7th St., Oakland, at \$2077.77, awarded contract by the East Bay Municipal Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Pro. 969, for (1) 384 2½-in. O D No. 15 stub gauge red brass seamless tube, and (2) 400 2½-in. O D by 2½-in. I D stub gauge red brass seamless tube. * 20

BIDS WANTED

SAN FRANCISCO.—Until Feb. 24, 2 P. M., bids will be received by the U. S. Bureau of Public Roads, Federal Office Bldg., San Francisco, for furnishing liquid asphalt road materials, including: (1) 736 tons MC-4 or MC-5; (2) 14 tons MC-2; and (3) 85 tons emulsified asphalt; for use on Sections A1 and A2, Route 1, Grand Canyon National Park, Coconino Co., Arizona.

Plans and specifications may be obtained from the above office and from the U. S. Bureau of Public Rds., Phoenix. * 20

CONTRACT AWARDED

LOS ANGELES, Cal.—Globe Lumber Co., at \$700, awarded contract by U. S. Engineer, Los Angeles, for 20,000 board feet Douglas fir lumber delivered to Brazil and Exchange Sts., Los Angeles; Circ. Prop. 232. 20

BIDS OPENED

LOS ANGELES.—Following bids were submitted to the Los Angeles County Purchasing Agent, under Quot. No. 6212, for (1) spray gun; (2) 1 qt. cup and attachment; (3) one water trap and regulator; (4) 25 feet 5-ply hand-wrapped air hose with connections; (5) extra cup; (6) extra cover.

Bids were: Essick Machinery Co.—(1) \$26.50, (2) \$4.00, (3) \$14.25, (4) \$4.30, (5) \$1.32, (6) \$0.25. Alt. (1) \$25.00, (4) \$3.14; ½ of 1% 20 da.

Spray Gun Sales & Service—(1) \$23.80, (2) \$3.90, (3) \$13.60, (4) \$3.90, (5) \$1.53, (6) included in Item (5); 2% 20 da.

Binks Mfg. Co.—(1) \$30.00, (2) \$4.50, (3) \$16.00, (4) \$5.10, (5) \$1.50, (6) \$3.00; net.

Sears, Roebuck Co., Store 1008-9—(1) \$24.00, (2) \$4.50, (3) \$13.60, (4) \$4.50, (5) \$2.00, (6) \$2.50; net.

Sharpe Mfg. Co.—(1) \$19.20, (2) \$3.60, (3) \$12.48, (4) \$3.64, (5) \$1.60, (6) \$0.16; 2% 10 da.

Crown Spray Gun Mfg. Co.—(1) \$26.00, (2) \$4.00, (3) \$16.00, (4) \$6.25, (5) \$1.50, (6) \$0.30; 1% 10th prox.

Spraygun Corp.—(1) \$30, (2) \$4.50, (3) \$16.00, (4) \$4.80, (5) \$1.50, (6) \$5.00; 2% 15 da.

W. P. Fuller & Co.—(1) \$30.00, (2) \$4.50, (3) \$16.00, (4) \$5.10, (5) \$1.50, (6) \$0.30. Alt. bid, (1) \$22.10, (2) \$3.40, (3) \$12.75, (4) \$5.10, (5) \$1.27, (6) \$0.30; 2% 30 da. * 20

BIDS WANTED

LOS ANGELES, Cal.—Until Feb. 23, 2 p.m., bids will be received by Los Angeles County Supervisors for furnishing and installing one new 500-hp. water tube boiler and apparatus in power house (Bldg. GH-20), Los Angeles County General Hospital, 1100 Mission Road. Specifications 405. * 20

BIDS WANTED

MARIN COUNTY, Cal.—Until Feb. 4, 3 P. M., bids will be received by the U. S. Engineer Office, 401 Custom House, San Francisco, under Bid No. 868-38-92, for furnishing, delivering to Fort Cronkhite, Marin Co., the following steel items:

- (1) 1 door, complete with gudgeons, pine and bolt plate;
- (2) 1 louvre assembly, complete;
- (3) 4 angle frame and manhole covers;
- (4) 1 fixed ladder, complete with expansion bolt and shield;
- (5) 1 portable ladder;
- (6) 3 anchor rungs for portable ladder;
- (7) 3 roof vents;
- (8) 1 pattern for door gudgeons;
- (9) 1 pattern for door bolt lock.

BIDS WANTED

LOS ANGELES, Cal.—Until Feb. 15, 2 p.m., bids will be received by Los Angeles County Supervisors for piping for deaerating feed water heater in power house (Bldg. GH-20), Los Angeles County General Hospital, 1100 Mission Rd. Spec. 431. * 20

BIDS OPENED

MARIN COUNTY, Cal.—Cheda Co., 214 Toll Road, San Rafael, at (1) \$12.50 per c.y., and (2) \$11.00 per c.y., submitted low bid to the U. S. Engineer Office, Lt.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-38-90 for furnishing transit - mixed

concrete for Fort Cronkhite, Marin County.

Bids were taken for (1) 130 c.y. of Class A portland cement concrete; and (2) 65 c.y. of higher test do.

Other bidders were Consumers Rock & Cement Co., (1) \$12.60; (2) \$11.25; and Bode Gravel Co., (1) \$13.00; (2) \$15.25.

All bidders will allow discount of 2% 30 days. * 20

BIDS WANTED

SOUTH GATE, Los Angeles Co., Cal.—Until Feb. 7, 7:30 P. M., bids will be received by the South Gate city council for furnishing materials as follows:

- (1) 92,400 lf. (approx. 16 tons) ½-in. def. re-steel (cut as follows): 385 pcs. 122½ ft. long; 360 pcs. 127½ ft. long;
- (2) 328 pcs. ¾-in. do (3-ft. length);
- (3) 1250 lf. 3-in. galv. ¾ pipe (7.616 wt.);
- (4) 1070 lf. 1.2-in. do (5.819 wt.);
- (5) 56 adjustable pop-up sprinkler 1-in. riser opening rotary full circle type;
- (6) 82 adjustable part circle pop-up sprinkler 1-in. riser opening;
- (7) 157 Parkway pop-up, full circle sprinkler, ¾-in. riser opening;
- (8) 176 Parkway pop-up, half circle sprinkler, ¾-in. riser opening;
- (9) 29 Parkway pop-up, quarter circ. sprinkler, ¾-in. riser opening;
- (10) 51 shrubby herid, adjustable full circle sprinkler, ½-in. riser opening;
- (11) 72 rectangular strip, adjustable sprinkler ½-in. riser opening;
- (12) 30 standard sport field pop-up with ½-in. live uebr protective cap and sleeve, full circle type sprinkler 1-in. riser opening;
- (13) 2 adjustable part circle sprinkler, with rubber cap and sleeve, 1-in. rise opening.

Bidders in bidding should state the unit prices.

Bids will not be accepted unless made on bid form prepared by the city and which may be obtained from the Supt. of Streets. Certified or cashier's check or bond for 5% must accompany each proposal. H. C. Pelffer, city clerk. * 20

CONTRACT AWARDED

BERKELEY, Cal.—Alameda Co., Calif.—Gimre Oil Co., at \$1,1274 (1) and \$0,1289 (2), awarded contract by the Berkeley City Council, Florence Turner, City Clerk, City Hall, for furnishing (1) 180,000 gallons; (2) 6000 gallons of gasoline for the fiscal year 1938. * 20

CONTRACT AWARDED

LOS ANGELES, Cal.—Daugherty Lumber Co., at \$7562.50, 2%, awarded contract by U. S. Engineer, Los Angeles, for furnishing 375,000 board feet Douglas fir lumber, f.o.b. mill, Circ. Prop. 208. * 20

BIDS WANTED

TACOMA, Wash.—Until Feb. 14, 1 P. M., bids will be received by the Board of Contracts and Awards, Tacoma, for furnishing fire hose, including: 3000 ft. of 2½-inch fire hose with rocker lug couplings attached; 500-ft. of 1½-inch fire hose with rocker lug couplings; 300-ft. of ¾-inch chemical hose with 1-inch spanner hose type couplings attached.

Plans and specifications may be obtained from the above office. * 20

KLAMATH FALLS, Oregon.—Until February 14 bids will be received by the City of Klamath Falls, E. A. Thomas, Engineer, for the construction of three city bridges at Washington, Esplanade and Main Streets. Esplanade bridge will be concrete,

the others concrete and steel. Separate or inclusive bids will be received.

Plans and specifications may be obtained from the City Engineer.

BIDS WANTED

ASOTIN CO., Wash., and NEZ PERCE CO., Idaho.—As previously reported, until March 1 bids will be received by the Washington Director of Highways, L. V. Murrow, Olympia, Wash., for paving with Portland cement and constructing a steel verticle lift bridge with reinforced concrete approach spans over Snake River on Washington Primary State Highway 3 and Idaho State Highway 9, Lewiston-Clarkston Bridge, Asotin Co., Wash., and Nez Perce Co., Idaho, Wash., and Nez Perce

Work involves:

- (1) Lump sum, clearing and grubbing;
- (2) 32,860 c.y. unclass. excav. (Including all haul);
- (3) 790 c.y. struc. excav. (Including all haul);
- (4) 10 sta. finishing roadway;
- (5) 80 c.y. screened gravel surfacing;
- (6) 6410 sq. yd. cement concrete pavement, 14-day mix;
- (7) 937 sq. yd. cement concrete pavement, high early strength;
- (8) 44 c.y. cement concrete pavement bridge approaches slab, 14-day mix;
- (9) 30 c.y. cement concrete pavement bridge approaches slab, high early strength;
- (10) 449 ft. of No. 3 and 120 feet of No. 4 pavement header;
- (11) 34,790 lbs. pavement reinforcing Type 2;
- (12) 2116 dowel bars with rubber caps;
- (13) 2946 dowel bars without caps;
- (14) 2231 feet integral concrete curb;
- (15) 197 sq. yd. cement concrete driveway (14-day mix);
- (16) 992 sq. yd. 1-course concrete sidewalk (14-day mix);
- (17) 35 sq. yd. cement concrete sidewalk with Integral beams (14-day mix);
- (18) 296 feet heavy service curb guard;
- (19) 370 c.y. sack riprap (concrete, Class C);
- (20) 5 standard concrete catch basins with CI cover;
- (21) 3 special concrete or brick catch basins (city of Seattle standard);
- (22) 9 special curb inlet (city of Seattle standard);
- (23) 4 standard concrete or brick manholes;
- (24) 4 reinforced concrete fed aid markers;

- (25) reconstruct top to existing manholes;
- (26) remove 456 sq. yds. existing bituminous concrete pavement;
- (27) remove 193 feet of concrete curb;
- (28) remove 504 sq. yd. concrete sidewalk;
- (29) remove 138 feet of 8-inch and 48 feet of 12"-corrugated iron No. 16 gauge pipe;
- (30) 333 feet of 6-inch, 552 feet of 8-inch and 216 feet of 12-inch plain concrete or vitrified concrete sewer pipe;
- (31) 8000 c.y. struc. excav.;
- (32) 110 c.y. gravel backfill;
- (33) 5080 c.y. Class A, 1720 c.y. Class B concrete;
- (34) 320 c.y. Class B concrete in counterweight;
- (35) 2220 c.y. Class D concrete;
- (36) Furnish and drive four steel test piles;
- (37) 19,500 feet of steel foundation piling at site;
- (38) 491 driving and capping steel piles;
- (39) splicing 50 steel piles;
- (40) 30MFMB timber and lumber (cross treated);
- (41) 1,350,000 lbs. steel reinf. bars;
- (42) 1,450,000 lbs. structure carbon steel;
- (43) 440,000 lbs. struc. silicon steel;
- (44) 157,000 lbs. cast steel;
- (45) 285 copper seals;
- (46) 44 cast steel drains;
- (47) 1830 feet of reinforced concrete bridge railing;
- (48) wire rope and fittings;
- (49) 93,000 lbs. machinery;
- (50) Lump sum, roller bearings, mechanical and electrical equipment, operator's house and apral stairways; two machinery houses; 2 traffic barriers; two reflector units; abutment lights and connections; remove existing structure.

Plans and specifications may be obtained from the above office upon deposit of \$2.00.

BIDS WANTED

MADERA CO., Cal.—Until Feb. 11 10 a. m., bids will be received by the State Division of Highways, R. M. Gillis, District Engineer, District VI State Highway Bldg., Fresno, for the construction of a reinforced concrete bridge across Cottonwood Creek Overflow, about four mi. south of Madera, Madera Co., Calif.

Plans and specifications may be obtained from the above office.

CONTRACT AWARDED

HUMBOLDT COUNTY, Cal.—E. J. Smith, 1636 "B" Street, Eureka, a \$36,917 was awarded contract by the State Division of Highways, Public Works Bldg., Sacramento, for the construction of a reinforced concrete slab bridge across Jordan Creek, at miles south of Scotia, consisting of six 22-foot spans, one 24-foot span and one 15-foot span on concrete piers with steel pile foundations at grading and surfacing with plan mixed surfacing approximately fifteen hundredths of a mile, Humboldt County.

CONTRACT AWARDED

SAN LUIS OBISPO CO., Cal.—S. J. Cummings, 4170 Falcon Street, San Diego, at \$23,898 was awarded contract by the State Division of Highways, Public Works Building, Sacramento, for the construction of timber bridge across San Juan Creek about 38 miles east of Santa Ma

Plans and specifications may be obtained from the above office. * 29

LOW BIDDERS

NYE CO., Nev.—Nevada Rock & Sand Co., Inc., Reno, at \$41,872.44, submitted low bid to the Directors of the Department of Highways, State of Nevada, Memorial Bldg., Carson City, Nevada, for the construction of approximately 8.84 mi. state highway from the east boundary of Death Valley National Monument to Beatty, Route 58, Section A, Nye County, Nevada.

Three low bids follow:
 Nevada Rock & Sand Co.,
 Inc., Reno \$41,872.44
 Isbell Constr. Co., Reno..... 44,345.08
 Crow Bros. Constr. Co.,
 Los Angeles 47,177.27

Complete bids will be published shortly. * 29

CONTRACT AWARDED

21
HOOD RIVER CO., Oregon.—Frank Watt Const. Co., 309 Couch Building, Portland, at \$36,122 was awarded the contract by U. S. Engineer Office, Bonnevill, Ore., under Bid No. 694-38-197, for construction of an overhead railroad crossing and approach roads, road surfacing and system of drainage, a pump house, and miscellaneous concrete work at Hood River, Oregon. * 29

BIDS WANTED

EUREKA CO., Nevada.—As previously reported, until February 15, 2 p.m., bids will be received by the Directors of the Dept. of Highways, Heroes Memorial Bldg., Carson City, Nevada, for the construction of approximately 4.62 miles highway from a point on State Route No. 1 approximately 5.7 miles east of Dunphy to a point approximately 0.82 mile north of Beowawe, Route No. 21, Section B, Eureka County, Nevada.

Work involves:
 (1) 9 acres clearing;
 (2) 2680 l.f. remove fence;
 (3) 20 l.f. remove culvert pipe;
 (4) 3 each, remove culverts (timber);
 (5) 30,178 c.y. roadway excav.;
 (6) 600 c.y. drainage excav.;
 (7) 210 sta. V type ditches;
 (8) 21,330 yd. sta. overhaul (yard sta.);
 (9) 111 yd. mile overhaul (yard mile);
 (10) 655 c.y. struc. excav.;
 (11) 800 c.y. backfill;
 (12) 4.62 miles subgrade, Type C;
 (13) 10 M. gals. water;
 (14) 19,960 tons gravel surface;
 (15) 132 c.y. class A concrete;
 (16) 46 c.y. class B concrete;
 (17) 15,020 lbs. reinf. steel;
 (18) 244 l.f. 18-in. CMP;
 (19) 550 l.f. 24-in. CMP;
 (20) 102 l.f. 30-in. CMP;
 (21) 70 l.f. 36-in. CMP;
 (22) 20 l.f. relay culvert pipe;
 (23) 2,463 l.f. reconstruct fence;
 (24) 32 each, monuments.

Plans and specifications may be obtained from Robert A. Allen, State Highway Engineer, Carson City, Nevada, and from the District Office of the Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, upon deposit of \$10.00, \$5.00 of which will be refundable.

State previously reported as California, which was an error. * 29

BLUE PRINTS AVAILABLE

SACRAMENTO, Cal.—State Highway Engineer C. H. Purcell, announces the cost of blue prints now available for work for which bids will be opened in Sacramento Feb. 16 and prices:

* IV SCI-5-C, overhead structure over Madrone Drive: PLANS (No. of Sheets) 6; (Cost) \$1.00; CROSS-SECTIONS (No Sheets) Total, \$1.00.

* V-SBT-119-D-E, between Palcines and Tres Pinos: PLANS (No. Sheets) 17; (Cost) \$1.70; CROSS-SECTIONS: (No. of Sheets) 80; (Cost) \$8.00; Total, \$9.70.

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the order to this office.

Requests for the above plans, specifications and proposal form must be addressed to the office of the State Highway Engineer, P. O. Box 1499, Sacramento. * 29

NOTICE

Representative of the District Office will accompany prospective bidders over the proposed project in San Benito County, between Palcines and Tres Pinos, road V-SBT-119-D-E, for which bids are to be received in Sacramento on Feb. 16, 1938.

Said representative will meet prospective bidders at Palcines, on Thursday, Feb. 10, 1938, at 10 a.m.

Prospective bidders are urged to cooperate with the District Office and arrange to make their field inspection on the above dates. * 29

NOTICE

Representative of the District Office will accompany prospective bidders over the proposed project in Imperial County, between New River and 2 miles west of Calipatria and between 5 miles and 2 miles west of Brawley, road XI-Imperial Feeder, for which bids are to be received in San Diego on February 11, 1938.

Said representative will meet prospective bidders at the Dulnick Hotel, Brawley, on Friday, Feb. 7, 1938, at 11:00 a.m.

Prospective bidders are urged to cooperate with the District Office and arrange to make their field inspection on the above dates. * 29

CONTRACT AWARDED

SAN FRANCISCO.—Heafey-Moore Co. and Fredrickson & Watson Const. Co., 344 High St., Oakland, at \$228,368.50 was awarded contract by the U. S. Engineer Office, 401 Custom House, San Francisco, under Bid No. ER-868-38-81, for the construction of a roadway, less paving and preparation of subgrade, on the west side of Yerba Buena Island, for a length of approximately 993 ft. from the southern end of the recently completed portion of the roadway to the S. F.-Oakland Bay Bridge. Roadway varies in width from 64 ft. to 130 ft. in a five-part grade separation structure. The construction of the roadway includes disposal of roadway excavation so as to continue the construction of the causeway fill from Yerba Buena Island to the fill to the north. * 29

BIDS WANTED

SACRAMENTO, Cal.—Until Mar. 1, 2 P. M., bids will be received by the Contracting Quartermaster, Sacramento Air Depot, for the construction and completion of runways and drainage at the Sacramento Air Depot.

Plans and specifications may be obtained at the above office upon deposit of \$10.00. * 29

LOW BIDDERS

SAN DIEGO COUNTY, Cal.—V. R. Dennis Const. Co., P. O. Box F. Sta. A, San Diego, at \$16,885.30 submitted the low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Room 808, State Bldg., Los Angeles, for grading and surfacing

with plant-mix surfacing about 0.2 mile on Douglass St. between Eagle St. and University Ave., San Diego.

Daley Corp., San Diego, at \$16,994.90 submitted second low bid.

Complete bids will be published shortly. * 29

BIDS WANTED

PINAL AND GILA COS., Ariz.—Until Feb. 11, 10 a.m., bids will be received by the Arizona State Highway Commission, Phoenix, for highway improvement on the Superior-Miami Highway, F.A. 16, 2nd Reop. (1938), A.F.E. 7009. The work, which begins about 3½ miles northeast of Superior and extends northeasterly across Oak Flat for a distance of about 1.6 miles, consists of grading, draining, aggregate base course, and curb and road mix, and is to be completed on or before Aug. 31, 1938.

The work involves:
 (1) 75,000 c.y. roadway excav.;
 (2) 7,500 c.y. slides and overbreakage;
 (3) 80 c.y. struc. excav.;
 (4) 123,000 cu. yds. overhaul;
 (5) 19,200 tons coarse aggregate base course;
 (6) 3,700 tons fine aggregate base course;
 (7) 61,000 lbs. reinf. steel;
 (8) 886 l.f. CMP (3 sizes);
 (9) 1,312 l.f. road guard;
 (10) 4,760 tons mineral aggregate;
 (11) 155 tons cutback asphalt, MC-4;
 (12) 51 tons cutback asphalt, MC-2;
 (13) 1.6 mi. processing road mix;
 (14) 280 tons screenings.

Plans and specifications may be obtained from the office of Howard S. Reed, State Highway Engineer. Certified or cashier's check, 5%. * 29

BIDS WANTED

ALAMEDA, CONTRA COSTA & SANTA CLARA COS., Cal.—until Feb. 7, 2 p.m., bids will be received by the State Division of Highways, Jno. H. Skeggs, District Engineer, District IV, State Bldg., San Francisco, for applying diesel oil to roadside vegetation for 111.5 roadside ml. at various locations in Alameda, Contra Costa and Santa Clara Cos., Calif.

Plans and specifications may be obtained at the above office. * 29

CONTRACT AWARDED

HARRINGTON, Lincoln Co., Wash.—Seattle Boiler Works, 1128 W. 45th St., Seattle, Wash., at \$10,450, submitted low bid and was awarded contract by the Town Council, H. Turner, Clerk, for 150,000-gal. capacity steel storage water tank with 50-ft. steel tower. Alternat. 1: 150,000-gal. capacity steel water tank (flat bottom), supported on concrete slab and tower; Alternat. 2: 150,000-gal. capacity concrete water tank supported by concrete slab and inclosed with concrete shell.

Total bids follow:
 Seattle Boiler Works, Seattle, Wash.—\$10,450.
 Pittsburgh-Des Moines Steel Co.—\$11,980.

Steel Tank & Pipe Co., Portland, Ore.—\$12,900.

King Bros., Portland—\$12,620.

Chicago Bridge & Iron Co., San Francisco, Cal.—\$13,675.

Fabricated Steel Const., Bethlehem, Pa.—\$15,575.

Alloway & Georg, Spokane, Wash., submitted a bid of \$13,813 (Alt. 1).

and \$15,913 (Alt. 2). * 33

BIDS WANTED

SONOMA, MARIN AND NAPA COS., Cal.—Until Feb. 7, 2:00 P.M., bids will be received by the State Division of Highways, Jno. H. Skeggs, District Engineer, District IV, State Bldg., San Francisco, for applying diesel oil to roadside vegetation for

about 191.2 roadside miles at various locations in Sonoma, Marin and Napa counties, Cal.

Plans and specifications may be obtained from the above office. * 29

COMPLETE BIDS

SAN DIEGO COUNTY, Cal.—V. R. Dennis Constr. Co., P.O. Box F, Sta. 1, San Diego, at \$16,865.30, submitted the low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Room 808, State Bldg., Los Angeles, for grading and surfacing with plant-mix surfacing about 0.2 mile on Douglass Street, between Eagle Street and University Avenue, San Diego.

Work involves:

- (1) 1 only, removing palm tree;
- (2) Clear and grub right of way;
- (3) 680 M. gals. water;
- (4) 470 c.y. roadway excav., without class;
- (5) 33c. c.y. struc. excav.;
- (6) 30,700 c.y. import borrow;
- (7) 21 c.y. remove concrete;
- (8) 700 tons crusher run base;
- (9) 520 tons mineral aggregate plant mix surf.;
- (10) 25 tons liq. asph., MC-5 or MC-extra heavy plant-mix surf.;
- (11) 2 tons liq. asph., SC-2 (prime coat);
- (12) 770 sq. yds. asph. paint binder;
- (13) 1,700 lbs. bar. reinf. steel;
- (14) 20 c.y. class A portland cement concrete strucs.;
- (15) 55 c.y. class A portland cement concrete curbs and sidewalks;
- (16) 328 lf. 24-in. stand. reinf. conc. pipe;
- (17) 220 lf. 18-in. CMP;
- (18) 103 lf. remove, clean and salvage exist. pipe culverts;
- (19) 4 each frames and gratings for catch basins;
- (20) 100 lf. remove and dispose of guard rail;
- (21) 1,000 lf. laminated guard railing;
- (22) 24 lf. pipe handrail.

Total bids follow:

- A) V. R. Dennis Constr. Co., San Diego—\$16,865.30.
- B) Daley Corp., San Diego—\$16,994.90.
- C) R. E. Hazard & Son, San Diego—\$18,721.25.
- D) B. G. Carroll, San Diego—\$18,979.50.
- E) Harry L. Foster, San Diego—\$22,312.75.

Unit prices follow:

CONTRACT AWARDED

SACRAMENTO, Calif.—McGillivray Const. Co., P. O. Box 873, Sacramento, at \$2962.65 was awarded contract by the Sacramento City Council, H. G. Denton, City Clerk, City Hall, for the improvement of 42nd Street from the southerly line of T Street to the northerly line of V St., Sacramento.

BIDS WANTED

CHURCHILL CO., Nev.—Until Feb. 15, 1:30 p.m., bids will be received by the Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, Nevada, for the construction of approximately 3.04 miles of highway from a point approximately $\frac{1}{2}$ mile south of Fallon to a point approximately 2 miles southwest, Churchill County, Nevada.

Work involves:

- (1) 8,447 lf. remove fence;
- (2) 4 each, remove timber culverts;
- (3) 1 each, remove timber bridge;
- (4) 1 each, remove timber check gate;
- (5) 10,500 sq. yd. remove and stockpile rdwx. bit. surf.;
- (6) 18,515 c.y. roadway excav.;
- (7) 3,020 c.y. drainage excav.;
- (8) 6,912 c.y. borrow;
- (9) 7,970 c.y. imported borrow;
- (10) 59,361 yd. sta. overhaul (yard sta.);
- (11) 4,583 yd. mi. overhaul (yard mile);
- (12) 380 c.y. struc. excav.;
- (13) 425 c.y. backfill;
- (14) 3.04 mile subgrade, Type C;
- (15) 950 c.y. salvaged aggregate;
- (16) 4.0 M. gal. water;
- (17) 7,324 tons gravel surface;
- (18) 39 tons liq. asph., Type SC2 (seal);

7-OS adLl "udse bh suoI 92Z (61) (roadmix);

- (20) 304 miles roadmix;
- (21) 112 c.y. class A concrete;
- (22) 9 c.y. class B concrete;
- (23) 8,810 lbs. reinf. steel;
- (24) 260 sq. yd. mesh reinf.;
- (25) 1.02 MFBM redwood, small structures;

ALTERNATE A—(Redwood Culvert)

- (26) 12.3 MFBM Redwood;
- ALTERNATE B—(Douglas Fir Culvert)

- (27) 11 MFBM treated Douglas fir;
- (28) 1 MFBM untreated Douglas fir;
- (29) 128 lf. 8-in. CMP (dipped);
- (30) 284 lf. 18-in. CMP (dipped);
- (31) 30 lf. 24-in. CMP (dipped);
- (32) 30 lf. 36-in. CMP (dipped);
- (33) 35 c.y. grouted hand-laid riprap;
- (34) 120 lf. beam type metal guard rail;
- (35) 22 each, culvert markers;
- (36) 8,224 lf. reconstruct fence;
- (37) 33 each, monuments;
- (38) 8 each, embankment protectors;
- (39) 5 each, move mail boxes.

Plans and specifications may be obtained from Robert A. Allen, State Highway Engineer, Carson City, Nevada, and from the District Office of the Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, upon the deposit of \$10, 50.00 of which will be returnable. * 29

BIDS WANTED

SOLANO, San Joaquin, Calaveras, Amador, Stanislaus, Mariposa and Tuolumne Counties, Cal.—Until Feb. 7, 1:30 p.m., bids will be received by the State Division of Highways, R. E. Pierce, District Engineer, District X, 1200 N. Center St., Stockton, for ap-

plying diesel oil to roadside vegetation for about 280.5 roadside miles at various locations in Solano, Sutter, Colusa, Calaveras, Amador, Stanislaus, Marinosa and Tuolumne Counties, Cal.

Work involves:

- (1) 1300 bbls. diesel oil (Location A);
- (2) 1070 bbls. diesel oil (Location B).

Plans and specifications may be obtained from the above office. * 29

BIDS WANTED

SACRAMENTO, Cal.—Until March 1, 2 P. M., bids will be received by the Constructing Quartermaster, Sacramento Air Depot, for the construction and completion of runways and drainage at the Sacramento Air Depot, Sacramento.

Work involves:

- (1) Lump sum: furnish all material and equipment and perform all labor necessary to construct paved runways and taxiways of 6-inch plant-mix stabilized soil base, using all imported materials; to construct storm drains with concrete pipe including manholes, inlets, headwalls, concrete gutter, open ditches, with all connections and appurtenances necessary to construct the electrical duct lines;
- (2) Deduct if 600 feet of runway B is omitted from Item 1;
- (3) Deduct if taxiway No. 2 and storm drains and inlets along same from manhole No. 4 to manhole No. 5 and two 4-inch duct lines are omitted from Item 1;
- (4) Deduct if taxiway No. 3 and storm drain and inlets along the north side of same from manhole No. 3 to inlet No. 3, and one 4-inch duct line are omitted from Item 1;
- (5) Deduct if taxiway No. 4 and storm drain and inlets along the west side of same from manhole No. 1 to inlet No. 1 and one 4-inch duct line are omitted from Item 1;
- (6) Deduct if taxiway No. 5 and storm drain manholes and inlets along same from manhole No. 2 to inlet No. 2 and two 4-inch duct lines are omitted from Item 1;
- (7) Lump sum: furnish all material and equipment and perform all labor necessary to construct paved runways and taxiways of 6-inch mix in place stabilized soil base, using all imported materials as specified under Ait. A; to construct storm drains with concrete pipe including the manholes, inlets, headwalls, concrete gutter, open ditches, with all connections and appurtenances necessary to construct the electrical duct lines;
- (8) Deduct if 600 feet of west end of runway B is omitted from Item 7;
- (9) Deduct if taxiway No. 2 and storm drains and inlets along same from manhole No. 4 to manhole No. 5 and two 4-inch duct lines are omitted from Item 7;
- (10) Deduct if taxiway No. 3 and storm drains and inlets along north side of same from manhole No. 3 to inlet No. 3 and one 4-inch duct line are omitted from Item 7;
- (11) Deduct if taxiway No. 4 and storm drains and inlets along west side of same from manhole No. 1 to inlet No. 1 and one 4-inch duct line are omitted from Item 7;
- (12) Deduct if taxiway No. 5 and storm drains and inlets along same from manhole No. 2 to inlet No. 2 and two 4-inch duct lines are omitted from Item 7;

INCINERATOR, SACRAMENTO AIR DEPOT, CAL.

SACRAMENTO, Calif.—Emil Hogberg, 666 Mission St., San Francisco, at \$10,650 submitted low bid to the Construction Quartermaster, Sacramento Air Depot, for the construction and completion of 3-ton U. S. Army Standard Natural Draft Incinerator at Sacramento Air Depot.

Total bids follow:

- (A) Emil Hogberg, San Francisco, \$10,650.
- (B) MacDonald & Kahn, Inc., San Francisco, \$12,521 (deducted \$2,479 by wire).
- (C) Smith Engr. Co., Los Angeles, \$13,500 (deducted \$3,450 by wire).

- (D) Contracting Engrs. Corp., Los Angeles, \$14,900 (deducted \$600 by wire).
- (E) Holdener Const. Co., Sacramento, \$14,930.
- (F) W. J. Tobin, San Francisco, \$15,938.00.

Bids were taken on the following units: (1) earth excavation, per c.y.; (2) rock excavation, per c.y.; (3) wet excavation, per c.y.; (4) Type B concrete, including forms, per c.y.; (5) structural steel, per ton; (6) reinforcing steel, per ton; (7) brick in walls, per M.

(A) Begin in 5 days, finish in 60 days; (B) Begin in 15 days, finish in 120 days; (C) Begin in 10 days, finish in 250 days; (F) Begin in 10 days, finish in 120 days.

COLUMBIA CO., ORE.—Diversion of Tank Creek—(Govt.)

COLUMBIA COUNTY, Ore.—Harold Blake, 400 N. Thompson, Portland, at \$28,034.60 submitted low bid to U. S. Engineer Office, 628 Pittock Block, Portland, Oregon, under Bid No. 698-38-302, for performing all work for the diversion of Tank Creek in Beaver Drainage District, requiring the construction of the diversion canal and its appurtenant levees, construction of a wood stave tide box, a concrete spillway, a 42-inch syphon, a 48-inch culvert thru the highway, and the excavation of a lateral drainage ditch, Columbia County, Oregon.

Work involves:

- (1) 8.3 acres stripping;
- (2) 410 c.y. excav., syphons and spillway discharge ditches;
- (3) 360 c.y. excav., diversion canal;
- (4) 1510 c.y. excav., tide box and culvert;
- (5) 1290 c.y. struc. excav., tide box, syphon and spillway;
- (6) 2430 c.y. backfill for tide box, syphon spillway;
- (7) 5.39 MFBM treated lumber, in place;
- (8) 0.19 MFBM untreated lumber, in place;
- (9) 5.53 MFBM treated tongue and groove sheet piling, in place;
- (10) 276 l.f. treated round piling, in place;
- (11) 152 l.f. 48-in. continuous wood stave pipe, in place;

- (12) 136 l.f. 24-in. corrugated iron pipe, in place;
- (13) 44 l.f. 48-in. concrete culvert pipe, in place;
- (14) 90 lbs. wrought-iron galv. pipe and fittings, in place;
- (15) 74 c.y. reinf. conc. in place;
- (16) 4 each, 48-in. circular automatic drainage and head gates in place;
- (17) 1 each, 5-ft. by 5-ft. square manual head gate in place;
- (18) 190 lbs. fabricated structural steel for syphon, in place;
- (19) 235 c.y. riprap, in place;
- (20) 30,000 c.y. embankment (drag-line), in place;
- (21) 16,000 c.y. embankment (truck haul), in place;
- (22) 8000 c.y. mi. truck overhaul.

Total bids follow:

- (A) Harold Blake, 400 N. Thompson, Portland, \$28,034.60.
- (B) Edelstein-Weygandt Co., Portland \$28,659.72.
- (C) Knuchberg Const. Co., Portland, \$29,698.00.
- (D) S. S. Montague, Portland, \$34,778.00.
- (E) The United Contr. Co., Portland, \$36,990.20.
- (F) J. A. Terteling and Sons, Boise, Idaho, \$37,864.50.
- (G) Saxton, Looney and Riskey, Portland, \$43,229.00.
- (H) Contracting Officer's estimate, \$41,352.74.

lines are omitted from Item 7;
 Lump sum: Furnish all material and equipment and perform all labor necessary to construct paved runways and taxways of 6-inch mixed in place stabilized soil base, using 50% existing base material and 50% imported material as specified under Alt. B; to construct storm drains with conc. pipe including manholes, inlets, headwalls, concrete gutter, open ditches, with all connections and appurtenances necessary to construct electrical duct lines;
 Deduct if 600 feet of west end runway B is omitted from Item 13;
 Deduct if taxiway No. 2 and storm drains and inlets along same from manhole No. 4 to manhole No. 5 and two 4-inch duct lines are omitted from Item 13;
 Deduct if taxiway No. 3 and storm drains and inlets along north side of same from manhole No. 3 to inlet No. 3 and one 4-in. duct line are omitted from Item 13;
 Deduct if taxiway No. 4 and storm drains and inlets along west side of same from manhole No. 1 to inlet No. 1 and one 4-inch duct line is omitted from Item 13;
 Deduct if taxiway No. 5 and storm drains, manholes and inlets along same from manhole No. 2 to inlet No. 2 and two 4-inch duct lines are omitted from Item 13;
 Unit prices shall include furnishing all labor and materials, complete in place:
 a) 6-inch stabilized soil base plant mix using all imported materials, per sq. yd.;
 b) 6-inch stabilized soil base mixed in place using all imported materials as specified under Alt. A, per sq. yd.;
 c) 6-inch stabilized soil base mixed in place, using 50% existing base materials and 50% imported materials as specified under Alt. B, per sq. yd.;
 d) asphalt emulsion stabilizer applied, per gallon;
 e) earth excavation for paving, per c.y.;
 f) earth excavation for drainage structures and ditches, per c.y.;
 g) rock excavation for drainage and misc. structures over and above the price for earth excavation, per c.y.;
 h) inlet complete with grate, 3-ft. depth, each;
 (1) manhole complete with grate, 4x45-ft. depth, per each;
 (2) manhole complete with grate 3x35-ft. depth, per each;
 k) reinforcing concrete complete in place, including forms, per c.y.;
 (1) reinforcing steel, per lb.;
 m) cast iron gratings, per lb.;
 n) sheeting ordered left in place, per MFEM;
 c) concrete or clay pipe including excavation, laying and backfilling:
 (1) 30-inch dia., per l.f.;
 (2) 27-inch dia., per l.f.;
 (3) 24-inch dia., per l.f.;
 (4) 21-inch dia., per l.f.;
 (5) 18-inch dia., per l.f.;
 (6) 15-inch dia., per l.f.;
 (7) 12-inch dia., per l.f.;
 (8) 10-inch dia., per l.f.;
 (9) 8-inch dia., per l.f.;
 p) treaded cast iron pipe including excavation, laying and backfilling:
 (1) 6-inch dia., per l.f.;
 (2) 4-inch dia., per l.f.
 Plans and specifications may be obtained at the above office upon posit of \$10.00. * 29

PLACERVILLE—SEWAGE DISPOSAL PROJECT—(City)

PLACERVILLE, El Dorado Co., Cal.—Fred J. Early, Jr., 369 Pine St., San Francisco, at \$32,588.50 (Project Unit A2) submitted low bid to Placerville City Council, Esther A. Mahler, City Clerk, Placerville, for construction of Main line intercepting sewers for the municipal sewage disposal project; Campbell Construction Co., 800 R Street, Sacramento, at \$39,700 submitted low bid under Project Unit B for the sewage treatment work.

Work involves:
 SCHED. NO. 1—Project Unit A2
 (1a) 559 ft. 15-in. asbestos bond corrugated pipe;
 (1b) 559 ft. 14-in. alternate cast iron sewer pipe;
 (1c) 559 ft. 15-in. alternate cement concrete pipe;
 (2a) 896 ft. 15-in. asbestos bond corrugated pipe;
 (2b) 896 ft. 14-in. alternate cast iron sewer pipe;
 (3a) 345 ft. 10-in. alternate cast iron pipe;
 (3b) 345 ft. 10-in. alternate cast iron pipe;
 (4) 2166 ft. 10-in. cast iron sewer pipe;
 (5) 753 ft. 8-in. cast iron pipe;
 (6) 2456 ft. 6-in. cast iron pipe;
 (7) main intercepting sewer line trusses complete;
 (8) 18 concrete manholes complete;
 (9) 3 storm water manholes complete;
 (10) 360 main intercepting sewer line supports;
 (11) 360 main intercepting sewer line alternate;

(12) 1750 ft. 6-in. cast soil auxiliary sewer;
 (13) 3550 ft. 4-in. cast iron soil pipe;
 (14) 180 ft. 4-in. cast iron soil pipe house connections.

SCHED. NO. 2—Project Unit B
 (1) lump sum: furnishing all materials & labor for sewage treatment works;
 (2) for Proposal Item No. 1 exclusive of Project Unit Item No. 6, sludge drying beds;
 (3) Proposal Item No. 1 exclusive of Chlorinator only; lump sum;
 (4) lump sum for Proposal Item No. 1 exclusive of screenings comminutor machine only;
 (5) for Proposal No. 1 exclusive of chlorinator and screenings comminutor machine only;
 (6) for Proposal Item No. 1 exclusive of bio-filter rock bed and rotary sewage distributor mechanism;
 (7) deduct lump sum under Prop. No. 1 for substitution of Proj. Unit No. 3 bio-filter of 50 feet in lieu of 60 ft. size.

Bidders were:
 (A) Fred J. Early, Jr., 369 Pine St., San Francisco.
 (B) Campbell Constr. Co., 800 R St., Sacramento.
 (C) Robert B. McNair, Oakland.
 (D) Martin Murphy, Berkeley.
 (E) John Pestana, Oakland.
 (F) Bebek & Brklich, Los Angeles.
 (G) Johnson, Inc., Alhambra.

30—RESERVOIRS & DAMS

CONTRACT AWARDED
 GRAND COULEE, Wash.—Interior Constr. Co., 1522 Latham Square Bldg., Oakland, at \$34,442,240, awarded contract by the U. S. Bureau of Reclamation, Washington, D. C., under Spec. No. 757, for the completion of the Grand Coulee Dam, left powerhouse and foundation for the pumping plant, Columbia Basin Project, located about 100 miles west of Spokane, Wash. * 30

CONTRACT AWARDED
 GRAND COULEE DAM, Wash.—Western Pipe & Steel Co. of Calif., 444 Market St., San Francisco, at \$1,456,624, awarded contract by the Bureau of Reclamation, Washington, D. C., under Spec. No. 760, for furnishing and erecting steel penstocks and pump inlet pipes for the Grand

Coulee Dam, Columbia Basin Project, Washington. * 30

CONTRACTS AWARDED
 COLUMBIA CO., Oregon.—Harold Blake, 400 N. Thompson, Portland, at \$111,601 (Sec. A); S. S. Montague, 114 SW 4th St., Portland, at \$62,848 (Sec. C), and \$17,819 (Sec. D), were awarded contracts by the U. S. Engineer Office, Portland, under Bid No. 698-38-235, for constructing and reconstructing levees, constructing tide boxes, pipe lines, rubble masonry, catch basins, drainage ditches and bank protection revetment in the Clatskanie Area, consisting of a portion of Beaver Drainage District, Magruder Drainage Dist., Midland Drainage Dist., Marshland Drainage Dist., Webb District Improvement Co., Woodson Drainage District and Westland District Improvement Co.,

(Continued on Next Page)

Columbia Co., Oregon.
Award of contract on Section B withheld. * 30

31—PIPE LINES & WELLS

BIDS WANTED
FRESNO CO., Cal.—Until Feb. 11, 10 a.m., bids will be received by the Fresno County Board of Supervisors, E. Dusenberry, Clerk, Ct. House, Fresno, for laying of concrete pipe lines in the Fresno County Fairgrounds.

Plans and specifications may be obtained from the above office. * 31

BIDS WANTED
LONG BEACH, Los Angeles Co., Cal.—Until Feb. 15, 11 a.m., bids will be received by Long Beach City Clerk, E. L. MacDonald, City Clerk, for improvement of Arbor Street, between Pacific Avenue and 48th Street, and a portion of 49th Street, by construction of water mains, under the 1911 act.

Work involves:
(1) 23 lf. 8-in. C I pipe;
(2) 1911 lf. 6-in. C I pipe;
(3) 2 each, 6-in. hub end gate valves;
(4) 2 each, heavy gate boxes and lids;
(5) 1 only, 6x8x6-in. cross;
(6) 4 each, 6x6x6-in. tees;
(7) 1 only, 8-in. C I plug;
(8) 2 each, 6-in. C I plugs;
(9) 3 standard fire hydrants. * 31

CONTRACT AWARDED
HICKAM FIELD, T. H. — Marks Const. Co., at \$29,000 was awarded contract by the Purchasing and Contracting Officer, Hickam Field, for the construction of a water line, curbs and rough grading on streets at Hickam Field, T. H. * 31

CONTRACT AWARDED
FORT BARRY, Marin Co., Cal.—Harvey E. Conner, 1222 Whipple Ave. Redwood City, at \$8,450.50 awarded contract by the U. S. Engineer Office, Lt.-Col. J. A. Dorst, District Engineer, San Francisco, under Bid No. 868-38-78 for constructing and installing approximately 9890 feet of pipe line on and adjacent to the Fort Barry Military Reservation, Marin County. * 31

32—SEWERS & SEWAGE DISPOSAL PLANTS

BIDS OPENED
PLACERVILLE, El Dorado Co., Cal.—Fred J. Early, Jr., 369 Pine St., San Francisco, at \$32,588.50 (Proj. Unit A2) and Campbell Construction, 800 R St., Sacramento, at \$39,700 (Project Unit B), submitted low bids to the Placerville City Council, Esther A. Mahler, City Clerk, Placerville, for the construction of Sewage Disposal Project, Units A2 and B, comprising main intercepting sewer line down Hangtown Creek with appurtenances including house sewer connections and a complete sewage treatment plant, comprising settling tanks, sludge digester, biologic rock filter bed complete with pipe work and mechanical equipment.

Total bids follow:
Fred J. Early, Jr., 369 Pine St., San Francisco—(Pro. A2) \$32,588.50; (Pro. B) (1) \$12,985; (2) \$42,235; (3) \$42,135; (4) \$41,485; (5) \$40,635; (6) \$39,840; (7) \$41,585.
Campbell Construction Co., 800 R St., Sacramento—(Pro. B) (1) \$43,000; (2) \$40,635; (3) \$41,400; (4) \$30,000; (5) \$39,700; (6) \$39,765; (7) \$41,600.
Robert B. McNair, Oakland—\$37,250.58 (Pro. A2).
(Continued on Next Page)

LASSEN COUNTY—CONSTRUCTING BRIDGES—(State)

LASSEN CO., Calif.—M. A. Jenkins, 3560 Y St., Sacramento, at \$12,677 (Alt. A), and \$12,539.50 (Alt. B), submitted low bid to the State Division of Highways, F. W. Hazelwood, District Engineer, District 11, Redding, for the construction of three timber stringer bridges with concrete decks on concrete pile bents between three miles south of Standish and Wendel on the Buntingville-Wendel Road, Lassen County.

Work Involves:
(1) 27,000 lb. bar reinforcing steel;
(2) 137 c.y. class A Portland cement concrete (structure);
(3) 29 MFBM treated Douglas Fir timber;
(4) 410 lf. timber railing.
ALTERNATE A:
(5) 570 lf. cast in place concrete piles;
(6) 29 each, driving fluted steel shells;
ALTERNATE B:
(7) 570 lf. precast concrete piles;
(8) 29 each, driving precast concrete piles.
Total bids follow:
(A) M. A. Jenkins, 3560 Y St., Sacramento, \$12,677 (Alt. A); \$12,539.50 (Alt. B).
(B) Franzini & Fredenburg, San Rafael, \$14,145.50 (Alt. A); \$13,575.50 (Alt. B).
(C) J. P. Brennan, Redding, \$14,721.50 (Alt. A); \$14,011 (Alt. B).
(D) A. Soda & Son, Oakland, \$14,900 (Alt. A); no bid on Alt. B.
(E) John Rocca, San Rafael, \$15,132 (Alt. A); no bid on Alt. B.
(F) W. K. Van Bokkelen, Oakland, \$16,499 (Alt. A); no bid on Alt. B.

MARIN CO.—FORT BARRY PIPE LINE—(Govt.)

FORT BARRY, Marin Co., Cal.—The following submitted bids to the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-38-78, for constructing and installing approximately 9890 feet of pipeline on and adjacent to the Fort Barry Military Reservation, Marin County. Work includes furnishing and delivering pipe, trenching, fitting, laying and backfilling, and connection of the completed pipeline to the Fort Barry pipeline and a pumping unit to be furnished by the government.

Bids were taken as follows:
REGULAR BID:
(1a) 1500 lf. 1½-in. cement-lined bituminous-coated pipe;
(1b) 7600 lf. 2½-in. cement-lined bituminous-coated pipe;
(1c) 40 lf. 3-in. cement-lined bituminous-coated pipe;
(1d) 750 lf. 5-in. cement-lined bituminous-coated pipe;
(2) 3 each, blowoffs;
(3a) 1 each, 2½-in. check valve;
(3b) 1 each, 5-in. gate valve;
(3c) 1 each, 2½-in. gate valve;
(4) 1 job, connection to Fort Barry pipe line;
(5) 1 job, pump installation;
ALTERNATE BIDS
(1a-1) 1500 lf. 1½-in. cement-lined asphalt-coated and wrapped pipe, or
(1a-2) 1500 lf. 2-in. asphalt-coated cast-iron pipe, bell and spigot;
(1b-1) 7600 lf. 2½-in. cement-lined asphalt-coated and wrapped pipe, or
(1b-2) 7640 lf. 3-in. asphalt-coated cast-iron pipe, bell and spigot;
(1c-1) 40 lf. 3-in. cement-lined asphalt-coated and wrapped pipe;
(1d-1) 750 lf. 5-in. cement-lined asphalt-coated and wrapped pipe, or
(1d-2) 750 lf. 6-in. asphalt-coated cast-iron pipe, bell and spigot;
(2a-1) 1 each, 3-in. check valve;
(2b-1) 1 each, 6-in. gate valve;
(2c-1) 1 each, 3-in. gate valve.

Bidders were:
(A) E. J. Treacy, San Francisco.
(B) W. J. Tobin, Oakland.
(C) Underground Constr. Co., Berkeley.
(D) Wm. F. Wilson Co., San Francisco.

YERBA BUENA ISLAND—ROADWAY—(Govt.)

SAN FRANCISCO, Cal.—Heafey-Moore Co. and Fredrickson & Watson Constr. Co., 344 High St., Oakland, at \$28,368.50, submitted low bid to U. S. Engr. Office, 401 Cust. Hse., San Francisco, under Bid No. ER-868-38-81, for the construction of a roadway, less paving and preparation of subgrade, on the west side of Yerba Buena Island, for a length of approx. 993 ft. from the southern end of the recently completed portion of the roadway to the S. E.-Oakland Bay Bridge. Roadway varies in width from 64 ft. to 130 ft. in a five-part grade separation structure. The construction of the roadway includes disposal of roadway excavation so as to continue the construction of the causeway fill from Yerba Buena Island to the fill to the north.

- (2b) 1,586,000 sta. yds. overhaul;
- (2c) 500 c.y. rock fill;
- (3) 2,900 M. gals. water for embankments;
- (4a) 4,130 c.y. struc. excav., unclass.;
- (4b) 3,650 c.y. struc. backfill;
- (5) 1,750 c.y. Class A concrete;
- (6) 198,000 lbs. reinforcing steel;
- (7) 760,000 lbs. structural steel;
- (8) 1,154 MBM timber structures;
- (9) 35,000 sq. ft. wallboard sheathing;
- (10) 29 MBM timber cribs;
- (11) 55,300 sq. ft. painting woodwork
- (12a) 35,000 sq. ft. painting sheathing three coats;
- (12b) 25,000 sq. ft. painting sheathing finish coat on prior work;
- (13a) 700 l.f. 8-inch corr. pipe;
- (13b) 500 l.f. 12-inch corr. pipe;
- (13c) 500 l.f. 18-inch corr. pipe;
- (13d) 100 l.m. 4-inch drain tile;
- (14) 1 complete re-locate sewer line item.

- (A) Heafey-Moore Co. and Fredrickson & Watson Constr. Co., 344 High St., Oakland—\$28,368.50.
- (B) Guy F. Atkinson Co., San Francisco—\$244,218.40.

SHASTA DAM—Grading, Surfacing and Sewer Systems—(Govt.)

CENTRAL VALLEY PROJ., Calif.—The Lowrie Paving Co., Inc., 1540 Sixteenth Street, San Francisco, at \$45,941.55 submitted low bid to the U. S. Bureau of Reclamation, Old Post Office Bldg., Sacramento, under Spec. No. 767, for the construction of street, driveway and sidewalk grading and surfacing and sewer and water systems for the Government camp at Shasta Dam, Central Valley Project, Calif.

Work involves:

- (1) 8,000 c.y. excav., common, for streets, drive, and walks;
- (2) 1,500 c.y. excav., rock, for do;
- (3) 500 sta. c.y. overhaul;
- (4) 3,700 c.y. compacting fills;
- (5) 2,400 c.y. excav., rock, in trenches;
- (6) 14,670 l.f. excav. and backfill in trenches not more than 5 ft. deep for sewer and drainage pipe;
- (7) 1,530 l.f. same more than 5 ft. and not more than 8 ft. deep for sewer and drainage pipe;
- (8) 10 c.y. excav. common, and backfill of trenches for sewer and drainage pipe, quantities below 8-ft. depth only;
- (9) 5,500 l.f. lay 4-in. sewer pipe, fittings and specials;
- (10) 7,450 l.f. laying 6-in. do;
- (11) 1,900 l.f. laying 8-in. do;
- (12) 630 l.f. laying 10-in. do;
- (13) 1,770 l.f. laying 12-in. do;
- (14) 140 l.f. laying 30-in. dia. corr. metal pipe;

- (15) 27 grease traps;
- (16) 32 sewer manholes not more than 5 ft. deep;
- (17) 10 additional feet constructing sewer manholes, each additional foot over 5 ft. deep;
- (18) 5,850 l.f. excav. and backfill of trenches not more than 2 feet deep for water pipe;
- (19) 10,630 l.f. same, more than two feet deep and not more than 3 ft. deep for water pipe;
- (20) 5 c.y. excav., common, and backfill of trenches for water pipe, quantities below 3 ft. depth only;
- (21) 2,820 l.f. laying 6-in. dia. water pipe and fittings;
- (22) 6,900 l.f. laying 4-in. do;
- (23) 500 l.f. laying 2-in. do;
- (24) 1,550 l.f. laying 1½-in. do;
- (25) 1,000 l.f. laying 1¼-in. do;
- (26) 720 l.f. laying 1-in. do;
- (27) 4,000 l.f. laying ¾-in. do;
- (28) installing 7 6-in. gate valves;
- (29) installing 16 4-in. gate valves;
- (30) installing 9 2-in. dia. curb stops and service boxes;
- (31) installing one 1½-in. do;
- (32) installing 34 1½-in. do;
- (33) installing 4-in. do;
- (34) installing 84 ¾-in. do;
- (35) installing 17 fire hydrants;
- (36) 1,500 l.f. dismantling existing water line;
- (37) 18,500 l.f. placing timber curb boards;
- (38) 5,000 c.y. furnishing materials and constructing bottom layer

- of base course of crusher-rock or crushed-gravel surfacing;
- (39) 3,500 c.y. furnishing materials and constructing top layer of do;
- (40) 14,500 gals. applying liq. asphalt road material, type SC-1A;
- (41) 2,800 gals. applying do, type 90-95;
- (42) 1,040 c.y. furnishing, spreading and compacting coarse screenings for armor coat;
- (43) 400 c.y. furnishing, spreading & compacting fine screenings for armor coat.

Total bids follow:

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

TREASURY DEPARTMENT

SAN FRANCISCO.—Until Feb. 8, 10 A. M., bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 4th St., under Bid No. 5912, for finish hardware, 34th Ave. and Clement St., San Francisco.

SAN FRANCISCO.—Until Feb. 8, 10 A. M., bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49, 4th St., San Francisco, Room 518, ing supplies and materials, as follows:
BID NO. 5013: 1080 sacks of Portland cement; fob Auburn, Calif.

BID NO. 5015: 800 sacks of Portland cement; fob Sacramento;

BID NO. 5016: Douglas fir flooring, window frames, sashes and doors; fob Havelock and Edna Streets, San Francisco.

SAN FRANCISCO.—Until Feb. 8, 10 A. M., bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 4th St., for furnishing supplies and materials, as follows:
BID NO. 5014: 320 c.y. rock screenings; fob San Leandro.

BID NO. 5017: 1530 lf. concrete pipe; fob Modesto.

SAN FRANCISCO.—Until Feb. 10, 10 A. M., bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Rm. 518, 49 4th St., San Francisco, for furnishing toilets, sinks, lavatories, fountains, drains and shower valves; fob Larkin and Beach Streets, San Francisco.

WAR DEPARTMENT

SACRAMENTO, Cal.—Until Feb. 10, 3 p.m., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, for furnishing supplies and materials, as follows:

BID NO. 1105-38-195—Nuts, pipe, bushings, ells, nipples, unions and valves; f.o.b. Rio Vista, Cal.

BID NO. 1105-38-197—9000 feet copper wire and 200 feet tirex portable cord; f.o.b. Rio Vista, Cal.

SACRAMENTO, Cal.—Until Feb. 15 3 P. M., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, for furnishing supplies and materials as follows:

BID NO. 1105-38-198: Iron, steel, expanded metal, nuts, bolts and wrenches; fob Rio Vista;

BID NO. 1105-38-200: Standard hoisting rope of uncoated plow steel, 6 strands, 19 wires to strand, fibre core; fob Rio Vista.

FORT MASON, Cal.—Until Feb. 14, 10 A. M., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, San Francisco, under Bid No. 928-38-221, for furnishing packing boxes, hardwood lumber, Sugar pine, White pine, Douglas fir lumber; fob Fort Mason, San Francisco.

SACRAMENTO, Cal.—Bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, for furnishing supplies, as follows:

February 8, 3:00 P. M.
BID NO. 1105-38-192—500 lbs. welding rods and 4000 lbs. electrodes; f.o.b. Rio Vista, Cal.

February 9, 3:00 P. M.
BID NO. 1105-38-193—Nails, tacks, rivets, staples, batteries, tape; f.o.b. Rio Vista, Cal.

FORT MASON, Cal.—Until Feb. 15 2 P. M., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, San Francisco, under Bid No. 928-38-228, for one electric, one-ton capacity, platform type truck fully equipped; fob Fort Mason, San Francisco.

SACRAMENTO, Calif.—Until Feb. 15, 3 P. M., bids will be received by the U. S. Engineer, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, under Bid No. 1105-38-199, for furnishing conduit reamers, attachment plug bodies, fuse plugs and equipment for telephone sets; fob Rio Vista.

SAN FRANCISCO.—Until Feb. 10, 3 P. M., bids will be received by the U. S. Engineer Office, 401 Custom House, San Francisco, under Sale No. 9, for the sale of approximately 20 tons of scrap railroad rails located on Government property at Crescent City, Calif.

NAVY DEPARTMENT

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., for furnishing miscellaneous supplies and materials, as follows:

SCH. 2656—Insulated electric cable and cord for Brooklyn & Mare Island, Feb. 8.

SCH. 900-1431—Ball bearings for Puget Sound, Feb. 4.

SCH. 2671—Burr, rivets and washers for eastern and western yards, Feb. 8.

SCH. 2682—One box type electric furnace for eastern or western yards, Feb. 15.

SCH. 2698—Sheet metal self-tapping screws for Brooklyn and Sewall's Point, Mare Island and Puget Sound, Feb. 15.

SCH. 2708—Desk and bracket electric fans for eastern yards and Puget Sound, Feb. 11.

SCH. 2702—Dry electrolytic capacitors, for submarine base, San Diego, and eastern or western yards, Feb. 15.

SCH. 2716—2000 troy ounces silver solder for Mare Island, Feb. 15.

SCH. 2701—One 16,000-lb. capacity crane ladel for Mare Island, February 11.

SCH. 2717—100 acetylene gas cylinders, capacity 225 cu. ft., for Mare Island, Feb. 15.

SCH. 2689—25 water closets and spare bowls for Portsmouth and Mare Island, Feb. 8.

SCH. 2700—Valves, steel, welding ends for eastern yards and Puget Sound, Feb. 8.

SCH. 2718—Aircraft use felt for eastern and western yards, Feb. 4.

SCH. 2712—1100 cases, navigator's, with compass and divider, for Mare Island, Feb. 15.

SCH. 2676—Nails, brads, tacks and spikes for eastern and western yards, Feb. 15.

SCH. 2713—Copper-alloy nickel for eastern and western yards, Feb. 15.

SCH. 2703—Bolts, brackets, catches, screw eyes, grommets, etc., for eastern and western yards, Feb. 15.

SCH. 2696—Motor-driven milling machine for San Diego, Feb. 11.

SCH. 2697—Motor-driven milling machine for San Diego, Feb. 11.

U. S. FOREST SERVICE

GOVERNMENT ISLAND, Calif.—Until February 9, 2:00 P. M., bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, Oakland, for furnishing materials, as follows:

BID NO. 5438: Structural Douglas Fir lumber for Digger Creek Bridge; fob Red Bluff;

BID NO. 5439: Structural Douglas Fir lumber for Mill Creek Bridge construction; fob Red Bluff.

SAN FRANCISCO.—Until Feb. 10, 2 P. M., bids will be received by the Forest Service Regional Office, G. D. Huestis, Asst. Procurement Officer, 1022 Phelan Bldg., 760 Market St., San Francisco, under Bid No. 1196, for one oil burner, fully automatic, pump type with electrical ignition and automatic controls, warm air pipes and fittings, cold air return pipe and vent pipe; fob shipping point and/or Lone Pine, Calif.

GOVERNMENT ISLAND, Calif.—Bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, Oakland, for furnishing supplies, as follows:

FEBRUARY 8, 2 P. M.:
BID NO. 5443: 100 barrels of Portland cement; fob Placerville.

FEBRUARY 10, 2 P. M.:
BID NO. 5444: DB axe and Pulaski tool sheaths; fob Government Island.

FEBRUARY 11, 2 P. M.:
BID NO. 5441: 90-ft. steel (skew) span including all structural steel bolts for field connections, bolts for superstructure and all misc. steel portions necessary for the erection of span at Digger Creek Bridge, Red Bluff.

SAN FRANCISCO CITY

SAN FRANCISCO.—Until Feb. 14, 3 p.m., bids will be received by T. A. Brooks, Purchaser of Supplies, 270 City Hall, under Bid No. 1965, for furnishing 5000 feet of 2-inch C.I. water pipe and 5000 feet of 4-inch C.I. water pipe for the San Francisco Water Department.

Plans and specifications may be obtained from the above office.

Fredericksen & Westbrook Lowest Bidders On Two State Division of Highways Jobs

SACRAMENTO, February 9.—The State Division of Highways today received low bids totaling \$158,743.60 from a single firm calling for grading and surfacing in Merced and Yolo counties.

Fredericksen and Westbrook, Lower Lake, at \$144,472.35, submitted the low bid on the contract for work in Merced county.

Merced County Job

The contract called for grading and constructing gravel or stone borders on 8.9 miles of highway between the easterly boundary of Merced county and 1.7 miles east of Los Banos.

Eight firms submitted proposals. J. A. Casson, at \$144,590.20, was the second lowest bidder. Other bidders were: Piazza & Huntley, \$149,256.35; Granite Construction Co., \$159,344.80; Warren Southwest, Inc., \$162,466.10; Claude C. Wood, \$165,793.80; Lee J. Immel and Jacob P. Immel, \$174,502.20 (bid irregular); and Union Paving Co., \$180,330.50.

Unit Prices

Unit prices were submitted on forty items. Principal items included: 37,000 cubic yard of unclassified excavation; 51,000 cubic yards of imported borrow; 18,000 tons of untreated crushed gravel or stone; 530 tons of liquid asphalt; 5300 tons of screenings; 35,000 pounds of bar reinforcing steel; 5300 pounds of structural steel; and 1952 lineal feet of CMP of various sizes.

Lower Lake Firm Low

Fredericksen & Westbrook made a clean sweep for the day by submitting the low bid on the Yolo county job. Their bid was \$14,271.25.

Eleven firms submitted bids on the contract.

The second lowest bidder was Poulos & McEwen, at \$15,247, followed by Claude C. Wood, at \$15,724. Other bidders were: Mountain Construction Company, \$15,724; Harms Bros., \$15,915.50; E. A. Forde, \$16,152; J. R. Reeves, \$16,380; Piazza & Huntley, \$18,202; Lee J. Immel and Jacob P. Immel, \$19,377 (irregular); Hemstreet & Bell, \$20,134.50 and Johnston Rock Company, \$26,436.25.

The contract called for grading and surfacing with gravel base and applying penetration oil treatment

G-E Engineering Consultant Dies

Charles Waterman Stone, 63, consulting engineer of the General Electric Company, died at his home in Schenectady February 3 after an illness which confined him to bed for nine weeks. Death was caused by heart trouble.

Upon his graduation from the University of Kansas in 1894 Mr. Stone was with the Franklin Electric Company of Kansas City, the W. S. Hill Electric Company of New Bedford, Mass., and the Hancock Equipment Company of Boston two years each.

In 1900 he joined the General Electric organization in the drafting department, and in the following year was in switchgear engineering. Then he joined the lighting engineering department in 1904. Mr. Stone was named manager of the Lighting department, now known as the Central Station department, in 1912. He continued in that position until 1928 when, at his own request, he was relieved of managerial responsibilities and became a consulting engineer of the company.

to 3.8 miles of highway between 1.4 miles north of Bacchis Corner and Route 88 in Yolo county.

Unit prices were submitted on nine items.

The items were: 400 gallons of water; 17,500 cubic yards of unclassified roadway excavation; 31,000 station yards overhaul; 25 cubic yards of structural excavation; 202 station yards finishing roadway; 7800 cubic yards of gravel base; 93 tons of liquid asphalt SC-2 penetration oil treatment; 115 tons of sand penetration oil treatment, and 80 lineal feet of 8-inch CMP.

ASK PROPOSALS ON EL CERRITO SCHOOL PROJECT

First Unit of High School Advertised; Bids Scheduled For Opening March 8

Bids for construction of the first unit of the \$200,000 El Cerrito High School were invited yesterday by the Richmond Union High School District, Superintendent of Schools Walter T. Helms announced.

Proposals on the contract will be opened by the District March 8, Mr. Helms said. Closing time for bids has been set at 3 P. M.

The first unit of the work will cost in the neighborhood of \$100,000, it is estimated.

The contract for the first unit calls for construction of the shell of the building, without any finish work, including foundations, concrete walls and floors.

Three-Story Building

It will be a three-story reinforced concrete high school building, according to plans prepared by Architects Dragon & Schmidts of Berkeley.

Structural engineer for the project is W. Adrian of Berkeley.

Contractors desiring to figure the contract for the first unit may procure plans from the office of the architects upon deposit of \$25.

E. H. KAMLIN JOINS CALIF. WIRE CLOTH

Edward H. Kamlin, for ten years owner of the Kamlin Fence Company, announces that he has disposed of his business and is now in charge of the chain link fence department of the California Wire Cloth Corporation, 1001 Twenty-second avenue, Oakland.

The California Wire Cloth Corporation has offices in Los Angeles and Seattle as well as San Francisco.

"I will be glad to be of service to my friends at my new address," Mr. Kamlin said, following the announcement of his new position.

CITY RECEIVES BIDS ON LOWELL HIGH GYMNASIUM

**Anderson & Ringrose Bid
\$93,542; Eaton & Smith
Low on Sewer**

Low bids totaling \$176,102 yesterday were received by the San Francisco Department of Public Works on six contracts for sewer, school and underpass construction. Anderson and Ringrose, at \$93,542, submitted the low bid for general construction of the Lowell High School boys' gymnasium, largest of the projects for which bids were opened yesterday.

Bids were received on three propositions. Alta Electric and Mechanical Company, at \$17,920, offered the low bid on the proposition involving mechanical equipment and plumbing work. Central Electric Company, at \$4708, submitted the low bid for electrical work.

Alemany Sewer

Eaton and Smith were the low bidders on the contract for construction of Section F of the Alemany Sewer, running from Evans avenue to Napoleon street.

Bids were submitted on Propositions A and B. Proposition B involved a slightly shorter sewer extension.

The bid of Eaton & Smith on Proposition A was \$52,655; their bid on Proposition B was \$48,210. The second lowest bidder was M. J. Lynch, at \$55,033.25 and \$49,462.50.

Other Bidders

Other bidders were: Healy-Tibbitts Construction Co., \$58,060 and \$52,436; Charles L. Harney, \$61,593.50 and \$55,000; Clinton Construction Co., \$61,819 and \$56,410, and John Rocca, \$68,042.75 and \$60,918. Available funds will determine the proposition under which the contract will be awarded.

Twelve firms submitted bids on the contract for general construction of the Lowell High School boys' gymnasium. They included: De Luca and Son, Inc., \$94,100; Leo Epp, \$93,877; B. A. Howkins, \$94,875; Grant - Martelli Const. Co., \$97,290; Central California Construction Co., \$97,363; Meyer Brothers, \$97,749; and F. C. Amoros and Sons, \$97,999.99. Other bidders were Peter Sartorio and MacDonald & Kahn Company, Ltd.

The second lowest bidder for mechanical equipment and plumbing work was Anderson and Rowe, at \$18,438. Other bidders included: Skelly and Kohler, \$19,000; O'Mara & Stewart, \$19,117; and George Rehn, \$19,444.

Electrical Work

Edward J. Lynch Electric Co., at \$4,724, was the second lowest bidder on the contract for electrical work. Other bidders included: B. J. Doherty, \$4726; United Electric Const. Co., \$4847; and G. H. Armstrong, \$4979.

San Francisco Bridge Co. Bids \$962,000 For Alameda Naval Air Station Contract

WASHINGTON, D. C., Feb. 9.—A low basic bid of \$960,000 was submitted to the Navy Department, Bureau of Yards and Docks, here today for waterfront improvements at the Alameda Naval Air Station.

The low basic proposal was submitted by San Francisco Bridge Co., 503 Market street, San Francisco.

Three other bids were submitted on the contract, and since a number of alternate proposals were included in the bidding schedule a considerable alteration in the amounts of basic proposals is possible.

Basic Proposals

Complete basic bids were as follows:

San Francisco Bridge Co.	\$960,000
Johnson, Inc., and Case Const. Co., San Pedro	1,122,920
George Pollock Co., Sacramento	1,161,253
Ben C. Gerwick, Inc., San Francisco	1,200,000

The contract for which bids were opened here today is the first major construction job at the Alameda Naval Air Station, which when completed will have cost an estimated \$13,500,000.

Work covered by the contract on which bids were received today includes dredging and filling, stone seawalls and jetties, and steel sheetpile bulkheads and pier, including wood piles, timber work and concrete curbs.

Alternate Bids

Alternate proposals included in the bidding schedule would provide for extension of the seawall, alternate type of steel sheetpile jetties, and omission of the pier. Prices also were submitted for all work exclusive of dredging and filling, and for dredging and filling, the later being a unit price per cubic yard place measurement.

CELOTEX BUILDS NEW PLANT NEAR LONDON

Steadily increasing business in the British Isles and colonies has necessitated construction of a new Celotex plant in the Stonebridge Park section near London, the Celotex Corporation of Chicago, announces.

The \$1,250,000 plant is near completion and will begin operations in March. The plan properties provide a large storage area for raw materials. The cane fibre will enter the plant at one end, progress through the washing, mixing, Ferro processing, and board forming machines to the drying ovens, and finally to the fabricating and warehouse spaces. Celotex hardboard products follow a similar process, finishing at the warehouse space.

Shipments of domestic water systems for the first eleven months of 1937 amounted to \$2,275,942, as compared to shipments amounting to \$1,795,205 for the same period in 1936, according to the Bureau of Census.

THREE HIGHWAY CONTRACTS LET

SACRAMENTO, Feb. 9.—Three State Division of Highways contracts were awarded here today by State Director of Public Works Earl Lee Kelly.

Contracts were let to: Rock & Gravel Trucking Co., Oakland, at \$54,363 for grading and surfacing 6.2 miles in Napa county; V. R. Dennis Const. Co., San Diego, at \$16,885 for grading and surfacing 0.2 mile in San Diego county; and Macco Const. Co., Clearwater, at \$75,862 for grading and paving with Portland cement concrete about 0.7 mile in Ventura county.

The third largest job for which bids were opened yesterday involved construction of a steel pedestrian underpass at the Marina Approach of Golden Gate Bridge. J. Philip Murphy, at \$3663, submitted the low bid, followed by Judson Pacific Company, at \$4000; and Schrader Iron Works at \$3859.

The Bureau of Building Repairs at \$3614.57, submitted the low bid for construction of a lunch room at the Sherman School. The second lowest bidder was the Empire Construction Company, at \$3643.

Director William H. Worden issued three calls for bids, all to be opened February 23, for resurfacing Minnesota street between 18th and 19th streets; construction of concrete sidewalks on all sides of North Beach Playground except Lombard street; and construction of sidewalks on north side of Agua way between Teresa boulevard and Chaves, and other locations.

Bids on two contracts were opened by the Public Utilities Commission yesterday. San Francisco Elevator Company at \$1647, submitted the low bid for installing a sidewalk elevator in the San Francisco Water-Department building at 425 Mason street. Martin Murphy, at \$611.80, submitted the low proposal for laying mains in Twenty-ninth avenue between Pacheco and Quintara streets.

Approximately 30,000,000 board feet of lumber will be required in the construction of the 1939 Golden Gate International Exposition.

SECOND UNIT OF CAMPBELL HIGH OUT FOR BIDS

**Proposals for School Addition
Work Scheduled for Open-
ing, February 21st**

Bids for construction of the second unit of the Campbell High School Addition this week were called for February 21 by Campbell Union High School District.

The second unit of the Campbell High School reconstruction project involves an auditorium building, shop building and administration building.

Plans for the first and second units of the high school addition were prepared by Architect Harold H. Weeks of San Francisco.

First Unit Awarded

The first unit, which consisted of the gymnasium only, is now being constructed by F. C. Stolte Co., Alameda, at the bid price of \$55,400. Bids on the first unit were opened early in December and the contract was awarded shortly afterwards.

In addition to construction of an auditorium building, shop building and administration building, the contract for the second unit included fencing, paving and construction of six tennis courts.

The estimated cost of the work, based on the deduction of the gymnasium contract price from the original estimated cost of \$242,380, is \$186,980. A PWA grant of \$109,071 will aid in financing the work.

Plans and specifications may be obtained from the office of Architect H. H. Weeks, 593 Market St., San Francisco, upon deposit of \$50.

REVISION OF ROOFING SPECIFICATION BOOK

Koppers Co., Koppers Building, Pittsburgh, Pa., has just issued a new edition of its standard roofing specifications book, written in blank and ready for inclusion in architectural and engineering master specifications. Diagrams illustrate each set of specifications.

There are data concerning spray pond roofs which permit the reuse of water in air conditioning systems, and watercooled roofs to insulate the upper floors of buildings. Complete specifications for all types of coal tar pitch and tarred felt roofs are shown, as well as sections devoted to applications over wood decks, concrete or poured gypsum, pre-cast concrete or gypsum, book tile, steel deck or under promenade tile. A large portion of the book is devoted to illustrated descriptions of various methods of waterproofing and dampproofing residence and deep foundations, highways, sidewalk vaults, shower baths, swimming pools, tunnels, etc. Other sections deal with insulation, flashing specifications and metal finishing strip details.

State Invites Bids on Fair Assembly, Exhibit Building, Yountville Barracks

SACRAMENTO, February 8.—The State Division of Architecture today issued bid calls for three projects in Sacramento, Yountville and Camarillo.

Bids will be opened in the office of George B. McDougall March 1 and March 8.

The largest contract calls for construction of a \$300,000 assembly hall and dairy exhibits building at the Agricultural Park in Sacramento.

Posting of Accounts By Social Security Board Underway

Posting of wage accounts under the old-age insurance program of the Social Security Act is now underway, the Social Security Board has announced. Already wage information for the workers of nine States is being entered on their ledger sheets, and it is expected that by the end of February the posting will cover workers in every State.

This is the second step in the program which provides for payment of old-age insurance benefits to men and women in industry and commerce when they reach the age of 65 and retire from work. The first was the recording of personal information furnished on more than 37,000,000 applications for social security account cards. The setting up of social security accounts for workers from these applications is regarded as virtually complete.

The posting of wages to social security accounts could not be undertaken until the Board had received from the United States Treasury the wage reports of employers showing amounts paid their workers.

Second Reports in

The first reports, covering the first half of 1937, were submitted to the Bureau of Internal Revenue by July 31, last, and were received by the Board from the Treasury during the final months of 1937. The second, showing wages paid through December 31, 1937, were in the hands of the collectors of internal revenue on or before January 31 of this year but will not be available for posting for several weeks.

Beginning January 1, 1938, these wage reports by employers are being made quarterly instead of semi-annually.

The speed with which posting of individual wage accounts can proceed will depend upon the flow of wage information furnished by employers, as certified to the Social Security Board by the Treasury. By the end of June the Board expects to be able to answer inquiries of workers as to the status of their wage accounts, and the Board is considering procedures which will make it possible for workers to obtain such information at regular intervals.

Bids will be opened March 1.

Large Auditorium

The assembly building will house an auditorium seating approximately 1250, according to Mr. McDougall. In addition a number of incidental rooms of various sizes will be included in the structure.

The assembly building will be of reinforced concrete construction. Specifications call for brick veneer; structural steel; wood and concrete floors; wood roof deck; tile roof and steel sash.

The dairy exhibits building will be a combination one- and two-story structure. The building will be of reinforced concrete construction with brick veneer. It will have steel sash and a tile roof.

Bids will be taken as follows: general work combined for both buildings; plumbing work combined for both buildings; electrical work combined for both buildings; heating and ventilation for assembly building only; and refrigeration for dairy exhibits building only.

On the same day bids will be opened for erection and completion of electrical ground lighting at the Camarillo State Hospital in Camarillo.

The electrical work consists of street lighting standards, concrete bases, conduit, cable, wire and illumination, according to Mr. McDougall.

On March 8 bids will be opened in Sacramento for erection and completion of Barracks No. 7 at the Veterans' Home in Yountville.

The barracks building will be of reinforced concrete construction and will be two stories in height. Specifications call for steel sash; tile roof together with approximately 880 lineal feet of services, conduits and manholes.

Segregated bids will be taken as follows: general work; electrical work; plumbing work; and heating work.

Plans and specifications on all projects may be obtained from the office of State Architect George B. McDougall, Public Works Bldg., Sacramento, upon deposit of \$25 per set. The deposit is returnable.

Shipments of steel office furniture for the first eleven months of 1937 amounted to \$23,740,184, as compared to shipments of \$17,132,963 recorded for the same period in 1936, according to the Bureau of Census.

PLANS PREPARED FOR DUTCH EAST INDIES EXHIBIT

First Foreign Nation Submits
Complete Specifications
For 1939 Fair Bldg.

The drive to bring all lands of the Pacific together in 1939 at the Golden Gate International Exposition gained impetus this week with arrival of architectural specifications for the building to be erected by the Netherlands East Indies.

First foreign land among the long list of participants to send definite building specifications, the Netherlands East Indies have submitted to Exposition officials complete plans for their pavilion which will cost in the neighborhood of \$50,000, according to Leland W. Cutler, president of the Exposition.

The plans drawn by Architect Robert Deppe, were submitted by the Honorable H. J. van Mook, Chief of the Department of Economic Affairs of the Netherlands East Indies Government at Batavia, Java, who is directing that country's exhibit.

50-foot Towers

Typical of the East Indies, the building will be a long, rectangular structure, covering 7,100 sq. ft., approximately 120 feet long and 60 feet wide. At each end of the building an ornate tower will rise to a height of some 50 feet. Both towers project forward from the main structure forming a recess along the building's front. Intricate bas relief, copied from the famous ruins of Borobodor, will reveal ancient symbolism and faces of Oriental gods on the storied tower walls.

Panels along the building's sides will also carry bas relief typical of that developed from that found on the walls of the ancient temples built by forgotten races in the steaming jungles of the East Indies.

Entrance to the pavilion will be through carved doors of heavy native wood located at the base of each tower. Sliding windows of the Oriental type, squat and close together, will run completely around the building on all four sides, and another row of windows will pierce the sectioned roof along the front of the structure.

Reception Hall

Entering through either tower door, visitors will find themselves in a spacious reception room decorated with East Indian scrolls, batik wall hangings, and lined with murals depicting the scenic wonders of all the "spice" islands—Java, Sumatra, Bali, the Celebes, Dutch Borneo, and the smaller island groups.

Along the front of the building a long hall extending the full length of the pavilion will be devoted to commercial displays and will be known as the Export Prod-

Lag-Screw Joints Subject of Study By U. S. Laboratory

The behavior and design of lag-screw joints is the subject of Technical Bulletin 597, just issued by the Department of Agriculture, dealing with a study made at the Forest Products Laboratory of the U. S. Forest Service.

Tests were conducted to determine resistance to direct withdrawal and to lateral displacement by J. A. Newlin, principal engineer, and J. M. Gabagan, assistant engineer of the Forest Products Laboratory at Madison, Wisconsin.

A considerable variation in the most desirable size of the lead hole for a lag screw was noted in the tests. The lead hole for the entire shank was found to be most satisfactory when it was the same diameter as the shank. The favored diameter of lead hole for the threaded portion of the screw however, was found to be 40 to 70 per cent of the shank diameter of the screw for northern white pine, 60 to 75 per cent for Douglas fir and southern yellow pine, and 65 to 85 per cent for white oak, depending upon the size of the screws.

Resistance to both direct withdrawal and lateral displacement of the lag screws was found to vary as a function of the diameter of the screw and the specific gravity of the wood in which they were driven.

The resistance to both direct withdrawal and lateral displacement of a lag screw from an end-grain was found to be about three-fourths as great as from a side-grain surface of the same piece.

ucts Gallery. The remainder of the public section of the building will be divided into the main exhibit hall, known as the Cultural Gallery, and a smaller room known as Kopok Hall, where the handicrafts and distinctive textiles of the Dutch islands of the Far East will be shown in their native state. The Cultural Gallery will be devoted to art treasures collected from all the islands—wood and stone carvings; brass and bronze; fine batiks fashioned into wall hangings, sarongs, and slendongs; treasures from the temples; native paintings, and scores of rare and priceless objects d'art typical of ancient civilizations in the East Indies.

Exhibit Storeroom

An office, exhibit storeroom, and restrooms will complete the floor plans.

The intricate scroll work on the towers and various other sections of the building, both exterior and interior, will be made of clay cast from molds sent from Java. It has not yet been determined whether the building will be constructed here or transported here in sections.

AIRPORT BOND BLOCK IS SOLD BY SUPERVISORS

Preliminary Engineering, Land
Purchase Underway for
Municipal Program

Preliminary engineering work and land purchasing for the \$2,850,000 San Francisco airport improvement program yesterday were well underway following the sale of bonds totaling \$643,000 by the San Francisco Board of Supervisors.

Funds from the sale of the first bonds will be used for the initial portions of the airport improvement program, according to the Public Utilities Commission.

Additional bonds will be sold as the work progresses.

About \$20,000 of the \$643,000 will be spent for preliminary engineering work which is now underway. Fifty thousand dollars will be spent for the purchase of necessary lands. The remainder of the money will be spent on actual improvements.

\$200,000 Levee

Construction of a levee for the land field extension will cost about \$200,000, according to the Commission.

The largest of the initial contracts will involve fill and earthwork for the seaplane base. This work will cost approximately \$373,000.

Improvements at the airport are being done with an eye to future needs, according to Utilities Manager Edward G. Cahill. The entire program will cost approximately \$2,850,000. Of this amount \$1,400,000 will be spent for seaplane port improvements. Landplane port improvements will cost \$1,300,000. The remaining \$150,000 will be spent for land purchases and radio and navigational equipment.

Apprentice Class Sees Streamliner

Continuing its program of field trips, the class of steamfitters' apprentices this week visited the new streamliner, according to Executive Secretary S. W. Finney of the Heating & Piping Contractors' Association of San Francisco.

Jointly sponsored by the association and the steamfitters union, the apprentice classes have been of unusual interest. The trip this week was arranged by J. K. Fields, business agent of the union.

The class met at the plant of Norman S. Wright & Co., 250 Perry street, where Mr. Scotchler of the firm gave a demonstration of the correct way to connect copper tubing used in the heating industry.

 - (4) 4331 lf. heavy duty curb (1 sq. ft. end area);
 - (5) 4812 lf. cement concrete gutter;
 - (6) 1 ft. x 6 in. gutter, 100 ft. long, involv. 21 c.y. conc., 900 ft. 1/2-in. and 1455 ft. 3/4-in. round deformed reinf. steel, 420 sq. ft. 16 ga. galv. iron, 60 pcs. 40-lb. rail, 4-ft. length, 2 square C 1 man-hole frames and covers, 2x2-ft.; 10 c.y. excav.;
 - (7) construct open ditch (300 lf. grading).

The other bids were:

- G. O. Gatz, \$16,542.
- Los Angeles Paving Co., \$16,627.
- New R. Curtis Paving Co., \$16,993.
- G. G. Fisher, \$17,236.
- Oswald Bros., \$17,796.
- Vido Kovacevich, \$17,798.
- Vernon Paving Co., \$18,111.
- R. E. Wattson, \$18,135.
- Warren Southwest, \$19,324.
- S. M. Milovich, \$21,164.

30—RESERVOIRS & DAMS

TO ASK BIDS SHORTLY
PLACER COUNTY, Cal.—The U. S. Engineer Office, Room 208, Post Office Building, Sacramento, has announced that plans and specifications for the construction of the North Fork Debris Control Dam on the North Fork of the American River, will be advertised about February 21, and that bids will be opened about March 20, 1938.

Site of the work is on the North Fork of the American River, Placer County, approximately two miles above its junction with the Middle Fork of the American River and about five miles northeasterly by road from Auburn. Dam will be of the concrete arch type, about 620 feet in length on the crest and about 155 feet high above the main foundation bedrock. The spillway will be the overflow type discharging over the central portion of the dam. A small permanent reservoir outlet through the dam will be required but river diversion during construction will be provided by the contractor. It is estimated that approximately 26,500 cu. yds. of foundation excavation and placing approximately 28,600 cu. yds. of concrete will be required to complete the dam.

When available, plans and specifications may be obtained upon deposit of \$10.00. 30

31—PIPE LINES & WELLS

BIDS OPENED
SAN FRANCISCO.—Martin Murphy, 734 Santa Fe Ave., Albany, at \$611.80, submitted low bid to the Public Utilities Commission, Room 287, City Hall, under Spec. W.D. 163, for the laying of 6 and 8-in. cast iron mains in 29th Avenue, Quintara Street to Pacheco Street, San Francisco.

- Work involves:
- (1) 900 lf. excav. and backfill for 8-in. and 6-in. pipe, trench 17 inches wide by 36 inches deep;

- (2) 15 c.y. additional excavation and backfill;
- (3) No Item 3;
- (4) Installing pipe:
 - (a) 140 lf. 8-inch bell and spigot cast iron pipe;
 - (b) 760 lf. 6-inch bell and spigot cast iron pipe;
- (5) 1500 lbs. installing fittings, gate valves, etc.;
- (6) 124 lf. bell and spigot joints for pipe and fittings;
- (7) No Item 7;
- (8) 48 3/4-in. screw taps installed;
- (9) 1000 lf. 3/4-in. galv. iron service pipe installed.

PERMITS ISSUED

SACRAMENTO, Calif.—Permits to appropriate water issued by the Department of Public Works, Division of Water Resources, during month of January, 1938:

5083, Application 8986 (Yuba Co.) issued to Browns Valley Irrigation Dist., Browns Valley, Jan. 10, for 3 cu. ft. per second from Tennessee Creek, for domestic purposes and irrigation of 20,000 acres.

5084, App. 9038 (Trinity Co.) issued to Ben Ferren and M. L. Anderson, Helene, Jan. 11, for 2 cu. ft. per second from Logan Gulch Creek, for mining and domestic purposes. Est. cost, \$750.

5085, App. 8957 (Riverside Co.) issued to Palm Springs Water Co., Palm Springs, Jan. 11, for 1.5 cu. ft. per second from Falls Creek, for domestic purposes. Est. cost, \$19,500.

5086, App. 9140 (Humboldt County) issued to Division of Highways, Sacramento, Jan. 15, for 3,000 gals. per day from Mill Creek, for industrial and domestic purposes. Est. cost, \$261.27.

5087, App. 9103 (Plumas Co.) issued to Geo. D. Prentice, Richbar, Jan. 19, for 0.5 cu. ft. per second from French Ravine, for mining and domestic purposes. Est. cost, \$1000.

5088, App. 9162 (Plumas Co.) issued to G. W. Sapp, Sloat, Jan. 20, for 200 gals. per day from Cromberg Spring, for domestic and fire protection purposes. Est. cost, \$150.

5089, App. 9167 (Los Angeles Co.) issued to Wm. H. Tree Venice, Jan. 20, for 7100 gals. per day from Oak Spring, for domestic purposes and irrigation of 10 acres. Est. cost, \$300.

5090, App. 9137 (San Diego Co.) issued to Karl Feller, Auganga, Jan. 20, for 5400 gals. per day from an unnamed spring for domestic purposes and irrigation of 50 acres. Est. cost, \$250.00.

5091, App. 9175 (Humboldt Co.) issued to Trinity National Forest, Weaverville, Jan. 20, for 2000 gals. per day from Bee Tree Creek, for domestic purposes. Est. cost, \$600.

5092, App. 9143 (Trinity Co.) issued to Shasta National Forest, Mount Shasta, Jan. 20, for 0.025 cu. ft. per

second from an unnamed spring, for domestic and recreational purposes. Est. cost, \$200.

5093, App. 9105 (Mono Co.) issued to Division of Highways, Sacramento, Jan. 21, for 0.002 cu. ft. per second from an unnamed spring, for domestic purposes. Est. cost, \$500.

5094, App. 8938 (Sierra Co.) issued to Yuba-Sutter Y.M.C.A., Marysville, Jan. 21, for 0.25 cu. ft. per second from Salmon Creek, for power and domestic purposes. Est. cost, \$150.

5095, App. 9114 (Placer Co.) issued to Tahoe National Forest, Nevada City, Jan. 21, for 0.02 cu. ft. per second from Blue Canyon Ranger Station Spring, for domestic purposes. Est. cost, \$3500.

5096, App. 8638 (Del Norte Co.) issued to W. D. Hill, Los Angeles, Jan. 24, for 100 cu. ft. per second from Jones Creek, for mining purposes. Est. cost, \$50,000.

5097, App. 9074 (Siskiyou Co.) issued to Isabella S. Powell, Happy Camp, Jan. 26, for 3 cu. ft. per second from Wingate Creek, for mining and domestic purposes.

5098, App. 9184 (Riverside Co.) issued to R. S. Bliss, Coachella, Jan. 26, for 0.5 cu. ft. per second from Mission Creek, for domestic purposes and irrigation of 40 acres. Est. cost, \$100.

5099, App. 9169 (Sacramento Co.) issued to Horace D. Towne, Walnut Grove, Jan. 28, 1935, for 1.2 cu. ft. per second from Sacramento River, for irrigation of 98 acres.

5100, App. 9128 (El Dorado Co.) issued to El Dorado National Forest, Placerville, Jan. 31, for 200 gals. per day from Pyramid Creek, for domestic purposes. Est. cost, \$100.

5101, App. 9129 (El Dorado Co.) issued to El Dorado National Forest, Placerville, Jan. 31, for 600 gals. per day from Pyramid Creek, for domestic purposes. Est. cost, \$50.

5102, App. 9096 (Siskiyou Co.) issued to Dr. W. J. Deason, Happy Camp, Jan. 31, for 2 cu. ft. per second from an unnamed spring, for domestic purposes and irrigation of 10 acres. Est. cost, \$1000.

5103, App. 9102 (Siskiyou Co.) issued to Dr. W. J. Deason, Happy Camp, Jan. 31, for 3 cu. ft. per second from an unnamed spring, for domestic purposes and irrigation of 60 acres. Est. cost, \$500.

5104, App. 9189 (El Dorado Co.) issued to El Dorado National Forest, Placerville, Jan. 31, for 800 gallons per day from an unnamed spring, for domestic purposes. Est. cost, \$100.

Edward Hyatt, State Engr. 31

SACRAMENTO.—Applications for permits to appropriate water filed with the State Department of Public Works, Division of Water Resources, during the month of January, 1935:

9219 (Mono Co.)—Emma A. Grace, Bridgeport, Cal., for ¼ c.f.s. from an unnamed stream tributary to Twin Lakes; to be diverted for irrigation and domestic purposes on 40 acres. Estimated cost, \$100.

9220 (Yolo Co.)—American Crystal Sugar Co., Clarksburg, Cal., for 5 c.f.s. from Sacramento River, to be diverted for industrial purposes. Estimated cost, \$8500.

9221 (Mono Co.)—Mutual Gold Corporation, Leevining, Cal., for 11 c.f.s. from Vance Tunnel and Andy Thompson Creek tributary to Mono Lake, to be diverted for power purposes. Estimated cost, \$5000.

9222 (Marin Co.)—G. W. and Mrs. A. R. Guth, San Jose, Cal., for 0.3 c.f.s. from Novato Creek tributary to San Pablo Bay, to be diverted for irrigation purposes on 21 acres. Estimated cost, \$650.

NYE CO., NEV.—HIGHWAY CONSTRUCTION—(State)

NYE CO., Nev.—Nevada Rock & Sand Co., Inc., Reno, at \$41,872.44, was awarded contract by the Directors of the Department of Highways, State of Nevada, Memorial Bldg., Carson City, for the construction of approximately 8.84 miles of state highway from east boundary of Death Valley National Monument to Beatty, Route 58, Section A, Nye Co., Nev.

- (1) 48 acres clearing;
- (2) 66,730 cu. roadway excav.;
- (3) 2,750 cu. drainage excav.;

MERCED COUNTY—GRADING—(State)

MERCED COUNTY, Calif.—Fredericksen & Westbrook, P. O. Box 138, Lower Lake, at \$144,472.35 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Building, Sacramento, for 8.9 miles of grading and constructing untreated crushed gravel or stone borders between 1.7 miles east of Los Banos and easterly boundary, Merced Co. Work involves:

- (1) 467 sta. clear and grub right of way;
- (2) 2,000 M. gals. water;
- (3) 37,000 c.y. roadway excav. without classification;
- (4) 3,350 c.y. struc. excav.;
- (5) 875 c.y. ditch and channel excavation;
- (6) 45,000 sta. yds. overhaul;
- (7) 51,000 c.y. import borrow;
- (8) 467 sta. finishing roadway;
- (9) 490 c.y. remove concrete;
- (10) 18,000 tons untreated crushed gravel or stone;
- (11) 3,000 tons mineral aggregate (plant-mix surf.);
- (12) 5 tons liq. asph., MC-2 (prime coat);
- (13) 150 tons liq. asph., MC-5 or MC-extra heavy (plant-mix surf.);
- (14) 375 tons liq. asph., SC-2 penetration oil treatment;
- (15) 490 tons asph. emulsion paint binder armor coat and seal coat;
- (16) 5,300 tons screenings armor coat and seal coat;
- (17) 430 c.y. class A portland cement conc. strucs.;
- (18) 35,000 lbs. bar reinf. steel;
- (19) 5,300 lbs. struc. steel;
- (20) 25 c.y. riprap ditch lining;
- (21) 80 lf. 8-in. CMP;
- (22) 286 lf. 12-in. CMP;
- (23) 1,204 lf. 18-in. CMP;
- (24) 320 lf. 24-in. CMP;

- (25) 30 lf. 30-in. CMP;
- (26) 32 lf. 16-in. CMP;
- (27) 334 lf. 24-in. CMP siphons;
- (28) 234 lf. 30-in. CMP siphons;
- (29) 10 each, conc. joints, 24-in. pipe siphons;
- (30) 14 each, conc. joints, 30-in. pipe siphons;
- (31) 4 each, 18-in. automatic drainage gates;
- (32) 30 each, exist. culvert headwall to be removed and reset;
- (33) 184 lf. clean and relay existing CMP culverts;
- (34) 144 lf. clean and salvage existing CMP culverts;
- (35) 770 lf. laminated guard railing;
- (36) 1,260 lf. remove and salvage existing guard railing;
- (37) 140 each, culvert markers and guide posts;
- (38) 2.4 mi. new property fence;
- (39) 25 each, drive gates;
- (40) 60 each, monuments.

- Total bids follow:
- (A) Fredericksen & Westbrook, P. O. Box 138, Lower Lake, \$144,472.35.
 - (B) J. A. Casson, Hayward, \$144,590.20.
 - (C) Piazzi & Huntley, San Jose, \$149,256.30.
 - (D) Granito Const. Co., Ltd., Watsonville, \$159,344.80.
 - (E) Warren Southwest, Inc., Los Angeles, \$162,466.10.
 - (F) Claude C. Wood, Stockton, \$165,793.80.
 - (G) Lee J. and Jacob P. Immel, Berkeley, \$174,502.20*.
 - (H) Union Paving Co., San Francisco, \$180,330.50.

* Irregular bid, as proposal was taken out for Lee J. Immel and was signed by Lee J. Immel and Jacob P. Immel.

\$531,000 BIDS ON FOUR NAVY PROJECTS HERE

Moore Dry Dock, Cory & Joslin, De Luca & Son, Schuler & McDonald Low

WASHINGTON, D. C., Feb. 16. —Low bids aggregating approximately \$531,000 were submitted to Navy Department officials here today on four contracts for work at Mare Island Navy Yard and the Alameda Naval Air Station.

De Luca & Son, Inc., San Francisco, was low bidder on Proposition One for construction of the Paint and Oil Storehouse at Mare Island, with a proposal of \$168,440. George J. Maurer, Piedmont, at \$179,300 was second low bidder.

For pumping and other equipment for the Mare Island drydock, Cory & Joslin, Inc., of San Francisco, submitted a low basic bid of \$159,500. Second low bidder on this contract was Fred J. Early, Jr., San Francisco, at \$176,000.

Moore Dry Dock Co. submitted a low basic bid of \$186,110 for construction of the steel caisson gate at Mare Island. Second low bidder was General Engineering & Dry Dock Co. at \$236,875.

For construction of temporary buildings at the Alameda Naval Air Station, Schuler & McDonald submitted a low proposal of \$16,977, with W. K. Van Bokkelen Construction second at \$17,209.

On the paint and oil storehouse, Van Bokkelen submitted a telegraphic deduction of \$9700 on his \$180,000 bid. If this is ruled allowable it will make him second low bidder at \$176,300.

Shipments of oil burners during 1937 amounted to 193,180 units, a decrease of 1.9 per cent from 196,877 burners for 1936, and an increase of 39 per cent over 138,899 burners for 1935, the Bureau of Census reports.

Orders for electrical goods taken in 1937 reached the second highest total in twelve years, according to the Bureau of Census. The highest total was reached in 1929.

AKIONA LOW ON ISLAND PROJECT

HONOLULU, T. H., Feb. 15. —Moses Akiona, Honolulu, today submitted a low bid of \$79,900 to Capt. H. B. Nurse, Constructing Quartermaster here, for construction of the post garage and parking area at Hickam Field.

Second and third low bids also were submitted by Honolulu contractors. They were: E. E. Black, who submitted a second low proposal of \$92,850 and Ralph Wooley, whose third low figure for the work amounted to \$94,200. Bids originally were scheduled for opening February 8, but the date later was postponed until today.

A.G.C. Delegates Approve S. F. for 1939 Convention

The Northern California Chapter, Associated General Contractors of America, had received word this week from Secretary-Manager Floyd O. Booe that the 1939 national convention of the association definitely will be held in San Francisco.

Mr. Booe, who attended the A. G. C. convention in Washington last week, wired that the choice of San Francisco as the 1939 convention city had been confirmed by the delegates. The choice was proposed at the fall board meeting last year.

The convention here next year will give visiting contractors an opportunity to witness the Golden Gate International Exposition. According to present plans, Mr. Booe indicated, the convention will be held here early in March, 1939.

Mr. Booe has been conferring with government officials and others concerning the Federal Aid highway fund situation and the Central Valley Project. He expects to leave Washington for California the latter part of the week.

SARVER & ZOSS BID SAN PEDRO GOV'T BUILDING

**L. A. Firm Low at \$351,600
For Harbor Immigration
Station**

WASHINGTON, D. C., Feb. 15. —Sarver & Zoss, Inc., Los Angeles, at \$351,600, today submitted the low bid to the Treasury Department, Procurement Division, for construction of a Federal Immigration and Naturalization Station at San Pedro.

The second lowest bid was submitted by John Strona, Los Angeles, at \$359,690.

William P. Neil of Los Angeles submitted the third lowest proposal of \$359,700.

The Montgomery Elevator Company, at \$9,070, was the low bidder for installation of elevators in the station. The second lowest bidder was Otis Elevator Company, at \$9,289.

Class A Building

The proposed building will be a Class A three-story and basement structure. Specifications call for a building 164 feet long by 93 feet wide.

Plans and specifications for the station were prepared under the direction of the Supervising Architect of the Treasury Department, Public Buildings Branch in Washington, D. C.

The \$351,600 low bid of Sarver and Zoss, Inc., was considerably lower than the estimated cost of approximately \$575,000.

Specifications call for reinforced concrete construction with concrete walls and floors. The structure will have a tile roof and exposed concrete exterior. Steel sash, metal trim and a heating system are called for also. The structure will house an office, waiting rooms, dormitories, detention rooms, a dining room and kitchen, and a recreation room.

A hospital ward will be constructed under the one roof also, it is announced.

21— BRIDGES

CONTRACT AWARDED

LASSEN CO., Calif. — M. A. Jenkins, 3560 Y St., Sacramento, at \$12,539, awarded contract by the State Division of Highways, F. W. Haselwood, District Engineer, District 11, Redding, for the construction of three timber stringer bridges with concrete decks on concrete pile bents between three miles south of Standish and Wendel on the Buntingville-Wendel Road, Lassen County.

BIDS WANTED

MARIN COUNTY, Cal.—Until Mar. 9, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for the construction of a timber bridge with concrete deck across Stemp Creek, about one mile north of Tomales, consisting of eleven 19-ft. spans and grading approaches and applying road mix surface treatment, Marin County.

Work involves:

- (1) 4,600 c.y. rdwy. excav., unclass.;
- (2) 275 c.y. struc. excav.;
- (3) 770 c.y. imported surf. material;
- (4) 13 sta. finishing rdwy.;
- (5) 20 tons liquid asph. SC-3 prime coat and road mix surf. treatment;
- (6) 2,400 sq. yds. preparing mix and shaping roadbed;
- (7) 22,000 lbs. bar reinf. steel;
- (8) 225 c.y. Class A portland cement conc. struc.;
- (9) 41 MFBM redwood timber, dense select all-heart struc. grade;
- (10) 25 MFBM do, select all-heart struc. grade;
- (11) 56 lf. 18-in. CMP;
- (12) 0.5 mile new property fence;
- (13) 4 each drive gates, 16-ft.;
- (14) 8 each monuments;
- (15) 1 existing bridge removed and disposed of;
- (16) 1 lot misc. items of work.

The State will furnish CMP and band couplers, etc.

Plans and specifications may be obtained from the above office.

LOW BIDDER

MADERA CO., Calif.—Franzini & Fredenburg, 100 Clark Street, San Rafael, at \$798.50 (Alt. C), submitted low bid to the State Division of Highways, R. M. Gillis, District Engineer, District VI, State Highway Bldg., Fresno, for the construction of a reinforced concrete bridge across Cottonwood Creek overflow, about four miles south of Madera, Madera County, Calif.

Complete bids will be published shortly. * 21

CONTRACT AWARDED

SAN FRANCISCO.—J. Philip Murphy, 3901 Mission St., San Francisco, at \$263 was awarded contract by the Dept. of Public Works, Rm. 251, City Hall, for the construction of a pedestrian underpass at junction of low viaduct and on-ramp, Golden Gate Bridge, Marina approach. 21

22— DREDGING HARBOR WORKS, EXCAVATION

CONTRACT AWARDED

ALAMEDA, Calif.—San Francisco Bridge Co., 503 Market Street, San Francisco, at estimated cost of \$960,000, awarded contract by the Bureau of Yards & Docks, Navy Dept., Washington, D. C., under Spec. No. 8414, for dredging and filling; stone sea walls and jetties; and steel sheetpile bulkheads and pier, including wood piles and timber work and concrete curbs at the Naval Air Station, Alameda. * 22

APPLICATION MADE

SAN PEDRO, Los Angeles Co., Cal.—Application has been made by San Pedro Sport Fishing Boat Owners' Assn., San Pedro, for War Department permit to construct 7 single pile dolphins, 25 feet apart, located 60 feet channelward of U. S. pier-head line at Berth 36 in west channel of Los Angeles Harbor. Each dolphin is to be one 50-ft. creosoted pile of 13-in. minimum butt, driven to show 5 feet above high water mark. The dolphins will be used as guide piles to moor floats serving sport fishing boats. Drawings showing location and plan of proposed work may be seen at the office of the U. S. Engineer, Los Angeles, until 11 a. m., Feb. 18. * 22

CONTRACT AWARDED

SAN FRANCISCO, Cal.—A. S. Dutra, 255 California St., San Francisco, at \$6084.65, was awarded contract by the Public Utilities Commission, Room 287, City Hall, for exploration and dredging at the San Francisco Air Depot. * 22

23— CANALS

COMPLETE BIDS

YAKIMA PROJECT, Wash.—T. E. Connolly, Inc., 461 Market St., San Francisco, at \$316,142.42 submitted low bid to the U. S. Bureau of Reclamation, Yakima, Wash., under Spec. No. 770, for the construction of earthwork, tunnel, and canal lining. Station 1594 plus 72 to Station 1641 plus 15, Yakima Ridge Canal, Roza Division, Yakima Project, Wash.

Capital City Title Company

JAMES E. BANCROFT

Manager

801 J Street
Sacramento : California

Work involves:

- (1) 52,200 cu. y. excavation, common, for canal;
- (2) 2,800 cu. do. rock, for canal;
- (3) 15,000 sta. c.y. overhaul;
- (4) 50 c.y. compacting embankment;
- (5) 1,200 c.y. excav. common, for inlet and outlet trans.;
- (6) 70 c.y. excav., rock, for do.;
- (7) 200 c.y. excav., common, for tunnel outlet drain under concrete lining;
- (8) 30 c.y. excav., rock, for do.;
- (9) 29,860 c.y. excav., all classes, in tunnel;
- (10) 150 sq. yds. prepare rock foundation for concrete lining;
- (11) 3,200 sq. yds. trim earth foundation for concrete lining;
- (12) 200 c.y. backfill;
- (13) 150 c.y. puddling or tamping, backfill;
- (14) 260 c.y. gravel fill about tunnel outlet drain under conc. lining;
- (15) 7,000 c.y. concrete in tunnel lining;
- (16) 150 c.y. concrete in portal structure and trans.;
- (17) 360 c.y. concrete in canal lining;
- (18) 44,500 lbs. placing reinf. bars;
- (19) 450,000 lbs. furnish and install perf. steel tunnel supports;
- (20) 160 MFBM furnish and erect perm. timbering in tunnel;
- (21) 30,000 lbs. furnish and install steel tunnel liner plates;
- (22) 200 lf. drilling port holes not more than 10-ft. deep;
- (23) 100 lbs. placing grout pipe and connections;
- (24) 400 c.f. pressure grouting;
- (25) 2,000 lf. construct 6-inch dia. tunnel drain;
- (26) 1,500 lf. construct 8-in. do.;
- (27) 425 lf. construct 10-in. do.;
- (28) 690 lf. laying 10-in. dia. sewer pipe with uncemented joints;
- (29) 655 lf. construct 6-in. dia. do.;
- (30) 150 lf. laying 6-in. dia. sewer pipe with cemented joints;
- (31) 150 lf. laying 10-in. dia. do.

Total bids follow:

- (A) T. E. Connolly, Inc., 461 Market St., San Francisco, \$316,142.42
- (B) Morrison-Knudsen Co., Boise, Idaho, \$416,964.50

CONTRACT AWARDED

EUREKA CO., Nev.—Silver State Const. Co., Inc., Fallon, Nevada, at \$27,968.44 was awarded contract by the Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, for the construction of approximately 4.02 miles of highway from a point on State Route No. 1, approximately 5.7 miles east of Dunphy to a point approximately 0.82 mile north of Beowawe, Route No. 21, Section B, Eureka County.

Complete bids will be published shortly. * 29

BIDS WANTED

STATE OF WASHINGTON.—Until March 1, 10 A. M., bids will be received by L. V. Murrow, Director of Highways, Olympia, Wash., for bridge and highway construction, as follows:

STEVENS CO.: Clearing, grading, draining, surfacing and constructing a reinforced concrete and steel undercrossing on about 0.4 mile of Primary State Highway No. 3, G. N. Ry. Undercrossing near Clayton, Federal Aid Grade Crossing Project No. FAGH-16, in Stevens Co., involving about 20,740 c.y. of excavation, 2,540 c.y. of selected roadway borrow, 476 c.y. of concrete, 9 MBM of treated timber and lumber, 34,460 lbs. of steel reinf. bars, 140,000 lbs. of structural steel, 1,582 l.f. of cable guard rail design No. 6, 296 l.f. of pipe culverts and other items.

KING COUNTY: Clearing, grading, draining, surfacing and constructing a reinforced concrete girder bridge and pile and timber detour bridge on about 0.9 mile of Primary State Highway No. 5, Summit Federal Aid Grade Crossing Project

No. FAGS 19-B, in King County, involving about 6 acres of clearing, 39,050 c.y. of excavation, 7,570 c.y. of selected roadway borrow, 1,510 c.y. of crushed stone surfacing, 348 c.y. of concrete, 101,000 lbs. of steel reinforcing bars, 1,600 lbs. of structural steel, 4,256 l.f. of cable guard rail design No. 6, 170 l.f. of pipe culverts and other items.

MASON COUNTY: Clearing, grading, draining, surfacing and constructing a treated pile and timber trestle with ballasted deck on about 0.5 mile of Primary State Highway No. 3, Jonstedts Creek North, Federal Aid Project No. 136-J, in Mason Co., involving about 1 acre of clearing, 38,190 c.y. of excavation, 950 c.y. of crushed stone surfacing, 731 c.y. of sack riprap, 78 MBM of treated timber and lumber, 1,850 l.f. of treated timber piling, 186 l.f. of pipe culverts and other items.

GRAYS HARBOR CO.: Clearing, grading, draining and surfacing of about 5.1 miles of Primary State Highway No. 9, Cook Creek Hill to Quinault, Federal Aid Project No. 43-B, in Grays Harbor County, involving about 28 acres of clearing, 49,280 c.y. of excavation, 36,710 c.y. of selected roadway borrow, 2,980 c.y. of shoulder material, 11,690 c.y. of crushed stone surfacing, 95 c.y. of concrete, 13,300 lbs. of reinforcing bars, 1,927 l.f. of pipe culverts and other items.

SKAMANIA CO.: Constructing a reinforced concrete T-Beam bridge on a portion of Primary State Highway No. 8, Rock Creek Bridge near Stevenson, State Project, in Skamania County, involving about 380 c.y. of excavation, 603 c.y. of concrete, 135,000 lbs. of steel reinforcing bars, 3,200 l.f. of steel piling, 2,500 c.y. of riprap and other items.

ADAMS COUNTY: Grading, draining and surfacing of about 10.5 miles of Primary State Highway No. 18, Grant County Line to Ritzville, Section 1, State Project, in Adams Co., involving about 397,800 c.y. of excavation, 63,540 c.y. of selected rdwy. borrow, 3,030 c.y. of shoulder material, 37,600 c.y. of crushed stone surfacing, 71 c.y. of concrete, 12,360 lbs. of steel reinf. bars, 22,250 l.f. of cable guard rail design No. 6, 29 MBM of treated and 1 MBM of untreated timber and lumber, 3,225 l.f. of pipe culverts and other items.

ADAMS COUNTY: Grading, draining and surfacing of about 10 miles of Primary State Highway No. 18, Grant County Line to Ritzville, Section 2, State Project, in Adams Co., involving about 283,350 c.y. of excavation, 60,800 c.y. of selected rdwy. borrow, 2,990 c.y. of shoulder material, 35,930 c.y. of crushed stone surfacing, 1,560 c.y. of mineral aggregate (oil rock) 94 c.y. of concrete, 16,420 lbs. of steel reinf. bars, 21,955 l.f. of cable guard rail design No. 6, 10 MBM treated timber and lumber, 2,325 l.f. of pipe culverts and other items.

LINCOLN & ADAMS COS.: Surfacing and stockpiling crushed stone surfacing material and constructing a light bituminous surface treatment on about 27.5 miles of Secondary State Highway No. 4-B, Odessa to Lind, State Project, in Lincoln and Adams Cos., involving about 20,100 c.y. of crushed stone surfacing, 602 tons of bituminous cement and other items.

ADAMS COUNTY: Manufacturing and stockpiling crushed stone surfacing material and constructing a light bituminous surface treatment on about 25.2 miles of Secondary State Highway No. 11-E, Ritzville to Washtucna, State Project, in Adams County, involving about 11,450 c.y. of crushed stone surfacing

in stockpiles, 610 tons of bituminous cement and other items.

LEWIS COUNTY: Manufacturing and stockpiling crushed stone surfacing and mineral aggregates (oil rock) on Secondary State Highways Nos. 1-P and 12-E, Section 1, Secondary State Highway No. 1-P, Vader to Ryderwood and Section 2, Secondary State Highway No. 12-E, Napavine to Winlock, State Project, in Lewis County, involving about 2,320 c.y. of crushed stone surfacing and 2,990 c.y. of mineral aggregates (oil rock).

THURSTON: Grays Harbor and Mason Cos.: Manufacturing and stockpiling crushed stone surfacing on Secondary State Highways Nos. 1-M and 9-D; Section 1, Secondary State Highway No. 1-M, Rochester North and Section 2, Secondary State Highway No. 9-D, McCleary to Kamilche, State Project, in Grays Harbor, Thurston and Mason Counties, involving about 5,340 c.y. of crushed stone surfacing.

PACIFIC CO.: Clearing, grading, draining, surfacing and constructing a light bituminous surface treatment and seal coat on about 7.6 miles of Primary State Highway No. 12, Johnson's Landing to Bear River Dyke, State Project, in Pacific Co., involving about 14 acres of clearing, 15,270 c.y. of excavation, 20,410 c.y. of ballast, 21,710 c.y. of crushed stone surf., 1,440 c.y. of mineral aggregates (oil rock), 285 tons of bituminous cement, 2,000 c.y. of riprap, 969 lf. of pipe culverts and other items.

Plans and specifications may be obtained from the above office upon deposit of \$2.00. * 29

LOW BIDDERS

EUREKA CO., Nev.—Silver State Constr. Co., Inc., Fallon, Nev., at \$27,968.44, submitted low bid to the Directors of the Dept. of Highways, Heroes Memorial Bldg., Carson City, Nev., for the construction of approximately 4.62 miles highway from a point on State Route No. 1 approximately 5.7 miles east of Dunphy to a point approximately 0.82 mi. north of Beowawe, Route No. 21, Section B, Eureka Co., Nevada.

Utah Constr. Co., Ogden, at \$30,349.33, submitted second low bid. Complete bids will be published shortly. * 29

- (1) Lump sum, grading (3943 c.y. cut; 13 c.y. fill), including removal of existing improvements;
- (2) 49,362 sq. ft. 6-in. conc. pave.;
- (3) 565 sq. ft. 8-in. concr. pave. (local depressions);
- (4) 257 sq. ft. 3-in. rock and oil roadway;
- (5) 751 sq. ft. class C resurf.;
- (6) 314 sq. ft. class D resurf.;
- (7) 49,362 sq. ft. 4-in. subgrade stabilization;
- (8) 244 l.f. monolithic curb;
- (9) 1550 l.f. unplastered heavy curb;
- (10) 409 l.f. curb armor;
- (11) 1385 l.f. curb bar;
- (12) 179 sq. ft. 3-in. walk;
- (13) 825 sq. ft. 5-in. walk;
- (14) Lump sum, sanitary sewer;
- (15) 151 ft. 6-in. house connection sewers;
- (16) Lump sum, storm drain;
- (17) Lump sum, ornamental lighting conduit (567 ft. 1½-in. and 28 ft. 2-in. conduit);
- (18) reset manhole;

- Storm drain involves:
- 1 junction chamber 3;
 - 55 ft. 48-in. reinf. concr. pipe;
 - 689 ft. 21-in., 266 ft. 18-in., 49 ft. 15-in. and 321 ft. 12-in. cem. concr. pipe;
 - 6 manholes;
 - 6 manhole frame and cover sets;
 - 21 catch basins;
 - 19 catch basin frame and cover sets;
 - 4 catch basin frame and grate sets;
 - 3 junction struc C;
 - 8 ft. conc. reinf. for 18-in. pipe;
 - 7 ft. conc. reinf. for 15-in. pipe;
 - 65 ft. concr. reinf. for 12-in. pipe;
 - 1 reconstr. catch basin top;
 - 350 ft. culvert removal;
 - 6 seal culverts;
 - 183 ft. pipe removal;
 - 4 seal pipes;
 - 11 remove catch basins;
 - 1 remove junction chamber;
 - 55 ft. special support 48-in. pipe;
 - 60 ft. curb;
 - 143 sq. ft. walk;
 - 6 concr. wall sewer supports. * 29

BIDS OPENED

CALAVERAS, Stanislaus, Tuolumne and Amador Cos., Calif.—Sheldon Oil Co., Suisun, at \$3112.50, submitted low bid to the State Division of Highways, R. E. Pierce, District Engineer, District X, 1200 North Center St., Stockton, for applying diesel oil to roadside vegetation for about 175.5 roadside miles at various locations in Calaveras, Stanislaus, Tuolumne and Amador Counties. Work involves:

- (1) 1500 c.y. excav. for cleaning and enlarging old drains;
- (2) 44,500 c.y. excav. for new drains;
- (3) 100 c.y. excav. for structures;
- (4) 800 c.y. backfill about strucs.;
- (5) 170 c.y. puddling or tamping backfill about structures;
- (6) 5.5 MFEM erecting timber in structures;
- (7) 293 c.f. laying 15-in. and 3-in. CMP.

Plans and specifications may be obtained from the above office. * 30

31—PIPE LINES & WELLS

BIDS WANTED

PORTERVILLE, Tulare Co., Cal.—Until March 1, 7:30 P. M., bids will be received by the Porterville City Council, F. M. Phipmmer, City Manager, for furnishing all labor and materials for the following work:

1. Removing turbine pump from well at Plant No. 1.
2. Removing deep well triplex pump at Plant No. 3.
3. Casing well and filling pit at Plant No. 3.
4. Installing used deep well turbine pump from Plant No. 1 at Plant No. 3, complete with necessary conduits, wiring, electrical motor controls and required apparatus and appurtenances and connections.
5. Alt. A. Furnishing and installing new deep well turbine pump at Plant No. 3 complete with necessary conduits, wiring, electrical motor controls and required apparatus and appurtenances and connections, to pump 900-gpm. 270-ft. head, 100-hp. motor.
6. Alt. B. Furnishing and installing new deep well turbine pump at Plant No. 3 complete with necessary conduits, wiring, electrical motor controls and required apparatus and appurtenances and connections, to pump 900-gpm. 100-ft. head, 40-hp. motor.
7. Alt. BB. Furnishing and installing new booster pump with 60-h.p. motor at Plant No. 3, complete with necessary conduit, wiring, electrical motor controls, required connections to pipe lines, and required apparatus and appurtenances, to pump 900-gpm at 170-ft. head.

8. Furnishing and installing new deep well turbine pump at Plant No. 1 complete with necessary conduits, wiring, electrical motor controls and required apparatus and appurtenances and connections to pump 1000-

gpm at 95-ft. head, 40-hp. motor.

9. Reinstalling used booster pump with 30-h.p. motor at Plant No. 1 complete with necessary conduit, wiring, electrical motor controls, required connections to pipe lines, and required apparatus and appurtenances.

10. Furnishing and installing new booster pump with 60-h.p. motor at Plant No. 1, complete with necessary conduit, wiring, electrical motor controls, required connections to pipe lines, and required apparatus and appurtenances, to pump 1200-gpm a 160-ft. head.

11. Furnishing and installing as required pipe lines and connections between pumps and pipe lines and ground storage reservoir.

The city will consider for sale or offset in said bids of the following equipment, to-wit:

1. Deep well Triplex pump with connecting rods, water barrels, cylinders, steel tie rods, air chamber and ladder after same is dismantled and on top of ground.

One 30-hp. Westinghouse type C motor now at Plant No. 3.

One 100-h.p. G-E 2200-volt motor.

One leather belt 13½ inches wide, about 70-ft. long.

Two gate valve stem extensions (well valve and by-pass valve).
100 ft. 12-in. suction pipe (now in well).

One sump pump and electric motor.

60 feet, more or less, of 10-inch discharge pipe.

One deep well turbine pump and 75-h.p. motor removed from well in plant No. 1, complete with starter (no switch) underground discharge tee, air line.

Plans and specifications may be obtained from the City Clerk or Irvin H. Althouse, upon deposit of \$5. * 31

COMPLETE BIDS

BAKERSFIELD, Kern Co., Cal.—Gogo & Rados, 10253 Santa Monica Blvd., Los Angeles, at \$4614.96, submitted low bid to the Bakersfield City Council, V. Van Ripper, City Clerk, City Hall, for the construction of a concrete pipe storm drain in Brundage Lane between Oleander Avenue and the Virginia Tract Pumping Station, Bakersfield, Calif. Engineer's estimate, \$4359.89.

Work involves:

- (1) 2 catch basin grates;
- (2) 6 frames and covers;
- (3) 60 sq. ft. gutter;
- (4) 12 c.y. struc. concrete;
- (5) 2463.80 ft. 16-in. diam. concrete pipe;
- (6) 645.89 ft. 12-in. do.;
- (7) 251 ft. 8-in. do.;
- (8) 420 ft. 6-in. do.

Total bids follow:

(A) Gogo & Rados, 10253 Santa Monica Blvd., L. A.—\$4,614.96.

(B) Alton B. Carter, Avenal—\$5,433.95.

PINAL & GILA COUNTIES, ARIZ.—Highway Construction—(State)

PINAL AND GILA COS., Ariz. - Lee Moor Contr. Co., Bassett Tower Bldg., El Paso, Texas, at \$105,329.29 submitted low bid to the Arizona State Highway Commission, Phoenix for highway improvement on the Superior-Miami Highway, F.A. 16, 2nd Reop. (1938) AFE 7009. The work, which begins about 3½ miles northeast of Superior and extends north-easterly across Oak Flat for a distance of about 1.6 miles, consists of grading, draining, aggregate base course, and cutback road mix, and is to be completed on or before Aug. 31, 1938.

Work involves:

- (1) 75,068 c.y. rdwy. excav., unclass.
- (2) 7,500 c.y. slides and overbreak-age;
- (3) 217 c.y. drainage excav., unclass.
- (4) 5,000 l.f. crown ditches;
- (5) 826 c.y. struc. excav., unclass.;
- (6) 123,115 sta. yd. station yard over-haul;
- (7) 19,188 tons coarse aggregate base course (CIP);
- (8) 3,659 tons fine do.;
- (9) 2,763 m. gals. sprinkling (CIP);

- (10) 686 hours rolling;
- (11) 646 c.y. Class A conc. (including cement);
- (12) 61,131 lbs. reinf. steel bars (CIP);
- (13) 142 l.f. 18-in. CMP (CIP except excavation);
- (14) 370 l.f. 24-in. CMP (do.);
- (15) 374 l.f. 30-in. CMP (do.);
- (16) 53 l.f. resetting 24-in. CMP (CIP inc. all material and work);
- (17) 46 l.f. resetting 40-in. CMP (do.);
- (18) 1 each cattle guard (C6 6) units (CIP except conc. and excav.);
- (19) 1,312 l.f. road guard (CIP);
- (20) 56 each guide posts (CIP);
- (21) 42 each r/w markers (type A) (CIP);
- (22) 4,760 tons mineral agg. (CIP);
- (23) 155 tons cutback asph. (MC-4) for road mix and seal coat, (CIP on road);
- (24) 51 tons cutback asphalt (MC-2) for AST, CIP on road;
- (25) 1,556 mile processing road mix;
- (26) 277 tons screenings (CIP on rd.);
- (27) 90 c.y. blotter material (do.);
- (28) 198 tons salvaging and relaying old oil mix (on turnouts to recreational areas) (CIP);

(29) 1 lump sum removal of conc. struc. (left Sta. 189 plus 75).

Total bids follow:

- (A) Lee Moor Contr. Co., Bassett Tower Bldg., El Paso, Tex., \$105-329.29.
- (B) W. E. Orr, Contr., Prescott, Ariz. \$107,447.15.

SAN BENITO COUNTY—GRADING & SURFACING—(State)

SAN BENITO CO., Calif.—N. M. Ball Sons, 852 Carmel St., Albany, at \$72,824.90, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for grading, road-mix surface treatment and applying Class B seal coat to 4.7 miles between Palmdes and Tree Fins, San Benito County.

Work involves:

- (1) 248 sta. clear and grub;
- (2) 200 M. gals. water;
- (3) 126,000 c.y. rdwy. excav., unclass.
- (4) 1,800 c.y. ditch and channel excavation;
- (5) 2,050 c.y. struc. excavation;
- (6) 630,000 sta. yds. overhaul;
- (7) 21,000 c.y. import borrow;
- (8) 350 c.y. imported rock filling material;
- (9) 50 c.y. concrete, remove and dispose of;
- (10) 253 sta. finishing rdwy.;
- (11) 84,400 sq. yds. prepare, mix and shape roadbed;
- (12) 88 tons liquid asph., SC-2, prime coat;
- (13) 700 tons liquid asph., SC-4, road mix;

- (14) 72 tons liquid asph., 90-95, seal coat;
- (15) 830 tons screenings, seal coat;
- (16) 180 c.y. Class A Portland cement concrete struc.;
- (17) 15,000 lbs. bar reinf. steel;
- (18) 456 l.f. 8-in. CMP;
- (19) 1,542 l.f. 18-in. CMP;
- (20) 394 l.f. 24-in. CMP;
- (21) 142 l.f. 36-in. CMP;
- (22) 46 l.f. 48-in. CMP;
- (23) 297 l.f. existing CMP culverts remove, clean and salvage;
- (24) 116 l.f. re-lay salvaged pipe;
- (25) 5 each concrete joints;
- (26) 49 each spillway assemblies;
- (27) 5,600 l.f. laminated guard railing;
- (28) 60 each culvert markers;
- (29) 237 each guide posts;
- (30) 9.4 miles new property fences;
- (31) 20 each drive gates;
- (32) 64 each monuments complete in place.

The State will furnish CMP, band couplers and spillway assemblies, etc.

CLINTON BIDS DIGESTER FOR SEWAGE PLANT

**\$70,950 Low Proposal for
Complete Work; Six Firms
Figure Contract**

Clinton Construction Co., contractors on the Richmond-Sunset Sewage Treatment Plant, yesterday submitted the low bid to Director William H. Worden of the San Francisco Department of Public Works for construction of a primary digester for the plant.

Bids were received under two propositions. Proposition B omitted heating plant equipment and piping.

The bid of Clinton Construction Company on Proposition A was \$70,950; on Proposition B, \$58,950.

The contract calls for: structural work; digester equipment; digester inside plumbing; digester operating house piping and equipment; outdoor piping and miscellaneous equipment; heating plant and equipment and electrical work.

Six firms submitted bids on the contract. All firms except Eaton and Smith bid on both propositions. The latter firm submitted a bid of \$76,474 on Proposition B only.

M. J. Lynch submitted the second lowest bid. His figures were: Proposition A, \$77,712; and Proposition B, \$66,522. Other bidders were: Fred J. Early, Jr., \$77,791 and \$65,912; James A. Nelson, \$79,515 and \$66,265; and MacDonald & Kahn Co., Ltd., \$82,342 and \$69,982.

Available funds will determine the proposition under which the contract will be awarded, it was announced.

The low bidder, Clinton Const. Co., was awarded the contract for the structural work on the plant last summer. At the same time Anderson and Rowe were awarded the contract for the mechanical work. Their combined bids amounted to \$435,389.

AWARD ALAMEDA BUILDING JOB

WASHINGTON, D. C., Feb. 23.—Speeding its program of construction at the \$13,500,000 Alameda Naval Air Station, the Navy Department today announced award of a contract for construction of temporary buildings on the site of the project.

The contract went to Schuler & McDonald, 1719 Sixteenth street Oakland, who submitted the lowest bid for the contract last week. Amount of the contract price is \$16,977.

STATE HIGHWAY CONTRACTS OUT FOR PROPOSALS

SACRAMENTO, Feb. 21.—The State Highway Commission today authorized two calls for bids for grading and paving in San Diego and Tulare counties. Bids will be opened in Sacramento, March 16; and in Los Angeles, March 17.

The largest job involves grading and paving with Portland cement concrete and asphaltic concrete about 9.7 miles of Pacific Highway between Barnett avenue and Miramar road in the City of San Diego.

Unit prices will be submitted on fifty-six items. In addition, bids will be submitted on two items under Alternates A, B, and C. The first item under the three alternates is: furnishing 360 lineal feet of cast in place concrete piles (type not requiring mandrel); 360 lineal feet of piles of the mandrel type; and 360 lineal feet of precast concrete piles. The second item under the three alternates is: driving 18 steel shells (type not requiring mandrel); driving 18 steel shells of the mandrel type; and driving 18 precast concrete piles.

The second job, for which bids will be opened in Sacramento Mar. 16, involves grading and surfacing on about 0.9 mile of highway between Morton street and Mulberry street in the City of Porterville, Tulare county.

BIDS MARCH 15 FOR TWO STATE BUILDING JOBS

**Ask Proposals on Pile Foundations
for Sacramento Offices, Agnew Ward**

SACRAMENTO, Feb. 22.—Bids on the initial contracts for two large State building projects were called by State Architect George B. McDougall here yesterday.

The projects involved are a new ward at Agnew State Hospital in Santa Clara county, and State Office Building No. 3 in Sacramento.

Bids on both jobs will be opened at 2:00 P. M., March 15, in the Public Works Building, Sacramento.

The first contract calls for erection and completion of pile foundations for State Office Building No. 3 at Sacramento. The second contract involves erection and completion of pile foundations for ward unit No. 3 at Farm, Agnew State Hospital in Santa Clara Co.

Concrete Piles

Work for the erection and completion of pile foundations for State Office Building No. 3 involves excavation, cast in place concrete piles and pile caps for foundation of the building.

The ground area of the proposed building is approximately 315 by 150 feet, according to Mr. McDougall.

Work for erection and completion of pile foundations for ward unit No. 3 at Farm includes furnishing and installing 615 cast in place concrete piles having an average length of approximately 25 feet, together with rough excavation at the building site.

Plans and specifications for both jobs were prepared under the direction of State Architect McDougall. They may be obtained from his office upon deposit of \$25.00, returnable. The location of the office is Public Works Building, N and Twelfth streets, Sacramento.

Canadian shipments of oil burners during 1937 amounted to 589 units, as compared to shipments reau of Census states in its annual report.

BIDS OPENED

LOS ANGELES, Cal.—The following submitted bids to the U. S. Engineer, Los Angeles, for rental of pile hammers, boilers and pumps for use in driving piling in Los Angeles County Drainage Area, Clrc. Prop. 295. The items are:

- (1) rental of one pile hammer, for 3 months;
- (2) do.;
- (3) do.;
- (4) rental of 60-hp. boiler;
- (5) do.;
- (6) rental of jetting pump;
- (7) do.

The bids are:

Clyde W. Wood—(1) \$175 month.
Oil Field Constr., Long Beach—(4) \$170 mo., (5) \$170 mo., 1% 10 da.

P. B. Hackley Equip. Co.—\$3610 for purchase of 3 hammers.

Garlinghouse Bros.—(1) \$175 mo., 2% 20 da. * 25

BIDS OPENED

BOULDER CANYON PROJECT— Boulder Electric Co., Schenectady, N. Y., at \$10,090, wt. 13,550, fob Boulder City, Nevada, submitted only bid to the Bureau of Reclamation, Denver, under Spec. No. 1027-D, for furnishing and delivering carrier-current telephone apparatus for the Boulder power plant, Boulder Canyon Proj.

BIDS WANTED

BOULDER CANYON PROJECT.— Until March 1, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, Colorado, under Spec. No. 1041-D, for furnishing and delivering structural-steel structures for Group A of the Metropolitan Water District transformer circuits in the Boulder switchyard, Boulder Canyon Project, Arizona-California-Nevada. Structures will be erected by the Government; f.o.b. shipping point and/or Boulder City, Nevada.

Plans and specifications may be obtained from the above office. * 25

BIDS WANTED

GRAND COULEE DAM, Wash.— Until March 16, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, Colo., under Spec. No. 777, for furnishing and delivering trashrack metalwork for ten outlet-works trashrack structures, 18 main-unit-penstock trashrack structures, and three station-service-penstock trashrack structures at the Grand Coulee Dam, Columbia Basin Project, Wash. All trashrack metalwork will be installed by the Government; f.o.b. cars at shipping point and/or Odair, Wash.

Plans and specifications may be obtained from the above office. * 25

BIDS OPENED

SAN BERNARDINO and Riverside Cos., Cal.—Bids for rental of two to four pneumatic tired dump trucks (not less than 5 c.y. capacity each) and one 1½-cu. power shovel, for use in San Bernardino and Riverside counties opened by the State Highway Department, San Bernardino, were:

- The items were:
- (1) transportation for each truck to and from job location (flat price, round trip);
 - (2) operating rate per hour per truck, under power loading;
 - (3) operating rate per hour per truck under hand loading;
 - (4) stand-by rate per hour per truck
 - (5) transportation of shovel to and from job location (flat price, round trip);
 - (6) operating rental per hr. for power shovel;
 - (7) stand-by rental per hr. for power shovel.

The bids were:

Triangle Rock & Gravel Co.: (1) no charge; (2) \$2.85; (3) \$2.35; (4) \$1.35; (5) \$1.00; (6) \$5.90; (7) no chge.
G. R. Starkenburg: (2) \$2.85; (3) \$2.35; (6) \$6.50.

R. E. Griffith: (2) \$2.85; (3) \$2.35 (4) \$1.35; (5) \$4.00; (6) \$7; (7) \$1.00.
F. D. O'Neil: (2) \$2.85; (3) \$2.35; (6) \$6.00.

G. Willis & Sons: (1) \$10; (2) \$2.85; (3) \$2.35; (4) \$1.35; (5) no charge; (6) \$5.10; (7) \$1.50.

F. Edmondson & Sons: (1) no charge; (2) \$2.85; (3) \$2.35; (4) \$1.35 (5) no charge; (6) \$5.54; (7) \$1.50.

A. C. Bussey: (1) \$5; (2) \$2.85 (3) \$2.35; (4) no charge; (5) \$4.60; (6) \$5.40; (7) no charge.

Rock & Gravel Trucking Co.: (1) \$20; (2) \$2.85; (3) \$2.60, (4) \$.75; (5) \$5.00; (6) \$10; (7) \$2.10. * 25

28—FIRE EQUIPMENT

29—STREETS AND HIGHWAYS

BIDS WANTED

CLARK CO., Nev.—Until March 15, 2 p.m., bids will be received by the U. S. Bureau of Public Roads, Federal Office Bldg., Civic Center, San Francisco, for grading and constructing a bituminous treated surfacing (Class B) on 9.366 miles, Section A of Route 1, Overton-Lake Mead, the Boulder Dam Recreational Area, Clark County, Nevada.

Work involves:

- (1) 192,000 c.y. uncl. excav.;
- (2) 2,330 c.y. uncl. excav. for structures;
- (3) 13,100 c.y. uncl. excav. for borrow;

- (4) 219,000 sta. yds. overhaul;
- (5) 10,000 c.y. mi. borrow haul;
- (6) 6,000 M. gals. watering;
- (7) 35,000 tons crusher run top course for base;

- (8) 190 tons slow curing asphalt (Type S.C.-2), for prime coat;
- (9) 13,500 tons class B dense plant mixture (grading A);
- (10) 100 tons Class B cover aggregate;

- (11) 660 tons bituminous material (Type S.C.-4), for Class B-2;
- (12) 130 tons emulsified asphalt for Class B-2 seal;

- (13) 448 c.y. Class A cement stone masonry;
- (14) 95 c.y. Class B cement stone masonry;

- (15) 2,982 lin. ft. corrugated galv. sheet metal pipe;

- (16) 3610 lin. ft. bituminous coated corrugated sheet metal pipe;

- (17) 9 each spillway inlets, Type A;
- (18) 458 lin. ft. vitrified clay pipe;
- (19) 352 cu. yds. hand laid riprap;
- (20) 6 each, drop inlets, 18-in.;
- (21) 482 sq. yds. grouted rubble gutter;

- (22) 14 each, right-of-way monuments;
- (23) 621 lin. ft. remove, clean and relay or stockpile existing CMP;
- (24) 18 each, guide posts.

Plans and specifications may be obtained from the above office upon deposit of \$10. * 29

BIDS OPENED

LOS ANGELES, Cal.—Bids for asphalt pavement of wharf docks, shed floors and roadways including 8000 tons asphaltic concrete base pavement, 3000 tons asphaltic concrete wearing surface No. 2, and 300 tons shed asphalt wearing surface, Spec. 973, opened by Los Angeles Harbor Department, were:

Sully-Miller Contr. Co.—(1) 3000 tons, \$3.20; total, \$7600; (2) 3000 tons, \$3.30; total, \$9900; (3) 2000 tons, \$3.50; total, \$10,500.

Anso Constr. Co.—(1) \$3.32, \$9960; (2) \$3.25, \$10,920; (3) \$3.59, \$11,770.

Griffith Co.—(1) \$3.55, \$10,650; (2) \$3.60, \$10,800; (3) \$3.60, \$1080. * 29

CONTRACT AWARDED

SONOMA, Marin and Napa Counties, Cal.—Lee J. Immel, 1031 Evelyn St., Berkeley, at \$6150 was awarded contract by the State Division of Highways, Sacramento, for applying diesel oil to roadside vegetation for about 191.2 roadside miles at various locations in Sonoma, Marin and Napa counties. * 29

BIDS WANTED

APACHE COUNTY, Arizona.—Until March 10, 10 A. M., bids will be received by the U. S. Bureau of Public Roads, New Post Office Bldg., Phoenix, Ariz., for placing a bituminous treatment on 4.840 miles of Section C of Route No. 1, Petrified Forest National Monument, Apache Co.

Work involves:

- (1) 140 tons cover (Class A pavement) split method;
- (2) 105 tons applying Government-furnished cutback asphalt (Type RC-4) for Class A pavement.

Plans and specifications may be obtained from the above office and from the U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, upon deposit of \$10.00.

BIDS WANTED

HICKAM FIELD, T. H.—As previously reported, until March 16, 1:30 p.m., bids will be received at the office of the Constructing Quartermaster, Fort Mason, San Francisco; and at 11 a.m. at the Office of the Purchasing and Contracting Officer, Hickam Field, T. H., under Bid No. W 387-33-23, for the construction and completion of Sections "B" and "C" of the landing mat, Hickam Field, T. H. Estimated cost, \$467,542.

Complete list of items published in Daily Pacific Builder, February 14, 1938.

CONTRACT AWARDED

ALAMEDA, Contra Costa and Santa Clara Cos., Calif.—Pacific Truck Service, Inc., 646 Park Ave., San Jose, at \$3285 was awarded contract by the State Division of Highways, Sacramento, for applying diesel oil to roadside vegetation for 111.5 roadside miles at various locations in Alameda, Contra Costa and Santa Clara counties.

NOTICE

Representative of the District Office will accompany prospective bidders over the proposed project in Monterey Co., between 5 miles and 5.9 miles west of Greenfield, V-Mon-Freder Road, for which bids are to be received in San Francisco March 4, 1938.

Said representative will meet prospective bidders at job site 5.9 miles west of Greenfield on Monday, Feb. 28, 1938, at 10:30 a.m.

Prospective bidders are urged to cooperate with the District Office and arrange to make their field inspection on the above dates.

CONTRACT AWARDED

CHURCHILL COUNTY, Nevada.—Doge Construction Co., Inc., Fallon, Nevada, at \$35,495.22 submitted low bid and was awarded contract by the Directors of the Department of Highways, Heroes Memorial Bldg., Carson City, Nevada, for the construction of approximately 3.04 miles of highway from a point approximately 1/2 mile south of Fallon to a point approximately two miles southwest, Churchill County, Nevada.

Work involves:

- 1) 8.447 lf. remove fence;
- 2) 4 ea., remove timber culverts;
- 3) 1 each, remove timber bridge;
- 4) 1 ea., remove timber check gate;
- 5) 10,500 sq. yd. remove and stockpile roadmix bit. surf.;
- 6) 18,515 c.y. rdwy. excav.;
- 7) 3,020 c.y. drainage excav.;
- 8) 6,912 c.y. borrow;
- 9) 7,970 c.y. imported borrow;
- 10) 59,361 yd. sta. overhaul (yd. sta.);
- 11) 4,583 yd. mi. overhaul (yd. mi.);
- 12) 360 c.y. struc. excav.;
- 13) 425 c.y. backfill;
- 14) 3.04 miles subgrade, Type C;
- 15) 950 c.y. salvaged aggregate;
- 16) 40 M. gals. water;
- 17) 7,324 tons gravel surface;
- 18) 30 tons liquid asph. Type SC-2 seal;
- 19) 226 tons do (roadmix);
- 20) 3.04 miles roadmix;
- 21) 112 c.y. Class A concrete;
- 22) 9 c.y. Class B concrete;
- 23) 8,810 lbs. reinf. steel;

- (24) 260 sq. yds. mesh reinf.;
- (25) 102 MFMB of redwood, small structures;
- ALTERNATE A—(Redwood Culvert)
- 26) 12.3 MFMB redwood;
- ALTERNATE B—(Douglas Fir Culvert)
- (27) 11 MFMB treated Douglas fir;
- (28) 1 MFMB untreated Douglas fir;
- (29) 128 lf. 8-in. CMP (dipped);
- (30) 284 lf. 18-in. CMP (dipped);
- (31) 39 lf. 24-in. CMP (dipped);
- (32) 30 lf. 36-in. CMP (dipped);
- (33) 35 c.y. grouted hand-laid rip-rap;
- (34) 12 lf. beam type metal guard rail;

- (35) 22 ea. culvert markers;
- (36) 8,224 lf. reconstruct fence;
- (37) 33 each, monuments;
- (38) 8 ea., embankment protectors;
- (39) 5 each, move mail boxes.

Total bids follow:

- (A) Dodge Construction Co., Inc., Fallon, Ne., \$35,495.22.
- (B) J. A. Casson, Hayward, Cal., \$36,151.16.
- (C) Utah Construction Co., Ogden, Utah, \$39,456.50.
- (D) Isbell Construction Co., Reno, \$40,837.22.

BIDS WANTED

SAN DIEGO COUNTY, Calif.—As previously reported, until March 17, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Room 808, State Building, Los Angeles, for grading and paving with Portland cement concrete and asphalt concrete about 9.7 miles on Pacific Highway, between Barnett Ave. and Miramar Road, in the City of San Diego.

Work involves:

- (1) clear and grubbing;
- (2) 6,200 M. gals. water;
- (3) 173,000 c.y. roadway excavation, without class;
- (4) 2,000 c.y. ditch and channel excavation;
- (5) 4,008,000 sta. yds. overhaul;
- (6) 4,250 c.y. struc. excav.;
- (7) 28,600 c.y. import borrow;
- (8) 535 c.y. remove concrete;
- (9) 47,800 l.f. remove existing side forms;
- (10) 106,200 sq. yds. preparing sub-grade;
- (11) 508 sta. finishing roadway;
- (12) 1,750 tons min. aggr., plant-mix surf.;
- (13) 90 tons liq. asph., MC-5 or MC-extra heavy, plant-mix surf.;
- (14) 3 tons liq. asph., MC-3, seal coat;
- (15) 880 tons liq. asph., SC-2, road-mix surf. treatment;
- (16) 104,700 sq. yds. preparing, mixing and shaping shoulders, gutter slopes and dikes;
- (17) 35,600 sq. yds. asph. paint binder;
- (18) 1,350 tons asphalt cement asph. concrete;
- (19) 14,800 tons min. aggr. asph. conc. base and leveling course;
- (20) 10,850 tons min. aggr. asph. conc., Type A surface;
- (21) 11,030 c.y. Class A portland cement concrete pavement;
- (22) 22,700 each, pave. dowels;
- (23) 1,170 c.y. class A portland cement concrete curbs;
- (24) 10 c.y. class A portland cement concrete railing;
- (25) 674 c.y. class A portland cement conc. strucs.;
- (26) 205,500 lbs. bar reinf. steel pave. and strucs.;
- (27) 19,950 each, curb anchors;
- (28) 20 l.f. 12-in. standard reinforcing concrete pipe;
- (29) 432 l.f. 18-in. standard reinf. conc. pipe;
- (30) 356 l.f. 24-in. standard reinf. conc. pipe;
- (31) 200 l.f. 30-in. standard reinf. conc. pipe;
- (32) 156 l.f. 36-in. standard reinf. conc. pipe;
- (33) 148 l.f. 48-in. standard reinf. conc. pipe;
- (34) 24 l.f. 60-in. standard reinf. conc. pipe;
- (35) 1,046 l.f. 8-in. CMP;
- (36) 226 l.f. 18-in. CMP;
- (37) 568 l.f. 24-in. CMP;
- (38) 56 each, splyw. assemblies;
- (39) 3,218 l.f. 8-in. perf. metal pipe;
- (40) 750 c.y. rock filling material;
- (41) 1,308 l.f. port circle C M cross drains;
- (42) 183 l.f. remove, clean and relay existing pipe culverts;
- (43) 960 l.f. remove, clean and salvage existing pipe culverts;
- (44) 10 each, remove and reset existing spillway assemblies;
- (45) 1,140 l.f. laminated guard railing;
- (46) 230 l.f. remove and reset existing guard railing;
- (47) 457 each, remove and reset existing guide posts;
- (48) 84 each, remove and reset existing culvert markers;
- (49) 71 each, culvert markers;
- (50) 2.4 miles, remove and reset existing property fences;

- (51) 2 sections pave. crossing devices, Type B-10;
 - (52) 500 lbs. misc. iron and steel;
 - (53) 390 lbs. bronze expansion plates;
 - (54) 1 lot misc. items of work;
 - (55) 250 l.f. temporary railing;
 - (56) 137,300 each, ice plants;
- ALTERNATE ITEMS**

- (57) 360 l.f. furnish cast in place conc. piles, type not requiring mandrel;
- (58) 18 each, driving steel shells, type not requiring mandrel; (Alternate "B")
- (59) 360 l.f. furnish cast in place concrete piles, mandrel type;
- (60) 18 each, driving steel shells, mandrel type; (Alternate "C")
- (61) 360 l.f. furnish precast concrete piles;
- (62) 18 each, driving precast conc. piles.

NOTE: A bidder is required to submit a bid on one Alternate, and may, but is not required to, submit bids on all the Alternates.

The contract will be awarded unless all bids are rejected to the lowest responsible bidder for the work as a whole, irrespective of the Alternative on which his bid is based. Item (50) previously reported incorrectly. 29

LOW BIDDER

SAN BENITO, Monterey, San Luis Obispo and Santa Barbara Counties, Calif.—Bert Hale, Pismo Beach, at \$6658.50 (\$1.93 per barrel), submitted low bid to the State Division of Highways, L. H. Gibson, District Engineer, District V, 50 Figueroa Street, San Luis Obispo, for applying diesel oil to roadside vegetation for about 242.6 miles at various locations in San Benito, Monterey, San Luis Obispo and Santa Barbara Counties, Calif.

Complete bids will be published shortly. 29

CONTRACT AWARDED

YOLO CO., Calif.—Fredericksen & Westbrook, P. O. Box 138, Lower Lake, at \$14,271.25 was awarded the contract by the State Division of Highways, Sacramento, for 3.8 miles grading, surfacing with gravel base and applying penetration oil treatment between 1.4 miles north of Bacchinis Corner and Route 88, Yolo County. 29

CONTRACT AWARDED

MERCED, Mariposa and Stanislaus Cos., Cal.—Sheldon Oil Co., Suisun, at \$2614.50 was awarded contract by the State Division of Highways, Sacramento, for applying diesel oil to roadside vegetation for about 131.4 roadside miles at various locations in Merced, Mariposa, and Stanislaus counties. The work involves 1050 barrels of diesel oil. 29

BIDS REJECTED

OREGON STATE.—The Oregon State Highway Commission, Public Service Bldg., Portland, rejected all bids for furnishing 9450 c.y. crushed rock in stockpiles, Bandon-Port Orford Section of Oregon Coast Highway, State Project. Coos and Curry Counties. Bids will be readvertised. Homer Johnson, Imperial Hotel, Portland, at \$24,210 submitted the low bid. 29

CONTRACT AWARDED

IMPERIAL COUNTY, Cal.—R. E. Hazard & Son, 2548 Kettner Blvd., San Diego, at \$26,301.25, awarded contract by the State Division of Highways, Sacramento, for applying road-mix surface treatment to 23.8 miles of existing roadbed between New River and two miles west of

Calipatria and between five miles and two miles west of Brawley, Imperial County. 29

CONTRACTS AWARDED

OREGON STATE.—Oregon State Highway Commission, Public Service Bldg., Portland, awarded following contracts for highway construction:

BAKER COUNTY: Baker-Durkee Section of Old Oregon Trail, State Project. Furnishing approximately 5000 c.y. crushed rock in stockpiles. Awarded: Rogers Const. Co., Dayton, Wash., \$9400.

Other Bidders: Babler Bros., Portland, \$14,050; Schmeer, Williams & Gentemann, Portland, \$14,750; Homer G. Johnson, Portland, \$15,250.

DOUGLAS COUNTY: Drain, Rock Production Project on Pacific and Umpqua Highways, State Project. Furnish approximately 5,800 cu. yds. crushed rock or crushed gravel in stockpiles.

Awarded: Eugene Sand and Gravel Co., Eugene, Oregon, \$11,948.

Other Bidders: Homer G. Johnson, Portland, \$13,630; Inter-City Sand & Gravel Co., Eugene, \$13,920; A. S. Wallace, Roseburg, \$14,500; Umpqua River Navigation Co., Gardner, \$14,732.

DOUGLAS COUNTY: Wilson Ranch-Steuberg Section of Umpqua Highway, State Project; 7.61 miles light oil treatment.

Awarded: Babler Bros., 2407 NW 28th, Portland, \$14,862, for tar.

Other bidders: J. C. Compton, McMinnville, \$15,320, tar; R. O. Dai and Warren Bros., Portland, \$15,568, tar; \$15,509, road oil; Warren Northwest, Inc., Portland, \$16,298, tar.

Klamath and Lake Counties: West Forest Boundary-Horse Ranch Section of Fremont Highway, State Project; 16.24 mi. light oil treatment.

Awarded: J. C. Compton, McMinnville, \$13,901.

Other Bidders: Warren Northwest Inc., Portland, \$13,786; McNutt Bros Eugene, \$14,729; Harold Blake, Portland, \$15,685; Babler Bros., Portland, \$16,410; Clifford A. Dunn, Klamath Falls, \$16,528; A. Minn, Portland, \$17,068; E. C. Gerber, Oregon City \$17,068; Diesel Oil Sales Corp., Seattle, \$20,179.

Malheur County: Juntura-Harpe Section of Central Oregon Highway State Project; 34.52 miles light oil treatment.

Awarded: J. C. Compton, McMinnville, \$23,334.

Other Bidders: Harold Blake, Portland, \$24,902; Warren Northwest, Inc. Portland, \$25,691; McNutt Brothers Eugene, \$27,850; Clifford A. Dunn Klamath Falls, \$29,150; Diesel Oil Sales Corp., Seattle, \$31,445; E. C. Gerber, Oregon City, \$31,504.

Umatilla County: Hermiston-Cold Springs Section of Hermiston Secondary Highway, Federal Aid Secondary Project No. FAS 4-A; 1.5 mi. surfacing and 6.55 mi. oiling also furnish 1,600 c.y. crushed rock in stock piles. Requires approximately 2,600 c.y. selected roadbed topping; 2,800 c.y. crushed rock, and 69,900 sq. yds. oil mat surface treatment.

Awarded: Rogers Const. Co., Dayton, Wash., \$21,342.

Other Bidders: E. C. Gerber, Oregon City, \$22,591; Babler Brothers Portland, \$23,375; Warren Northwes Inc., Portland, \$23,411; R. O. Dai and Warren Bros., Portland, \$24,889; Kern & Kibbe and New Port Const Co., Klamath Falls, \$27,466.

CONTRACT AWARDED

CALAVERAS, STANISLAUS, TUOLUMNE AND AMADOR Cos., Cal.—Sheldon Oil Co., Suisun, at \$3112.50

was awarded contract by the State Division of Highways, Public Works Bldg., Sacramento, for applying diesel oil to roadside vegetation for about 175.5 roadside miles at various locations in Calaveras, Stanislaus, Tuolumne and Amador Counties. Work involves about 1250 bbls. of diesel oil. * 29

BIDS OPENED

STATE OF OREGON.—Following submitted bids to the Oregon State Highway Commission, Public Service Bldg., Portland, for highway and bridge construction, as follows:

Douglas County: Mystic Creek-Brockway Section of Coos Bay-Hoseburg Highway, State Project. Furnish approximately 6,650 cu. yds. crushed gravel in stockpiles.

Low Bidder: D. L. Ashton, Lebanon, \$11,571. Referred to engineer.

Other Bidders: Saxton, Looney & Risley, Portland, \$11,770; R. O. Dall and Warren Bros., Inc., Portland, \$11,837; A. S. Wallace, Roseburg, \$11,937; Homer G. Johnson, Portland, \$13,632.

Grant and Wheeler Counties: Service Creek-Branson Creek Section of John Day Highway, State Project; 27.77 miles light oil treatment.

Awarded: Harold Blake, 400 North Thompson, Portland, \$18,482.

Other Bidders: Warren Northwest Inc., Portland, \$18,504; McNutt Bros., Eugene, Ore., \$19,267; Babler Bros., Eugene, \$21,442; Diesel Oil Sales Co., Seattle, \$22,054; C. A. Dunn, Klamath Falls, \$22,415; R. O. Dall and Warren Bros., Portland, \$29,996; J. C. Compton, McMinnville, \$23,393; E. C. Gerber, Oregon City, \$29,181; Joplin and Eldon, Portland, \$29,969.

Harney County: Lake County Line Gap Ranch Section of Central Oregon Highway, Federal Lands Highway Project No. FLH 6-A and Federal Aid Project No. 148-D; 7.61 mi. of oil mat surface treatment.

Awarded: A. Milne, 7523 NE Broadway, Portland, \$18,902.

Other Bidders: Babler Bros., \$20,625; C. A. Dunn, \$20,657; J. C. Compton, \$21,216; E. C. Gerber, \$22,249; R. O. Dall and Warren Bros., Inc., \$22,995; Warren Northwest, Inc., \$23,388; McNutt Bros., \$23,176; Harold Blake, \$24,770.

Hood River and Wasco Counties: Hood River Rock Production Project on Columbia River and Mt. Hood Highways; State Project; furnish approximately 10,100 cu. yds. crushed rock in stockpiles.

Low Bidder: Schmeer, Williams & Gentemann, Wilcox Bldg., Portland, \$12,467. Referred to engineer.

Other Bidders: Fisher Bros., Oregon City, \$12,524; John J. Dann, Portland, \$12,977; A. C. Greenwood, Portland, \$14,140; J. S. Johns & Co., Goldendale, Wash., \$14,140; O. C. Yocum, Portland, \$14,544; H. L. Rice, Portland, \$14,544; Saxton, Looney & Risley, \$14,978; A. S. Wallace, \$15,150; Jones-Scott Co., Walla Walla, \$15,352; C. A. Dunn, \$15,393; Joplin & Eldon, \$15,559; Rogers Constr. Co., Dayton, Wash., \$15,857; R. O. Dall and Warren Bros., \$16,109; E. C. Hall, Eugene, \$17,675; Homer G. Johnson, \$17,675.

Jackson County: Eagle Point-Baker Gulch Section of Little Butte Secondary Highway; Federal Aid Secondary Project No. FAS 239-B; 3.20 miles of oil mat surface treatment.

Awarded: C. A. Dunn, Klamath Falls, \$8935.

Other Bidders: Babler Bros., \$9,122; J. C. Compton, McMinnville, \$9,528; Warren Northwest, Inc., \$10,101; Jackson County Gold Hill Rock Production Project on Pacific Highway and Sams Valley Secondary Highway; State Project; furnish ap-

proximately 7,100 cu. yds. crushed gravel in stockpiles.

Low Bidder: A. S. Wallace, Roseburg, \$8905. Referred to engineer.

Other Bidders: D. L. Ashton, Lebanon, \$10,097; R. I. Stuart & Son, Medford, \$10,820; C. A. Dunn, \$11,310; Saxton, Looney & Risley, \$11,330; Mountain States Constr. Co., Eugene, \$11,375; Homer Johnson, \$13,860.

Lane County: Hill Creek Bridge Section of Pacific Highway; Federal Aid Project No. 161 E; 0.20 mile grading and paving and construction of 75 feet of frame trestle with concrete roadway. Requires approximately 1,800 cu. yds. excavation, 2,400 cu. yds. surfacing materials, 2,500 sq. yds. concrete pavement, 75 cu. yds. class D concrete, 17,000 lbs. metal reinforcement, and 20 MFMBM creosoted lumber.

Low Bidder: Edlefsen-Weygandt Co., Portland, \$16,137.

Other Bidder: Mountain States Constr. Co., Eugene, \$16,667.

Tillamook County: Mohler-Kilchis River Section of Oregon Coast Highway, State Project. Furnish approximately 8,000 cu. yds. crushed rock or crushed gravel in stock piles.

Awarded: Mountain States Construction Co., Eugene, \$10,400.

Other Bidders: Dolan Constr. Co., Tillamook, \$12,608; O. C. Yocum, \$12,640; Saxton, Looney & Risley, \$13,312; F. C. Feldshau & Son, Tillamook, \$14,000; Joplin & Eldon, \$15,400; R. O. Dall and Warren Bros., \$15,840; D. L. Ashton, \$15,840; A. S. Wallace, Roseburg, \$16,000; Homer Johnson, \$16,400.

Tillamook County: Lake Lytle Outlet Bridge Section of Oregon Coast Highway, Federal Aid Project No. 129C. Construction of 153 feet of pile Trestle with concrete roadway. Requires approximately 1,400 l.f. creosoted piling, 28 MFMBM creosoted lumber, 120 c.y. concrete, and 27,000 lbs. metal reinforcement.

Awarded: Mountain States Constr. Co., Eugene, \$11,090.

Other Bidders: L. H. Hoffman, 715 SW Columbia, Portland, \$11,187; J. F. Johnston, Newberg, \$11,220; Leonard & Slate, Multnomah, \$11,400; Dolan Constr. Co., \$12,484; Edlefsen-Weygandt Co., \$12,765; Makela Construction Co., \$12,848; Shattuck and Neland, Couch Bldg., Portland, \$15,562; Frank Watt, Portland, \$16,937. * 29

BID & WANTED

INGLEWOOD, Los Angeles Co., Cal.—Until March 1, 7:30 p.m., bids will be received by the Inglewood city council for furnishing and laying a welded steel pipe line in Freeman Blvd., between Redondo Blvd. and Arbor Vitae St., involving:

- (1) 660 ft. 10-in. welded steel pipe;
 (2) 3188 ft. 12-in. welded steel pipe;
 (3) furnish and install two 12-inch laterals, 23 feet long, with flanged outlet ends;
 (4) furnish and install one 8-inch lateral outlet, 2 1/2 feet long, with flanged end;
 (5) furnish and install ten 6-inch lateral outlets, 2 1/2 inches long, with flanged outlet ends;
 (6) furnish and install one 10-inch x 6-inch and one 12-inch x 6-inch welded steel crosses with flanged outlets;
 (7) install in the main line, three 12-inch and one 10-inch flanged gate valves (to be furnished by the city).

Specifications may be obtained at the office of the city engineer, Arthur W. Cory. Certified or cashier's check or bond, 10%. Otto H. Duelke, city clerk. * 31

COCHISE COUNTY, ARIZ.—Highway Improvement—(State)

COCHISE CO., Ariz.—Tanner Construction Co., 801 Security Building, Phoenix, at \$75,285.77, submitted low bid to the Arizona State Highway Commission, Phoenix, for improvement of Ft. Huachuca-Bisbee Highway, F.A. 133A (1938), AFE 9202 and F.A. 133B (1938), AFE 9203. The work, which is approximately located between 9 and 15 miles west of Bisbee, consists of grading, draining, aggregate base course and asphalt surface treatment and is to be completed on or before August 15.

Work involves:

- (1) 4030 c.y. roadway excav., uncl.;
- (2) 1339 c.y. drainage excav., uncl.;
- (3) 1402 c.y. struc. excav., uncl.;
- (4) 3465 sta. yds. sta. yd. overhaul;
- (5) 46,829 c.y. imported borrow (CIP);
- (6) 23,955 c.y. select material (CIP);
- (7) 12,731 tons aggreg. base course (CIP);
- (8) 4000 c.y. stripping pits;
- (9) 2825 M. gals. sprinkling (CIP);
- (10) 700 hrs. rassing;
- (11) 769 c.y. class A concrete (incl. cement);
- (12) 190 c.y. class D concrete (incl. cement);
- (13) 77,765 lbs. reinf. steel bars, struc.

- or inter. grade (CIP);
- (14) 47,625 lbs. reinf. steel bars, Inter. grade (CIP);
- (15) 4,724 lbs. struc. steel (CIP);
- (16) 778 lf. 24-in. CMP (CIP except excavation);
- (17) 112 lf. 30-in. CMP (CIP except excavation);
- (18) 224 lf. 36-in. CMP (CIP except excavation);
- (19) 2 each, cattle guard, for slide-road (CIP except conc. and excavation);
- (20) 40,387 lf. standard line fence (CIP);
- (21) 16 each, standard wire gates, Type 2 (CIP);
- (22) 56 each, guide posts (CIP);
- (23) 22 each, R/W markers, Type A (CIP);
- (24) 276 tons cutback asphalt, MC-2, for AST (CIP);
- (25) 3 tons cutback asphalt, MC-4, for oil mix and seal coat (CIP);
- (26) 493 c.y. blotter matl., for AST and seal coat (CIP);
- (27) 625 lf. furnishing and driving piles (CIP);
- (28) 1 lump sum, furnishing and driving test pile (CIP);
- (29) 1 lump sum, loading test pile;
- (30) 324 sq. yd. furnishing and placing oil mix (CIP except cement agent);

- (31) 215 lf. rail bank protection, type A (CIP);
 - (32) 99 tons salvage and relay old oil mix (CIP except seal coat);
 - (33) 200 c.y. stockpiling blotter material (CIP in stockpile).
- Total bids follow:
- (A) Tanner Constr. Co., 801 Security Bldg., Phoenix—\$75,285.77.
 - (B) Warren Southwest, Inc., Los Angeles—\$78,365.15.
 - (C) Pearson & Dickerson Contrs., Inc., Prescott—\$80,702.90.
 - (D) J. A. Casson, Phoenix and Hayward, Cal.—\$81,207.02.

MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

TREASURY DEPARTMENT

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 4th Street, San Francisco, for furnishing supplies and materials and rental of equipment, as follows:

MARCH 1, 10 A. M.:

BID NO. 5072: Rental of one motor passenger coach, having a capacity of not less than 38 seated passengers and 20 standing to operate daily between Vassar and Spruce Sts., Berkeley, and a farm house on Wildcat Canyon Road;

BID NO. 5073: Rental of one motor passenger coach, having a capacity of not less than 38 seated passengers and 20 standing to operate daily between Vassar and Spruce Sts., Berkeley, and a farm house on Wildcat Canyon Road.

MARCH 2, 10 A. M.:

BID NO. 5074: 465 tons asphalt concrete and 319 tons plant mix surfacing; fob San Jose.

SAN FRANCISCO.—Bids will be received by the U. S. Treasury Department, J. W. Knox, Procurement Officer, Room 518, 49 4th St., San Francisco, for furnishing supplies and materials, and rental of equipment, as follows:

MARCH 2, 10 A. M.:

BID NO.5081: Douglas fir lumber of various sizes; fob 1520 Oak St., Oakland.

MARCH 3, 10 A. M.:

BID NO. 5061: Rental of one tractor, crawler type, not less than 48-hp equipped with angle dozer; fob Boulder Creek Bridge, 30 miles east of Eureka;

BID NO. 5077: 1660 redwood split posts and 1920 FBM dense select all heart structural redwood lumber; fob Salinas;

BID NO. 5079: 4500 l.f. galv., steel pipe; fob 1829 Cypress St., Oakland;

BID NO. 5080: 549 tons of crusher run base rock; fob Outer Harbor Terminal, Oakland.

MARCH 7, 10 A. M.:

BID NO. 5078: 400 tons natural rock asphalt; fob cars and/or San Jose.

SAN FRANCISCO CITY

SAN FRANCISCO.—Until March 4, 3 P. M., bids will be received by the Purchaser of Supplies, T. A. Brooks, 270 City Hall, under Bid No. 1969, for furnishing 8657 feet, 6 pair and 2500 feet, 15 pair underground cable. Plans and specifications may be obtained from the above office.

SAN FRANCISCO.—Until March 4, 3 P. M., bids will be received by the Purchaser of Supplies, T. A. Brooks, 270 City Hall, under Bid No. 1967, for furnishing 500 $\frac{3}{4}$ -inch by $\frac{3}{4}$ -inch water meters for the San Francisco Water Department. Plans and specifications may be obtained from the above office.

SAN FRANCISCO.—Until March 4, 3 P. M., bids will be received by the Purchaser of Supplies, T. A. Brooks,

270 City Hall, under Bid No. 1968, for furnishing and delivering reinforcing steel and wire fabric.

Plans and specifications may be obtained from the above office.

U. S. FOREST SERVICE

GOVERNMENT ISLAND, Calif.—Bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, Oakland, for furnishing supplies and materials, as follows:

BID NO. 5468—Two 45-ft. continuous beam spans, including all structural steel bolts for field connections, bolts for superstructure and all misc. steel portions necessary for erection of Hunter's Bridge; f.o.b. Ukiah, Calif.

GOVERNMENT ISLAND, Calif.—Until March 4, 2 P. M., bids will be received by the Forest Service Supply Depot, Frank Haynie, Supply Officer, Government Island, for furnishing supplies and materials, as follows:

BID NO. 5471: Materials and casting branding irons, CCC with handles; fob Government Island;

BID NO. 5472: Steel stamps, CCC, 3/16-inch letters; fob Government Island.

WAR DEPARTMENT

FORT MASON, Cal.—Until March 3, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, San Francisco, under Bid No. 928-38-241, for furnishing electrodes, pump tires, nuts, rivets, miscellaneous automobile and truck parts for Dodge, Chevrolet, Federal and Ford; f.o.b. Motor Warehouse No. 6, Presidio of San Francisco, Cal.

SACRAMENTO, Cal.—Until March 1, 3 p. m., bids will be received by the U. S. Engineer Office, Col. L. B. Chambers, District Engineer, Room 208, Post Office Bldg., Sacramento, for furnishing supplies and materials, as follows:

BID NO. 1105-38-207—Elbows, tees, brass unions, reducers, drills, screws and nuts; f.o.b. Rio Vista, Cal.

Vol. XXI SAN FRANCISCO, CALIF., MARCH 2, 1938 10

S. F. Works Dept. Asks Street Widening Bids, Awards Sewage Digester Contract

Bids for another job in San Francisco's \$2,000,000 municipal construction program for the first six months of 1938 yesterday were called by Director William H. Worden of the Department of Public Works.

Bids will be opened March 16, Mr. Worden announced, for widening and reconstructing Golden Gate avenue from Van Ness avenue to Taylor street.

The job will cost approximately \$43,000, according to the estimate of City Engineer John J. Casey.

Narrower Sidewalks

Plans call for reducing sidewalks on both sides of the street from fifteen to ten feet, and the construction of a concrete parking strip adjacent to the curb.

Principal items include: 46,000 square feet of pavement removed; 32,000 square feet of 8-inch concrete paving; 46,000 square feet of 6-inch asphaltic concrete wearing surface; 16,800 square feet of 2-course concrete sidewalk; and 7,000 square feet of asphaltic wearing surface removed.

Awarded yesterday to Clinton Construction Company, at \$70,950, was the contract for construction of a primary digester in the Richmond-Sunset Sewage Treatment Plant, now under construction. The contract was awarded under Proposition A.

Bernal Cut Paving

Bids for construction of permanent pavement on sections of Bernal Cut will be called in about thirty days, it is expected. The plans and specifications for the \$50,000 project have been completed. However, the bid call has been delayed by slides resulting from the recent excessive rains. Slides caused considerable trouble in portions of the cut, according to engineers, and new surveys are being taken.

Plans for reconstruction of certain streets in the Golden Gate Heights District are about fifty per cent complete, it was announced. The project is estimated to cost about \$25,000, and will be paid partially by the city, partially by assessment.

The work will be done in various streets running roughly, as follows:

from Fourteenth avenue and Pacheco to Fourteenth avenue and Quintara to Cragmont and Quintara to Rockridge drive and Funston avenue.

Third Street Project

Also about fifty per cent completed are plans for widening and reconstructing Third street from Channel to Howard streets. The job is estimated to cost about \$67,000. The work involves reducing sidewalks from fourteen to ten ft. with the construction of a seven-foot concrete parking strip adjacent to the curb.

With contracts for the Lowell High School boys' gymnasium awarded, contractors this week turned to the George Washington High School boys' and girls' gymnasium for which plans have been completed. The State Division of Architecture has approved the plans and bids will be called shortly, it is expected. Estimated cost of the job, including construction of an athletic field, is \$300,000, according to City Architect Charles H. Sawyer. The gymnasium and athletic field will be constructed under separate contracts, it is believed.

Junior College Plans

Architectural plans for the initial unit of San Francisco Junior College were completed this week, according to Mr. Sawyer. Mechanical plans will be finished this month. Adverse weather conditions have delayed work on the foundations of the proposed Science Building, so bids will not be called until April, he said. Other Bureau of Architecture projects include plans for the Laguna Honda Home and the Hassler Health Farm. Preliminary plans for the latter have been approved.

BIDS MARCH 15 FOR PETALUMA SEWER PROJECT

Advertise Third Contract in Program; Oakland Sewer Early, Hold Others

Bids for construction of Unit C of the Municipal Sewage Disposal Project in Petaluma will be opened March 15, it was announced Saturday.

Construction of the sewage disposal project was divided into three contracts. Two contracts have been awarded; the third was placed on the market Saturday.

Contract A called for construction of mainline intercepting sewers for the project. The contract was awarded last December to the Oakland Sewer Construction Company at the bid price of \$71,168.80.

Coincidentally Contract B was awarded to Fred J. Early, Jr., at \$98,146. Contract B involved construction of a pumping plant and treatment works.

Contract C involves installation of sewer pipe; manholes, catchbasins; catchbasin lateral, and house sewer connections.

Engineer Harry N. Jenks of Berkeley, prepared plans and specifications for the job. Last June, Petaluma voters approved a \$225,000 bond issue for construction of the plant. The remainder of the \$315,800 estimated cost was made up by a PWA grant of \$142,100.

The project consists of construction of intercepting sewers, river crossing, storm water sewer separation, sewage pumping plant and treatment plant. The sewer system and treatment plant were desired to remedy an unsanitary condition in the river bottom. The separate storm water system was planned primarily to limit the amount of pumpage and treatment of the intercepted flow from the west and east sections of the city.

The Lighting Division of Westinghouse Electric and Manufacturing Company, Cleveland, Ohio, announces distribution of a leaflet, "Storlite Luminaires" which will be sent without charge upon request.

UNION PAVING LOW BIDDER ON AIR DEPOT JOB

Eight Firms Submit Bids for Construction of Runways and Drains

SACRAMENTO, March 1.—The Union Paving Company, San Francisco, at \$206,600, today submitted the low bid to the Construction Quartermaster, Sacramento Air Depot, for construction of runways and drainage facilities at the air depot.

Eight firms submitted bids on the contract.

Specifications called for furnishing all material and equipment and performing all labor necessary to construct paved runways and taxiway of 6-inch plant-mix stabilized soil base, using all imported materials; to construct storm drains with concrete pipe, including manholes, inlets, headwalls, concrete gutter, open ditches, with all connections and appurtenances necessary to construct the electrical duct lines.

On the first two propositions, five deductions for omitting various taxiways and appurtenances were included.

Bidders could submit bids on items one through six; items seven through twelve; or items thirteen through eighteen.

In the following list of bids the figures one and seven are used to indicate the propositions.

Bids were: Union Paving Company, (1) \$206,600, (7) \$201,500; Piazza and Huntley, (1) \$228,000; J. R. Reeves, (7) \$229,100; J. A. Casson, (1) \$233,368; (7) \$224,972; Pacific States Construction Co., (1) \$259,300; (7) \$252,000; Eaton & Smith, (1) \$265,000, (7) \$235,000; A. Teichert and Son, (1) \$288,000, (7) \$276,090; Bodenhamer Construction Co., (1) \$276,890 (7) \$248,890.

No bids were submitted on items thirteen through eighteen.

UNPICKABLE LOCK CLAIMED BY SEGAL

A new lock, claimed to be unpickable, has been placed on the market by the Segal Lock & Hardware Company, Inc., 261 Broadway, New York City. Information regarding the lock may be obtained without cost by writing the manufacturer at the above address.

Samuel Segal, inventor of the Segal Jimmyproof Lock, former detective with the New York Police Department, invented the new lock. Underwriters' Laboratories, bureau of standards for the insurance companies, have tested the lock and believe it to be unpickable, according to the company. The new invention can easily be stalled on any lock at present in use by replacing the present cylinder with a Segal non-pickable cylinder, it is announced.

JOHNSON LOW FOR PENDLETON LEVEE

BONNEVILLE, Ore., Mar. 2.—Homer G. Johnson, Portland, Ore., today submitted low bid to the U. S. Engineer Office here for extending, raising and strengthening the existing levee between Roundup Grounds and the sewage disposal plant along the Umatilla River at Pendleton, Oregon. Amount of the low proposal was \$28,820.

The project will involve about 8700 cubic yards excavation for rock toe; 27,100 cubic yards borrow excavation; 9000 tons rock toe protection; and 9600 tons of riprap.

Two Units of 1939 Fair Storm Sewer System Completed

In the construction of the \$200,000 storm sewer project for the drainage of Treasure Island, site of the 1939 Golden Gate International Exposition on San Francisco Bay, approximately 20 miles of redwood pipe is being used.

Close to 100,000 lineal feet of pipe has already been installed under the first two contracts to be let for this work. The first unit completed by Eaton & Smith at a cost of \$79,567 called for a total of 77,116 feet of redwood stave pipe ranging from ten to thirty-four inches. The second unit requiring 18,268 feet of pipe from ten to thirty-six inches, together with leader runs has been finished by the same firm at a figure of 75,072. These contracts called for pipe of redwood staves milled from clear redwood lumber properly seasoned, free from knots and with a moisture content of not more than 20 per cent. Some of the dimensions were built in the ditch with tongue and groove staves while other sizes were machine banded and brought in longer lengths to be put together on the job.

Drainage of the man-made 400-acre island will be accomplished by ten separate gravity storm sewer systems, each system draining a portion of the area from the center to the seawall, discharging through corrugated culverts. Collection will be through 400 catch-basins. The majority of heads are at an elevation of plus 11 feet, while outlets through the seawall are at an elevation of 6 feet above mean high tide. The shallowest depth of the pipe line is two feet below the surface with an average of three feet. Grades vary from .0015 to .0040. These systems were designed to take off an intensity of rainfall up to 2.05 inches per hour for five minutes, an intensity which may be expected to occur once in a two-year period.

WEATHER SLOWS S. F. BUILDING PERMIT VOLUME

February Building in City Totals \$785,552; Rains Cause Marked Decline

The rains came to San Francisco and the building permit total for February dropped to \$785,552.

That's the story, according to the monthly building permit report released yesterday by Chief Clerk S. J. Rosenblum of the Central Permit Bureau.

During February, 1938, 420 permits were issued for construction estimated to cost \$785,552, a marked decline from the February, 1937 record of 578 permits issued for construction valued at \$1,219,567.

Last month's total wiped out the gains registered in January. In the first two months of 1938 955 permits were issued for construction valued at \$2,361,803. In the same period in 1937, 1083 permits were issued for a total valuation of \$2,444,942.

Two Classes Gain

The January, 1938 record was 535 permits for work costing \$1,576,251. Drops were registered in all but two classifications in February. In February two permits amounting to \$76,600, and three permits amounting to \$108,595 were issued in the Class B construction and Exposition classifications, respectively. Totals in these groups were lower in January.

The frame construction total for February was 93 permits for \$391,760, as compared to \$815,540 in January, and \$716,200 in February 1936.

Following is the classified building permit total for February, 1938 and February, 1937:

Class.	Feb., 1938		Feb., 1937	
	No.	Est. Cost	No.	Est. Cost
A		\$	2	\$ 35,000
B	2	76,000	2	130,000
C	5	20,500	9	113,500
Frames	93	391,760	155	716,200
Alter.	317	188,699	406	219,900
Public			1	4,960
1939 Expn.	3	108,593		
Total	420	\$785,552	578	\$1,219,567
1938 (2 mos.)			1937 (2 mos.)	
No. Est. Cost	955	\$2,361,803	1,083	\$2,444,942

AT NEW LOCATION

William Pfister, proprietor of the Industrial Ornamental Iron, Bronze & Wire Works, announces that the plant is now located at 1526-28 Folsom street, San Francisco. Formerly located at 552 Noe street, the plant was moved to provide additional service facilities as a result of steadily increasing business, Mr. Pfister said.

Housing Program Slated for Discussion At A.I.A. National Convention in April

More than 600 delegates will participate in the seventieth convention of the American Institute of Architects, which will be held in New Orleans April 19 to 22, it is announced by the president of the Institute, Charles D. Maginnis of Boston.

Moise H. Goldstein of New Orleans, regional director of the district, has been appointed chairman of the convention committee of the Institute, which will cooperate with a committee of the New Orleans Chapter, of which F. Julius Dreyfous is president, in arranging the program of events. Delegates from the Institute's 70 chapters, including many of the nation's leading architects, will attend.

Housing will be a chief theme of the session, at which scores of reports and addresses dealing with practically every phase of architecture and construction will be presented. The report of the Institute's Housing Committee will be made by the chairman, Walter R. McCormack of Cleveland. The report will describe the development of a 1938 program which the Institute is fostering with the aid of other groups in the building industry.

Steps are being taken to place a consulting architect on the technical staff of every local housing authority set up under the Wagner-Steagall Act, Mr. McCormack says in outlining the plans of the Institute, which will take shape at the New Orleans assembly.

"In spite of the difficulties in the way of any considerable accomplishment in the housing field at the moment, there can be no doubt that the profession is facing an opportunity the scope of which is not yet fully realized," he explains. "Meanwhile there are certain obvious things to be done which have a direct bearing on the architects' effective participation in a future program. There is an increasing realization on the part of housing authorities of the value of architectural advice during the development work.

"Consequently the Committee on Housing suggests that in the creation of local housing authorities, chapters recommend that an architect be appointed as a member of the authority. The Housing Committee has already recommended to the United States Housing Authority that the technical staff of each local authority include a consulting architect.

"While the acceptance of these positions by architects would disqualify them from acting as architects of any of the projects, it would be a sacrifice worth undertaking for the good of the profession and of housing."

A radical reduction of charges and costs is essential to a solution of the problem of the low-cost home, according to the Institute. Among listed objectives are the following:

Exchange to Elect Board of Directors

Eleven members of the San Francisco Builders Exchange board of directors will be elected by the membership March 21, according to R. J. H. Forbes, exchange secretary.

Fourteen nominations have been made. Those nominated, and the crafts they represent, are: James Ahlback, plumbing and heating; J. W. Bender, roofing contractors; Charles W. Carle, reinforcing steel dealers; Sam F. Cohn, painters and decorators; George Czinger, bonds and insurance; Arthur F. Edwards, marble dealers.

A. Faunt, stair builders; R. J. H. Forbes, concrete contractors; W. H. George, building material dealers; Wm. G. Gilmour, master plasterers; Emil Hogberg, masons and builders; J. D. McGilvray, unorganized crafts; N. F. Nielsen, general contractors; and H. H. Patterson, ornamental iron manufacturers.

Revision of building codes, outlawing of jurisdictional disputes, expulsion of racketeers from industry, permission to use new methods of construction which will reduce costs, purchase of land at its use value, revision of taxation methods and lowering the interest rates.

The national housing movement, the small house problem, land utilization, the relations of labor and industry to housing, minimum standards of dwelling units, and city planning will be discussed at meetings in New Orleans sponsored by the Housing Committee.

Progress in many other fields of architecture will be reported. Allied arts, public works, building, education, structural service, public information, preservation of historic buildings, registration laws, civic design, foreign relations, construction industry relations, the professional organization of architects, and the development of the National Capital are among the topics for discussion.

The New Orleans Chapter is arranging tours of historic places in and around New Orleans. Numerous other local events are being planned by committees of this Chapter. The headquarters of the meeting will be at the Hotel Roosevelt. The last convention of the Institute to be held in New Orleans was in 1913.

PRODUCTION AT CEMENT MILLS SHOWS DECLINE

Shipments Drift Lower; Output
Drops; California Mills
Lead All Others

The United States Portland cement industry in January, 1938, produced 4,534,000 barrels, shipped 4,390,000 barrels, and had in stock at the end of the month 25,022,000 barrels, according to the monthly report of the Bureau of Mines.

Production and shipments of Portland cement in January, 1938, showed decreases of 31.5 and 6.4 per cent, respectively, as compared with January, 1937. Portland cement stocks at the mills were 2.6 per cent higher than a year ago.

With regard to 1937, the report said: "The factory value of the shipments from the mills in 1937—114,010,000 barrels—is estimated at \$169,807,000, representing an average value of \$1.49 per barrel."

According to the reports of producers, the shipment totals for 1937 include approximately 3,510,000 barrels of high-early-strength Portland cement with an estimated mill value of \$6,589,000.

Stocks Here Less

In California mills during January, 1938, 695,000 barrels of Portland cement were produced, as compared to 1,005,000 barrels produced during the same month in 1937. Shipments were 801,000, as compared to 882,000 barrels in 1937, and stocks at the end of the month were 1,365,000 barrels, as compared to 1,521,000 barrels in 1937.

Of the twelve cement production districts into which the entire United States is divided, California ranked first in production and shipments. In these classifications California ranked first in 1937, also.

Production of clinker (unground cement) in California during January, 1938, amounted to 789,000 barrels, as compared to production of 1,141,000 barrels in January, 1937. Stocks of clinker at the end of this January were 1,310,000 barrels, as compared to 1,251,000 barrels at the end of January, 1937.

Approximately 3,510,000 barrels of high-early-strength Portland cement with an estimated mill value of \$6,589,000 were manufactured in the United States during 1937, according to the reports of sixty-four manufacturers to the U. S. Bureau of Mines.

The sixty four are located, as follows: one each in Kentucky, New Jersey, Maine, Oklahoma, Tennessee, West Virginia, and Wyoming; two each in Alabama, Colorado, Illinois, Indiana, Missouri, Virginia, and Washington; three in Iowa; four each in Kansas, New York and Ohio; five in Michigan; six in California; seven in Texas; and ten in Pennsylvania.

TERMINAL FOR SPAN RAILWAY 40% COMPLETE

Inclement Weather Hampers Work; Port Overhead Near Completion

With practically 40 per cent of the construction on the San Francisco Terminal for the San Francisco-Oakland Bay Bridge Railway Facilities completed, work was being pushed rapidly on the entire bridge railway project, according to a progress report filed Saturday by Chief Engineer C. H. Purcell with Earl Lee Kelly, Director of Public Works.

San Francisco

While inclement weather hampered construction during the past two weeks, the entire basement slab for the Terminal Building has been completed. Also placed is the concrete slab for the first floor in the center and west units which is 50 per cent finished in the east unit. The mezzanine floor slab in the center unit has been completed by MacDonald & Kahn, general contractors for the Terminal Bldg.

Meanwhile the Columbia Steel Company has completed erection of the structural steel for the First Street Overhead, with 35 per cent of the steel erected for the Fremont Street Overhead connecting the east and center units.

The San Francisco Viaduct, over which bridge trains will ply between the span and the Terminal, is 30 per cent completed by Eaton & Smith, contractors for this project. All timber and concrete piles have been driven. The Harrison Street crossing, within 5 per cent of completion, is now open to traffic, while pier shafts for the east loop between the north and south Beale Street Crossings are within 40 per cent of completion. Work has been started for the viaduct west of First Street.

East Bay

With the erection of railings on the Port of Oakland Overhead, this new highway approach to the Bay Bridge is practically finished. The Overhead, constructed by J. H. Pomeroy & Company, will connect with a four-lane highway at Maritime Street and thence direct to the Port of Oakland. This highway portion of the project is under construction by the City of Oakland.

On the Interurban Electric's (S. P.) 26th Street Overhead, the timber deck for the "Y" structure is being placed by Bates & Rogers Construction Corporation, contractors. Work is under way on the yard signal tower for the East Bay Yards opposite the Toll Plaza. Track bonding by the General Welding Company has continued in this section.

Bridge Proper

With the tie laying completed on the Oakland crossing for the bridge railway, except for curved spans YB-1 to E-1 and E-9 to E-11,

NEW CONTRACT FOR BOULDER POWER SIGNED

The Secretary of the Interior, Harold L. Ickes, this week announced completion of a contract with the Citizens Utility Company of Minneapolis, Minn., which operates the power system serving Kingman County, Ariz., by which the company may buy 50,000,000 kilowatt hours annually from the Boulder Dam Power Plant until December 31, 1954.

The company will pay the regular price for firm energy at Boulder Dam, 1.63 mills per kilowatt hour, and the revenues from the contract, if the maximum allowable is taken, would amount to \$81,500 a year. The power being sold is firm power originally contracted for by the Metropolitan Water District of Southern California, which has announced it will be unable to use the energy on the date at which its contract becomes effective, June 1, 1938.

The contract with the Citizens Utility Company is the second of its type, since on January 28 a similar contract for the sale of a maximum 20,000,000 kilowatt hours annually of unused Metropolitan Water District energy was completed with the Needles Gas and Electric Company, of San Francisco, which serves Needles, Calif., and vicinity. This contract also extends to December 31, 1954; requires the payment of 1.63 mills per kilowatt hour and is otherwise similar to that of the Citizens Utility Company. The contract with the Needles Company would bring a maximum of \$32,600 annually into the Treasury.

Under a provision in the contract with the Metropolitan Water District the Secretary of the Interior is empowered to dispose of the unused energy, after first offering it to the city of Los Angeles and other major purchasers who hold options on the unused power.

The revenues received from the sale of power to the Citizens Utility Company and the Needles Gas and Electric Company will go into the United States Treasury, but will be credited against the obligation of the Metropolitan Water District, thereby serving to reduce the charges made against the District.

The Metropolitan Water District announced it would be unable to take its allotment of power at the outset because it has been unable

this work has been finished on the San Francisco crossing from Yerba Buena Anchorage to Pier W-5 by the Pacific Bridge Company, contractors.

Shipments of signal material for the bridge railway's elaborate signal and interlocking system have been received and work on the installation of this system has been started by the General Railway Signal Company of Rochester, N. Y., Mr. Purcell said.

LET CONTRACTS FOR SACRAMENTO FAIR BUILDINGS

F. C. Amoroso & Sons Awarded Dairy Exhibits, Assembled General Work

SACRAMENTO, March 2.—Five contracts covering all portions of work on the assembly and dairy exhibits buildings at Agricultural Park, the State fair grounds here, were awarded today by State Director of Public Works Earl Lee Kelly.

The contracts in all instances went to the firms which submitted low bids yesterday.

F. C. Amoroso & Sons, Keith and Wallace avenue, San Francisco, won the general contract at the bid price of \$127,977.

Electrical work on the buildings was awarded to Roy M. Butcher, 1020 Sherwood avenue, San Jose. The contract price is \$10,528.

Let to M. R. Carpenter, 907 Front street, Sacramento, was the contract for plumbing work in the buildings, at his bid price of \$9530.

Carpenter, likewise, was awarded heating and ventilating, at \$6,209, the amount of his low bid.

Refrigeration work in the dairy exhibits building will be done by Oakland Refrigerator & Butchers' Supply Co., it was announced. Amount of the contract price is \$2,787.

to complete its Colorado River Aqueduct. This aqueduct extends 250 miles from Paker Dam, 155 miles below Boulder Dam, to thirteen cities on the coastal plain in the vicinity of Los Angeles. The District was allotted 36 per cent of the power from the plant at Boulder Dam for use in pumping water through its aqueduct. While Boulder Dam was completed more than two years ahead of schedule, the aqueduct construction program could not be advanced.

Two 82,500 kilowatt-ampere generators designed to serve the Metropolitan Water District are now being installed at the Boulder Dam plant and are expected to be ready for operation by June 1. The District, under its contract, is required to pay for such unused energy as is not disposed of otherwise at rates stipulated in the contract.

The Citizens Utility Company plans to build a transmission line to the power plant to handle its energy. The Government will install transformers and certain other equipment, which the company will pay for at four per cent interest in ten years. The company agrees also to pay its proportionate share of the cost of the turbines and generators installed to serve the Metropolitan Water District. These charges to be worked out between the company and the district and to come to the Secretary of the Interior for settlement only in cast of disagreement between the two.

ASK BIDS FOR STORAGE VAULT AT S. F. MINT

Treasury Department Advertises \$220,000 Contract; Bids Open April 1

WASHINGTON, D. C., Feb. 28.—A contract for construction of an additional storage vault at the U. S. Mint in San Francisco was advertised for bids today by the Treasury Department public buildings branch.

Proposals for the project, to cost an estimated \$220,000, will be opened by Treasury Department officials here April 1.

The new silver storage vault will be sunk into the driveway at the mint building at Duboce avenue and Market street.

The vault will be approximately 158 feet long, 66 feet wide, and will have a depth of about 24 feet.

Two Elevators

It will have two decks, and will be served by a pair of elevators. Construction of the vault will require excavation of space in the driveway.

To provide fresh air for the silver storage vault, a ventilating system will be installed.

Plans for the work were prepared under the direction of the Treasury Department supervising architect.

ORDERS GAIN, COAST LUMBER MILLS REPORT

A total of 149 down and operating mills in Washington and Oregon which reported to the West Coast Lumbermen's Association for the week ending February 19, produced 66,878,352 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 42.5 per cent of its average weekly cut during 1926-1929.

The new business reported taken last week by the 149 mills was 86,704,789 board feet. Shipments were 66,928,575 feet.

Details of orders and shipments as reported by the 149 mills are:

	Orders	Shipments
Rail	30,455,562	29,530,644
Domestic		
Cargo	41,667,341	27,197,242
Export	8,452,536	4,071,339
Local	6,129,350	6,129,350

86,704,789 66,928,575
The unfilled order file at these mills stood at \$16,328,806.

Shipments of aerial hook-and-ladder trucks during 1937 amounted to 67 units, as compared to 41 units shipped during 1936, the Bureau of Census announces in its annual report.

SPAN WIDENING BIDS SCHEDULED

SACRAMENTO, March 1.—The State Highway Commission today authorized advertisement for bids on a State Division of Highways contract calling for widening of three bridges in Napa county. Proposals will be opened in Sacramento March 23, it was announced.

The bridges to be widened are located between six and fifteen miles north of Napa; one across Dry Creek, one across Sale Slough Overflow, and one across Bale Slough.

Dams for Kennett, Friant Camp Water Supplies Complete

Two dams already have been completed on the Kennett and Friant Divisions of the Central Valley Project.

But, lest false inference be drawn Construction Engineer Walker R. Young hastened to add that they are not the two big project structures—Shasta Dam and Friant Dam—which are to be erected by the Government for purposes of water conservation, river regulation, salinity control and power generation in the Great Central Valley of California.

The completed dams are earth-fill structure built to create small reservoirs for the two Bureau of Reclamation construction camps near the main dam sites.

A half-mile above the Kennett Camp near Redding, on a branch of Churn Creek, 11,500 cubic yards of earth have been compacted into a dam 35 feet high and 180 feet long. The reservoir, serving both as a camp water storage and sedimentation basin, already is filled to its capacity of 4,000,000 gallons.

The dam at Friant—20 feet high, 225 feet long and containing 3,000 cubic yards of earth—creates a sedimentation basin with a capacity of 2,440,000 gallons. Water will be pumped into it from the nearby San Joaquin River.

R. G. FALK ELECTED HAUCK & CO. HEAD

W. C. Hauck & Co., 280 San Bruno avenue, San Francisco, announces the election of the following officers: R. G. Falk, president and treasurer; W. F. Postel, vice-president; and H. J. Eames, secretary. The interest in the corporation formerly held by the late Walter C. Hauck has been purchased by Mr. Falk, new president and treasurer of the firm.

All underground systems for the \$50,000,000 Peagant of the Pacific are expected to be completed in April, 1938.

BRAZIL PLANS PAVILION FOR '39 BAY FAIR

Japan Appropriates \$330,000 for Exposition Building, Says Consul

Brazil and Uruguay, two more South American republics, this week joined the parade of nations participating in the 1939 West's World's Fair.

These two new links in the chain of inter-American participation in the 1939 Golden Gate International Exposition were forged when official announcement, through diplomatic channels, came simultaneously from President Getulio Vargas of Brazil, and Dr. Gabriel Terra, President of Uruguay.

Brazil will erect its own pavilion on Treasure Island site of the Exposition in San Francisco Bay, and Uruguay will exhibit in the palace to be built for the express purpose of housing foreign exhibits, according to Major O. J. Keatinge, Director of Foreign Participation.

Fourteen countries have now announced participation in the Exposition through diplomatic channels, nine others have given verbal assurance of being represented, and a score more have taken steps toward eventual participation, bringing the total to near the forty mark.

The countries which have accepted through diplomatic channels are Brazil, Uruguay, Peru, Ecuador, Cuba, Japan, Santa Domingo, Guatemala, Netherlands East Indies, Nicaragua, Costa Rica British Columbia, Honduras and Mexico.

Through Consul General Kanzo Shiozaki of Japan, named commissioner in charge of Japan's exhibit by his government, came word that Japan has appropriated \$330,000 to be used in erecting its pavilion at the World's Fair and bringing its exhibit here. Private subscriptions in Japan will bring this figure to near the \$500,000 mark, Shiozaki said.

Bids for Spreckels School Project Soon

A \$75,000 grammar school at Spreckels, Monterey county, probably will go out for bids in about two weeks, it was announced this week.

Funds for the school will be provided by a bond issue approved by voters of the Spreckels School District.

The school will be a one-story frame structure, according to plans prepared by Architect Wm. Henry Rowe. It will contain seven classrooms and a large auditorium.
